At Large and At Small - Anne Fadiman
2008-05-27

In *At Large and At Small*, Anne Fadiman returns to one of her favorite genres, the familiar essay—a beloved and hallowed literary tradition recognized for both its intellectual breadth and its miniaturist focus on everyday experiences. With the combination of humor and erudition that has distinguished her as one of our finest essayists, Fadiman draws us into twelve of her personal obsessions: from her slightly sinister childhood enthusiasm for catching butterflies to her monumental crush on Charles Lamb, from her wistfulness for the days of letter-writing to the challenges and rewards of moving from the city to the country. Many of these essays were composed "under the influence" of the subject at hand. Fadiman ingests a shocking amount of ice cream and divulges her passion for Häagen-Dazs Chocolate Chocolate Chip and her brother's homemade Liquid Nitrogen Kahlúa Coffee (recipe included); she sustains a terrific caffeine buzz while recounting Balzac's coffee addiction; and she stays up till dawn to write about being a night owl, examining the rhythms of our circadian clocks and sharing such insomnia cures as her father's nocturnal word games and Lewis Carroll's mathematical puzzles. *At Large and At Small* is a brilliant and delightful collection of essays that harkens a revival of a long-cherished genre.

A Balanced Christian Life - Watchman Nee
1981-12-01

"Ephraim is a cake not turned" (Hosea 7.8). This is a figurative way of saying 'not balanced'. The cake is burned on the one side, uncooked on the other; on one side it is overdone, on the other,

totally undone. The cake is unfit to be eaten and is thus destined to be cast out. Our God is most balanced. He is love and He is light. Our Lord Jesus is full of grace and full of truth. The Holy Spirit is the Spirit of wisdom as well as of revelation. In creation, God "hath measured the waters in the hollow of his hand, and meted out heaven with a span, and comprehended the dust of the earth in a measure, and the hills in a balance" (Is. 40.12). Concerning redemption, it is said that "mercy and truth are met together, righteousness and peace have kissed each other. Truth springeth out of the earth; and righteousness hath looked down from heaven" (Ps. 85.10,11). The new creation, therefore, must be well balanced. In this present volume, Watchman Nee attempts to show from God's word the perfect equilibrium of divine truth. Human nature, however, is prone to emphasize one side to the exclusion of the other side of truth. This has caused much confusion and many problems among God's people. It is essential that we know the balance of truth and hold on to both sides so that our Christian life may be well rounded as God has ordained. The contents of the book opens with a treatment of the balance between the gate and the way; continues with a presentation of the balance between the objective and the subjective; includes a discussion on the work inward and the work outward in the Christian life, as well as on the rest given and the rest found as promised by Christ; contemplates the other side of prayer frequently neglected, namely, to watch; and concentrates on the other less emphasized aspect of the trespass-offering, that of restoration. The book then provides a

commentary on the contrast between the truly meek and the spiritually poor, and finally concludes with a consideration of the equilibrium that is so necessary between the believer's faith and the believer's walk. May all who read this volume be brought into a balanced Christian life.

Ancient Greek Beliefs - Perry L. Westmoreland 2007

Ancient Greek Beliefs explores the mysteries of the ancient myths and religious beliefs of a great people. The text is divided into three sections, Greek mythology, the ancient Greeks, and conclusions. A brief history and lengthy glossary are included. The book is designed as a basic text for the introduction to ancient Greek mythology and beliefs, and the text muses about the religious lessons we might learn from them. It contains abridged stories of Greek mythology, including the extant Greek plays, and considers portions of the works of the great writers, including Aeschylus, Euripides, Hesiod, Homer, Plato, and Sophocles. It opens a comprehensive window into the lives of these great ancient people.

Cultural Schizophrenia - Daryush Shayegan 1997-11-01

Professor Daryush Shayegan's book is a major contribution to what is perhaps the most critical debate within the Muslim world today: the

relationship between its own culture and the influence of Western modernity. Based on examples ranging from Iran to Morocco, the author portrays a society he defines as peripheral—bound by a slavish adherence to its own glorified history, its "Tradition"—yet facing an external reality that derives from the West. The meeting of these two incompatible worlds sees the West but, more importantly, in how it sees itself. Shayegan draws on a vast range of cultural experiences (from China and Japan to India and Latin America) in analyzing the type of mentality that is chained to its history. Sources as diverse as Jung and Octavio Paz widen the scope of this illuminating text. Already published in French, Turkish, Spanish, and Arabic to great critical acclaim, this English edition of *Cultural Schizophrenia* will be required reading for everyone concerned with the state of the world today, whether in the Third World or the West.

