A Mathematical Theory of Design: Foundations, Algorithms and Applications - D. Braha 2013-04-17

Formal Design Theory (PDT) is a mathematical theory of design. The main goal of PDT is to develop a domain independent core model of the design process. The book focuses the reader's attention on the process by which ideas originate and are developed into workable products. In developing PDT, we have been striving toward what has been expressed by the distinguished scholar Simon (1969): that "the science of design is possible and some day we will be able to talk in terms of well-established theories and practices." The book is divided into five interrelated parts. The conceptual approach is presented first (Part I); followed by the theoretical foundations of PDT (Part II), and from which the algorithmic and pragmatic implications are deduced (Part III). Finally, detailed case-studies illustrate the theory and the methods of the design process (Part IV), and additional practical considerations are evaluated (Part V). The generic nature of the concepts, theory and methods are validated by examples from a variety of disciplines. FDT explores issues such as: algebraic representation of design artifacts, idealized design process cycle, and computational analysis and measurement of design process complexity and quality. FDT's axioms convey the assumptions of the theory about the nature of artifacts, and potential modifications of the artifacts in achieving desired goals or functionality. By being able to state these axioms explicitly, it is possible to derive theorems and corollaries, as well as to develop specific analytical and constructive methodologies.

Fundamental Aspects of Palliative Care Nursing 2nd Edition - Robert Becker 2016-06-13

This new and expanded edition is aimed directly at the learning needs of student nurses and is unique in that context. Whilst there are many high quality books available for academic study in palliative care this is currently the only one that balances a strong educational focus for developing nursing practice with an understanding of the particular needs of student nurses. The text maintains a sensitive and supportive approach to the key themes of palliative care nursing, but contains important new material of a wide range of initiatives that are impacting on end of life care across the UK. It will provide the reader with a concise, easy to read and learning oriented text that will give advice and direction to the many challenges faced in this most important area of patient care. Each chapter examines a key component of care and new features include: Learning outcomes at the start of each chapter to guide

the reader Clinical anecdotes to illustrate the reality and complexity of practice Extensive use of recognisable symbols to guide the reader and improve the usability of the text Competency assessment to help gauge knowledge and progress Reflective points to aid professional development Reflective activities to enable the student to reinforce learning from practice Links to appropriate clauses of the current 2008 NMC Code of Professional Conduct Quality internet resources relevant to chapter content Self assessment multiple choice tests at the end of each chapter to consolidate learning An extensive palliative care quiz covering the main topic areas of the book to test knowledge. This can be used as evidence with professional portfolios.

Employment Discrimination Law - Rachel Croskery-Roberts 2014-10-30

Employment Discrimination Law is an innovative new skills-based text designed for flexible use. To add a skills component to lecture courses, it can be used in conjunction with traditional casebooks, and is also an ideal text for a free-standing practicum or seminar. Employment Discrimination Law functions as a "course in a box" providing readers with basic background law, including constitutional and statutory law governing the employment relationship; general drafting principles important to lawyers in any field as well as an overview of drafting issues specific to employment discrimination law; an introduction to the key research strategies and sources; an overview of the ethical issues likely to arise; and a solid preview of client counseling, negotiation strategy, and preventative lawyering. The text features a combination of text, sample documents, checklists, charts, and exercises. These well-crafted exercises, for students to complete individually or in groups, range from discrete questions to be researched and answered in a 5-minute small-group class session to much more detailed problems that could serve as final evaluative documents. SPIN® -Selling - Neil Rackham 2020-04-28

True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales. Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried in many of today's leading companies with dramatic improvements to their sales performance.

The First Questions: Coaching Your Way to Leadership Success -

Ron Hurst 2014-05-08

Most of us enter our first leadership positions unprepared for the overwhelming scope of what effective leadership involves. To manage,

we dig in, experiment, do our best, make mistakes and corrections, and hope that we have made a difference for our organization. But what if there were a better way? In *The First Questions*, author Ron Hurst, the president of a training and development company with a vision of growing leaders, presents a practical workbook designed to help you understand some of the challenges you may face as a leader. Taking an inside-out approach to help you see who you are as a unique leader, it examines the core aspects of leadership, such as purpose, motivation, leading change, relating to others, and creating hope. It's important to find your own answers to the critical questions that you must answer through your action or inaction. Through this guide, you can explore who you are, leader.

Health and Safety in Logistics - Jerry Rudd 2020-09-10

Logistics is a complex industry that exposes employees to a whole variety of risks. These include not only accidents on the road and deaths and injuries resulting from unsafe use of forklifts, but also the consequences of poor fire safety, long-term health risks due to poor manual handling technique and problems relating to mental health. Many thousands of incidents are recorded every year. This book examines each aspect of health and safety in turn, with a focus on warehousing and transportation. *Health and Safety in Logistics* informs managers about potential hazards found in the industry and explains in detail how they can make the workplace as safe as possible.

Writers on Strategy and Strategic Management - J I Moore 2001-04-05
Strategic management is the central activity of all successful organizations today. From the time when its conceptual foundations were laid in the 1960s, its theory and practice have been subjected to intensive research, argument and development under such headings as general management, business policy, corporate strategy and long-range planning. But, as J. I. Moore explains, no matter what its name, strategic thinking has always addressed the same issue: 'the determination of how an organization, in its entirety, can best be directed in a changing world'.
Rebuilding Attachments with Traumatized Children - Richard Kagan 2014-09-25

Learn to build the trust you need to help children in crisis! *Rebuilding Attachments with Traumatized Children: Healing from Losses, Violence, Abuse, and Neglect* is a therapeutic guide to helping troubled children move beyond the traumatic experiences that haunt them. Author Dr. Richard Kagan, Director of Psychological Services for Parsons Child and Family Center in Albany, New York, presents comprehensive information on how to understand—and surmount—the impact of loss, neglect, separation, and violence on children's development, how to discover and foster strengths in children and their families, and how to rebuild connections and hope for children who are at risk of harm to themselves and others. This unique book is designed to be used in tandem with *Real Life Heroes: A Life Storybook for Children* (Haworth), an innovative workbook that helps children develop the self-esteem they need to overcome the worries and fears of their past through a creative arts approach that fosters positive values and a sense of pride. *Rebuilding Attachments with Traumatized Children* helps children move from negative or suppressed memories to a more positive perspective, not by denying hardships, but by drawing strength from the supportive people in their lives. Practitioners can use the book as a framework and detailed guide to assessment, engagement, development of service plans, and implementation of attachment and trauma therapy. The book is a comprehensive model for working to build the trust necessary before other trauma therapy approaches can be successfully initiated. Topics examined in *Rebuilding Attachments with Traumatized Children* include: attachment theory and research types of attachment problems PTSD behaviors permanency work with children in placement ADHD, bipolar, and RAD cognitive behavioral therapies storytelling therapies the myth of perfection neuropsychological patterns and much more! *Rebuilding Attachments with Traumatized Children* is a rich resource for practitioners, academics, parents, adoptive parents, foster parents, grandparents, and anyone working to show troubled children how to learn from the past, resolve problems in the present, and build a better future.
