Model-Based Reasoning in Science and Technology - Lorenzo Magnani 2010-09-24
Systematically presented to enhance the feasibility of fuzzy models, this book introduces the novel concept of a fuzzy network whose nodes are rule bases and their interconnections are interactions between rule bases in the form of outputs fed as inputs.

Project-Based Knowledge in Organizing Open Innovation - Sara Bonesso 2014-07-10
Enriching understanding of the current theoretical debate on project-based learning and R&D sourcing, 'Project-based Knowledge in Organizing Open Innovation' draws on innovation literature and knowledge-based perspectives to solve open problems in the relationship between knowledge development at project level and how firms organize product innovation combining in-house R&D activities with inbound open innovation. Through field research in different industrial settings (pharmaceutical, automotive and machine tools) and with complementary methodological approaches, this book provides empirical evidence on how project knowledge features affect sourcing decisions at firm level. Due to the emerging interest in the management literature on project-based organizations and on the relevance of project forms of organizing in a knowledge-based economy, this volume will appeal to scholars and students in business and management, in particular those in innovation management, organization theory and strategic management. Addressing the still open issue of

how the firm level should be complemented by studies at the project level of analysis, this book provides theoretical and empirical arguments on the advantages of a more fine-grained level of analysis to understand how firms organize their innovation processes across boundaries.

Italy Revisited - Mary Melfi 2009
Taking an unconventional approach to autobiographical writing, this work serves as a double memoir, told in dialogue between a mother and a daughter. The conversation takes place in a medieval town high up in the Italian mountains, as the author, a Canadian writer, draws out her mother's childhood memories of life in southern Italy at the beginning of the 20th century. As they re-create that vanished world, the pair also finds greater understanding of the tumultuous relationships that sometimes exist between immigrant mothers and their children.

***** SHE'S BEEN GIVEN A CHANCE TO LIVE, BUT DOES SHE KNOW HOW? One girl: Vida is nineteen, very

sick, and has spent her short life preparing for death. But a new chance brings its own story, because for Vida to live, someone had to die. One man: Richard has just lost his beloved wife in a car accident. He hasn't even begun to address his grief, but feels compelled to meet the girl who inherited his wife's heart. Someone else's heart: In hospital Vida sees Richard and immediately falls in love. Of course he dismisses her as a foolish child. But is she? Can two people be bound by a second hand heart?

Chasing Windmills - Catherine Ryan Hyde 2009-03-10

From the bestselling author of Pay It Forward comes a provocative and unlikely love story that starts on a New York subway car and blossoms under the windmills of the Mojave Desert. Both Sebastian and Maria live in worlds ruled by fear. Sebastian, a lonely seventeen-year-old, is suffocating under his dominant father's control; Maria, a young mother of two, is trying to keep peace at home despite her boyfriend's abuse. When their eyes meet across a subway car one night, these two strangers find a connection that neither can explain or ignore. They dream of a new future and agree to run away together, only to find that each has kept a major secret from the other. In this tremendously moving novel, Catherine Ryan Hyde shows us how two people trapped by life's circumstances can break free and find a place in the world where love is genuine and selfless.

Reinhold Messner My Life at the - ebook - Reinhold Messner 2014-09-19

•*Reveals the long view from an icon who, with age, has added wisdom to his list of accomplishments •*Messner climbing firsts: the world's fourteen peaks taller than 8000 meters; Everest solo; Everest without supplemental oxygen •*Author of more than 60 books Reinhold Messner: My Life at the Limit, the newest book

by the famed mountaineer, is a conversation between Messner and interviewer Thomas Hüetlin, an award-winning German journalist. It reveals a more thoughtful and conversational Messner than one finds in his previous books, with the "talk" between Messner and Hüetlin covering not only the highlights of Messner's climbing career, but also his treks across Tibet, the Gobi, and Antarctica; his five-year-stint as a member of the European Parliament; his encounter with and study of the yeti; his thoughts on traditional male/female roles; and much more. Readers learn about Messner's childhood, his thoughts about eating ice cream with girls (against), politics (mostly liberal), and his technique for killing chickens (sharp scissors). Messner is known as one of history's greatest Himalayan mountaineers, a man who pushed back the frontiers of the possible for a whole generation of climbers. While the interest in *My Life at the Limit* is that it exposes much more of the man than his climbing career, that career is still utterly remarkable—and Mountaineers Books is proud to present this book, which is core to our mission, to audiences across North America. ***For a limited time, donors to our Legends and Lore series will receive a signed copy of *My Life at the Limit*. A Book of Verses - William Ernest Henley 1888

