design awards published by the Association of Collegiate Schools of Architecture (ACSA). Providing a primer on sustainability, useful to teachers and students alike, the selected essays address a broad range of issues.

Combined with design projects that highlight issues holistically, they promote an understanding of the principles of sustainability and further the integration of sustainable methods into architectural projects. Using essays that alternately revise and clarify twentieth century architectural thinking, *The Green Braid* places sustainability at the centre of excellent architectural design. No other volume addresses sustainability within the context of architectural history, theory, pedagogy and design, making this book an ideal source for architects in framing their practices, and therefore their architectural production, in a sustainable manner.

Smart City Emergence - Leonidas Anthopoulos 2019-06-12

Smart City Emergence: Cases from around the World analyzes how smart cities are currently being conceptualized and implemented, examining the theoretical underpinnings and technologies that connect theory with tangible practice achievements. Using numerous cities from different regions around the globe, the book compares how smart cities of different sizes are evolving in different countries and continents. In addition, it examines the challenges cities face as they adopt the smart city concept, separating fact from fiction, with insights from scholars, government officials and vendors currently involved in smart city implementation. Utilizes a sound and systematic research methodology Includes a review of the latest research developments Contains, in each

chapter, a brief summary of the case, an illustration of the theoretical context that lies behind the case, the case study itself, and conclusions showing learned outcomes Examines smart cities in relation to climate change, sustainability, natural disasters and community resiliency

Citrix XenApp® 7.5 Desktop Virtualization Solutions - Andy Paul 2014-10-21

If you are a Citrix® engineer, a virtualization consultant, or an IT project manager with prior experience of using Citrix XenApp® and related technologies for desktop virtualization and want to further explore the power of XenApp® for flawless desktop virtualization, then this book is for you.

Minocqua-Woodruff Priority Lakes Project Plan - Thomas Mathews Blake 1996

Lake/Flato - Oscar Riera Ojeda 1996

In this contribution to the ongoing debates over theorizing state power, the author draws on her fieldwork

in Mexico to examine the ways in which local agrarian communities negotiate with the state and with local bureaucracies in an apparently hopeless round of mismanagement and corruption - which yet contains a self-correcting stability.

While the ethnography focuses on a particular community at a time of transition, the author draws out the wider implications in ways that should be of interest not only to anthropologists concerned with Mexican ethnography, but also to students of political anthropology, more generally, and development studies.

Smart Cities - Oliver Gassmann 2019-06-14

Transforming cities through digital innovations is becoming an imperative for every city.

However, city ecosystems widely struggle to start, manage and execute the transformation. This book aims to give a comprehensive overview of all facets of the Smart City transformation and provides concrete tools, checklists, and guiding

Urban Blue Spaces - Simon Bell 2021-09-30

This book presents an evidence-based approach to landscape planning and design for urban blue spaces that maximises the benefits to human health and well-being while minimising the risks. Based on applied research and evidence from primary and secondary data sources stemming from the EU-funded BlueHealth project, the book presents nature-based solutions to promote sustainable and resilient cities. Numerous cities around the world are located alongside bodies of water in the form of coastlines, lakes, rivers and canals, but the relationship between city inhabitants and these water sources has often been ambivalent. In many cities, water has been polluted, engineered or ignored completely. But, due to an increasing awareness of the strong connections between

city, people, nature and water and health, this paradigm is shifting. The international editorial team, consisting of researchers and professionals across several disciplines, leads the reader through theoretical aspects, evidence, illustrated case studies, risk assessment and a series of validated tools to aid planning and design before finishing with overarching planning and design principles for a range of blue-space types. Over 200 full-colour illustrations accompany the case-study examples from geographic locations all over the world, including Portugal, the United Kingdom, China, Canada, the US, South Korea, Singapore, Norway and Estonia. With green and blue infrastructure now at the forefront of current policies and trends to promote healthy, sustainable cities, Urban Blue Spaces is a must-have for professionals and students in landscape planning, urban design and environmental design. Open Access for the book was funded by the European Union's Horizon

Research Coproduction in Healthcare - Ian D. Graham
2022-05-23

A ground-breaking and rigorous presentation of coproduction in research In *Research Coproduction in Healthcare*, a team of experienced applied health researchers and decision makers deliver a robust exploration of collaborative ways on how to plan and conduct healthcare research. The book explores relational skills that are essential to achieving successful coproduction, including trust through humility, ongoing communication, emotional intelligence, and the structures and processes required to work with a range of knowledge users. It also sets out the fundamentals of research coproduction and its transformative potential for more effective and efficient health systems and improved health outcomes. Readers will also find: A thorough

introduction to the planning, implementation and evaluation of research coproduction, including how to write a successful research coproduction proposal
Comprehensive explorations of capacity-building and infrastructure requirements
Practical discussions of the theory of coproduction, including treatments of power and tokenism
In-depth reflections on the essential building blocks of research coproduction
Perfect for researchers, knowledge users, funders, trainees and organizations, *Research Coproduction in Healthcare* will also earn a place in the libraries of coproduction teams, policymakers, clinicians, and health system managers.

Greenstreet - Steven T. Pankey
2021-02-09

The story is told in well-arranged pieces. The book approaches two people who approach crime like theater. All the human characters in *Greenstreet* are strangers to one another. What they do not do is judge one another. For

these two special people, their social function is to become millionaires. The book is about an illusory world a writer can create. Writing can be thought of as heroic. There is a barrier to success and a hurdle on the way to becoming a hero. Several people in the book take leaps in a change in their bearing. It is possible at times to lose oneself in the written world. The best reporter in this book is the reader. This is made possible by its emotional trickery. This alternative lets the reader speak critically about its comedy and tragedy. You may be able to observe your own change within. The idea is not to leave you narrow-minded. If you have ideas, do it. The book's characters are telling you what to do. All within reason. There is opportunity here for people with ideas.

Beside the cancer bed -

Zacharia Thomas 2022-05-11

The book is a saga of travels, regal suffering, separation and love transcending the frontiers of mundane existence. The evening of life is depicted as a journey punctuated with experiences that catapult us to a new level of realization. A quasi-biographical work of fiction that resonates with each one of us She hugged me tight and buried her head in my chest. I whispered in her ear, "Age is no bar for our love. We are still in the honeymoon stage." She kissed me and murmured against my lips, "Our love is endless."
