Silent Travelers - Alan M. Kraut 1995-03
Traces the American tradition of suspicion of the unassimilated, from the cholera outbreak of the 1830s through the great waves of immigration that began in the 1890s, to the recent past, when the erroneous association of Haitians with the AIDS virus brought widespread panic and discrimination. Kraut (history, American U.) found that new immigrant populations--made up of impoverished laborers living in urban America's least sanitary conditions--have been victims of illness rather than its progenitors, yet the medical establishment has often blamed epidemics on immigrants' traditions, ethnic habits, or genetic heritage. A Little House Traveler - Laura Ingalls Wilder 2006-02-07

By the mid-1930s Laura Ingalls Wilder's journeys had taken her from Wisconsin to South Dakota, from Missouri to California and back again. She had traveled by wagon, by train, and by car; alone, with her husband, and with her daughter. She had watched the times, seasons, and people change over six decades of traveling. But one thing remained the same: Laura always kept a pencil and paper with her to jot down notes about her experiences. For the first time ever, writings from three of Laura's most memorable trips have been collected in one special omnibus edition featuring historical black-and-white photographs. On the Way Home recounts her 1894 move with Rose and Almanzo from South Dakota to their new homestead in Mansfield, Missouri. West From Home consists of letters from Laura to Almanzo as she traveled to California in 1915 to visit Rose. And

previously unpublished materials from Laura and Almanzo's car trip in 1931 now tell the story of their first journey back to DeSmet, the town where Laura grew up, where she met Almanzo, and where they fell in love. Laura's candid sense of humor and keen eye for observation shine through in this wonderful collection of writings about the many places Laura Ingalls Wilder called home.

The English-American - Thomas Gage
2014-04-04

First published in 1928. 'Can be safely named unique and can never quite lose its value.' Times Literary Supplement. 'This should be bought not borrowed.' Saturday Review The publication in 1648 of the first authentic account of the provinces of New Spain and Central America by a well-known and educated Englishman excited widespread interest, and *The English-American* found many readers even though the country was in the midst of revolution. It played an important part in reviving the anti-Spanish policy of Elizabeth and describes at first hand a stage of American society that was virtually unknown. A. P. Newton's introduction places the book against the background of its time, which is vital in order to understand many of Thomas Gage's allusions. Although abridged from the original, the full chapter headings of the First Edition and the original numbering have been

preserved.

American Travelers on the Nile - Andrew Oliver (Jr.) 2014

The Treaty of Ghent signed in 1814 allowed Americans once again to travel abroad. Intrepid Americans ventured to Athens, to Constantinople, and even to Egypt. This book covers the 25-year period after 1815 that saw young men from East Coast cities traveling to the lands of the Bible and of the Greek and Latin authors they had first known as teenagers. Naval officers off ships of the Mediterranean squadron visited Cairo to see the pyramids. Two groups went on business, one importing steam-powered rice and cotton mills from New York, the other exporting giraffes from the Kalahari Desert for wild animal shows in New York.

The Traveler - John Twelve Hawks 2010-10-29

Gabriel and Michael Corrigan are two young men living just beneath the glittering surface of life in Los Angeles. Since childhood, the brothers have been shaped by stories that their father was a Traveler — one of an elite group of prophets able to attain pure enlightenment. The Corrigans, who may have inherited their father's gifts, have always lived "off the grid" — that is, invisible to the intricate surveillance networks that monitor people in our modern world.

Thousands of miles away, Maya is attempting to lead a normal life in London. The attractive twenty-six-year-old designer wants to ignore the fact that she comes from a long lineage of

Harlequins — a band of warriors pledged to protect the Travelers at all costs. When Maya is summoned to Prague by her ailing father, she learns that Gabriel and Michael have just been located in California. The brothers may represent the last surviving Travelers, and are in desperate need of protection. Maya is reluctant to be drawn into the solitary, destructive life of her ancestors, but she has been trained to fight since she was a young girl. Also searching for the brothers is Nathan Boone, a disciplined mercenary working for the Tabulas — ruthless men who are determined to inflict order on the world by invisibly controlling its population. Boone and the Tabulas fear the power of the Travelers, and for generations Tabulas have hunted them down. When Maya flies to California in search of Gabriel and Michael Corrigan, a colossal battle looms that will reveal a secret history of our time. In this stunningly suspenseful first novel, reminiscent of George Orwell and Philip Pullman, John Twelve Hawks has created a vividly imagined world that runs parallel to our own. Moving at lightning speed from the back alleys of Prague to the underworld of Los Angeles to a guarded research facility in New York, The Traveler goes beneath the surface to give us new insights on history and our own lives.

