Comprehending as well as bargain even more than extra will have enough money each success. next to, the broadcast as without difficulty as keenness of this The Making Of The President 1964 can be taken as with ease as picked to act.

Making a World of Difference - National Academy of Engineering
2014-01-01

Fifty years ago, the National Academy of Engineering (NAE) was founded by the stroke of a pen when the National Academy of Sciences Council approved the NAE's articles of organization. Making a World of Difference commemorates the NAE anniversary with a collection of essays that highlight the prodigious changes in people's lives that have been created by engineering over the past half century and consider how the future will be similarly shaped. Over the past 50 years, engineering has transformed our lives literally every day, and it will continue to do so going forward, utilizing new capabilities, creating new applications, and providing ever-expanding services to people. The essays of Making a World of Difference discuss the seamless integration of engineering into both our society and our daily lives, and present a vision of what engineering may deliver in the next half century.

[Power and the Presidency in Kenya](#) - Anaïs Angelo 2019-10-31

The first study to use Jomo Kenyatta's political biography and presidency as a basis for examining the colonial and postcolonial history of Kenya.

The Making of the President 1968 - Theodore H. White 2010-10-05

"White unites a novelist's knack of dramatization and a historian's sense of significance with a synthesizing skill that grasps the reader by the lapels." —Newsweek The third book in Theodore H. White's landmark series, *The Making of the President 1968* is the compelling account of the turbulent 1968 presidential campaign, the assassinations of Robert F. Kennedy and Martin Luther King, Jr., and election of Richard Nixon.

White made history with his groundbreaking *The Making of the President 1960*, a narrative that won the Pulitzer Prize for revolutionizing the way that presidential campaigns were reported. Now, *The Making of the President 1968*—back in print, freshly repackaged, and with a new foreword by Chris Matthews—joins Theodore Sorensen's *Kennedy*, White's *The Making of the President 1960*, *1964*, and *1972*, and other classics in the burgeoning Harper Perennial Political Classics series.

[The Making of the President 1964](#) - Theodore H. White 2010-10-05

Theodore H. White's landmark *Making of the President* series revolutionized American political journalism, investing his subject with both epic scope and a fresh frankness about backroom political strategy that was unlike anything that had come before. In this second volume of his groundbreaking series, White offers an intimate chronicle of the 1964 campaign for the White House, from the earthshaking tragedy of President Kennedy's assassination through the battle for power between Lyndon B. Johnson and Barry Goldwater, whose candidacy paved the way for the modern conservative movement. White reports from within both campaigns, bringing to life a turbulent year in America's history and a furious contest between two tough and seasoned political pros.

Theodore H. White and Journalism as Illusion - Joyce Hoffmann
1995

Over the years, friends and advisers to Kennedy declared that they had never heard the president speak of Camelot. But White's article, which ran in *Life* magazine, created a myth that still endures in the popular consciousness.

Reagan's Path to Victory - Kiron K. Skinner 2004-12-01

In the last years of Ronald Reagan's life, his voluminous writings on politics, policy, and people finally emerged and offered a Rosetta stone by which to understand him. From 1975 to 1979, in particular, he delivered more than 1,000 radio addresses, of which he wrote at least 680 himself. When drafts of his addresses were first discovered, and a selection was published in 2001 as *Reagan, In His Own Hand* by the editors of this book, they caused a sensation by revealing Reagan as a prolific and thoughtful writer, who covered a wide variety of topics and worked out the agenda that would drive his presidency. What was missed in that thematic collection, however, was the development of his ideas over time. Now, in *Reagan's Path to Victory*, a chronological selection of more than 300 addresses with historical context supplied by the editors,

readers can see how Reagan reacted to the events that defined the Carter years and how he honed his message in the crucial years before his campaign officially began. The late 1970s were tumultuous times. In the aftermath of Vietnam and Watergate, America's foreign and domestic policies were up for grabs. Reagan argued against the Panama Canal treaties, in vain; against the prevailing view that the Vietnam War was an ignoble enterprise from the start; against détente with the Soviet Union; against the growth of regulation; and against the tax burden. Yet he was fundamentally an optimist, who presented positive, values-based prescriptions for the economy and for Soviet relations. He told many inspiring stories; he applauded charities and small businesses that worked to overcome challenges. As *Reagan's Path to Victory* unfolds, Reagan's essays reveal a presidential candidate who knew himself and knew his positions, who presented a stark alternative to an incumbent administration, and who knew how to reach out and touch voters directly. *Reagan's Path to Victory* is nothing less than a president's campaign playbook, in his own words.

