*Tom Kundig: Houses* - Dung Ngo 2006-11-09

"Architect Tom Kundig is known worldwide for the originality of his work. This paperback edition of *Tom Kundig: Houses*, first published in

2006, collects five of his most prominent early residential projects, which remain touchstones for him today. In a new preface written for this edition, Kundig reflects on the influence that these designs continue to have on his current thinking. Each house, presented from conceptual sketches through meticulously realized details, is the product of a sustained and active collaborative process among designer, builder, and client. The work of the Seattle-based architect has been called both raw and refined--disparate characteristics that produce extraordinarily inventive designs inspired by both the industrial structures ubiquitous to his upbringing in the Pacific Northwest and the vibrant craft cultures that are fostered there." --

Practical Jinn Magick - Corwin Hargrove  
2018-07-18

Jinn Magick is simple to execute, and the results can be some of the best you will find in all occultism. Much has been written about The Fire Spirits, known as the Jinn (or Djinn), but

books of practical Jinn Magick are rare. Hardly any exist, and those that do are often a disappointment. This book reveals a practical method for calling on the Jinn and receiving a response. There are forty-two rituals, and the magick can help with influence and passion or destruction and transformation. The rituals deal with reputation and the souring of love. Some rituals affect competition, uncover flaws, weaken others, improve your discipline or make somebody else burn out. Where you feel stuck, you can find release, and there are ways to create more abundance or make somebody else lose what they have. Rituals can create obsessive thoughts in others and make people see the best in you or the worst in another. They can help you seduce or cause somebody to be sexually disgusted by another person. Financial magick works to increase what you have and can make people appreciate your work or make others lose what money they have. There's great potential if you use your imagination. The magick can be

subtle and delicate or life-changing and devastating, according to your wish. Most of the rituals can be modified and are directed at clear, practical results. The Jinn are neither angels or demons, but fire spirits, and they execute your magickal wishes with immense power. The magick may only work half the time, but when it does, it works with alarming intensity. The book is expensive, but that's because there's decades of research in here and these secrets should not be given to those who don't value them. Pay a fair price, do the work well, and you will get what you want.

A psychological thriller. Sometimes the smallest of human failings can lead to the greatest of disasters On a wretchedly cold night in the North Atlantic, a steamer stopped in an icefield sees the glow of another ship on the horizon. American reporter John Steadman lays eyes on the man who stood the midnight watch on the Californian, he knows there's another story lurking behind the official one. Herbert Stone must have seen something, and yet his ship did nothing while the calamity took place. Now Stone, under his captain's orders, must carry his secret in silence, while Steadman is determined to find it out. So begins a strange dance around the truth by these three men. Haunted by the fifteen hundred who went to their deaths in those icy waters, and by the loss of his own baby son years earlier, Steadman must either find redemption in the Titanic's tragedy or lose himself.