The annotated text of this modern classic. It assiduously illuminates the extravagant wordplay and the frequent literary allusions, parodies, and cross-references. Edited with a preface, introduction and notes by Alfred Appel, Jr.

Chess with the Doomsday Machine - Habib Ahmadzadeh 2008

"Chess with the Doomsday Machine (Shatranj ba Mashin-e Qiyamat) is a novel by Habib Ahmadzadeh (b. 1964) about the Iran-Iraq War (1980-88). It is set in Ahmadzadeh's native Abadan, a city located on an island near the Persian Gulf. Because of its importance to the Iranian petroleum industry, Abadan was the target of heavy bombardments during the early stages of the conflict. Using an advanced radar system developed in Europe, Iraqi forces were able to hone in on Iranian artillery emplacements almost as soon as they fired. It is the task of the narrator, a young Basiji (volunteer paramilitary) spotter, to locate the radar so it can be destroyed. The novel paints a striking tableau of a city under siege, not only inhabited - as one would expect - by a variety of soldiers, but also by two Armenian priests, a retired oil refinery engineer, and a prostitute and her young daughter." "Chess with the Doomsday Machine avoids the kind formulaic patriotism and hagiography found in much of "Holy Defense" (defa'-e moqaddas: an official Iranian term for the conflict) fiction in two ways. First, it indulges a type of black humor used in such war satires as Joseph Heller's *Catch 22* and, second - and more profoundly - it examines how wartime conditions throw the ephemeral nature of human existence into high relief. As the novel progresses, the narrator's journey evolves from a simple search-and-destroy mission into a quest for meaning among the surreal sights of the besieged city: an improvised "shark aquarium"; a ravaged farmer's market; rows of bombed-out homes; an ice cream freezer that doubles as a morgue; and an incomplete seven-story building that miraculously survives the Iraqi shelling to become the stage for the novel's chief theme."--BOOK JACKET.

Korean - Jaehoon Yeon 2019-06-25

Korean: A Comprehensive Grammar is a reference to Korean grammar, and presents a thorough overview of the language, concentrating on the real patterns of use in modern Korean. The book moves from the alphabet and pronunciation through morphology and word classes to a detailed analysis of sentence structures and semantic features such as aspect, tense, speech styles and negation.

Updated and revised, this new edition includes lively descriptions of Korean grammar, taking into account the latest research in Korean linguistics. More lower-frequency grammar patterns have been added, and extra examples have been included throughout the text. The unrivalled depth and range of this updated edition of *Korean: A Comprehensive Grammar* makes it an essential reference source on the Korean language.

Knowing and Making Wine - Emile Peynaud 1984-11-07

A veritable digest of enology, *Knowing and Making Wine* deals with all aspects--both practical and theoretical--of wine-science. Emile Peynaud, noted research enologist and teacher, brings us the knowledge from his long career and his considerable contributions to current practices in enology. This complete survey of wine-making techniques and wine appreciation examines the latest scientific developments and shows how the results of this research can be applied in everyday practice. It uses simple terms without complicated chemical formulas and includes practical exercises supported by related theories. Conceived as a handbook not only for the student but also for the practicing enologist confronted with day-to-day problems, *Knowing and Making Wine* gives each an opportunity to solve particular cases which arise, and guides the practitioner where there may be several possible solutions

Cisco CCNA in 60 Days - Paul William Browning 2014-03-01

The Cisco CCNA is one of the most widely recognised and respected qualifications in the IT industry. Every year, tens of thousands of people embark towards taking the exam via private study, Cisco Academy courses, or online training. The sad truth is most students quit along the way, and for those few who actually do attempt it, only 50% pass. All that time, effort, and money wasted! If there are so many manuals, CBT courses, lab simulators, exam engines, and study resources out there, then what goes wrong? This is the question Cisco trainer Paul Browning wanted to get to the bottom of. After interviewing thousands of students, he discovered that most people quit because they are simply overwhelmed with the sheer volume of material they need to digest and, of course, the large number of hands-on skills they need to be able to demonstrate in the exam. Add to that the day-to-day stresses of commuting to work, bringing up a family, and the distraction of everyday problems and

