**Broken Jar** - Jan Doke 2009-07  
Broken Jar is for those who wish to be

transformed by the Potter from a showboat into an ark of testimony for Him. It is for earthen vessels who know that to be continually molded by His hands—even broken and reformed, if need be—is the only way to keep bearing His hallmark—the only way to continue glorifying the true Potter. From January through December, these daily devotionals, anchored deeply in the Word of God, ask challenging questions about growing pains and comfortable stagnation: - Are we allowing the Potter to do as He pleases with us, the clay? - Do we trust Him to put pressure where it is needed to mold us to His liking, or do we stiffen at and shrink from His touch? - When we arrive at a shape we like, do we grow so proud and possessive of this present form that we disengage ourselves from the wheel to harden into an independent and finished pot to remain permanently "fixed"? This book is for those jars who refuse to stay fixed. Jan Doke is a retired high school English/Bible Literature teacher. She lives in Belton, Texas with her

husband, Larry. When she is not writing, she enjoys studying and teaching the Bible, speaking at women's retreats, mentoring at a drug-rehab center, traveling, hiking, fishing, cooking, and playing with her five grandchildren. She has been published in Christian Woman magazine and is currently working on her first novel, Out of the Chute in Azalea Heights.

**Getting Relationships Right** - Melanie Joy

2020-01-29

Relationships are complicated. Yet it's an unfortunate reality that while most of us have to learn complex geometry that we'll probably never use, we don't get a single formal lesson in how to relate to others. In this one-stop guide, psychologist Melanie Joy reveals the common psychological dynamics that underlie all kinds of relationships—with a romantic partner, friends, family members, colleagues—in short, with anyone in any situation. Understanding these dynamics will help you make all your relationships healthier and more resilient.

Relationships are like bodies: they get sick when their immune system is weaker than the germs that stress them. Drawing on the most relevant research as well as on her own extensive experience as a psychologist, Joy explains how to strengthen your relational immune system to resist not only interpersonal stressors but also largely invisible yet potentially devastating societal stressors like racism and sexism. With

this understanding, you can cultivate relationships that consistently reflect core moral values and honor the dignity of everyone involved. Resilient relationships are not only a source of joy and fulfillment for those who are in them, they also support the thriving of the organizations and communities of which we all are a part.

**Language Function** - Ellyn Arwood 2011-05-15  
Literacy teaching tends to take a structural approach to language, focusing on auditory products or skills such as sounds, morphemes, words, sentences, and vocabulary. However, new research suggests that the majority of English speakers actually think and learn in visual concepts, and that there is a cultural and linguistic mismatch between auditory teaching methods and the way students think and learn.

This has important implications for all educators including those who work with students with neurogenic disabilities, such as autism spectrum disorders and ADHD. In her new book, Dr. Ellyn Lucas Arwood outlines a revolutionary four-tiered model of how a learner acquires language, and suggests ways to impose visual language functions onto an auditory language like English in order to improve learning for both neurotypical learners and those with neurogenic disabilities. Dr. Arwood provides tried-and-tested intervention strategies that work with all levels of ability, giving readers the knowledge and confidence to teach learners to become more literate in a way that raises learners' abilities to think and problem solve. This book takes a fresh look at how language and literacy interact, and will be of interest to educators and special educators, speech and language pathologists, and other professionals who support language learning and development.

[The Life of Jesus: Junior High Group Study](#) -

Kara Powell 2009-01-02

Who loves young teens more than they could ever imagine? Who longs to give them self confidence and a strong identity, to help them be what they were meant to be? Jesus. Help youth workers introduce young teens to the radical messages of Jesus. This study points students to the supernatural power of Jesus Christ and the lessons He taught, which still ring true today for young people. From the miracle of raising Lazarus to Christ's own resurrection and ascension, students will be filled with awe and amazement that the eternally powerful Christ wants a personal relationship with them. Key themes throughout show the balance Christ showed between His power to heal and to cast out demons, and His tenderness to love and care for His disciples and followers, and for us. His parables communicate a spiritual truth or religious principle through simple, but powerful, stories that students can relate to. The three four-week modules explain who Christ is, and

how each of us can follow His example to a fruitful and fulfilled life.

