**The Qur'an, Translation and the Media** - Ahmed S. Elimam  
2021-08-20

This book aims to identify how the Qur'an is narrated in and by the press media through the use of translation, featuring examples from a corpus of newspaper articles from the UK and Europe across two decades. Drawing on work at the intersection of narrative theory and translation studies, the volume highlights the ways in which press media play an integral role in the construction, promotion, and circulation of narratives about events and communities, shedding light specifically on translations of Qur'anic verses across British, Italian, and Spanish newspapers between 2001 and 2019. Elimam and Fletcher examine how such translations have been used to create and disseminate narratives about the Qur'an and in turn, Islam and Muslims, unpacking the kinds of narratives evoked - personal, public, conceptual, and meta-narratives - and narrative strategies employed - selective appropriation, temporality, causal emplotment, and relationality - toward framing readers' understanding of the Qur'an. The book will be of particular interest to scholars working at the intersection of translation studies and such areas as media studies, religion, politics, and sociology.

**The Miracles of the Qur'ān** - Muḥammad Mutawallī Sha'rāwī 1989

**God or No God** - Haya Muhammad Eid 2018-01-10

It was narrated that a Bedouin was traveling on his camel when his camel suddenly dropped dead. He descended from the camel's back and started circling it while meditatively saying: Why don't you get up? Why don't you come back to life? Here are your limbs! They are perfectly complete and your body is sound! What is the matter with you? What used to keep you going? What worked in you to make you alive? What caused you to die? What stopped you now from moving? Then he left his camel in amazement, wondering what had happened to it. There are traces of past and present creations everywhere — are they meaningless

or living signs of a Creator God?

**Christ, Muhammad and I** - Muḥammad Ghāzūlī 2007-04

Mohammad Al Ghazoli was raised a Muslim. But the more he read the ancient literature of Islam, the more convinced he became that Allah could not be the True God. And the more he studied the life of Muhammad, the more obvious it became that Muhammad was not God's prophet. Then one day, someone placed a Bible in his hands and said, "Read." Soon Ghazoli had found the True God, and forgiveness through His Son. This book isn't just Ghazoli's testimony. It is much more than that. It contains the facts from the literature of Islam that shows why Allah can't possibly be the True God. It gives proof from Islam itself that whenever Muhammad wanted more wives, or riches, or when he had a problem, Gabriel was always standing by, ready to give another verse to exempt Muhammad from the law and morality. How convenient! Many of the stories in the book will be unfamiliar to the Western reader, but very familiar to Muslims. It is this inside view of things that makes the book so powerful as a witnessing tool for Muslims. Over and over again, Ghazoli asks, Is this the behavior of a prophet who was sent by God? What kind of god would send a prophet like that? The arguments contained in this book will give you powerful evidence you can show to Muslims you may try to witness to. Because it is written by a respected Arab writer, who was an advisor to the Arab league and even to Libyan ruler Qhadaffi, you can give the book to a Muslim and tell him, "Read." Learn about: The 220 contradictions in the Quran. Verses which reverse and replace prior verses. Did Allah make a mistake? The verses used to justify terrorism. Even the Quran admits Jesus was crucified! Then it denies it. Muhammad's 23 marriages, including one to a little girl.

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE Chicago Tribune • The Daily Beast • The Independent • The Guardian • The Daily Telegraph • Toronto Sun • The Irish Times Look for special features inside. Join the Circle for author chats and more. BONUS: This edition contains an excerpt from Hisham Matar's *In the Country of Men. Scriptural Polemics* - Mun'im A. Sirry 2014

A number of passages in the Qur'an criticize Jews and Christians, from claims of exclusive salvation and charges of Jewish and Christian falsification of revelation to cautions against the taking of Jews and Christians as patrons, allies, or intimates. Mun'im Sirry offers a novel exploration of these polemical passages, which have long been regarded as obstacles to peaceable interreligious relations, through the lens of twentieth-century tafsir (exegesis). He considers such essential questions as: How have modern contexts shaped Muslim reformers' understanding of the Qur'an, and how have the reformers' interpretations recontextualized these passages? Can the Qur'an's polemical texts be interpreted fruitfully for interactions among religious communities in the modern world? Sirry also reflects on the various definitions of apologetic or polemic as relevant sacred texts and analyzes reformist tafsirs with careful attention to argument, literary context, and rhetoric in order to

illuminate the methods, positions, and horizons of the exegeses. Scriptural Polemics provides both a critical engagement with the tafsirs and a lucid and original examination of Qur'anic language, logic, and dilemmas, showing how the dynamic and varied reformist interpretations of these passages open the way for a less polemical approach to other religions.