Nixonland - Rick Perlstein 2010-07-29

An exciting e-format containing 27 video clips taken directly from the CBS news archive of a brilliant, best-selling account of the Nixon era by one of America's most talented young historians. Between 1965 and 1972 America experienced a second civil war. Out of its ashes, the political world we know today was born. *Nixonland* begins in the blood and fire of the Watts riots—one week after President Johnson signed the Voting Rights Act, and nine months after his historic landslide victory over Barry Goldwater seemed to have heralded a permanent liberal consensus. The next year scores of liberals were thrown out of Congress, America was more divided than ever—and a disgraced politician was on his way to a shocking comeback: Richard Nixon. Six years later, President Nixon, harvesting the bitterness and resentment borne of that blood and fire, was reelected in a landslide even bigger than Johnson's, and the outlines of today's politics of red-and-blue division became already distinct. Cataclysms tell the story of *Nixonland*: • Angry blacks burning down their neighborhoods, while suburbanites defend home and hearth with shotguns. • The civil war over Vietnam, the assassinations, the riot at the Democratic National Convention. • Richard Nixon acceding to the presidency pledging a new dawn of national unity—and governing more divisively than any before him. • The rise of twin cultures of left- and right-wing vigilantes, Americans literally bombing and cutting each other down in the streets over political differences. • And, finally, Watergate, the fruit of a president who rose by matching his own anxieties and dreads with those of an increasingly frightened electorate—but whose anxieties and dreads produced a criminal conspiracy in the Oval Office.

Playing with Fire - Lawrence O'Donnell 2017-11-07

From the host of MSNBC's *The Last Word* with Lawrence O'Donnell, an important and enthralling new account of the presidential election that changed everything, the race that created American politics as we know it today. The 1968 U.S. Presidential election was the young Lawrence O'Donnell's political awakening, and in the decades since it has remained one of his abiding fascinations. For years he has deployed one of America's shrewdest political minds to understanding its dynamics, not just because it is fascinating in itself, but because in it is contained the essence of what makes America different, and how we got to where we are now. *Playing With Fire* represents O'Donnell's master class in American electioneering, embedded in the epic human drama of a system, and a country, coming apart at the seams in real time. Nothing went according to the script. LBJ was confident he'd dispatch with Nixon, the GOP frontrunner; Johnson's greatest fear and real nemesis was RFK. But Kennedy and his team, despite their loathing of the president, weren't prepared to challenge their own party's incumbent. Then, out of nowhere, Eugene McCarthy shocked everyone with his disloyalty and threw his hat in the ring to run against the president and the Vietnam War. A revolution seemed to be taking place, and LBJ, humiliated and bitter, began to look mortal. Then RFK leapt in, LBJ dropped out, and all

hell broke loose. Two assassinations and a week of bloody riots in Chicago around the Democratic Convention later, and the old Democratic Party was a smoldering ruin, and, in the last triumph of old machine politics, Hubert Humphrey stood alone in the wreckage. Suddenly Nixon was the frontrunner, having masterfully maintained a smooth façade behind which he feverishly held his party's right and left wings in the fold, through a succession of ruthless maneuvers to see off George Romney, Nelson Rockefeller, Ronald Reagan, and the great outside threat to his new Southern Strategy, the arch-segregationist George Wallace. But then, amazingly, Humphrey began to close, and so, in late October, Nixon pulled off one of the greatest dirty tricks in American political history, an act that may well meet the statutory definition of treason. The tone was set for Watergate and all else that was to follow, all the way through to today. *Playing With Fire* is the perfect holiday gift!

Two Suns of the Southwest - Nancy Beck Young 2019

Two Suns of the Southwest boldly juxtaposes the divergent visions offered by Barry Goldwater and Lyndon Johnson during the 1964 presidential campaign.

