Some additives are severely restricted by legislation, others interfere with each other-in short their effectiveness varies with circumstances. *Plastics Additives* explains these issues in an alphabetical format making them easily accessible to readers, enabling them to find specific information on a specific topic. An international group of experts in additive and polymer science, from many world class companies and institutes, explain the recent rapid changes in additive technology. They cover novel additives (scorch inhibitors, compatibilizers, surface-modified particulates etc.), the established varieties (antioxidants, biocides, antistatic agents, nucleating agents, fillers, fibres, impact modifiers, plasticizers) and many others, the articles also consider environmental concerns, interactions between additives and legislative change. Next Extinct Mammal - Rubén Quesada 2011

Poetry. Latino/Latina Studies. LGBT Studies. "Like Whitman, Quesada is a poet of motion—journeying to the center of the US, where the traditions and innovations of first-generation Americans traverse the meditative starbursts of hills; ford rivers; cross prairies; and seek out 'the alpenglow of tomorrow

and tomorrow.' From Costa Rica to Los Angeles and across the continent, Quesada's poems chronicle one family's history: from the courtship of his parents to their separation, from his childhood struggles to awakening desire from his mother's lottery winnings to his own personal losses, Ruben Quesada carries us toward 'that seam in space' where dream and experience intersect. This isn't the story of what it means to come to this country. It's the story of what it means to belong here"—D. A. Powell.

Joy - Christian Wiman
2017-11-07

One hundred of the most evocative modern poems on joy, selected by an award-winning contemporary poet "Bursting with energy and surprising locutions. . . . Even the most familiar poets seem somehow new within the context of Joy."--David Skeel, Wall Street Journal "Wiman takes readers through the ostensible ordinariness of life and reveals the extraordinary."--Adrianna Smith, The Atlantic Christian Wiman, a poet known for his meditations on mortality, has long been fascinated by joy and by its relative absence in modern literature. Why is joy so resistant to language? How has it become so suspect in our times? Manipulated by advertisers, religious leaders, and politicians, joy can seem disquieting, even offensive.

How does one speak of joy amid such ubiquitous injustice and suffering in the world? In this revelatory anthology, Wiman takes readers on a profound and surprising journey through some of the most underexplored terrain in contemporary life. Rather than define joy for readers, he wants them to experience it. Ranging from Emily Dickinson to Mahmoud Darwish and from Sylvia Plath to Wendell Berry, he brings together diverse and provocative works as a kind of counter to the old, modernist maxim "light writes white"--no agony, no art. His rich selections awaken us to the essential role joy plays in human life.
