1001 Nights - Richard Francis Burton
2022-01-04

"In tide of yore and in time long gone before, there was a King of the Kings of the Banu Sásán in the Islands of India and China, a Lord of armies and guards and servants and dependents . . . So he succeeded to the empire; when he ruled the land and forded it over his lieges with justice so exemplary that he was beloved by all the peoples of his capital and of his kingdom."

The Book of the Thousand Nights and A Night is a collection of Middle Eastern, West Asian and South Asian stories and folk tales compiled in Arabic during the Islamic Golden Age. It is often known in English as the Arabian Nights. God Or Allah, Truth Or Bull? - Richard Woo
2011

Is there a perfect being? Is everything in the universe a creation of God, the so-called Intelligent Designer? Is there a providential divinity watching over the human drama and occasionally revealing information to us

supernaturally? Writing about God and religious issues can attract adverse reactions from people, and one can never be sure of the kind of reception that may ensue even if one's arguments appear to be nothing less than logical. I hope this book will imbue in you a realization that there are no logical arguments for the existence of God or any god, apart from wishy-washy propositions that say little or nothing, and that no empirical evidence has ever been offered in support. Arguments must be decided on the basis of their being factual or non-factual, persuasive or unpersuasive, logical or illogical. Reason is a far more reliable or effective tool than a mountain of faith, especially if faith means adhering blindly to one's religious teachings or dogma. Arguably, whether life is meaningful, whether there is a purpose to the universe, or whether there is a paradise waiting for us after we are buried or cremated are questions that will have to rest with each individual. Thus, if there are any truths to be found in this book, it is for you, the reader, to decide. Before he retired, Richard Woo was in international banking. Today he lives in Singapore, and is an avid reader on topics concerning science, politics, and religion.

God is Not Enough, Messiah Needed - Sam Oputa

The Bible describes a whole lot of toys and technologies that our forefathers thought were magical and divine. Some of the toys were created to do the Gods' desires. Man is part of such toys and just like man, other toys were desired and created. Sometimes, toys were used to design other toys. And, man thought that such toys were divine. Today, we are also designing other toys. We have designed toys that are now probing mars. We shall soon send other toys to other planets like the Gods sent toys to earth. But, man decided to ascribe to such toys -- divinity. Our forefathers were not confused. We are. There is indeed, nothing divine in the Bible. There is technology, science and more science-- not even magic or miracle. Now, imagine that your assignment is to write about what you observe for future generations. What a daunting job that would be! Will your observations make sense to those who come after you? This was the dilemma of messengers from ancient times. The Gods were wowing them with events they could not understand, and the people recorded what they saw. But, often we interpret these recordings without applying logic and science or both. For example, read Daniel Chapter 7. If that did not remind you of power rangers -- the TV series, you have not started to apply science and technology to Bible readings. Behold, in the Bible are the most technologies man is yet to understand. Many people believe what they believe because it is generally accepted. Some only accept interpretations that are confirmed by their version of The Holy Books, and they consider any use of reason in religious matters to be misleading and impermissible. According to such people, man is too mortal to understand

shocking conclusion. Robert Taft has written an excellent book. The author's premise that "Europe is in a predicament, and so is America" could not be more timely. - Jonathan Matusitz
Tripping with Allah - Michael Muhammad Knight
2013-03-01

If *Tripping with Allah* is a road book, it's a road book in the tradition of *2001: A Space Odyssey*, rather than *On the Road*. Amazonian shamanism meets Christianity meets West African religion meets Islam in this work of reflection and inward adventure. Knight, the "Hunter S. Thompson of Islamic literature" seeks reconciliation between his Muslim identity and his drinking of ayahuasca, a psychedelic tea that has been used in the Amazon for centuries. His experience becomes an opportunity to investigate complex issues of drugs, religion, and modernity. Though essential for readers interested in Islam or the growing popularity of ayahuasca, this book is truly about neither Islam nor ayahuasca.

