**Embracing Uncertainty** - Susan Jeffers 2003

'Susan Jeffers' wisdom feels like a precious gift. Her counsel is profound and meaningful in such challenging times.' MARIANNE WILLIAMSON 'Original, courageous and brilliant!' WARREN FARRELL \* \* \* \* \* Nobody knows what will happen in the next moment of our lives.

Whatever is in store for us, the only thing we CAN be sure of is that nothing in life is certain. And since we all fear the unknown, life's uncertainty can be a constant source of worry to us. But, as bestselling author Susan Jeffers explains, life doesn't have to be one worry after the next, a steady stream of 'what if's', and a constant attempt to create a secure haven for ourselves. In *EMBRACING UNCERTAINTY* she emphasises that an unknown future doesn't prevent a rich and abundant life, and shows how by enjoying life's unpredictability we transform ourselves from a position of fear to one filled with excitement and potential. Through invaluable case-studies, exercises and her pragmatic wisdom, Susan convinces us, above all, that life is exhilarating because of, not in spite of the uncertainty.

**The Secret Thoughts of Successful Women** - Valerie Young 2011-10-25

Learn to take ownership of your success, overcome self-doubt, and banish the thought patterns that undermine your ability to feel—and act—as bright and capable as others already know you are with this award-winning book by Valerie Young. It's only because they like me. I was in the right place at the right time. I just work harder than the others. I don't deserve this. It's just a matter of time before I am found out. Someone must have made a terrible mistake. If you are a working woman, chances are this internal monologue sounds all too familiar. And you're not alone. From the high-achieving Ph.D. candidate convinced she's only been admitted to the program because of a clerical error to the senior executive who worries others will find out she's in way over her head, a shocking number of accomplished women in all career paths and at every level feel as though they are faking it—impostors in their own lives and careers. While the impostor syndrome is not unique to women, women are more apt to agonize over tiny mistakes, see even constructive criticism as evidence of their shortcomings, and chalk up their accomplishments to luck rather than skill. They often unconsciously overcompensate with crippling perfectionism, overpreparation,

maintaining a lower profile, withholding their talents and opinions, or never finishing important projects. When they do succeed, they think, Phew, I fooled 'em again. An internationally known speaker, Valerie Young has devoted her career to understanding women's most deeply held beliefs about themselves and their success. In her decades of in-the-trenches research, she has uncovered the often surprising reasons why so many accomplished women experience this crushing self-doubt. In *The Secret Thoughts of Successful Women*, Young gives these women the solution they have been seeking. Combining insightful analysis with effective advice and anecdotes, she explains what the impostor syndrome is, why fraud fears are more common in women, and how you can recognize the way it manifests in your life.

**Uncertainty** - Jonathan Fields 2011-09-29

Jonathan Fields knows the risks-and potential power-of uncertainty. He gave up a six-figure income as a lawyer to make \$12 an hour as a personal trainer. Then, married with a 3-month old baby, he signed a lease to launch a yoga center in the heart of New York City. . . the day before 9/11. But he survived, and along the way he developed a fresh approach to transforming uncertainty, risk of loss, and exposure to judgment into catalysts for innovation, creation, and achievement. Properly understood and harnessed, fear and uncertainty can become fuel for creative genius rather than sources of pain, anxiety, and suffering. In business, art, and life, creating on a world-class level demands bold action and leaps of faith in the face of great uncertainty. But that uncertainty can lead to fear, anxiety, paralysis, and destruction. It can gut creativity and stifle innovation. It can keep you from taking the risks necessary to do great work and craft a deeply-rewarding life. And it can bring companies that rely on innovation grinding to a halt. That is, unless you know how to use it to your advantage. Fields draws on leading-edge technology, cognitive-science and ancient awareness-focusing techniques in a fresh, practical, non-dogmatic way. His approach enables creativity and productivity on an entirely different level and can turn the once-tortuous journey into a more enjoyable quest. Fields will reveal how to: Make changes to your workflow that unlock buried creative potential. Build "creation hives" -- supportive groups that can supercharge and humanize the process. Tap social technology and user co-creation to add clarity, certainty, and sanity, even if you're an artist or solo-creator. Develop a set of personal practices and mindset shifts that let you not just tolerate, but invite and even amplify, uncertainty as a catalyst for genius. Drawing on extensive case studies and research, Fields shares a set of detailed personal practices and environmental changes that can not only humanize the creative process, but also allow individuals and teams to stay more open to opportunity and play a bigger creative game.

