The Oxford Handbook of

Mary - Chris Maunder

2019-08-07

The Oxford Handbook of Mary offers an interdisciplinary guide to Marian Studies, including chapters on textual,

literary, and media analysis; theology; Church history; art history; studies on devotion in a variety of forms; cultural history; folk tradition; gender analysis; apparitions and apocalypticism. Featuring contributions from a distinguished group of international scholars, the

Handbook looks at both Eastern and Western perspectives and attempts to correct imbalance in previous books on Mary towards the West. The volume also considers Mary in Islam and pilgrimages shared by Christian, Muslim, and Jewish adherents. While Mary can be a source of theological disagreement, this authoritative collection shows Mary's rich potential for inter-faith and inter-denominational dialogue and shared experience. It covers a diverse number of topics that show how Mary and Mariology are articulated within ecclesiastical contexts but also on their margins in popular devotion. Newly-commissioned essays describe some of the central ideas of Christian Marian thought, while also challenging popularly-held notions. This invaluable reference for students and scholars illustrates the current state of play in Marian Studies as it is done across the world.

Political Institutions in East
Timor - Lydia M. Beuman
2016-02-05

In 2002, East Timor became an independent state following a long conflict with Indonesia, and went on to adopt a semi-presidential form of government. In a semi-presidential system there is a directly elected fixed-term president, prime minister and government who are collectively responsible for the legislature. Over 50 countries in the world have adopted such a system. This book examines the politics of semi-presidentialism in East Timor from 2002-2012 and post-2012 political developments. It analyses the impact of semi-presidentialism on the performance of East Timor's democracy, and looks at whether semi-presidentialism encourages power sharing between competing forces, or whether it provoke a power struggle that threatens democratic stability. Using

East Timor as a case study, the author explains whether the adoption of semi-presidentialism helps or hinders the process of democratisation in new democracies. It is of interest to researchers in the fields of Political Science, Conflict Resolution and Asian Studies, in particular Southeast Asian Politics.

and Indonesia are also rising Asian powers that are changing the shape of the Asian economic landscape. The rapid growth of emerging Asian consumer markets is becoming an increasingly important growth engine for the world economy and for global multinationals. However, Asia faces tremendous economic and social challenges over the long-term, including the rapid growth of Asian megacities and severe environmental problems due to climate change, water crises and pollution. Geopolitical tensions have also been escalating in the Asia-Pacific due to territorial disputes in the South China Sea and the East China Sea,

increasing the risk of a regional arms race and military confrontation. Asian Megatrends is an essential read for government officials and corporate executives wishing to understand the rapidly changing risk landscape in Asia.