The Making of the President 1964 - Theodore H. White 1965

China: the Roots of Madness - Theodore Harold White 1968

Based on the television documentary of the same name, this book tells the story of China from the tyranny of the Manchu emperors and the Boxer Rebellion to the tyranny of Communism and Mao.

Leadership - Doris Kearns Goodwin 2019-10-01

Now an epic documentary event on the HISTORY Channel! The illuminating, bestselling exploration on leadership from Pulitzer Prize-winning author and presidential historian Doris Kearns Goodwin, and also the inspiration for the HISTORY Channel multipart series *Abraham Lincoln* and *Theodore Roosevelt*. "After five decades of magisterial output, Doris Kearns Goodwin leads the league of presidential historians" (USA TODAY). In her "inspiring" (The Christian Science Monitor) *Leadership*, Doris Kearns Goodwin draws upon the four presidents she has studied most closely—Abraham Lincoln, Theodore Roosevelt, Franklin D. Roosevelt, and Lyndon B. Johnson (in civil rights)—to show how they recognized leadership qualities within themselves and were recognized as leaders by others. By looking back to their first entries into public life, we encounter them at a time when their paths were filled with confusion, fear, and hope. *Leadership* tells the story of how they all collided with dramatic reversals that disrupted their lives and threatened to shatter forever their ambitions. Nonetheless, they all emerged fitted to confront the contours and dilemmas of their times. At their best, all four were guided by a sense of moral purpose. At moments of great challenge, they were able to summon their talents to enlarge the opportunities and lives of others. Does the leader make the times or do the times make the leader? "If ever our nation needed a short course on presidential leadership, it is now" (The Seattle Times). This seminal work provides an accessible and essential road map for aspiring and established leaders in every field. In today's polarized world, these stories of authentic leadership in times of apprehension and fracture take on a singular urgency. "Goodwin's volume deserves much praise—it is insightful, readable, compelling: Her book arrives just in time" (The Boston Globe).

The Republican Party and American Politics from Hoover to Reagan - Robert Mason 2011-11-21

During a long period of the twentieth century, stretching from the Great Depression until the Reagan years, defeat generally characterized the electoral record of the Republican party. Although Republicans sometimes secured victory in presidential contests, a majority of Americans identified with the Democratic party, not the GOP. This book investigates how Republicans tackled the problem of their party's minority status and why their efforts to boost GOP fortunes usually ended in failure. At the heart of the Republicans' minority puzzle was the profound and persistent popularity of New Deal liberalism. This puzzle was stubbornly resistant to solution. Efforts to develop a Republican version of government activism met little success. Only the Democratic party's decline eventually created opportunities for Republican resurgence. This book is the first to offer a wide-ranging analysis of the topic, which is of central importance to any understanding of modern US political history.

Faith and the Presidency From George Washington to George W. Bush - Gary Scott Smith 2006-10-12

Publisher description

Lady Bird Johnson: Hiding in Plain Sight - Julia Sweig 2021-03-16
NEW YORK TIMES BESTSELLER • A magisterial portrait of Lady Bird