*The Feel The Fear Guide To... Lasting Love* - Susan Jeffers 2010-12-15  
Feel the Fear and Do It Anyway has sold a million copies round the world since 1987, and is still one of the top ten bestsellers in the category of personal development. In this book, Susan Jeffers takes the approach and practical strategies that made her first such a success and applies them to the subject that is closest to all our hearts: Love. The author explains that, although most people desire a wonderful relationship, too many of us don't really understand what love truly means. We say we love people in our lives yet, too often, we don't act very lovingly. Nor do we choose our partners wisely. This lack of understanding about love is reflected in the ever-increasing divorce rate and the huge number of people who ask with a deep yearning in their hearts: Why is love so hard? The Feel The Fear Guide To... Lasting Love shows what real love actually looks like, how to learn the essentials for finding it - and how to make it last a lifetime. It also lays out solutions to common problems and explains the destructive power of fear. Full of Jeffers' own experiences, humour and down-to-earth techniques, as well as the wisdom of others, this book will show us all how to enjoy the delight, satisfaction, peace and caring that true love can bring us.

'The queen of self-help' *The Express Resilience Project*, **The** - Hugh van Cuylenburg 2019-11

The key steps to leading a happier, more contented and fulfilling life Hugh van Cuylenburg was a primary school teacher volunteering in northern India when he had a life-changing realisation- despite the underprivileged community the children were from, they were remarkably positive. By contrast, back in Australia Hugh knew that all too many people found it hard to be happy, or suffered from mental illnesses such as depression and anxiety. His own little sister had been ravaged by anorexia nervosa. How was it that young people he knew at home, who had food, shelter, friends and a loving family, struggled with their mental health, while these kids seemed so contented and resilient? He set about finding the answer and in time came to recognise the key traits and behaviours these children possessed were gratitude, empathy and mindfulness. In the ensuing years Hugh threw himself into studying and sharing this revelation with the world through *The Resilience Project*, with his playful and unorthodox presentations which both entertain and inform. Now, with the same blend of humour, poignancy and clear-eyed insight that *The Resilience Project* has become renowned for, Hugh explains how we can all get the tools we need to live a happier and more fulfilling life.

*I Can Handle It* - Donna Gradstein 2015-12-17

Susan Jeffers, author of the world-renowned classic of personal development *Feel the Fear and Do It Anyway*, along with Donna Gradstein, now show parents and care-givers a very effective way of building confidence in children. They present 50 heart-warming stories showing children ages 3 to 7 "handling" many difficult situations that confront children today - such as teasing by other children...or losing a favorite toy...or fear of the dark...or upset about a parent's divorce...and much more."No matter what happens, I can handle it!" is the powerful

phrase that is repeated throughout. Ultimately, as the various stories unfold, the child learns that ALL difficulties in life can be handled in a powerful and loving way. The *I Can Handle It* lesson is made even more effective by the excellent guide for parents that Susan presents at the beginning of the book. She demonstrates how the stories can provide a wonderful springboard for creating meaningful communication with our children. At a time when parents are often inundated with contradictory information about what we should or should not be doing, *I Can Handle It* provides a refreshingly easy way to engage with and empower our kids. And, as an added benefit, as we teach our children they can handle anything that comes their way, we teach ourselves as well. A wonderful lesson to learn at any age!

*Don't Panic* - Sallee McLaren 2004-06-01

Panic attacks, phobias, extreme shyness, and general anxiety disrupt the lives of an estimated 15 per cent of the population. Typically, these kinds of problems are diagnosed, often without evidence, as being caused by a biochemical imbalance that requires rebalancing through medication. The result, very often, is an endless psychiatric revolving-door syndrome. With the publication of *Don't Panic*, readers now have a practical alternative. This breakthrough book offers proven ways for afflicted readers to change their lives for the better permanently and without drugs. Here's how. Dr McLaren has observed that emotional distress in adults, such as anxiety and depression, often arises from learned responses that were triggered by negative childhood backgrounds. But what was true or helpful in childhood become false assumptions and poor coping-strategies in adulthood leading individuals into self-reinforcing cycles of emotional crisis. And yet, Dr McLaren has discovered, the symptoms disappear permanently if these strategies are changed and the assumptions overturned. Dr. McLaren's pathfinding book, rich with specific examples and case studies, offers readers real-life ways to escape from self-sabotaging patterns of behaviour. *Don't Panic* is an invaluable resource: a clearly expressed, straightforward guide that works, written by an experienced mental-health professional.
