Community Boy Leadership - Boy Scouts of America 2016-12-24

Excerpt from Community Boy Leadership: A Manual for Scout Executives To the Scout Executives of the country and others interested in the welfare of boys and their training in practical citizenship: The Manual for Scout Executives represents the combined experience of our most successful and earnest leaders, covering over ten years of Scouting all over the country. In giving it to the field the Editorial Board hopes and believes that the book will be of real value and help to solve some of the many common problems which beset scout workers everywhere. The Scout Executive's biggest task is to bring his community and its Boy Scouts into the closest relations of sympathy and cooperation and for this reason the present volume has been written from the angle of community leadership as its title implies. Scouting and Scoring - Christopher Phillips 2021-03-30

An in-depth look at the intersection of judgment and statistics in baseball Scouting and scoring are considered fundamentally different ways of ascertaining value in baseball. Scouting seems to rely on experience and intuition, scoring on performance metrics and statistics. In Scouting and Scoring, Christopher Phillips rejects these simplistic divisions. He shows how both scouts and scorers rely on numbers, bureaucracy, trust, and human labor to make sound judgments about the value of baseball players. Tracing baseball's story from the nineteenth century to today, Phillips explains that the sport was one of the earliest fields to introduce numerical analysis, and new methods of data collection were supposed to enable teams to replace scouting with scoring. But that's not how things

turned out. From the invention of official scorers and Statcast to the creation of the Major League Scouting Bureau, Scouting and Scoring reveals the inextricable connections between human expertise and data science, and offers an entirely fresh understanding of baseball.

Scouting for Boys - Robert Baden-Powell

2018-09-20

"A scout must always be prepared at any moment to do his duty, and to face danger in order to help his fellow-men." A startling amalgam of Zulu war-cry and imperial and urban myth, of borrowed tips on health and hygiene, and object lessons in woodcraft, Robert Baden-Powell's *Scouting for Boys* (1908) is the original blueprint and 'self-instructor' of the Boy Scout Movement. One of the all-time bestsellers in the English-speaking world, this primer of 'yarns and pictures' constitutes probably the most influential manual for youth ever published. Yet the book is at the same time a roughly composed hodge-podge of jingoist lore and tracker legend, padded with lengthy quotations from adventure fiction and Baden-Powell's own autobiography, and seamed through with the multiple anxieties of its time: fears of degeneration, concerns about masculinity and self-restraint, and invasion paranoia. Elleke Boehmer's edition of *Scouting for Boys* reprints the original text and illustrations, and her fine introduction investigates a book that has been cited as an authority by militarists and pacifists, capitalists

and environmentalists alike.