Modalities and Multimodalities - Walter Carnielli 2008-09-15

In the last two decades modal logic has undergone an explosive growth, to the point that a complete bibliography of this branch of logic, supposing that someone were capable to compile it, would be itself a ponderous volume. What is impressive in the growth of modal logic has not been so much the quick accumulation of results but the richness of its thematic developments. In the 1960s, when Kripke semantics gave new credibility to the logic of modalities?

which was already known and appreciated in the Ancient and Medieval times? no one could have foreseen that in a short time modal logic would become a lively source of ideas and methods for analytical philosophers, historians of philosophy, linguists, epistemologists and computer scientists. The aim which oriented the composition of this book was not to write a new manual of modal logic (there are a lot of excellent textbooks on the market, and the expert reader will realize how much we benefited from many of them) but to offer to every reader, even with no specific background in logic, a conceptually linear path in the labyrinth of the current panorama of modal logic. The notion which in our opinion looked suitable to work as a compass in this enterprise was the notion of multimodality, or, more specifically, the basic idea of grounding systems on languages admitting more than one primitive modal operator.

Writer's Block - Woody Allen 2003

Each play is an absurdist take on marital infidelity, one instance set on the Upper West Side of Manhattan and the other in Old Saybrook, Connecticut. "Riverside Drive's" Fred Savage, a homicidal, paranoid, schizophrenic vagrant ex-copywriter, has been stalking a screenwriter for weeks, convinced that his prey stole his idea - in fact, his life - to create a successful movie plot. In "Old Saybrooke," an orthodontist is hosting her sister and golf-mad brother-in-law, a plastic surgeon, at her grand suburban house. When a couple who once owned the building stops by, they spark an old fashioned sex farce that is full of verve and cunning.

Mathematical and Statistical Methods for Actuarial Sciences and Finance - Marco Corazza 2014-08-06

The interaction between mathematicians and statisticians has been shown to be an effective approach for dealing with actuarial, insurance and financial problems, both from an academic perspective and from an operative one. The collection of original papers presented in this volume pursues precisely this purpose. It covers

a wide variety of subjects in actuarial, insurance and finance fields, all treated in the light of the successful cooperation between the above two quantitative approaches. The papers published in this volume present theoretical and methodological contributions and their applications to real contexts. With respect to the theoretical and methodological contributions, some of the considered areas of investigation are: actuarial models; alternative testing approaches; behavioral finance; clustering techniques; coherent and non-coherent risk measures; credit scoring approaches; data envelopment analysis; dynamic stochastic programming; financial contagion models; financial ratios; intelligent financial trading systems; mixture normality approaches; Monte Carlo-based methods; multicriteria methods; nonlinear parameter estimation techniques; nonlinear threshold models; particle swarm optimization; performance measures; portfolio optimization; pricing methods for structured and non-structured derivatives; risk management; skewed distribution analysis; solvency analysis; stochastic actuarial valuation methods; variable selection models; time series analysis tools. As regards the applications, they are related to real problems associated, among the others, to: banks; collateralized fund obligations; credit portfolios; defined benefit pension plans; double-indexed pension annuities; efficient-market hypothesis; exchange markets; financial time series; firms; hedge funds; non-life insurance companies; returns distributions; socially responsible mutual funds; unit-linked contracts. This book is aimed at academics, Ph.D. students, practitioners, professionals and researchers. But it will also be of interest to readers with some quantitative background knowledge.

Love in the Present Tense - Catherine Ryan Hyde 2007-07-10

From the bestselling author of *Pay It Forward* comes a moving novel about the bond between a five year old abandoned by his mother and the

man who raises him. After accidentally killing a police officer five years ago, Pearl has managed to protect her bright, frail young son Leonard from her violent past. Then one day, Pearl drops him off with their neighbor Mitch, and never returns. Mitch is far from the ideal caretaker--he's having an affair with a client's wife--but he and Leonard must find a way to bridge the gap between them as they bond as parent and child. Gritty but big-hearted, *Love in the Present Tense* is an inspiring story of love and the surprising forms it can take.

