2021-07-09

This book looks at agriculture, development, poverty and British rule in India, especially in the Patna Division in Bihar between c.1870–1920. It traces the economic influence of British policies and maps the impact of legal, administrative and scientific interventions to rural conditions and norms in the state. The book discusses British theories and policies of 'improvement', comparing them with Bihar's agricultural practice and socio-economic conditions to draw conclusions about rural impoverishment. Following on from his earlier book, *Ancient Rights and Future Comfort on the Bengal*

Tenancy Act of 1885, the author also presents case studies on famines, debts, canal and village irrigation, flood-protection and the cultivation and production of indigo, opium and sugar. He analyses extensive archival material to reflect on property law, scientific interventions, cropping patterns, trade and intermediaries. He examines the economic role of governments, Eurocentric development theories and the complex impact of development policy on agriculture and society in Bihar. The book will be of interest to academics and students of colonial history, modern Indian history, agrarian studies, economic history, sociology, and development studies. Ending British rule in Africa

- Carol Polsgrove 2017-03-01

On the eve of World War II, a small, impoverished group of Africans and West Indians in

London dared to imagine the unimaginable: the end of British rule in Africa. In books, pamphlets, and periodicals, they launched an anti-colonial campaign that used publishing as a pathway to liberation. West Indians George Padmore, C. L. R. James, and Ras Makonnen; Kenya's Jomo Kenyatta and Sierra Leone's I. T. A. Wallace Johnson -made their point: that colonial rule was oppressive and inconsistent with the democratic ideals Britain claimed at home. *Ending British Rule in Africa* draws on previously unexplored manuscript and archival collections to trace the development of this publishing community from its origins in George Padmore's American and Comintern years through the independence of Ghana in the 1957. This original study will be of interest to scholars and general readers interested in social movements, diaspora studies, empire and African history, publishing history, literary history, and cultural studies.

Representations of Indian Muslims in British Colonial Discourse - A. Padamsee
2005-08-02

This study questions current views that Muslims represented a secure point of reference for the British understanding of colonial Indian society. Through revisionary readings of a wide range of texts, it re-examines the basis of the British misperception of Muslim 'conspiracy' during the 'Mutiny'. Arguing that this belief stemmed from conflicts inherent to the secular ideology of the colonial state, it shows how in the ensuing years it produced representations ridden with paradox and requiring a form of descriptive segregation.

The Making of Mission Communities in East Africa -

Robert W. Strayer

The Making of Mission Communities in East Africa calls into question a number of common assumptions about the encounter between European missionaries and African societies in colonial Kenya. The book explores the origins of those communities associated with the Anglican Church Missionary Society from 1875 to 1935, examines the development within them of a "mission culture," probes their internal conflicts and tensions, and details their relationship to the larger colonial society.

Professor Strayer argues that genuinely religious issues were important in the formation of these communities, that missionaries were ambivalent in their attitudes toward modernizing change and the colonial state alike, and that mission communities possessed substantial attractions even in the face of competition with independent churches. Dr. John

Lonsdale of Trinity College, Cambridge has said that "It is a sensitive piece of revisionist history which breaks down the simple dichotomy of "missions" and "Africans" commonly found in earlier historiographies" and even in the period of profound crisis over female circumcision in Kikuyuland. In this, Professor Strayer shows convincingly how mission communities could be preserved from destruction by principled divisions between Africans as much as between their white missionaries. He has pursued themes rather than events and has therefore been able to make remarkably intimate observations of mission communities which were following their own internal patterns of growth, yet within the context of a deepening situation of colonial dependence.

Reordering the World -

Duncan Bell 2016-06-07

A leading scholar of British political thought explores the relationship between liberalism and empire. *Reordering the World* is a penetrating account of the complexity and contradictions found in liberal visions of empire. Focusing mainly on nineteenth-century Britain—at the time the largest empire in history and a key incubator of liberal political thought—Duncan Bell sheds new light on some of the most important themes in modern imperial ideology. The book ranges widely across Victorian intellectual life and beyond. The opening essays explore the nature of liberalism, varieties of imperial ideology, the uses and abuses of ancient history, the imaginative functions of the monarchy, and fantasies of Anglo-Saxon global domination. They are followed by illuminating studies of prominent thinkers, including J. A. Hobson, L. T. Hobhouse, John Stuart Mill, Henry

Sidgwick, Herbert Spencer, and J. R. Seeley. While insisting that liberal attitudes to empire were multiple and varied, Bell emphasizes the liberal fascination with settler colonialism. It was in the settler empire that many liberal imperialists found the place of their political dreams. *Reordering the World* is a significant contribution to the history of modern political thought and political theory. *Yemen Endures* - Ginny Hill 2017-08-01

Why is Saudi Arabia, the world's largest oil exporter, involved in a costly and merciless war against its mountainous southern neighbor Yemen, the poorest country in the Middle East? When the Saudis attacked the hitherto obscure Houthi militia, which they believed had Iranian backing, to oust Yemen's government in 2015, they expected an easy victory. They appealed for Western help and bought weapons worth billions of dollars from Britain and America; yet two years later the Houthis, a

unique Shia sect, have the upper hand. In her revealing portrait of modern Yemen, Ginny Hill delves into its recent history, dominated by the enduring and pernicious influence of career dictator Ali Abdullah Saleh, who ruled for three decades before being forced out by street protests in 2011. Saleh masterminded patronage networks that kept the state weak, allowing conflict, social inequality and terrorism to flourish. In the chaos that follows his departure, civil war and regional interference plague the country while separatist groups, Al-Qaeda and ISIS compete to exploit the broken state. And yet, Yemen endures.