**Veiling Esther, Unveiling Her Story** - Adam J. Silverstein 2018-10-25  
Veiling Esther, Unveiling Her Story: The Reception of a Biblical Book in Islamic Lands examines the ways in which the Biblical Book of Esther was read, understood, and used in Muslim lands, from ancient to modern times. It focuses on case studies covering works from various periods and regions of the Muslim world, including the Qur'an, pre-modern historical chronicles and literary works, the writings of a nineteenth-century Shia feminist, a twentieth-century Iranian encyclopaedia, and others. These case studies demonstrate that Muslim sources contain valuable materials on Esther, which shed light both on the Esther story itself and on the Muslim peoples and cultures that received it. Adam J. Silverstein argues that Muslim sources preserve important pre-Islamic materials on Esther that have not survived elsewhere, some of which offer answers to ancient questions about Esther, such as the meaning of Haman's epithet in the Greek versions of the story, the reason why Mordecai refused to prostrate before Haman, and the literary context of the 'plot of the eunuchs' to kill the Persian king. Throughout the book, Silverstein shows how each author's cultural and religious background influenced his or her understanding and retelling of the Esther story. In particular, he highlights that Persian Muslims (and Jews) were often forced to reconcile or choose between the conflicting historical narratives provided by their religious and cultural heritages respectively.

**Striving for Divine Union** - Qamar-ul Huda 2005-08-08

This book examines the theological, philosophical and Islamic mystical dimensions of the Suhrawardî sufi order from the 13th to 15th centuries. The Suhrawardîs were a legally grounded and intellectually vibrant sufi order whose mystical path was based on exchanges and debates on the Qur'an and on the Prophet's customs. The book analyses their interpretation of sacred texts: the Qur'an, hadiths, sunna, and malfuzat. This created a unique self-understanding, which developed specific sufi spiritual exercises. The book discusses new important ways of thinking about the sufi hermeneutics of the Qur'an and its contribution to Islamic intellectual and spiritual life.

The Geological Concept of Mountains in the Quran - Zaghlul El-Naggar

This book highlights the facts that were not known before the turn of the 20th century, and have just started to be understood within the framework of the recently introduced theory of landforms and plate tectonics. These point only to a single aspect of the miraculous nature of the Qur'an, namely its scientific notions. Among an endless list of evidences that go far beyond the scope of this publication, such explicit, precise and comprehensive scientific statements provide an eloquent testimony to the belief that the Qur'an is the Word of the Creator. Hence, it is the basic source of Divine guidance to man, at a time when all previous revelations have either been lost or distorted.

**Real Anatomy of the Glorious Qur'an** - Abdullahi [Kumo] 2018-05-16

"REAL ANATOMY OF THE GLORIOUS QUR'AN" This exceptionally written compendium about the Glorious Qur'an is authored by Barr. Abdullahi Abdulkadir [Kumo]. A healthy and highly knowledgeable young man, a Nigerian of Gombe state origin. Barr. Abdullahi has produced this book at a time when many other books and ideas about the Qur'an and its revelation are being written and disseminated with a sole view of attacking it in order to discredit the book of Allah the Most Gracious (the Quran). The book is a detailed discussion of the balanced views of pious Scholars and at the same time a just refutation of the false propaganda of the Orientalists and other non-Muslim writers who have maliciously ascribed certain concocted ideas to the Glorious and incomparable Qur'an. The author highlights those concocted views and refutes them and explains the right views about the Glorious Qur'an and the right understanding of its revelation and the wisdom behind its chapterisation and arrangement. Moreover, the author uses the views of Scholars both Muslims and non-Muslims, classical and contemporary in order to substantiate his points and advances cogent argument to support his views. He also refers to the writings of those who hold opposing views and exposes their incoherency or passive acceptance of the views of malignant critics of Islam. The book presents a thorough extensive study of the Real Anatomy of the Glorious Qur'an for Muslims in general and for those who want to know the actual truth about the Qur'an, in particular. The content of the book shows that Allah (SWT) bestowed His favours upon the author which makes him really understand the light and guidance that the Glorious Qur'an contains. More so, the book is also concerned with Qur'anic Sciences and with any of the instrumental Sciences that Muslim and even non-Muslim can learn. Thus, it is a landmark of guidance, and the light and safeguard of the incomparable Qur'an. May Allah the Most Gracious, the Most Merciful, in His infinite mercy reward Malam Abdullahi Abdulkadir, the author of this excellent work for this effort to bring to light the actual truth about the Qur'an, and for his refutation of the false accusations and unconstructive criticisms. May He reward him for his sincere efforts not only for enlightening the Muslims but for drawing their attention to the obstacles

that would hinder the way of understanding the Qur'an. The Department of Islamic Studies and Shari'ah congratulates you for this excellent work and recommends it for the students of Islamic Studies in the Tertiary institutions and the Universities in Nigeria and other Muslim countries. Bringing diverse approaches to the Qur'an together in one volume The Routledge Companion to the Qur'an represents the vibrancy of the field of Qur'anic Studies today. **Anatomy of the Qur'an** - G. J. O. Moshay 2007