Specific Training for Freediving Deep, Static and Dynamic Apnea - Umberto Pelizzari 2019-02-16

This textbook provides a method that allows freedivers and spearfishermen to identify a training path, aimed at optimizing their results. Capri and No Longer Capri - Raffaele La Capria
2003-08-01

Raffaele La Capria creates a portrait of Capri that begins in the time of Ulysses and moves to our present complex and hectic reality, and composes an elegy for a Nature blasted by human negligence and error. Americans have now been visiting Capri for many years, and La Capria's book will offer much to newcomers to the island that they would not otherwise have at their disposal, for his slim volume is a guidebook of a special kind, something like a novel and a local Italian guide. Capri has had a long history as a place of retreat, of sensual license, and of unparalleled natural beauty. Without running through the usual list of sights, La Capria gives his reader the sensation of having peered beneath each stone, and of giving an appreciation of what such a place has done to others, some of whom, once under Capri's spell, gave their lives over to their dreams.

Acorn - Yoko Ono 2013-11-19

"It's nearly 50 years ago that my book of conceptual instructions Grapefruit was first published. In these pages I'm picking up where I left off. After each day of sharing the instructions you should feel free to question, discuss, and/or report what your mind tells you. I'm just planting the seeds. Have fun." —Yoko Ono
Legendary avant-garde icon Yoko Ono has inspired generations of artists and performers. In *Acorn*, she offers enchanting and thought-provoking exercises that open our eyes—and all of our senses—to more creative and mindful ways of relating to ourselves, each other, and the planet we cohabit. Throughout this beautifully designed book are 100 black-and-white line drawings by Yoko. Like this legendary woman herself, the book is wildly original, stimulating, and hard to label: Call it purposeful play, call it brain poetry, call it guided motivation, call it Zen-like incantations, call it whatever you want. But read it. *Acorn* may change the way you experience the world.

The Bedroom - Attilio Bertolucci 2012

Poetry. Bilingual Editon. Translated from the Italian by Luigi Bonaffini. *THE BEDROOM* [La camera da letto] is Bertolucci's best-known work, so popular that the poet once read it to television viewers on a seven-hour program. It is a narrative poem that traces the history of the poet's family across seven generations with directness, precision and attention to everyday details, major events and fantastic surprises. Paolo Lagazzi writes in his introduction: "THE BEDROOM is a sort of a multi-novel, or a distillation of very diverse narrative forms and intuitions: a Bildungsroman and fairytale, an epoch novel, a novel-chronicle, a dramatic novel and a picaresque novel. An experimental work in the most authentic sense of the word..."

"Nothing of time's essence escapes or is neglected by the author's ravenous sensibility, no less active in recording the multiple places in which existence rests (the city and the countryside, the sea and the plane, the Po river and the Maremma) in an exuberant display of forms, lights, perspectives, tonalities."—Luigi Ferrara

Keeping House - Clara Sereni 2011-07-02

Food and its preparation play an integral role in this novel of a young Italian woman struggling to find her own identity in a family of strong personalities and colorful figures.

The Book of Margins - Edmond Jabès 1993-06-15

The death of Edmond Jabès in January 1991 silenced one of the most compelling voices of the postmodern, post-Holocaust era. Jabès's importance as a thinker, philosopher, and Jewish theologian cannot be overestimated, and his enigmatic style—combining aphorism, fictional dialogue, prose meditation, poetry, and other forms—holds special appeal for postmodern sensibilities. In *The Book of Margins*, his most critical as well as most accessible book, Jabès is again concerned with the questions that inform

all of his work: the nature of writing, of silence, of God and the Book. Jabès considers the work of several of his contemporaries, including Georges Bataille, Maurice Blanchot, Roger Caillois, Paul Celan, Jacques Derrida, Michel Leiris, Emmanuel Lévinas, Pier Paolo Pasolini, and his translator, Rosmarie Waldrop. This book will be important reading for students of Jewish literature, French literature, and literature of the modern and postmodern ages. Born in Cairo in 1912, Edmond Jabès lived in France from 1956 until his death in 1991. His extensively translated and widely honored works include *The Book of Questions* and *The Book of Shares*. Both of these were translated into English by Rosmarie Waldrop, who is also a poet. Religion and Postmodernism series