Johnson, and a major reevaluation of the profound yet underappreciated impact the First Lady's political instincts had on LBJ's presidency.
WINNER OF THE TEXAS BOOK AWARD • LONGLISTED FOR THE PEN/JACQUELINE BOGRAD WELD AWARD • "[An] extensive, engaging new biography . . . in the Caro mold . . . To those who do not know [Lady Bird's] story, Sweig's book will come as a revelation."—The New York Times
"This riveting portrait gives us an important revision of a long-neglected First Lady."—Blanche Wiesen Cook, author of *Eleanor Roosevelt*, Vols. 1-3
In the spring of 1964, President Lyndon B. Johnson had a decision to make. Just months after moving into the White House under the worst of circumstances—following the assassination of President John F. Kennedy—he had to decide whether to run to win the presidency in his own right. He turned to his most reliable, trusted political strategist: his wife, Lady Bird Johnson. The strategy memo she produced for him, emblematic of her own political acumen and largely overlooked by biographers, is just one revealing example of how their marriage was truly a decades-long political partnership. Perhaps the most underestimated First Lady of the twentieth century, Lady Bird Johnson was also one of the most accomplished and often her husband's secret weapon. Managing the White House in years of national upheaval, through the civil rights movement and the escalation of the Vietnam War, Lady Bird projected a sense of calm and, following the glamorous and modern Jackie Kennedy, an old-fashioned image of a First Lady. In truth, she was anything but. As the first First Lady to run the East Wing like a professional office, she took on her own policy initiatives, including the most ambitious national environmental effort since Teddy Roosevelt. Occupying the White House during the beginning of the women's liberation movement, she hosted professional women from all walks of life in the White House, including urban planning and environmental pioneers like Jane Jacobs and Barbara Ward, encouraging women everywhere to pursue their own careers, even if her own style of leadership and official role was to lead by supporting others. Where no presidential biographer has understood the full impact of Lady Bird Johnson's work in the White House, Julia Sweig is the first to draw substantially on Lady Bird's own voice in her White House diaries to place Claudia Alta "Lady Bird" Johnson center stage and to reveal a woman ahead of her time—and an accomplished politician in her own right.

Public Papers of the Presidents of the United States, Barack Obama - United States. President (2009-2017 : Obama) 2010

Fit for the Presidency? - Seymour Morris 2017-01-01

Every four years Americans embark on the ultimate carnival, the Super Bowl of democracy: a presidential election campaign filled with endless speeches, debates, handshakes, and passion. But what about the candidates themselves? In *Fit for the Presidency?* Seymour Morris Jr. applies an executive recruiter's approach to fifteen presidential prospects from 1789 to 1980, analyzing their résumés and references to determine their fitness for the job. Were they qualified? How real were their actual accomplishments? Could they be trusted, or were their campaign promises unrealistic? The result is a fresh and original look at a host of contenders from George Washington to William McAdoo, from DeWitt Clinton to Ronald Reagan. Gone is the fluff of presidential campaigns, replaced by broad perspective and new insights on candidates seeking the nation's highest office.

A Time for Choosing - Ronald Reagan 1983

Speeches explore a variety of political and social issues, including tax reform, the conservative movement, nuclear disarmament, and the growth of government

The Belmont report - United States. National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research 1978

Renegade - Richard Wolffe 2009-06-02

Before the White House and Air Force One, before the TV ads and the enormous rallies, there was the real Barack Obama: a man wrestling with the momentous decision to run for the presidency, feeling torn about leaving behind a young family, and figuring out how to win the biggest prize in politics. This book is the previously untold and epic story of how a political newcomer with no money and an alien name grew into the world's most powerful leader. But it is also a uniquely intimate portrait of the person behind the iconic posters and the Secret Service code name *Renegade*. Drawing on a dozen unplugged interviews with the candidate and president, as well as twenty-one months covering his campaign as it traveled from coast to coast, Richard Wolffe answers the

simple yet enduring question about Barack Obama: Who is he? Based on Wolfe's unprecedented access to Obama, *Renegade* reveals the making of a president, both on the campaign trail and before he ran for high office. It explains how the politician who emerged in an extraordinary election learned the personal and political skills to succeed during his youth and early career. With cool self-discipline, calculated risk taking, and simple storytelling, Obama developed the strategies he would need to survive the onslaught of the Clintons and John McCain, and build a multimillion-dollar machine to win a historic contest. In *Renegade*, Richard Wolfe shares with us his front-row seat at Obama's announcement to run for president on a frigid day in Springfield, and his victory speech on a warm night in Chicago. We fly on the candidate's plane and ride in his bus on an odyssey across a country in crisis; stand next to him at a bar on the night he secures the nomination; and are backstage as he delivers his convention speech to a stadium crowd and a transfixed national audience. From a teacher's office in Iowa to the Oval Office in Washington, we see and hear Barack Obama with an immediacy and honesty never witnessed before. *Renegade* provides not only an account of Obama's triumphs, but also examines his many personal and political trials. We see Obama wrestling with race and politics, as well as his former pastor Reverend Jeremiah Wright. We see him struggling with life as a presidential candidate, a campaign that falters for most of its first year, and his reaction to a surprise defeat in the New Hampshire primary. And we see him relying on his personal experience, as well as meticulous polling, to pass the presidential test in foreign and economic affairs. *Renegade* is an essential guide to understanding President Barack Obama and his trusted inner circle of aides and friends. It is also a riveting and enlightening first draft of history and political psychology.