Tripping with Allah provides an accessible look into the construction of religion, the often artificial borders dividing these constructions, and the ways in which religion might change in an increasingly globalized world. Finally, *Tripping with Allah* not only explores Islam and drugs, but also Knight's own process of creativity and discovery.

[The Case for God](#) - Karen Armstrong 2009-09-22

From the bestselling author of *A History of God* and *The Great Transformation* comes a balanced, nuanced understanding of the role religion plays in human life and the trajectory of faith in modern times. Why has God become incredible? Why is it that atheists and theists alike now think and speak about God in a way that veers so profoundly from the thinking of our ancestors? Moving from the Paleolithic Age to the present, Karen Armstrong details the lengths to which humankind has gone to experience a sacred reality that it called God, Brahman, Nirvana, Allah, or Dao. She examines the diminished impulse toward religion in our own time when a significant number of people either want nothing to do with God or question the efficacy of faith. With her trademark depth of knowledge and profound insight, Armstrong elucidates how the changing world has

necessarily altered the importance of religion at both societal and individual levels. And she makes a powerful, convincing argument for structuring a faith that speaks to the needs of our dangerously polarized age.

I Wonder as I Wander - Langston Hughes 2015-10-13

His wanderlust leads him to Cuba, Haiti, Russia, Soviet Central Asia, Japan, Spain (during its Civil War), through dictatorships, wars, revolutions. He meets and brings to life the famous and the humble, from Arthur Koestler to Emma, the Black Mammy of Moscow. It is the continuously amusing, wise revelation of an American writer journeying around the often strange and always exciting world he loves.

We Should Be One - Thomas David Rothbauer 2018-10-02

We Should Be One interweaves the Word of God as found in Jewish, Christian, and Islamic Scripture to reveal His messages more clearly, and to show His everlasting fidelity to all who accept them and properly apply them in their lives. It invites us to recognize that God has called all of us (the Chosen People, the Children of God, and the Party of Allah) to be united in our devotion to Him. It reveals how each of us might have misunderstood some of God's Word and suggests that in reading all of it, we might understand it better. It challenges people of each religion to recognize that we should not be enemies. We should be one -- united in the Word of God.

Quran - Talal Itani 2014-08-17

Perhaps the best Quran English translation. It is clear, easy to read, and very faithful to the Arabic original. It closely follows the Arabic text, and often reminds the reader of the Arabic original. It uses today's English language, and today's English vocabulary, thus it is easy to read and understand. The flow is smooth, the sentence structure is simple, the meaning is clear. This Quran translation has no interpretations, no footnotes, and no explanations. It is a pure translation of the Quran, from Arabic to English, and it does not

try to emphasize any school of thought. The text purely and accurately translates the Holy Quran, from Arabic, into contemporary English. It was translated by a Muslim, who saw firsthand the miracles inside the Quran. His native language is Arabic; his everyday language is American English. For 15 years, he studied the Quran. For many years, he translated speech between his mother and his wife. For a living, he develops quality software. This Quran translation is available in two editions. This edition (A) uses the word "Allah" to refer to the Creator. Edition (B) uses the word "God". Quran Sura 91. The Sun. ash-Shams. In the name of Allah, the Gracious, the Merciful. 1. By the sun and its radiance. 2. And the moon as it follows it. 3. And the day as it reveals it. 4. And the night as it conceals it. 5. And the sky and He who built it. 6. And the earth and He who spread it. 7. And the soul and He who proportioned it. 8. And inspired it with its wickedness and its righteousness. 9. Successful is he who purifies it. 10. Failing is he who corrupts it. 11. Thamood denied in its pride. 12. When it followed its most wicked. 13. The messenger of Allah said to them, "This is the she-camel of Allah, so let her drink." 14. But they called him a liar, and hamstrung her. So their Lord crushed them for their sin, and leveled it. 15. And He does not fear its sequel. The Quran is the last Book from the Creator. It contains guidance, mercy, and healing. The Quran is a blessing, within reach.