challenges; it's no wonder people quit. This is where Cisco CCNA in 60 Days can help. Devised by two industry experts and countless Cisco students just like you, the 60-day programme breaks down every exam requirement into a daily study task. All you need to do is open the book at the relevant day (from 1 to 60), read the theory, and complete the lab. Every lesson is reviewed several times in the form of exam questions, review sessions, a handy exam cram guide, and, of course, hands-on labs for you to follow. You can choose to take the CCENT after the first 30 days and the ICND2 after the next 30 days, or you can take the CCNA after 60 days of study. Here is what is included in your study guide: 60 daily study tasks Full explanations of theory Real-world tips and advice Over 47 hands-on labs, plus 15 bonus CCENT and ICND2 labs CCENT and ICND2 cram guides Bonus VLSM guide Motivational goal-setting guide Downloadable videos Free support via www.in60days.com Author Paul Browning is a former police officer who used his CCNA qualification to help him make a career change to IT. He worked for Cisco in the UK for a while, and then went on to start his own Cisco training company, which he ran for 8 years before moving into online Cisco training. He is the author of several Cisco study guides. He has also created the online Cisco certification training sites, including www.howtonetwork.net and www.in60days.com Technical author Farai Tafa used to work in a shoe shop but decided he wanted more out of life, so he began to study for his Cisco exams. He is now a dual CCIE and one of the leading Cisco consultants in the US. He currently designs, installs, and troubleshoots networks for large companies. Author Daniel Gheorghe is a CCIE in Routing and Switching. He is currently preparing for his second CCIE certification (in Security) and he is developing his skills in system penetration testing. He also holds numerous certifications in networking and security, from Cisco and other vendors, including CCNA, CCDA, CCNA Security, CCNP, CCDP, CCIP, FCNSA, FCNSP, and CEH. He took an interest in IT at an early age and soon developed a passion for computer networking, which made him study hard in order to reach an expert level. Technical author Dario Barinic is a network expert (dual CCIE #25071 - Routing

and Switching, and Service Provider) with a Master of Engineering degree and eight years of experience in the networking field. He also holds other certifications, such as Cisco CCNA and CCNP, HP AIS, ASE, MASE, and various Cisco specialisations. Dario is specialised in the area of routing and switching (designing, implementing, troubleshooting, and operating service provider and large enterprise WAN and LAN networks).

Science For Ninth Class Part 2 Chemistry - LAKHMIR SINGH

A series of six books for Classes IX and X according to the CBSE syllabus

Next Extinct Mammal - Rubén Quesada 2011 Poetry. Latino/Latina Studies. LGBT Studies.

"Like Whitman, Quesada is a poet of motion—journeying to the center of the US, where the traditions and innovations of first-generation Americans traverse the meditative starbursts of hills; ford rivers; cross prairies; and seek out 'the alpenglow of tomorrow and tomorrow.' From Costa Rica to Los Angeles and across the continent, Quesada's poems chronicle one family's history: from the courtship of his parents to their separation, from his childhood struggles to awakening desire from his mother's lottery winnings to his own personal losses, Ruben Quesada carries us toward 'that seam in space' where dream and experience intersect. This isn't the story of what it means to come to this country. It's the story of what it means to belong here"—D. A. Powell.

Wicked Ties - A.D. Justice 2019-12-08
Colton "Bull" Lanier lived by a strict code—duty, honor, and trust no one outside his small circle of friends. The she entered his life. His new client was in trouble and kept secrets, but he couldn't ignore her plea for help. When their attraction flared hot enough to scorch them, he gave her something very rare—his trust. But their worlds collided, and he was left questioning everything he'd ever believed. Then she disappeared, and he was left to face one cold, hard fact: the truth changes everything. *Sexuality and Eroticism Among Males in Moslem Societies* - Arno Schmitt 1992

Here is the first major work published about sexuality and eroticism between males in Islamic society. Through narratives, analytic essays, descriptions, and academic treatises, *Sexuality and Eroticism Among Males in Moslem Societies* provides a revealing and most fascinating look into what is--for most Westerners--still a very hidden, very foreign culture. Until now there has existed a lack of solid information about sexuality in Islamic society, but this volume portrays very clearly the relationship between