The Making of the President, 1964 - Theodore Harold White 1967

The President's Book of Secrets - David Priess 2016-03-01
Every president has had a unique and complicated relationship with the intelligence community. While some have been coolly distant, even adversarial, others have found their intelligence agencies to be among the most valuable instruments of policy and power. Since John F. Kennedy's presidency, this relationship has been distilled into a personalized daily report: a short summary of what the intelligence apparatus considers the most crucial information for the president to know that day about global threats and opportunities. This top-secret document is known as the President's Daily Brief, or, within national security circles, simply "the Book." Presidents have spent anywhere from a few moments (Richard Nixon) to a healthy part of their day (George W. Bush) consumed by its contents; some (Bill Clinton and George H. W. Bush) consider it far and away the most important document they saw on a regular basis while commander in chief. The details of most PDBs are highly classified, and will remain so for many years. But the process by which the intelligence community develops and presents the Book is a fascinating look into the operation of power at the highest levels. David Priess, a former intelligence officer and daily briefer, has interviewed every living president and vice president as well as more than one hundred others intimately involved with the production and delivery of the president's book of secrets. He offers an unprecedented window into the decision making of every president from Kennedy to Obama, with many character-rich stories revealed here for the first time.

Breach of Faith - Theodore White 2016-01-16

Includes half title page and table of contents.

Public Papers of the Presidents of the United States, George W. Bush - United States. President (2001-2009 : Bush) 2003

A Glorious Disaster - J. William Middendorf II 2008-04-01

Barry Goldwater's 1964 run for the presidency was one of the major political turning points of the twentieth century: The policy positions and electoral strategies of that campaign have become standard tenets of Republican politics. A member of the "Draft Goldwater" movement as early as 1962, Bill Middendorf had better than a ringside seat for this pivotal event and knows its inside story better than anyone else. *A Glorious Disaster* tells that story in all its rollicking, agonizing, and never-before-published detail.

In Search of History - Theodore Harold White 1979

White recalls his own career at home and abroad over the past forty years, the famous men and women he has written about and known, and the triumphs and shortfalls of the American system.

1960: LBJ vs. JFK vs. Nixon - David Pietrusza 2018-09-04

"1960 aims to take us deeper into the campaign than Theodore White's famous *The Making of the President, 1960*. And it does."—Chicago Sun-

Times This is award-winning historian David Pietrusza's hard-edged account of the 1960 presidential campaign, the election that ultimately gave America "Camelot" and its tragic aftermath. It is the story of the bare-knuckle politics of the primaries; the party conventions' backroom dealings; the unprecedented television debates; the hot-button issues of race, religion, and foreign policy—and, at the center of it all, three future presidents: Lyndon Johnson, John F. Kennedy, and Richard Nixon. "Terrific." —Robert A. Caro, winner of two Pulitzer Prizes and the National Book Award "A stirring, hard-edged political saga... An outstanding reexamination."—Booklist "1960 provides new insights into that year's hard-fought, pivotal election, but, more than that, 1960 is great storytelling—a fascinating, can't-put-it-down account of how American politics really works."—former United States Attorney General Richard Thornburgh "Essential for understanding the political forces that in many ways shaped the world we live in today." —David Mark, author of *Going Dirty: The Art of Negative Campaigning*

Liberalism's Last Hurrah - Robert H Donaldson 2015-04-08

Marked by sharp ideological divisions over civil rights, Vietnam, and federal power, the 1964 presidential campaign between Democrat Lyndon Johnson and Republican Barry Goldwater proved a watershed election in American history. Although Johnson defeated Goldwater in a landslide and liberalism seemed to ride triumphant, the liberal wave crashed almost immediately and conservatives came to dominate a resurgent Republican Party in the late twentieth century. Thoroughly researched and beautifully written, this is the first historical account of this crucial election, and the transition it marked for the nation. Filled with colorful details and fascinating figures - Johnson, Goldwater, Wallace, Rockefeller, Nixon, Reagan, Robert Kennedy, Martin Luther King, Jr., George Bush, and many more - it captures the full excitement, drama, and significance of "liberalism's last hurrah."