Islam - Adeel Zeerak 2012-09-01

One of the largest and fastest-growing religions, Islam is currently practiced by approximately one-fifth of the world's population. Unlike most religions that only consist of acts of worship, rituals, and a set of beliefs, it also offers a just socio-politico-economic system, which is especially important today as we continue to make significant material and scientific progress. However, although it presents real solutions to problems faced by the whole of mankind, factors such as worldwide media propaganda and the current condition of the Muslim community have seriously distorted the public image of Islam. Adeel Zeerak hopes that his book *Islam: A Superior System of Life* will help change all that. He says that after careful study, even those with non-Muslim unprejudiced minds will appreciate the beauty of his religion's teachings. To prove the superiority of Islamic system over other systems, he provides concrete data obtained from authentic sources and refrains from using boastful or exaggerative language. Chapters in *Islam: A Superior System of Life* include: • This is Islam • Characteristics of the Islamic System • Spiritual System • Social System • Economic System • Political System • The Prophet, peace be upon him, the Message, and the Ummah "Despite commendable progress in the field of science and technology, this world is full of evil, exploitation, and injustice," says Zeerak, who believes any effort to find a solution to our problems continually fails because we choose to ignore the light of Divine Guidance. We all know what happened to prophet Noah's people when they rejected this guidance, but we, thankfully, still exist in this world to follow our Lord and accept Islam. Written for the Muslim and non-Muslim, *Islam: A Superior System of Life* is for readers interested in Islam, the prophet Muhammad (PBUH), the Islamic view of women, the concept of Khilafat, Islamic finance, Islamic spirituality, and Islamic history. The author promises that our obedience to Allah, subhanahu wa-ta'ala, will result in endless favors and blessings both in this world and the hereafter.

The Mysteries of Allah and His Muhammad - Fatai Badmos 2016-12-02

The Mysteries of Allah and His Muhammad is indeed a scanty summary of a potentially great debate. However unwieldy or incomprehensible the actual details may be, certain contexts of the whole or part can always be identified for discussion. In the physique of mankind, Allah manifests. He does so on nature glaringly, just as is inferred from various sections of the book. Whilst He does, the divinity of a being "not more than a prophet" is also undoubtedly established. That co-joining of the One and Only Creator and a creation (a man, Muhammad), who coincidentally is most positively and negatively controversial, should interest those who consider man to be the meanest of God's creations. That we may not discount knowledge of any sort, even that considered most sacrilegious (science), God's inspiration to a mortal being (Muhammad) corroborates too many ideas put forth by scientists or intellectuals' discoveries and postulations. What a mystery that the lightbulb, which in theory and description was already encoded in the Quran more than a thousand years ago, before one bulb ever rolled out in a factory! Only simple minds take things for granted and give no thought to the grandiose schemes of our world and its elements. This book serves as a jolt to those who oversimplify "what is" or the mysterious.

In this anticipated follow-up book, Nabeel reveals what he discovered in the decade following his conversion, providing a thorough and careful comparison of the evidence for Islam and Christianity--evidence that wrenched his heart and transformed his life. Noticing how the world today is sinking into darkness as it did many times before through its

history, seeing how the Muslims are working hard against the message that Allah sent, how Christian created their own preaching and faith, how the Jews worked all of their lives against the LORD and the men that the LORD sent.

Mohammad Fawzi saw the need to do something, and this book is the first of many he is working on in hope he may be able to correct the mistakes done today from all the beliefs, he will also deal with the darkness of the Atheists. In a world full with darkness and evil done against the LORD, the need for those who have the truth is increasing, not the false truth some claim to have, but the genuine truth that is supported with solid proofs and convincing evidence. When the mission goes south and politics intrude on their plans, the team must rely on their wits—and guts—to survive. Can they make it...with a wounded team member and a female civilian in tow? Story Behind the Book "I met Chuck Holton a few years ago when he took my fiction classes at the Mount Hermon Christian Writers Conference. I enjoyed him because my life experience is so different from his. When it was time to develop a new fiction series, I thought it would be fun to combine his military background with my civilian background and write a series right out of today's headlines. He has basically written the male points of view, and I've done the female. Very challenging and great fun!" —Gayle Roper