Thomas Gage - Frederic Rosengarten 1988

American Traveler - James Zug 2009-03-06

Called a "man of genius" by his close friend Thomas Jefferson, John Ledyard lived, by any standard, a remarkable life. In his thirty-eight years, he accompanied Captain Cook on his last voyage; befriended Jefferson, Lafayette, and Tom Paine in Paris; was the first American citizen to see Alaska, Hawaii, and the west coast of America; and set out to find the source of the Niger by traveling from Cairo across the Sahara. His greatest dream, concocted with Jefferson, was to travel alone around the world and cross the American continent from the Pacific Northwest to the Atlantic. Catherine the Great dashed that dream when she had him arrested in deepest Siberia and escorted back to the Polish border. Ledyard wrote the definitive account of Cook's last voyage and his death at the hands of Hawaiian islanders, and formed a company with John Paul Jones that launched the American fur

trade in the Pacific Northwest. Before the Revolution, Americans by and large didn't travel great distances, rarely venturing west of the Appalachians. Ledyard, with his boundless enthusiasm and wide-ranging intellect, changed all that. In lively prose, journalist James Zug tells the riveting story of this immensely influential character - a Ben Franklin with wanderlust - a uniquely American pioneer.

The Memory of Running - Ron McLarty
2005-12-27

"Smithy is an American original, worthy of a place on the shelf just below your Huckles, your Holdens, your Yossarians." —Stephen King
Every so often, a novel comes along that captures the public's imagination with a story that sweeps readers up and takes them on a thrilling, unforgettable ride. Ron McLarty's *The Memory of Running* is this decade's novel. By all accounts, especially his own, Smithson "Smithy" Ide is a loser. An overweight, friendless, chain-smoking, forty-three-year-old drunk, Smithy's life becomes completely unhinged when he loses his parents and long-lost sister within the span of one week. Rolling down the driveway of his parents' house in Rhode Island on his old Raleigh bicycle to escape his grief, the emotionally bereft Smithy embarks on an epic, hilarious, luminous, and extraordinary journey of discovery and redemption.

A Traveler at Forty - Theodore Dreiser 2004

After spending five months in Europe in 1911-1912, Dreiser wrote a detailed account of his travels that, despite his objections, was eviscerated to suit contemporary notions of taste and discretion. His editors insisted on drastic cuts, dropping over forty chapters and diluting many others. The truncated text was published in 1913. The excised portions consisted of autobiographical reminiscences, philosophical speculations, revealing portraits of prominent figures, accounts of Dreiser's relationships with women, and his careful observations of lower class urban life. Working with the unabridged text of a later typescript, the magazine articles based on this trip, and Dreiser's travel diary and correspondence, Renate von Bardeleben has been able to restore the book in full. The newly edited text is based on a typescript that Dreiser himself had prepared from his holograph to preserve it for future publication. This generously annotated edition reveals Dreiser's multiple motives in going to Europe : to cultivate his reputation in England, to search for authentic material for his Cowperwood trilogy, to educate himself in European art and history, to pursue his romantic interests, and to explore his ancestral roots in Germany. The 1913 text is about places; the fuller text is about Dreiser himself.

The Negro Travelers' Green Book - 1954

COMMERCIAL TRAVELER'S GUIDE TO LATIN AMERICA - 1931

Colored Travelers - Elizabeth Stordeur Pryor
2016-10-13

Americans have long regarded the freedom of travel a central tenet of citizenship. Yet, in the United States, freedom of movement has historically been a right reserved for whites. In this book, Elizabeth Stordeur Pryor shows that African Americans fought obstructions to their mobility over 100 years before Rosa Parks refused to give up her seat on a Montgomery bus. These were "colored travelers," activists who relied on steamships, stagecoaches, and railroads to expand their networks and to fight slavery and racism. They refused to ride in "Jim Crow" railroad cars, fought for the right to hold a U.S. passport (and citizenship), and during their transatlantic voyages, demonstrated their radical abolitionism. By focusing on the myriad strategies of black protest, including the assertions of gendered freedom and citizenship, this book tells the story of how the basic act of traveling emerged as a front line in the battle for African American equal rights before the Civil War. Drawing on exhaustive research from U.S. and British newspapers, journals, narratives, and letters, as well as firsthand accounts of such figures as Frederick Douglass, Harriet Jacobs, and William Wells Brown, Pryor illustrates how, in the quest for citizenship, colored travelers constructed ideas about respectability and challenged racist ideologies that made black mobility a crime.

The Negro Motorist Green Book - Victor H. Green

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Traveller - Michael Katakis 2009-06-02

"How could I have known then with no maps acquired and my bags not yet packed that my journey had already begun? ...The tools of a

traveler are compass and map. They calculate distances covered and destinations sought but cannot measure the consequences of experiences on a human heart," writes Michael Katakis in his introduction. Traveller is a collection of letters and journal entries that bring the immediacy of experience together with perceptive reflections of the author's own past. The entries in this volume are not travel guides. They are more personal, like letters from the most desirable sort of friend. The friend carries

the listener with him as he meanders through the medina in Fez or into the hills of Gallipoli. His voice is such that listeners can almost smell the herbs and dusty soil of Crete, and always they are introduced to the people he meets along the way. For anyone curious about the world, and introduced with a foreword written and read by Michael Palin, Traveller is sure to delight, infuriate and, perhaps most importantly, inspire thought about the complex world around them.
