Middlebrow Modernism - Christopher Chowrimootoo 2018-11-06

"At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. This provocative study is situated at the intersection of the history, historiography, and aesthetics of twentieth-century music. It uses Benjamin Britten's operas to illustrate the ways in which composers, critics, and audiences mediated the 'great divide' between modernism and mass culture. Reviving midcentury discussions of the 'middlebrow,' Christopher Chowrimootoo demonstrates how these works allowed audiences to have their modernist cake and eat it too: to revel in the pleasures of consonance, lyricism, and theatrical spectacle even while enjoying the prestige that came from rejecting them. By focusing on key moments when reigning aesthetic oppositions and hierarchies threatened to collapse, *Middlebrow Modernism* offers a powerful model for recovering shades of gray in the previously black-and-white historiographies of twentieth-century music"--Provided by publishe

The King's Nurseries - John Field 1987

Westminster is unique among major public schools in that it remains in the heart of London, on the site of its medieval beginnings. As a result its history is continuously intertwined with the momentous state events and political turmoils of the capital. It has enjoyed royal patronage and a fair share of political influence. But its position close to the seat of power has also sometimes been dangerous. Its principal buildings were destroyed by enemy action in 1941. This book is about the life of this institution: its Head Masters, its staff and its pupils. The latter were by no means always a credit to the school: they committed murder; they were disruptive at Queen Victoria's coronation; they vilified one unpopular Head Master; and for a period they pretty well ran the school. They also emerge as the true heroes of the story. Old Westminsters dominated Parliament for most of the 18th century; the output of leading politicians, statesmen and soldiers has continued to this day. The school's contribution to literature, philosophy and the arts, has been immense. In addition to its famous successes Westminster has produced some outstanding failures, some notable revolutionaries and traitors, and some disarming eccentrics. The author is librarian and archivist at Westminster School, and has taught English there since 1964, as well as directing plays, operas and musicals. He has unearthed previously undiscovered documents and anecdotes, to add to the accounts of previous histories, as well as bringing it up-to-date to cover the last four decades of change. -- Product Description.

Rochester to Richmond - Nick Ardley 2017-07-06

Many people say that Nick Ardley is a bit of an eccentric, or an anachronism from a simpler age, for the way he sails his clinker sloop around the Thames estuary, wending among the tide-riddled marshes to drop anchor where the fancy takes him, his trusty mate at his side. In this volume, he has a clear unabashed plan: a reflective journey between the Pools of Rochester and London, a path once of commerce, but now pleasure. Rochester was once of immense importance to Britain's past trading richness, but, even if the belching chimneys pouring acrid fumes and cement dust have evaporated, and oil refineries have slipped away; the wharves lining the banks remain alive. As a distraction, he wanders a

little above Rochester and then again, a little above the Pool of London towards Richmond. Between, he lands amongst the marsh and mud, finding graves, the ribs of old sailors and farmsteads enveloped in purslane and lavender. Many towns sailed past were part of this heritage, supplying building materials, food and fodder carried by the tan sailed barge to London. Nick Ardley dips and dabbles into these communities and explores how they have metamorphosed.

Buyology - Martin Lindstrom 2010-02-02

NEW YORK TIMES BESTSELLER • "A fascinating look at how consumers perceive logos, ads, commercials, brands, and products."—Time How much do we know about why we buy? What truly influences our decisions in today's message-cluttered world? In Buyology, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can "cool" brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? Buyology is a fascinating and shocking journey into the mind of today's consumer that will captivate anyone who's been seduced—or turned off—by marketers' relentless attempts to win our loyalty, our money, and our minds.