Investigation of the Assassination of President John F. Kennedy - United States. Warren Commission 1964

Creating Camelot - Charles River Charles River Editors 2013-09-05

*Includes pictures of the Kennedys and important people, places, and events in their lives. *Includes an introduction. "Don't let it be forgot that once there was a spot for one brief shining moment that was known as Camelot" In many ways, John Fitzgerald Kennedy and his young family were the perfect embodiment of the '60s. The decade began with a sense of idealism, personified by the attractive Kennedy, his beautiful and fashionable wife Jackie, and his young children. Months into his presidency, Kennedy exhorted the country to reach for the stars, calling upon the nation to send a man to the Moon and back by the end of the decade. In 1961, Kennedy made it seem like anything was possible, and Americans were eager to believe him. The Kennedy years were fondly and famously labeled "Camelot" by Jackie herself, suggesting an almost mythical quality about the young President and his family. Much of the glamor and vigor of Camelot, if not the majority of it, was supplied by First Lady Jackie Kennedy, whose elegance and grace made her the most popular woman in the world. Her popularity threatened to eclipse even her husband's, who famously quipped on one presidential trip to France that he was "the man who accompanied Jacqueline Kennedy to Paris." Lady Jeanne Campbell put it best, writing for *The London Evening Standard*, "Jacqueline Kennedy has given the American people...one thing they have always lacked: Majesty." Americans were fascinated by the young First Lady's style, and the manner in which she glamorously positioned both the First Family and the White House in those years, and Jackie remains one of the country's most popular First Ladies. But it was in the face of adversity that she truly made her lasting mark, with the country taking its cue from her in the aftermath of the president's assassination. Having devised and lit the eternal flame at JFK's tombstone, Jackie also set about securing her husband's legacy, a time still fondly and mythically remembered as Camelot today, despite his legendary transgressions and infidelities. As it turned out, the '60s closely reflected the glossy, idealistic portrayal of John F. Kennedy, as well as the uglier truths. The country would achieve Kennedy's goal of a manned moon mission, and the landmark Civil Rights Act of 1964 finally guaranteed minorities their civil rights and restored equality, ensuring that the country "would live out the true meaning of its creed." But the idealism and optimism of the decade was quickly shattered, starting with Kennedy's assassination in 1963. The '60s were permanently marred by the Vietnam War, and by the time Robert F. Kennedy and Martin Luther King, Jr. were assassinated in 1968, the country was irreversibly jaded. The events of the decade produced protests and countercultures unlike anything the country had seen before, as young people came of age more

quickly than ever. *Creating Camelot* chronicles the amazing lives and legacies of John and Jackie, weaving their lives and legacies together into one narrative. Along with pictures of the Kennedy family and important people, places, and events in their lives, you will learn about the John and Jackie like you never have before, in no time at all.

Public Papers of the Presidents of the United States: William J. Clinton, 1995 - Clinton, William J. 1997-01-01

Public Papers of the Presidents of the United States

All the Way with LBJ - Robert David Johnson 2009-02-23

Report of the Select Committee on Assassinations, U.S. House of Representatives, Ninety-fifth Congress, Second Session - United States. Congress. House. Select Committee on Assassinations 1979

Entrepreneurial President - Patricia A. Pelfrey 2012-03-06

Richard C. Atkinson was named president of the University of California in August 1995, barely four weeks after the UC Regents voted to end affirmative action. How he dealt with the admissions wars—the political, legal, and academic consequences of that historic and controversial decision, as well as the issue of governance—is discussed in this book. Another focus is the entrepreneurial university—the expansion of the University’s research enterprise into new forms of scientific research with industry during Atkinson’s presidency. The final crisis of his administration was the prolonged controversy over the University’s management of the Los Alamos and Livermore nuclear weapons research laboratories that began with the arrest of Los Alamos scientist Wen Ho Lee on charges of espionage in 1999. *Entrepreneurial President* explains what was at stake during each of these episodes, how Atkinson addressed the issues, and why the outcomes matter to the University and to the people of California. Pelfrey’s book provides an analysis of the challenges, perils, and limits of presidential leadership in the nation’s leading public university, while bringing a historical perspective to bear on the current serious threats to its future as a university.