The Muslim Students Association at the University of California says on their website: "Prophet Muhammad (saas) was the final Messenger of Allah to humanity, and therefore the Qur'an is the last Message which Allah has sent to us. Its predecessors such as the Torah, Psalms, and Gospels have all been superseded. It is an obligation — and blessing — for all who hear of the Qur'an and Islam to investigate it and evaluate it for themselves. Allah has guaranteed that He will protect the Qur'an from human tampering, and today's readers can find exact copies of it all

over the world. The Qur'an of today is the same as the Qur'an revealed to Muhammad (saas)." (Emphasis mine). Are Muslims ready for such an investigation and evaluation of the Qur'an? It is a challenge we must take up. Author G.J.O. Moshay approaches this investigation with level-headed gentleness, but nonetheless holds nothing back. He shows that the Qur'an does not stand up under such scrutiny. His logic is both quiet and irresistible. He quotes what the Qur'an says about itself, and then asks questions that simply cannot be answered. He goes on to list many of the surprising contradictions found in the Qur'an. He shows how the Qur'an claims that Allah can say one thing today, and then change it tomorrow. Is Allah error free? Of interest are the statements in the Qur'an which clearly connect people who even secular history reveal lived over 1,000 years apart. Make no doubt: Moshay is writing from a Christian perspective. What makes him unique is his in-depth knowledge of the Qur'an and its problems.

#### **Who Is This Allah?** - G.J.O. Moshay 2008

Is Allah the God of the Bible? In any of the one hundred and fifty sects and sub-sects of Islam, the common denominator is Allah. Who is this Allah? Much has been written on the religion of Islam and its prophet; but not much is said about the god of the religion. One reason is the assumption that the god of Islam and the God of Christianity are one and the same. When, on September 11, 2001, some Muslims carried out a well-organized attack, destroying the The World Trade Center and damaging the Pentagon, a letter of last instruction from the leaders of the terrorist network was discovered. Written in Arabic, it says their mission was a service to God. Actually this was a mistranslation. The word the terrorists used is not the Arabic word for God but Allah. The Arabic word for God is Ilah. So they believed they were working for Allah, not God. Who is this Allah? Were these terrorists extremists, or were they serving the Allah of the Qur'an? The war against terrorism goes beyond overthrowing the Taliban regime in Afghanistan or even killing Osama bin Laden. The war on terror may not be won unless we understand the Allah the terrorists say inspires them. Not all Muslims are terrorists. But the terrorists' letter, which is quoted fully in chapter

three, gives great insight into the Islamic religion and the motivation for religious terrorism in the world. Why have we shied away from probing the identity of the Allah of Islam? Possibly it is because if Allah is not the God of the Bible, it would force us to face many ugly facts. For example, if Allah is the true God, and the Qur'an, Islam's sacred book, is true, then Christians can be sure they are lost, no matter how zealous they may be. The reverse would also be true. It is necessary, therefore, to provide sufficient information to enable you to determine your own verdict, and answer the question: Who is this Allah? This book will do that.

#### **Women in the Qur'an, Traditions, and Interpretation** - Barbara Freyer Stowasser 1996-08-22

Islamic ideas about women and their role in society spark considerable debate both in the Western world and in the Islamic world itself. Despite the popular attention surrounding Middle Eastern attitudes toward women, there has been little systematic study of the statements regarding women in the Qur'an. Stowasser fills the void with this study on the women of Islamic sacred history. By telling their stories in Qur'an and interpretation, she introduces Islamic doctrine and its past and present socio-economic and political applications. Stowasser establishes the link between the female figure as cultural symbol, and Islamic self-perceptions from the beginning to the present time.