same-sex eroticism and the ideal of the man as penetrator. As a result, *Sexuality and Eroticism Among Males in Moslem Societies* illuminates not only homosexuality but the whole sexual culture and role of gender in the Muslim world. The chapters focus on homosexuality among men in Morocco, Syria, Iran, Turkey, and Israel. Despite its occurrence in this region of the world, sex between males is not considered to be "homosexuality" by most men--a concept that is reiterated in chapter after chapter. In addition to major differences in the attitudes toward homosexual acts in Muslim countries and the West, this enlightening book also shows great differences among the Muslim countries themselves, depending upon the degree to which Islamic law is enforced, the impact of different western colonial influences and legal systems, and the sheer impact of cultural variation within so vast a geographic area. There are some keen observations and insights into the socialization of boys in Islamic culture, the status and inaccessibility of women, and sex roles and attitudes toward them. *Sexuality and Eroticism Among Males in Moslem Societies* captures a sense of the Muslim countries in the process of rapid change--from the anti-modernist and religious fundamentalism of Iran to the attempts in the cities of Turkey to develop a western style gay way of life, with all the difficulties that involves. An engaging book for readers interested in gay studies, anthropologists, orientalist, historians, students of comparative law, and sexologists, it should also be read by anyone in contact with Arabs, Turks, or Persians--as tourists in Muslim countries, social service professionals working with immigrants, or friends of Muslims. Honeyball & Bowers' Textbook on Employment Law - Simon Honeyball 2016
Honeyball and Bowers' Textbook on Employment Law is an approach to employment law with strong critical analysis whilst placing it in its wider contexts, in a concise and user-friendly format. Fully updated to take into account the recent significant developments in this area, including the Equality Act 2010, the key topics on most employment law courses are addressed in detail. An extremely clear writing style allows this text to remain accessible and student-

focussed, while providing detailed explanations and analysis of the law. The text also includes diagrams and chapter summaries throughout to aid student understanding, while further reading suggestions assist with essay preparation and research. Setting employment law in context, this book considers both industrial and collective issues as well as examining the increasing role of the EU in UK employment law. A separate chapter on human rights also enables students to understand the role human rights legislation plays in the development of employment law. This book also contains cross referencing to Painter & Holmes' Cases & Materials on Employment Law, ensuring that these two texts continue to complement one another and provide the perfect combination of textbook analysis and the most up-to-date cases and materials. This text is accompanied by a free Online Resource Centre (www.oxfordtextbooks.co.uk/orc/honeyball12e/) which contains updates to the law and useful weblinks.

Erotic Persian - Paul Sprachman 2019

"This book is a general survey of language and images that arouse sexual desire. The book begins by examining the works of the great Persian poets and prose authors who avoid direct mention of bodily functions and use imagery borrowed from nature and food when describing the charms of lovers and human sexual activity. The examination shows how erotic imagery, at one time innovative, hardened into clichés over centuries of repeated use. The book's focus on the semantics of allusive Persian also leads to a general notion of what makes one poem or piece of prose sexually stimulating and another inspirational. Here "Erotic Persian" joins an ongoing controversy: namely, to what extent are some of the works of great Sufi authors like Rumi, Sa`di, Hafez, etc. erotic? Dealing with both the pleasures of the flesh and the spirit? The book asks: Can certain works be at once carnal and spiritual? The prevailing view frowns

on such interpretations, insisting great authors never wrote solely to arouse readers' desires. If erotic material found its way into the canon, many assert, it was there merely to divert the reader's or listener's attention away from the everyday and direct it toward spiritual truths"--

It Ain't Pretty, But God Made It Beautiful -

Valerie Gabrielle Moore 2017-04-26

Valerie Gabrielle Moore was a woman who seemed to have it all together--a beginning teacher who was coming into her own, a woman with loving parents and family members, and an owner of a new condo. Everything was finally coming together when one traumatic moment changed her life--she was raped. This woman's ten-year battle of going from being a victim of rape and the journey of her learning to become a victor of it becomes a roller-coaster ride of self-discovery. As she struggles to understand her worth and value in the world, she finds out her God-given purpose in life.

Ecology - Charles J. Krebs 2001

This best-selling majors ecology book continues to present ecology as a series of problems for readers to critically analyze. No other text presents analytical, quantitative, and statistical ecological information in an equally accessible style. Reflecting the way ecologists actually practice, the book emphasizes the role of experiments in testing ecological ideas and discusses many contemporary and controversial problems related to distribution and abundance. Throughout the book, Krebs thoroughly explains the application of mathematical concepts in ecology while reinforcing these concepts with research references, examples, and interesting end-of-chapter review questions. Thoroughly updated with new examples and references, the book now features a new full-color design and is accompanied by an art CD-ROM for instructors. The field package also includes The Ecology Action Guide, a guide that encourages readers to be environmentally responsible citizens, and a subscription to The Ecology Place (www.ecologyplace.com), a web site and CD-ROM that enables users to become virtual field ecologists by performing experiments such as estimating the number of mice on an imaginary

island or restoring prairie land in Iowa. For college instructors and students.
