Twelve Years a Slave - Solomon Northup 2021-01-01

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time

been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Answers from The Working Actor - Jackie Apodaca 2018-03-09

For nearly a decade, Jackie Apodaca and Michael Kostroff shared duties as advice columnists for the actors' trade paper, Backstage. Their highly popular weekly feature, "The Working Actor," fielded questions from actors all over the country. A cross between "Dear Abby" and The Hollywood Reporter, their column was a fact-based, humorous, compassionate take on the questions actors most wanted answered. Using some of their most interesting, entertaining, and informative columns as launch points, Answers from "The Working Actor" guides readers through the ins and outs (and ups and downs) of the acting industry. Apodaca and Kostroff share an approach that is decidedly "on the ground." They've both labored in the trenches just like their readers—dealing with auditions, classes, photos, résumés, rehearsals, contract negotiations, representatives, jobs, challenging colleagues, and the search for that elusive life/career balance. There are few absolutes in the acting profession and virtually no proven and reliable steps. Unlike books that claim to offer "Quick Steps to a Successful Acting Career," Answers from "The Working Actor" deals honestly with the realities, providing facts,

options, strategies, stories, points of view, and the wisdom of experience, while ultimately challenging readers to make their own decisions. This book will give new actors a head start on their journeys and remind experienced professionals that, in the acting business, there is never only one answer to any question.

Crushing Debt - Shawn M Yesner Esq
2018-09-18

Do you have credit card companies chasing you for payment? Has a collection company called you or sued you to collect a debt? Are your wages being garnished? Do you get calls at all hours of the day and night from debt collectors? Do you have mounting hospital bills? Or credit card bills? Do you wonder how you're going to make your mortgage payment? Do you have to choose between paying the credit card bill and buying groceries? Are you in foreclosure or is a foreclosure imminent? Is your student loan payment equal to or more than your car payment or your house payment? Does the IRS keep your tax refund? At the end of the month do you have money left over, or at the end of the money do you have month left over? If the answer to any of these questions is "YES" then this book is for you. In November 2015, Shawn started the Crushing Debt Podcast. Shawn has taken the concepts discussed on the Crushing Debt Podcast, the legal issues that he writes about in

his blog, and the education that he provides through continuing education seminars for attorneys, Realtors(R) and others, and condensed all of that content into this book. If you feel bullied, know that everything is going to be okay, because there are always options!

Shark in the Housing Pool - Matthew B Cox
2020-02-24

USING FORGERIES and bogus identities, Matthew B. Cox-one of the most ingenious con men in history-bilked America's biggest banks out of millions. Despite numerous encounters with bank security, state and federal authorities, Cox narrowly, and quite luckily, avoided capture for years. Eventually, he topped the U.S. Secret Service's most wanted list, and led the U.S. Marshals, FBI, and the Secret Service on a three year chase, while jet-setting around the world with his attractive female accomplices. Cox has been declared "one of the most prolific mortgage fraud con artists of all time," by CNBC's American Greed. Bloomberg Businessweek called him "the mortgage industry's worst nightmare," while Dateline NBC described Cox as "a gifted forger and silver tongued liar." Playboy magazine proclaimed, "His scam was real estate fraud, and he was the best." Shark in the Housing Pool is Cox's exhilarating, first-person account, of his stranger-than-fiction story.

Song of Extinction - E. M. Lewis 2010

Max Forrestal is going to fail biology if he doesn't complete a 20-page paper on extinction by 2pm on Tuesday, but his mother, Lily, is dying of cancer, and school is the last thing on his mind. His father, Ellery, a biologist obsessed with saving a rare Bolivian insect, is incapable of dealing with his wife's impending death, or his son's distress. Max's biology teacher, Khim Phan, tries to figure out why Max is failing the

class. Helping Max, however, pushes Khim into a magical journey of his own, from the Cambodian fields of his youth into the undiscovered country beyond.

Life & Debt - Leslie Tayne 2014-01-15

Life & Debt is not your typical "get debt free" book. It's about learning to love and embrace your debt because in today's world, it is practically impossible to be debt free. Life & Debt is not about teaching life without debt, or to be free of debt, but learning to live with debt and embracing it to the extent that you manage it and take on debt that makes sense for your life. The key lesson from the book is learning to love your debt is one of the first steps of being able to properly manage it. For anyone who wants to live their life with debt happily - college students, grads, parents, grandparents, and those on fixed incomes, business owners and heads of households - the concepts can be fit into any lifestyle on different levels from basic income to complicated budgets. Also suitable for people going through life transitions (marriage, divorce, widow, retirement), as well as most of the middle class who are struggling to keep up with the Joneses.

