Designed for an introductory,
one-semester course, the

scope, organization, writing
style, depth of presentation,
and pedagogical aspects of this
text have been tailored to meet
the needs of students
preparing for a career in allied
health. This text does not
assume any prior science
knowledge on the part of the
student and effectively
presents students with the
fundamentals of anatomy and
physiology. It's the only one-

semester text available with a built-in study guide/workbook. A hallmark feature of this text is the author's presentation of A&P concepts that are accurate, but presented at a level that is appropriate for virtually all students. Stan Gunstream highlights the relationships between structure and function of body parts and the mechanisms of homeostasis. In addition, interrelationships of the organ systems are noted where appropriate and useful. Without the excessive detail of some of the longer A & P texts, students can better comprehend key critical concepts in each important area of study. Users who purchase Connect receive access to the full online eBook version of the textbook.

Explorations in Basic Biology -

Stanley E. Gunstream 2011-02

Explorations in Basic Biology is a self-contained laboratory manual designed for one- or two-semester introductory

biology courses for non-biology and mixed biology majors. The exercises are appropriate for three-hour laboratory sessions, but are also adaptable to a two-hour laboratory format. Ideal for students with little hands-on science laboratory experience, this student-friendly text provides clear background information and directions for conducting laboratory activities. Students not only learn basic biological information but also gain experience practicing laboratory techniques. The Twelfth Edition has been updated with new content, including several new or modified figures and procedures that have been clarified wherever necessary to facilitate student learning, a new Appendix, and guidelines for writing a scientific paper. Several exercises also feature significant improvements. [Tuning Fork Therapy](#) and [Fibromyalgia](#) - Francine Milford 2014-11-21
The *Tuning Fork Therapy(R)* and *Fibromyalgia* book tries to bring pain relief and healing to

those who suffer from this often debilitating condition. Readers will learn what the most recent studies are concluding about this condition and how this knowledge can be of benefit to sufferers. A chapter on how to locate professional researched studies is also included so that readers will be able to follow all current and future trends in the study of fibromyalgia. This book will guide you on how to use your tuning forks on a variety of sensitive points on the body to bring about relief. All diagrams and directions are written in an easy to read, understand and follow format. Also included in the book is a chapter on aromatherapy and how specific essential oils can be used to help a host of symptoms.

Toward Conformity to the Image of Christ - Fred R.

Johnson 2004-11

This two-volume work under the title, *Toward Conformity to the Image of Christ*, was initially prepared for upper division college students preparing for some branch of ministry. Volume One is subtitled, *A Biblical Pattern of Spiritual Formation*. God's moral nature is the perfect pattern, the human personality is the place for the pattern, and the problem of sin shatters the pattern. Volume Two is subtitled, *A Biblical Product of Spiritual Formation*. It shows that Spiritual Formation is the product of both the work of the Holy Spirit and of individual believers to develop personal character that resembles that of Jesus. After answering a variety of questions and objections, then the product is put to use in living out the Christian life in day to day activities. College religion faculty, pastors, evangelists, Youth Ministers, Church musicians, Christian Education Specialists, etc. would be

interested in the books.
