The Modernist Papers - Fredric Jameson
2016-03-08

Cultural critic Fredric Jameson, renowned for his incisive studies of the passage of modernism to postmodernism, returns to the movement that dramatically broke with all tradition in search of progress for the first time since his acclaimed *A Singular Modernity*. *The Modernist Papers* is a tour de force of analysis and criticism, in which Jameson brings his dynamic and acute thought to bear on the modernist literature of the nineteenth and twentieth centuries. Jameson discusses modernist poetics, including intensive discussions of the work of Baudelaire, Rimbaud, Mallarmé, Wallace Stevens, Joyce, Proust, and Thomas Mann. He explores the peculiarities of the American literary field, taking in William Carlos Williams and the American epic, and examines the language theories of Gertrude Stein. Refusing to see modernism as simply a Western phenomenon he also pays close attention to its Japanese expression; while the complexities of a late modernist representation of twentieth-century politics are articulated in a concluding section on Peter Weiss's novel *The Aesthetics of Resistance*. Challenging our previous understanding of the literature of this period, this monumental work will come to be regarded as the classic study of modernism.

European Warfare, 1350-1750 - Frank Tallett 2010-01-28

The period 1350-1750 saw major developments in European warfare, which not only had a huge impact on the way wars were fought, but also are critical to long-standing controversies about state development, the global ascendancy of the West, and the nature of 'military revolutions' past and present. However, the military history of this period is usually written from either medieval or early-modern, and either Western or Eastern European, perspectives. These chronological and geographical limits have produced substantial confusion about how the conduct of war changed. The essays in this book provide a comprehensive overview of land and sea warfare across Europe throughout this period of momentous political, religious, technological, intellectual and military change. Written by leading experts in their fields, they not only summarise existing scholarship, but also present new findings and new ideas, casting new light on the art of war, the rise of the state, and European expansion.

The Wisdom of Whores: Bureaucrats, Brothels, and the Business of AIDS - Elizabeth Pisani 2008-06-17

A flame-throwing epidemiologist talks about sex, drugs, and the mistakes (dismal), ideologies (vicious), and hopes (realistic) of international AIDS prevention. When people ask Elizabeth Pisani what she does for a living, she says, "sex and drugs." As an epidemiologist researching AIDS, she's been involved with international efforts to halt the disease for fourteen years.

With swashbuckling wit and fierce honesty, she dishes on herself and her colleagues as they try to prod reluctant governments to fund HIV prevention for the people who need it most—drug injectors, gay men, sex workers, and johns. Pisani chats with flamboyant Indonesian transsexuals about their boob jobs and watches Chinese streetwalkers turn away clients because their SUVs aren't nice enough. With verve and clarity, she shows the general reader how her profession really works; how easy it is to draw wrong conclusions from "objective" data; and, shockingly, how much money is spent so very badly. "Exhibit A": the 45 billion taxpayer dollars the Bush administration is committing to international AIDS programs.

The Critical Response to Truman Capote - Joseph J. Waldmeir 1999

One of the most controversial American authors of the twentieth century, Truman Capote is best known as the author of *In Cold Blood* (1966), a work of literary journalism that recounts the slaughter of the Clutter family in Holcomb, Kansas, in 1959. But he also wrote numerous short stories, dozens of nonfiction pieces for popular magazines, several other novels, and some works for Hollywood and Broadway. Since his death in 1984, scholarly interest in his writings has grown considerably. This volume traces the critical reception of his works. Included are previously published reviews and

essays, along with some pieces written specifically for this book. The volume is divided into several sections on broad topics. Each section is organized chronologically and traces both the development of Capote's talents and the evolution of critical attitudes toward his work. A comprehensive introduction charts the history of Capote's critical reception, and extensive bibliographic material records the present state of scholarship.

Aesthetic Subjects - Pamela R. Matthews 2003

Recent calls for a return to aesthetics occur precisely at a moment when it is increasingly evident that nothing concerning aesthetics is self-evident anymore. Determined to recover the value of aesthetic experience for artistic, cultural, and social analysis, the contributors to this volume--prominent scholars in literature, philosophy, art history, architecture, history, and anthropology--begin from a shared recognition that ideological readings of the aesthetic have provided invaluable insights, in particular, that analyses of aesthetics within historical and social contexts tell us a great deal about the experience of aesthetic encounters. From multiple and complementary perspectives, the contributors address topics as varied as Nabokov and Dickens, Caravaggio and Shelley Winters, gender and sexuality, advertising and AIDS. Taken together, their essays constitute a sustained and multifarious effort to resituate aesthetic pleasure in the mixed, impure conditions characteristic of every social practice

and experience, however privileged or marginalized, and to ask what happens to the aesthetic if we consider it apart from--or at least in tension with--its historically dominant discursive formulations. As such, this volume establishes a renewed sense of aesthetic discourse and its usefulness as a tool for understanding culture.