Studies of Rare-metal Deposits in the Northwest Territories - Geological Survey of Canada 1994

This volume contains four papers that report on a wide range of geoscientific activities related to various rare-metal deposits in the Northwest Territories. Two papers represent the results of work carried out on the Blatchford Lake intrusive suite and the associated Thor Lake rare-metal deposits of niobium, tantalum, beryllium, yttrium, rare-earth elements, and gallium. A detailed gravity survey and computer modelling provides an understanding of the three dimensional geometry of the 23 km wide Blatchford Lake. Another paper summarizes some of the extensive pegmatite research done by the University of Manitoba in the Northwest Territories during the 1980s, providing information on the geological setting, geochemistry, and economic potential of four previously undocumented or poorly known rare-element pegmatite occurrences at Ayler Lake, Torp Lake, Chantry Inlet, and the Foxe fields in the Rae Province. Another paper presents a thorough documentation of the geological

settings, characteristics, and metallogeny of selected mineral occurrences in the southern part of the Proterozoic Great Bear magnetic zone.

Estimating Market Value and Establishing Market Rent at Small Airports - Aviation Management Consulting Group, Inc 2020
"Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP Research Report 213 provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and this report reviews best practices in property development."--Foreword.

First to a Million: A Teenager's Guide to Achieving Early Financial Freedom - Dan Sheeks

2021-11-23

Change the way you look at money before you turn twenty... and become a FI Freak! Most teenagers are only told about one financial path: Work until you're old and then retire. But what if you want to spend your adult life traveling, creating, or bettering the world instead of working all day, every day? Financial independence (FI) is the only way to win the resource you can't rewind: TIME. Time for yourself, time for your family and friends, and time for your dreams. Build the freedom to define your own future by building a strong financial base--which means saving more, spending less, and starting to invest as soon as possible. First to a Million explores the many advantages of FI while explaining the secrets of investing, living frugally, and maintaining an entrepreneurship mindset. Treating your finances differently than the average teenager will put you miles ahead of your peers, and with time (and compound interest) on your side, you can win the game before it even starts! Be different with money. Be bold about your future. Be a FI Freak! Inside the Book, You'll Learn: Why the typical "American Dream" pathway is not for everyone How a FI Freak can take control of their financial future The four mechanisms of early FI (Spoiler: they're ridiculously simple!) How to make more money as a teen with creative jobs and side hustles How to be frugal and live richly with a life full of happiness and flexibility The difference between income and wealth, real and false assets, and good and bad debt Personal finance basics--like tracking income and expenses, building a credit score from the ground up, and calculating your net worth Investing basics--like earning passive income, understanding the power of compound interest, and how index funds and real estate can build your wealth

Mindful Money - Jonathan K. DeYoe 2017-01-06
Is it possible to be a conscientious citizen of the world and grow wealth? The author, a Buddhist and a financial planner, says yes and explains exactly how. Money drives many of our decisions. We all worry about earning it, spending it, and saving it — regardless of our

income level or spiritual perspective. Yet few of us understand money's true nature. Jonathan K. DeYoe helps you create a unique financial plan that is guided by your deepest beliefs, and shows you how to save, invest, pay off debt, and fund your retirement and dreams by building a lifetime income stream. With a foreword by Pulitzer Prize-winner Alice Walker, *Mindful Money* does all this while emphasizing that money is a tool you can use to support your lifestyle, reach your goals, and earn the "happiness dividend" everyone deserves.

The Gun Show - E. M. Lewis 2019

In *The Gun Show*, award-winning playwright E. M. Lewis tells the story of America's relationship with guns through the prism of her own personal experiences. From a farming community in rural Oregon to the big cities of Los Angeles and New York, an actor shares Ms. Lewis's unique perspective and true stories about America's most dangerous pastime as if they were his or her own, with brutal honesty and poignant humor. Leaning neither right nor left, *The Gun Show* jumps into the middle of the gun control debate and asks, "Can we have a conversation about this?" The solo version of the play requires only a single actor. The role was conceived for a man to play, but you may cast a woman or non-binary actor in this role if desired. In the duo version of the play, the actual playwright - E. M. Lewis - sits out in the audience, and the actor playing the Playwright occasionally interacts with her, as indicated in the script. (The duo version of the play is only available for licensing by special request, depending upon the availability of Ms. Lewis to participate.)

Minefill 2020-2021 - Ferri Hassani 2021-06-02

The series of International Symposia on Mining with Backfill explores both the theoretical and practical aspects of the

application of mine fill, with many case studies from both underground and open-pit mines. Minefill attendees and the Proceedings book audience include mining practitioners, engineering students, operating and regulatory professionals, consultants, academics, researchers, and interested individuals and groups. The papers presented at Minefill symposia regularly offer the novelties and most modern technical solutions in technology, equipment, and research. In that way, the papers submitted for the Minefill Symposia represent the highest quality and level in the conference domain. For the 2020-2021 edition organizers hope that the papers presented in this publication will also be received with interest by readers around the world, providing inspiration and valuable examples for industry and R&D research.