#### A Thematic Commentary on the Qur'an - Muhammad Ghazali 2000

In a multi-faith world, Islam is widely regarded as dogmatic and exclusivist. Yet in the Qur'an we have a great and worthy example of how to live in diversity, of powerful scriptural tenets that lend themselves precisely to engagement with those of other faiths. As such Islam has much to add to the debate on Religious Pluralism. For Muslims the issue is a delicate one. Aside from being tolerant and respectful of other faiths, advocating freedom of faith, and peaceful coexistence for all humanity, Muslims have to intellectually engage on matters of religious truth whilst defending the validity of their own Islamic tenets. This study is focused on the Qur'anic text. It explores the Qur'anic conception of normative religious pluralism with a view to providing answers to questions such as whether the Qur'an itself regards normative religious pluralism as a

value system or simply a method through which the Qur'anic world view can be actualized. In doing so the author corrects some highly controversial misquoted, mistranslated, and/or quoted out of context verses of the Qur'an, including the so-called verse of the sword and the perception of not taking non-Muslims as friends. In reality, the Qur'an calls for freedom of faith and peaceful coexistence, but condemns oppression, religious persecution, and those who initiate hostilities. In this way it not only invokes human dignity, but restores it when it is violated.

**Qur'an and Woman** - Amina Wadud 1999-06-10

Fourteen centuries of Islamic thought have produced a legacy of interpretive readings of the Qu'ran written almost entirely by men. Now, with Qu'ran and Woman, Amina Wadud provides a first interpretive reading by a woman, a reading which validates the female voice in the Qu'ran and brings it out of the shadows. Muslim progressives have long argued that it is not the religion but patriarchal interpretation and implementation of the Qu'ran that have kept women oppressed. For many, the way to reform is the reexamination and reinterpretation of religious texts. Qu'ran and Woman contributes a gender inclusive reading to one of the most fundamental disciplines in Islamic thought, Qu'ranic exegesis. Wadud breaks down specific texts and key words which have been used to limit women's public and private role, even to justify violence toward Muslim women, revealing that their original meaning and context defy such interpretations. What her analysis clarifies is the lack of gender bias, precedence, or prejudice in the essential language of the Qur'an. Despite much Qu'ranic evidence about the significance of women, gender reform in Muslim society has been stubbornly resisted. Wadud's reading of the Qu'ran confirms women's equality and constitutes legitimate grounds for contesting the unequal treatment that women have experienced historically and continue to experience legally in Muslim communities. The Qu'ran does not prescribe one timeless and unchanging social structure for men and women, Wadud argues lucidly, affirming that the Qu'ran holds greater possibilities for guiding human society to a more fulfilling and productive mutual collaboration between men and women than as yet attained by Muslims or non-Muslims.

**Scientific Truths in the Qur'an** - The Qur'an Project 2019-02-25

The miraculous nature of the Qur'an lies in the knowledge it contains and this is an everlasting, renewable and a living proof. The Qur'an was given to mankind more than fourteen centuries ago. Recent advancements in various sciences have revealed innumerable facts. None of these discoveries contradict a single verse of the Qur'an. In fact, each time the world makes a breakthrough in unraveling the universe, we increase in certainty that the One who created this universe is the One who revealed

the Qur'an. It is filled with important facts which were revealed at a point in human history when no man could possibly have known them. The Qur'an speaks about the origins of the universe, workings of celestial bodies, stages of embryonic human development, behavioral patterns of species, historical and archaeological truths, etc. The Qur'an contains over 6,000 Ayat [verses] with over 70,000 words, yet it is a fact that not a single word, phrase, sentence or topic needs to be revised. It is also the case that a writer usually has knowledge of a specific subject or a few related subjects. For example, one can write about history or economics or philosophy or physics etc. But it is not possible for a human being to write simultaneously on a great variety of different subjects with such in-depth and accurate information. Even a casual reader finds that the Qur'an discusses an array of subjects with the accuracy and precision to make them appear to be the observations of an eye witness expert.

The Noble Sunnah constitutes the second source of Islamic Law and the link between the different generations of the Muslim Ummah on one side and between them and the Prophet (PBUH) on the other. The Qur'an & Modern Science: Compatible or Incompatible? - Zakir Naik 2007

Ever since the dawn of human life on this planet, Man has always sought to understand Nature, his own place in the scheme of Creation and the purpose of Life itself. In this quest for Truth, spanning many centuries and diverse civilizations, organized religion has shaped human life and determined to a large extent, the course of history. While some religions have been based on books, claimed by their adherents to be divinely

inspired, others have relied solely on human experience. Al-Qur'aan, the main source of the Islamic faith, is a book believed by Muslims, to be of completely Divine origin. Muslims also believe that it contains guidance for all mankind. Since the message of the Qur'aan is believed to be for all times, it should be relevant to every age. Does the Qur'aan pass this test? In this booklet, I intend to give an objective analysis...

