EHealth - For Continuity of Care - C. Lovis 2014-09-30

Information technology and the information sciences have been part of our lives for some time now. They have revolutionized the healthcare system, changing the whole health landscape, as well as health culture. New devices, sources of data and roles for all those involved in healthcare are being developed as a result. This book presents the proceedings of the 25th European Medical Informatics Conference, held in Istanbul, Turkey in August/September 2014. The conference aims to present the most recent developments in biomedical informatics. The book is divided into 15 sections, which include: decision support systems and clinical practice guidelines; improved healthcare through informatics; data analysis; mobile health; technology and system evaluation; and text mining. The final two sections present posters from the conference. The book will be of interest to all those in the healthcare sector, researchers and practitioners alike, who develop, evaluate or work with information technology.

Cancer Free: Your Guide to Gentle, Non-toxic Healing (Fifth Edition) - Bill Henderson 2014-11-15

About the Book "If you love your stricken one, this is your Bible." said Denzel Koh of Brisbane, Australia after he healed his daughter's cancer using the information in a previous edition of this book. A cancer diagnosis always causes fear. All of us have seen relatives and friends destroyed by conventional cancer treatment. Now, thanks to books like this one and the Internet, you can quickly learn what you need to know. You can heal the cancer using natural, non-toxic substances that work. What you need is a guide to cut through the overwhelming jungle of information. This book provides that guide. The information in it has been refined over twelve years using feedback from real cancer survivors about what worked for them. Bill Henderson, one of the authors, has counseled about 4,000 cancer patients by phone and video in 64 countries. At least 3,000 of them have recovered using his information. He is not a medical professional. He is a "reporter" furnishing you with information that consists of "what he would do if he were you or your loved one." His coaching is available to you after you have read this book, if you need it. The co-author is Dr. Carlos Garcia, a formally trained M.D. who has broken out of that mold and trained himself to be a well-informed holistic physician. His Utopia Wellness clinic in Oldsmar, Florida regularly helps Stage IV cancer patients heal themselves. Bill Henderson has published 165 free newsletters on natural cancer treatment to 38,000 subscribers all over the world, starting in 1999. The information in these newsletters has now been incorporated into this, his third book. The book is up-to-date, specific and accurate. Bill and Dr. Garcia inform you of over 140 web sites and dozens of other books and newsletters you can use to expand your knowledge of natural cancer treatment. The self-treatments they recommend are harmless enough that you can start them immediately, without more research, if you like. They do not interfere with conventional cancer therapy, if that is your choice. In fact, they offset most of the side effects of that treatment. "Cancer is not a

disease," says Bill. "It is a reaction to what your body has experienced. Reverse those causes and the cancer goes away. Continue what you did to reverse it and it stays away." Bill explains that there are four common characteristics of all cancers. These have been known since the 1920's: 1. Low oxygen uptake by the cells. 2. A weak immune system. 3. Toxins -- usually caused by diet and dental work. 4. Acidity -- again, usually caused by diet, as well as stress and dental work. Bill Henderson's and Dr. Garcia's recommended regimen tracks with the knowledge for which Otto Warburg, a famous German doctor and researcher, won a Nobel Prize in 1931. He described the cancer cell and stressed the need to reverse the above four characteristics of the cancer in order to heal it. None of these are addressed by conventional cancer treatment. Bill's mission to help cancer patients heal started with his experience with his former wife, Marjorie. Her ovarian cancer was treated with conventional cancer treatment from 1990 to 1994, when she died. Bill is convinced that the treatment killed her. He wants to help as many people as possible avoid her fate. Dr. Garcia's mission is to help cancer patients heal themselves starting in a controlled clinical environment and continuing at home. He has been doing this successfully for 15 years.