The Literary Protégées of the Lake Poets -
Mr Dennis Low 2013-04-28

Dennis Low's re-evaluation of the Lake Poets as mentors begins with the controversial premise that Robert Southey was one of the nineteenth-century's greatest champions of women's writing. Together with Wordsworth and Coleridge, Low argues, Southey tried to end what he perceived to be the cultural decline of literature by nurturing the creative talents of many exceptional women writers. Drawing on 3,000 unpublished manuscripts in England, Scotland and the United States, Low examines the lives and works of four of the Lake Poets' literary protégées: Caroline Bowles, Maria Gowen Brooks, Sara Coleridge and Maria Jane Jewsbury. Though diverse in terms of their literary production, these women were united in their defiant efforts to write against an

increasingly stagnant cultural milieu and their negotiation, wholeheartedly encouraged by their mentors, of contemporary publishing mores.

This scrupulously researched book is a valuable contribution to the study of little-known women writers and to our understanding of the literary and publishing environment of Britain in the 1820s and 1830s.

Pragmatism, Old And New - Susan Haack
2011-02-10

The most likely use for Haack's volume will be in introductory pragmatism courses and it is eminently appropriate for this task. However, others who would wish to speak out about pragmatism authoritatively would do well to go through the book from cover to cover. Outside of philosophy, the volume provides an introduction to a vital aspect of what philosophy has to offer to other disciplines, psychology among them....it is hard to think what could have been done to improve upon the collection.-

Metapsychology
Morris R. Cohen once described pragmatism as a philosophy for people who cannot think; and Bertrand Russell feared that pragmatism would lead philosophy into cosmic impiety. Nothing could be further from the truth. Pragmatism was one of the most fruitful philosophical movements of the late nineteenth century, and has continued to be a significant influence on some of the major figures in philosophy - F. P. Ramsey, W. V. Quine, Sidney Hook, Nelson Goodman, Hilary Putnam, and many others. Today some even speak of a remarkable renaissance of pragmatism. Very often, though, what they have in mind is not the rich heritage of the classical pragmatist tradition, but a radical self-styled neo-pragmatism that has of late transmuted the reformist aspirations of classical pragmatism into a kind of revolutionary anti-intellectualism - a radical neo-pragmatism that seems to confirm Russell's worst fears. Asking what we can learn from the older pragmatist tradition, and what we can salvage from the intellectual shipwreck of the new, Susan Haack, with the assistance of Robert Lane, has put together a wide-ranging anthology that tells the story of the evolution of pragmatism from its origins in C. S. Peirce's hopes of making philosophy more scientific and William James's of unstiffening our theories, to the radical literary-political neo-pragmatism

recently popularized by Richard Rorty. Opening with a history of pragmatism from its inception to the present day, and closing with Haack's famous interview with Peirce and Rorty, the book presents a broad and diverse selection of pragmatist writings - classical and contemporary, reformist and revolutionary - on logic, metaphysics, theory of inquiry, philosophy of mind, philosophy of religion, aesthetics, philosophy of education, and moral, social, and political philosophy. Susan Haack (Coral Gables, FL) is Cooper Senior Scholar in Arts and Sciences, professor of philosophy, and professor of law at the University of Miami. She is the author of numerous highly acclaimed books including *Defending Science-Within Reason*; *Philosophy of Logics*; *Evidence and Inquiry*; *Deviant Logic, Fuzzy Logic: Beyond the Formalism*; and *Manifesto of a Passionate Moderate: Unfashionable Essays*. Robert Lane (Carrollton, GA) is assistant professor of philosophy at the University of West Georgia. He has published on American philosophy, the history of logic, and ethics.

The Future of the Book - Geoffrey Nunberg 1996-12-19

A dozen essays from a July 1994 conference at the University of San Marino argue that a total

shift to electronic information media would trigger wrenching social and cultural dislocations. Among their perspectives are the pragmatics of the new, farewell to the information age, toward meta-reading, hypertext and authorship, and the body of the text. They avoid the usual fetish arguments such as curling up in bed or leather bindings and pipes. Novelist Umberto Eco provides an afterward. No index or word search.