*Doing Ethics in Media* - Chris Roberts

2021-11-30

The second edition of *Doing Ethics in Media* continues its mission of providing an accessible but comprehensive introduction to media ethics, with a grounding in moral philosophy, to help students think clearly and systematically about dilemmas in the rapidly changing media environment. Each chapter highlights specific considerations, cases, and practical applications for the fields of journalism, advertising, digital media, entertainment, public relations, and social media. Six fundamental decision-making questions—the "5Ws and H" around which the book is organized—provide a path for students to articulate the issues, understand applicable law and ethics codes, consider the needs of stakeholders, work through conflicting values, integrate philosophic principles, and pose a "test of publicity." Students are challenged to be

active ethical thinkers through the authors' reader-friendly style and use of critical early-career examples. While most people will change careers several times during their lives, all of us are life-long media consumers, and *Doing Ethics in Media* prepares readers for that task. *Doing Ethics in Media* is aimed at undergraduate and graduate students studying media ethics in mass media, journalism, and media studies. It also serves students in rhetoric, popular culture, communication studies, and interdisciplinary social sciences. The book's companion website—[doingethicsin.media](http://doingethicsin.media), or [www.doingmediaethics.com](http://www.doingmediaethics.com)—provides continuously updated real-world media ethics examples and collections of essays from experts and students. The site also hosts ancillary materials for students and for instructors, including a test bank and instructor's manual.

**Women in Combat** - United States. Congress. House. Committee on Armed Services. Military Forces and Personnel Subcommittee 1994

**RELATIONSHIPS** - Dr. Danna Brissie  
2014-06-06

This book evolved from years of practice of a psychotherapist treating hundreds of individuals and couples. After several years, Dr. Brissie began to notice patterns in the problems of couples and devised a theory as to why relationships fail and developed solutions which proved successful in her practice. The most popular part of the book is an identification of roles individuals assume in their primary relationships with their spouses or significant others. For example a Critical (controlling) person usually chooses a Rebellious (Passive or Aggressive) person. A Rescuer chooses a Compliant person; both groups could never understand how they were ever attracted to each other or complained "he/she is not the same person I first met." After couples were able to see these characteristics in themselves and others, they learned to better communicate and work on undesirable behaviors. Most couples

learned the greatest enemy to a relationship is "built resentment" by one or both parties, thus making communication a vital part of a healthy relationship. The realities of divorce is also included in the book describing the ultimate impact on all members of the family and the families of origin. Another part of the book is designed to help individuals gain insight into knowing themselves better, thus improving communications skills and improving all relationships. No self help book is complete without helping readers improve their self esteem and educating them about how therapy can help. The author presents suggestions for finding a good therapist. The book is written without psychological jargon thus making it easy to read and understand. Many find it excellent as a future reference. After the first publication, the author was invited to be a keynote speaker at McLean Hospital (one of Harvard's teaching hospitals)during a mental health week. The book is currently on Dr. Harville Hendrix's

recommended reading list. It remains timely after many years in our current social networking, multiple marriage, complex society. The author hopes you will find it helpful to you as it has been to the majority of her clients and readers.

**The Practice of Honor** - Danny Silk 2012-06-28  
Honor? In Today's World? A one-of-a-kind book in both subject and perspective! The Practice of

Honor is about reformation of honor—it is intended to disrupt your current model of authority! Jesus put it like this, “You know that the rulers of the Gentiles lord it over them, and those who are great exercise authority over them. *Making Habits, Breaking Habits* - Jeremy Dean  
2013-01-01

Say you want to start going to the gym or practicing a musical instrument. How long should it take before you stop having to force it and start doing it automatically? The surprising answers are found in *Making Habits, Breaking Habits*, a psychologist's popular examination of one of the most powerful and under-appreciated processes in the mind. Although people like to think that they are in control, much of human

behavior occurs without any decision-making or conscious thought. Drawing on hundreds of fascinating studies, psychologist Jeremy Dean busts the myths to finally explain why seemingly easy habits, like eating an apple a day, can be surprisingly difficult to form, and how to take charge of your brain's natural "autopilot" to make any change stick. Witty and intriguing, *Making Habits, Breaking Habits* shows how behavior is more than just a product of what you think. It is possible to bend your habits to your will -- and be happier, more creative, and more productive.

*The Message of the Prophets* - J. Daniel Hays  
2010-09-21

Christians sometimes approach the Old Testament with a mixture of awe and bewilderment, knowing that it contains pearls of wisdom, but unsure how to dive for them ... especially when it comes to the Prophets. In *The Message of the Prophets*, author J. Daniel Hays offers a scholarly, yet readable and student-friendly survey of the Old Testament prophetic literature that presents the message of each

prophet in its historical and its biblical context and then tracks that message through the New Testament to challenge readers with what it means for them today. Hays focuses on synthesizing the message of the prophets, which enables students to grasp the major contours of the prophetic books clearly and concisely. Hundreds of colorful pictures help to illustrate the historical and cultural background of the prophets. After identifying what the message meant for ancient Israel, Hays helps the readers to move toward theological application today, helping readers to gain a better understanding of God and the relationship between God and his people. *The Message of the Prophets* is essential for professors, students, and others seeking to understand the role that the OT prophets play in the Christian faith.