1920 - David Pietrusza 2007

The presidential election of 1920 was one of the most dramatic ever. For the only time in the nation's history, six once-and-future presidents hoped to end up in the White House: Woodrow Wilson, Warren G. Harding, Calvin Coolidge, Franklin Delano Roosevelt, Herbert Hoover, and Theodore Roosevelt. It was an election that saw unprecedented levels of publicity — the Republicans outspent the Democrats by 4 to 1 — and it was the first to garner extensive newspaper and newsreel coverage. It was also the first election in which women could vote. Meanwhile, the 1920 census showed that America had become an urban nation — automobiles, mass production, chain stores, and easy credit were transforming the economy and America was limbering up for the most spectacular decade of its history, the roaring '20s. Award-winning historian David Pietrusza's riveting new work presents a dazzling panorama of presidential personalities, ambitions, plots, and counterplots — a picture of modern America at the crossroads.

America in Search of Itself - Theodore Harold White 1986

Losing Earth - Nathaniel Rich 2020-03-05

By 1979, we knew all that we know now about the science of climate change - what was happening, why it was happening, and how to stop it. Over the next ten years, we had the very real opportunity to stop it. Obviously, we failed. Nathaniel Rich's groundbreaking account of that failure - and how tantalizingly close we came to signing binding treaties that would have saved us all before the fossil fuels industry and politicians committed to anti-scientific denialism - is already a journalistic blockbuster, a full issue of the *New York Times Magazine* that has earned favorable comparisons to Rachel Carson's *Silent Spring* and John Hersey's *Hiroshima*. Rich has become an instant, in-demand

expert and speaker. A major movie deal is already in place. It is the story, perhaps, that can shift the conversation. In the book *Losing Earth*, Rich is able to provide more of the context for what did - and didn't - happen in the 1980s and, more important, is able to carry the story fully into the present day and wrestle with what those past failures mean for us in 2019. It is not just an agonizing revelation of historical missed opportunities, but a clear-eyed and eloquent assessment of how we got to now, and what we can and must do before it's truly too late.

The Daily Show (The Book) - Chris Smith 2016-11-22

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning *The Daily Show* with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, *The Daily Show* with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of *The Daily Show*'s most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics—a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, *The Daily Show* has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

The Death of a President - William Manchester 2013-10-08

William Manchester's epic and definitive account of President John F. Kennedy's assassination—now restored to print in a new paperback edition. As the world still reeled from the tragic and historic events of November 22, 1963, William Manchester set out, at the request of the Kennedy family, to create a detailed, authoritative record of the days immediately preceding and following President John F. Kennedy's death. Through hundreds of interviews, abundant travel and firsthand observation, and with unique access to the proceedings of the Warren Commission, Manchester conducted an exhaustive historical investigation, accumulating forty-five volumes of documents, exhibits, and transcribed tapes. His ultimate objective -- to set down as a whole the national and personal tragedy that was JFK's assassination -- is brilliantly achieved in this galvanizing narrative, a book universally acclaimed as a landmark work of modern history.

The Making of the President 1972 - Theodore H. White 2010-10-05

“[White] revolutionized the art of political reporting.” —William F. Buckley *The Making of the President 1972* is the fourth book in Theodore H. White’s landmark series, a riveting account of the 1972 presidential campaign and Richard M. Nixon’s precedent-shattering landslide victory. White had made history with his groundbreaking narrative *The Making of the President 1960*, winning the Pulitzer Prize for revolutionizing the way that presidential campaigns were reported. Now, *The Making of the President 1972*—back in print, freshly repackaged, and with a new foreword by Cokie Roberts—joins Theodore Sorensen’s *Kennedy*, White’s *The Making of the President 1960*, *1964*, and *1968*, and other classics in the burgeoning Harper Perennial Political Classics series.
