New Roots for Agriculture - Wes Jackson 1980-01-01

"The plowshare may well have destroyed more options for future generations than the sword," writes Wes Jackson in a review of practices that have brought U.S. agriculture to the edge of disaster. Tillage has hastened the erosion of irreplaceable topsoil everywhere and a technology based on fossil fuels has increased yields for short-term profits, leaving crops ever more vulnerable to diseases, pests, and droughts. Such, says Jackson, is "the failure of success." As high-technology agriculture becomes more wasteful and expensive, more farmers are being forced off the land or into bankruptcy. ø Jackson's major solution calls for the development of plant combinations that yield food while holding the soil and re-newing its nutrients without plowing or applying fossil-fuel-based fertilizers or pesticides. His new way of raising crops, by working with the soil's natural systems, would keep the world's bread-basket producing perpetually.

Odes - Sharon Olds 2016-09-20

Following the Pulitzer prize-winning collection *Stag's Leap*, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.