Imagining Personal Data - Vaike Fors 2020

This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com. It is funded by The Swedish Foundation for Humanities and Social Sciences. Digital self-tracking devices and data have become normal elements of everyday life. Imagining Personal Data examines the implications of the rise of body monitoring and digital self-tracking for how we inhabit, experience and imagine our everyday worlds and futures. Through a focus on how it feels to live in environments where data is emergent, present and characterized by a sense of uncertainty, the authors argue for a new interdisciplinary approach to understanding the implications of self-tracking, which attends to its past, present and possible future. Building on social science approaches, the book accounts for the concerns of scholars working in design, philosophy and human-computer interaction. It problematizes the body and senses in relation to

data and tracking devices, presents an accessible analytical account of the sensory and affective experiences of self-tracking, and questions the status of big data. In doing so it proposes an agenda for future research and design that puts people at its centre

The Ultimate Guide to U.S. Army Survival Skills, Tactics, and Techniques - Department of the Army 2007-09-17

Drawing from dozens of the U.S. Army's official field manuals, editor Jay McCullough has culled a thousand pages of the most useful and curious tidbits for the would-be soldier, historian, movie-maker, writer, or survivalist--including techniques on first aid; survival in the hottest or coldest of climates; finding or building life-saving shelters; surviving nuclear, biological, and chemical attacks; physical and mental fitness, and how to find food and water anywhere, anytime. With hundreds of photographs and illustrations showing everything from edible plants to rare skin diseases of the jungle, every page reveals how useful Army knowledge can be. Skyhorse Publishing is proud to publish a range of books for readers interested in military tactics and skills. We publish content provided by or of interest to the U.S. Army, Army Rangers, the U.S. Navy, Navy SEALs, the U.S. Air Force, the U.S. Marine Corps, and the Department of Defense. Our books cover topics such as survival, emergency medicine, weapons, guns, weapons systems, hand-to-hand combat, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.

Fast Minds - Craig Surman 2013-02-05

FAST MINDS is an acronym for common symptoms that are often seen in Attention Deficit Hyperactivity Disorder (ADHD). Millions of adults have ADHD or some of its traits, but they are under-recognized, under-treated, and often under-supported. This book empowers people with ADHD, or some of its characteristics, to adapt and thrive. By working through the program in this book, you will develop personalized strategies to take control of your life. Forgetful. Achieving below potential.

Stuck in a rut. Time challenged. Motivationally challenged. Impulsive. Novelty seeking. Distractible. Scattered. If any or all of these symptoms are making it difficult for you—or someone you know—to live life to the fullest, then the clinically proven, cutting-edge program in this book will help you understand your struggles and challenges. Whether you have been diagnosed with ADHD, think you may have it, or just exhibit many of these traits, FAST MINDS will help you: Figure out what isn't working in your life, and the keys to fixing it. Build personalized strategies for managing your time, tasks, and relationships. Learn organizational habits that work for you. Stop communicating poorly, making impulsive choices and taking pointless risks. Eliminate negative thinking patterns that waste your mental energy. Create environments that support your challenges. Make the most of both medical and nonmedical resources (medication, coaching, Cognitive Behavioral Therapy, mindfulness, support groups, lifestyle change). With inspiring stories of real people who have adapted and thrived using the methods in this book, FAST MINDS will help you create the kind of life you want to live.

Assembling Consumption - Robin Canniford
2015-09-16

Assembling Consumption marks a definitive step in the institutionalisation of qualitative business research. By gathering leading scholars and educators who study markets, marketing and consumption through the lenses of philosophy, sociology and anthropology, this book clarifies and applies the investigative tools offered by assemblage theory, actor-network theory and non-representational theory. Clear theoretical explanation and methodological innovation, alongside empirical applications of these emerging frameworks will offer readers new and refreshing perspectives on consumer culture and market societies. This is an essential reading for both seasoned scholars and advanced students of markets, economies and social forms of consumption.

Internet of Things and Data Analytics Handbook
- Hwaiyu Geng 2017-01-10

This book examines the Internet of Things (IoT) and Data Analytics from a technical, application, and business point of view. Internet of Things and Data Analytics Handbook describes essential technical knowledge, building blocks, processes, design principles, implementation, and marketing for IoT projects. It provides readers with knowledge in planning, designing, and implementing IoT projects. The book is written by experts on the subject matter, including international experts from nine countries in the consumer and enterprise fields of IoT. The text starts with an overview and anatomy of IoT, ecosystem of IoT, communication protocols, networking, and available hardware, both present and future applications and transformations, and business models. The text also addresses big data analytics, machine learning, cloud computing, and consideration of sustainability that are essential to be both socially responsible and successful. Design and implementation processes are illustrated with best practices and case studies in action. In addition, the book: Examines cloud computing, data analytics, and sustainability and how they relate to IoT over the scope of consumer, government, and enterprise applications. Includes best practices, business model, and real-world case studies. Hwaiyu Geng, P.E., is a consultant with Amica Research (www.AmicaResearch.org, Palo Alto, California), promoting green planning, design, and construction projects. He has had over 40 years of manufacturing and management experience, working with Westinghouse, Applied Materials, Hewlett Packard, and Intel on multi-million high-tech projects. He has written and presented numerous technical papers at international conferences. Mr. Geng, a patent holder, is also the editor/author of Data Center Handbook (Wiley, 2015).