Religion and Societies -

Carlo Caldarola 1982-01-01

The series Religion and Society (RS) contributes to the exploration of religions as social systems - both in Western and non-Western societies; in particular, it examines religions in their differentiation from, and intersection with, other cultural systems, such as art,

economy, law and politics. Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual, the religious imagination, constructions of tradition, iconography, or media. In addition, the formation of religious communities, their construction of identity, and their relation to society and the wider public are key issues of this series.

Inglorious Empire - Shashi Tharoor 2018-02

The Sunday Times Top 10 bestseller on India's experience of British colonialism, by the internationally-acclaimed author and diplomat Shashi Tharoor 'Tharoor's impassioned polemic slices straight to the heart of the darkness that drives all empires ... laying bare the grim, and high, cost of the British Empire for its former subjects. An essential read' Financial Times In the eighteenth century, India's share of the world economy was as large as Europe's. By 1947, after two centuries of British rule, it had decreased six-fold. The Empire blew rebels from cannon, massacred unarmed protesters, entrenched institutionalised racism, and caused millions to die from starvation. British imperialism justified itself as enlightened despotism for the benefit of the governed, but Shashi Tharoor takes

demolishes this position, demonstrating how every supposed imperial 'gift' - from the railways to the rule of law - was designed in Britain's interests alone. He goes on to show how Britain's Industrial Revolution was founded on India's deindustrialisation, and the destruction of its textile industry. In this bold and incisive reassessment of colonialism, Tharoor exposes to devastating effect the inglorious reality of Britain's stained Indian legacy.

Pharmacy and Professionalization in the British Empire, 1780-1970 -

Stuart Anderson 2021-10-22 Offering a valuable resource for medical and other historians, this book explores the processes by which pharmacy in Britain and its colonies separated from

medicine and made the transition from trade to profession during the nineteenth and twentieth centuries. When the Pharmaceutical Society of Great Britain was founded in 1841, its founders considered pharmacy to be a branch of medicine. However, the 1852 Pharmacy Act made the exclusion of pharmacists from the medical profession inevitable, and in 1864 the General Medical Council decided that pharmacy legislation was best left to pharmacists themselves. Yet across the Empire, pharmacy struggled to establish itself as an autonomous profession, with doctors in many colonies reluctant to surrender control over pharmacy. In this book the author traces the professionalization of pharmacy by exploring issues including collective action by pharmacists, the role of the state, the passage of legislation, the extension of education, and its separation from medicine. The author considers the extent to which

the British model of pharmacy shaped pharmacy in the Empire, exploring the situation in the Divisions of Empire where the 1914 British Pharmacopoeia applied: Canada, the West Indies, the Mediterranean colonies, the colonies in West and South Africa, India and the Eastern colonies, Australia, New Zealand, and the Western Pacific Islands. This insightful and wide-ranging book offers a unique history of British pharmaceutical policy and practice within the colonial world, and provides a firm foundation for further studies in this under-researched aspect of the history of medicine.

British Imperialism in Qajar Iran - H. Lyman Stebbins
2016-12-18

In 1888, there were just four British consulates in the country; by 1921 there were twenty-three. H. Lyman Stebbins investigates the development and consequences of British imperialism in Iran in a time of international rivalry, revolution and world war.

While previous narratives of Anglo-Iranian relations have focused on the highest diplomatic circles in Tehran, London, Calcutta and St. Petersburg, this book argues that British consuls and political agents made the vast southern borderlands of Iran the real centre of British power and influence during this period. Based on British consular archives from Bushihr, Shiraz, Sistan and Muhammarah, this book reveals that Britain, India and Iran were linked together by

discourses of colonial knowledge and patterns of political, military and economic control. It also contextualizes the emergence of Iranian nationalism as well as the failure and collapse of the Qajar state during the Iranian Constitutional Revolution and the First World War.

Understanding the Victorians - Susie L. Steinbach 2016-08-05
Understanding the Victorians paints a vivid portrait of this era of dramatic change, combining broad survey with close analysis and introducing students to the critical debates taking place among historians today. Encompassing all of Great Britain and Ireland over the whole of the Victorian period, it gives prominence to social and cultural topics alongside politics and economics and emphasises class, gender, and racial and imperial positioning as constitutive of human relations. This second edition is fully

updated throughout, containing a new chapter on leisure in the Victorian period, the most recent historiographical research in Victorian Studies, and enhanced coverage of imperialism and working-class life. Starting with the Queen Caroline Affair in 1820 and coming up to the start of World War I in 1914, Susie L. Steinbach uses thematic chapters to discuss and evaluate topics such as politics, imperialism, the economy, class, gender, the monarchy, arts and entertainment, religion, sexuality, religion, and science. There are also three chapters on space, consumption, and the law, topics rarely covered at this introductory level. With a clear introduction outlining the key themes of the period, a detailed timeline, and suggestions for further reading and relevant internet resources, this is the ideal companion for all students of the nineteenth century.
