Each title provides complete curriculum coverage with clearly marked exam board labels so students can easily adapt the content to fit the course they are studying. Revise GCSE is an ideal course companion throughout a student's GCSE study and acts as the ultimate Study Guide throughout their revision.

Edexcel GCSE (9-1) Design & Technology - Mj Ross 2019-06-03

This is a complete text that provides detailed and concise coverage of all the topics and disciplines covered in the new Edexcel 1DT0 Design and Technology (9-1) specification, written and presented in a way that is accessible to teenagers and easy to teach from. It will be invaluable both

as a course text and as a revision guide for students nearing the end of their course. It is divided into neat sections covering every element of the specification. Sections 6-1 to 6-6 of the textbook cover each of the six specialist material categories. These sections would complement practical classroom experience.

WJEC Eduqas GCSE (9-1) Design and Technology - Ian Fawcett
2019-02-18

Exam board: WJEC Eduqas Level: GCSE Subject: Design & Technology
First teaching: September 2017 First exams: Summer 2019 Reinforce classroom learning and boost students' understanding of all materials with this textbook written for the WJEC Eduqas GCSE (9-1) Design & Technology specification. Written by leading D&T experts, this textbook will build your students' knowledge of the core principles, help to develop their designing and making skills and provide them with the opportunity to make sure they are ready to tackle both parts of the assessment. - Helps students clearly understand the core principles of all materials and general concepts of designing and making, as well as build their knowledge, understanding and skills for one material or system in more depth - Honours students' mathematical and scientific ability so they don't miss out on the easy marks - Features practice questions in the style of the written exam to make sure students are confident to tackle the written element of the assessment - Inspires and motivates students with stretch and challenge: activities designed to challenge the more able learners and to ensure progression to A-level

Resistant Materials Technology - Barry Lambert 2002

A student book covering the coursework and requirements of the four main sections of the GCSE Design and Technology course. Includes practice examination questions.

GCSE Design and Technology - Jane Down 2001

"GCSE Design and Technology: Textiles Technology through Diagrams" joins the acclaimed Oxford Revision Guides series which builds on the fact that pictures are easier to memorize than words. All the necessary facts, figures, content, and concepts are presented in diagrammatic form. This unique visual approach to learning means that students can

absorb the information easily and effectively. Help for coursework: Unlike most other Guides, "Textiles Technology through Diagrams" also helps students with their coursework. With 60% of the total marks at GCSE being awarded for coursework the revision guide contains a chapter devoted to the skills needed for success in this area.

New GCSE English Language AQA Workbook - For the Grade 9-1 Course (Includes Answers) - CGP Books 2015-08-10

This revision guide has been written to match the specification of the subject and is designed to reinforce exactly what the students need to know. It includes practice questions and tests to familiarise students with the exam style and build confidence.

Assessing 21st Century Skills - National Research Council 2011-09-16

The routine jobs of yesterday are being replaced by technology and/or shipped off-shore. In their place, job categories that require knowledge management, abstract reasoning, and personal services seem to be growing. The modern workplace requires workers to have broad cognitive and affective skills. Often referred to as "21st century skills," these skills include being able to solve complex problems, to think critically about tasks, to effectively communicate with people from a variety of different cultures and using a variety of different techniques, to work in collaboration with others, to adapt to rapidly changing environments and conditions for performing tasks, to effectively manage one's work, and to acquire new skills and information on one's own. The National Research Council (NRC) has convened two prior workshops on the topic of 21st century skills. The first, held in 2007, was designed to examine research on the skills required for the 21st century workplace and the extent to which they are meaningfully different from earlier eras and require corresponding changes in educational experiences. The

second workshop, held in 2009, was designed to explore demand for these types of skills, consider intersections between science education reform goals and 21st century skills, examine models of high-quality science instruction that may develop the skills, and consider science teacher readiness for 21st century skills. The third workshop was intended to delve more deeply into the topic of assessment. The goal for this workshop was to capitalize on the prior efforts and explore strategies for assessing the five skills identified earlier. The Committee on the Assessment of 21st Century Skills was asked to organize a workshop that reviewed the assessments and related research for each of the five skills identified at the previous workshops, with special attention to recent developments in technology-enabled assessment of critical thinking and problem-solving skills. In designing the workshop, the committee collapsed the five skills into three broad clusters as shown below: Cognitive skills: nonroutine problem solving, critical thinking, systems thinking Interpersonal skills: complex communication, social skills, team-work, cultural sensitivity, dealing with diversity Intrapersonal skills: self-management, time management, self-development, self-regulation, adaptability, executive functioning Assessing 21st Century Skills provides an integrated summary of the presentations and discussions from both parts of the third workshop.

Statistics - Greg Attwood 2001

A syllabus-specific textbook providing worked examples, exam-level questions and many practice exercises, in accordance to the new Edexcel AS and Advanced GCE specification.