Ride the Jawbone - Jim Moore 2011
Montana author, Jim Moore, teaches many history lessons in his debut novel, Ride the Jawbone, which effectively transports the reader to central Montana's ranching communities and the famous Jawbone Railroad as they were experienced at the turn of the twentieth century. Into this story of a young lawyer, T. C. Bruce, who is asked to defend an odious outcast that the citizens want to hang, author Moore weaves details about the way of life of ranchers and other citizens of that era. Richard A. Harlow employed much persuasion to finance his Montana Railroad from where it linked with the Northern Pacific at Lombard to the Musselshell River Valley. Because of Harlow's ability to accomplish this task on the strength of his jawbone, people called it the Jawbone Railroad. In Jim Moore's novel, the body of a young woman is allegedly thrown from this train after the murder was committed. The accused is a reprehensible trapper whom no established attorney in Montana wants to defend. T. C. Bruce is the son of a rancher who owns a large spread an easy horseback ride away from Two Dot, Montana. T. C. loves ranching and is torn between his father's wish for him to take over the ranch and his mother's insistence that he put his education to use and practice law. When the judge asks him to take on the role of defense attorney in the Jawbone murder case, his father encourages him to do so. Two young women who take an interest in the handsome T. C. add complication to the story.

Cain's Jawbone - Edward Powys Powys Mathers
2021-04-27

Six murders. One hundred pages. Millions of possible combinations... but only one is correct. Can you solve Torquemada's murder mystery? In 1934, the Observer's cryptic crossword compiler, Edward Powys Mathers (aka Torquemada), released a novel that was simultaneously a murder mystery and the most fiendishly difficult literary puzzle ever written. The pages have been printed in an entirely haphazard order, but it is possible - through logic and intelligent reading - to sort the pages into the only correct order, revealing six murder victims and their respective murderers. Only three puzzlers have ever solved the mystery of Cain's Jawbone: do you have what it takes to join their ranks? Please note: this puzzle is extremely difficult and not for the faint-hearted.

The Far Tribes - Richard S. Wheeler
2007-07-31

There are many legends of great mountain men, hunters and trappers who manage to survive on their own in the harsh landscapes and forests of the West. The frontier is full of adversity, from blood-hungry natives to the vicious beasts of the mountains, and the one name that all men of the frontier praise and whisper as if in prayer is Barnaby Skye. Elkanah Morse came west from Lowell, Massachusetts with one goal in mind: to study the ways of the far tribes. But entrance into their world is not easy. Only one man is

capable of bringing him to the natives safely, only one man who knows exactly what to bring for trade. But Skye's advice is not enough. When rumors begin to spill that Morse is being held captive by one of the most vicious tribes in the mountains, Barnaby Skye feels compelled to take to the mountains and rescue the man . . . but he must face his most brutal battle yet.

The Hormone Reset Diet - Sara Gottfried, M.D. 2015-03-17

The Harvard-educated physician and New York Times bestselling author of *The Hormone Cure* shows you how to grow new receptors for your seven metabolic hormones, making you lose weight and feel great fast! When it comes to weight loss, most people don't think about hormones. But when you develop resistance to your seven major metabolic hormones—cortisol, thyroid, testosterone, growth hormone, leptin, insulin, and estrogen—your body adjusts by increasingly raising your hormone levels and ultimately slowing down your metabolism. And a slower metabolism leads to weight gain and difficulty losing weight. The solution, Dr. Sara Gottfried contends, is to reset the efficiency of your hormones by repairing and growing new hormone receptors. Based on leading scientific research, *The Hormone Reset Diet* is her proven weight loss and energy program to reverse hormone resistance in just three weeks. It will help you: Boost your metabolism and calorie burning by growing new and fresh thyroid receptors; Increase your weight loss by re-balancing estrogen and progesterone receptors; Reverse your aging by resetting glucocorticoid receptors (for better processing cortisol). For the last twenty years, this Harvard-MIT educated physician has helped thousands of women address the root hormonal causes of what bothers them most: excess weight, lack of energy, aging, and illness. Going beyond her bestselling *The Hormone Cure*, this program is the next generation of her deep understanding of hormonal optimization for rapid weight loss.