**The Miraculous Language of the Qur'an** - Musfir bin Ali al-Qahtani 2015-01-12

This study illustrates why the language of the Qur'an is miraculous, unique, and evidence of divine authority. The author compares the language of the Qur'an with the language of pre-Islamic poetry, the Prophet's words (hadith), and the language of the Arabs both past and present, to demonstrate that although the Qur'an was revealed in Arabic it was at the same time an Arabic which was entirely new. Original and early Muslim audiences viewed this as miraculous and responded to the Qur'an's words, sounds, rhythms, etc. in a manner consistent with a deeper appreciation of its beauty and majesty which modern ears, trained by familiarity, and despite being surrounded by all manner of dictionaries and studies, are at a loss to capture. The author attempts to remove this veil and present the Qur'an to readers as if hearing it for the first time, to bring to life some of this wonder. In doing so he guides readers to appreciate the beauty of the Qur'an, to become more immersed in it, and to have a clearer understanding of its structure and flow. Devoting special attention to Surah Al Muddaththir, to underpin his analysis, Saeh thus brings the Revelation to life, to demonstrate that each surah has distinct features and characteristics that make it stand out uniquely within the design and sweep of the whole.

**Anatomy of Terror: From the Death of bin Laden to the Rise of the Islamic State** - Ali Soufan 2017-05-02

"Anyone who wants to understand the world we live in now should read this book." —Lawrence Wright To eliminate the scourge of terrorism, we must first know who the enemy actually is, and what his motivations are. In *Anatomy of Terror*, former FBI special agent and New York Times best-selling author Ali Soufan dissects Osama bin Laden's brand of jihadi terrorism and its major offshoots, revealing how these organizations were formed, how they operate, their strengths, and—crucially—their weaknesses. This riveting account examines the new Islamic radicalism through the stories of its flag-bearers, including a U.S. Air Force colonel who once served Saddam Hussein, a provincial bookworm who declared himself caliph of all Muslims, and bin Laden's own beloved son Hamza, a prime candidate to lead the organization his late father founded.

*Anatomy of Terror* lays bare the psychology and inner workings of al-Qaeda, the Islamic State, and their spawn, and shows how the spread of terror can be stopped. Winner of the Airey Neave Memorial Book Prize

*Islam and Its Past* - Michael Cook 2017

This collection brings together scholars from various disciplines and fields to consider Islamic revelation, with particular focus on the Qur'an. It provides a wide-ranging survey of the development and current state of Qur'anic studies in the Western academy, and shows how interest in the field has recently grown, how the ways in which it is cultivated have changed, how it has ramified, and how difficult it now is for any one scholar to keep abreast of it.

Embodiments of Cultural Encounters - Sebastian Jobs, Gesa Mackenthun 2011

The meeting of members of different cultures, frequently conceptualized in abstract terms, always involves the meeting of human bodies. This volume brings together contributions by scholars of various disciplines that address physical aspects and effects of cultural encounters in historical and present-day settings. Bodies were and are not only markers of cultural identity and difference, endlessly inscribed and represented as the 'body politic' or 'the exotic other'; as battlegrounds of cross-cultural signification and identification bodies are also potential agents of change. While some essays address the elusiveness of the 'real' or material body, forever lost behind a veil of textual and visual representation, others analyze the performative effect of such representations - their function of disciplining colonized bodies and subjects by integrating them into Western systems of cultural signification and scientific classification. Yet, as the volume also shows,

formerly colonized people, far from subjecting themselves completely to Western discourses of physical discipline, retain traditional body practices - whether in food culture, religious ritual, or musical performances. Such local reinscriptions escape the grip of Western culture and transform the global semantics of the body.

*Medieval Islamic Medicine* - Peter E. Pormann 2007

The medical tradition that developed in the lands of Islam during the medieval period (c. 650-1500) has, like few others, influenced the fates and fortunes of countless human beings. It is the story of contact and cultural exchange across countries and creeds, affecting caliphs, kings, courtiers, courtesans, and the common crowd. In addition to being fascinating in its own right, it formed the roots from which modern Western medicine arose. Contrary to the stereotypical picture, medieval Islamic medicine was not simply a conduit for Greek ideas, but was a locus for innovation and change. The book is organised around five topics: the emergence of medieval Islamic medicine and its intense cross-pollination with other cultures, the theoretical medical framework, the function of physicians within the larger society, the medical care as seen through preserved case histories, and the role of magic and devout religious invocations in scholarly as well as everyday medicine. A concluding chapter on the 'afterlife' concerns the impact of medieval Islamic medicine upon the European medical tradition and its continued practice today. The aim of this book is not to compress the entire history of medieval Islamic medicine into a single small volume. Rather, it presents an overview, highlighted with particular examples.