Stuffed Animals: A Modern Guide to Taxidermy - Divya Anantharaman 2016-10-18

A quirky, timely, and disturbingly beautiful how-to taxidermy guide, emphasizing ethical sourcing and personal expression. Whether inspiration came from an exhibition at an edgy art gallery, a visit to the Natural History Museum, or the sight of your crazy uncle's jackalope, more and more people are opening up to the fun and wonder of taxidermy. A mix of art, science, and a touch of alchemy, taxidermy lets you engage with the natural world in ways most other people don't. In *Stuffed Animals*, Divya Anantharaman and Katie Innamorato demystify the practice, shatter the gross stereotypes, and make taxidermy accessible to anyone, anywhere. Committed to ethical and sustainable sourcing, Anantharaman and Innamorato are part of the vanguard of young taxidermists who bring a sense of fun and experimentation to this old-school hobby. In their sold-out classes in Brooklyn, they teach hundreds of taxidermy novices how to create mantle-worthy pieces out of small birds and mammals. Both a helpful how-

to manual and a strangely captivating gift book, *Stuffed Animals* is the definitive guide to a growing movement.

The text will help the physician decide what kind of practice they would like to join (i.e. private practice, small group practice, solo practice, hospital employment, large group practice, academic medicine, or institutional\government practice) as well as understand the basics of contracting, restrictive covenants and how to navigate the road to partnership. Additional topics covered include, monthly balance sheets, productivity, overhead costs and profits, trend analysis and benchmarking. Finally, the book provides advice on advisors that doctors will need to help with the business of their professional and personal lives. These include accountants, bankers, lawyers, insurance agents and other financial advisors. *The Complete Business Guide for a Successful Medical Practice* provides a roadmap for physicians to be not only good clinical doctors but also good businessmen and businesswomen. It will help doctors make a difference in the lives of their patients as well as sound financial decisions for their practice.

The Rough Guide to New Zealand is the definitive guide to the world's adventure capital. Detailed accounts of every attraction, along with crystal-clear maps and plans, will show you the very best New Zealand has to offer - from the white sandy beaches and vast kauri trees in the north to the hairline fiords and penguin colonies in the south. Expert writers give you the tips you need for experiencing Maori culture and food, striking out on multi-day hikes, or tracking down Marlborough's tastiest sauvignon blancs. At every point, The Rough Guide to New Zealand steers you to little-known sights, like secluded hot pools, as well as popular places to hang out, such as Wellington's best cafés. Insider tips, planning itineraries, and author picks give you the inside scoop on the best accommodations across every price range. Make the most of your time with The Rough Guide to New Zealand.

Jawbone - Mónica Ojeda 2022-02-08

"Was desire something like being possessed by a nightmare?" Fernanda and Annelise are so close they are practically sisters: a double image, inseparable. So how does Fernanda end up bound on the floor of a deserted cabin, held hostage by one of her teachers and estranged from Annelise? When Fernanda, Annelise, and their friends from the Delta Bilingual Academy convene after school, Annelise leads them in thrilling but increasingly dangerous rituals to a rhinestoned, Dior-scented, drag-queen god of her own invention. Even more perilous is the secret Annelise and Fernanda share, rooted in a dare in which violence meets love. Meanwhile, their literature teacher Miss Clara, who is obsessed with imitating her dead mother, struggles to preserve her deteriorating sanity. Each day she edges nearer to a total break with reality. Interweaving pop culture references and horror concepts drawn from from Herman

Melville, H. P. Lovecraft, and anonymous
“creepypastas,” Jawbone is an ominous,
multivocal novel that explores the terror
inherent in the pure potentiality of adolescence

and the fine line between desire and fear.
