If you ally compulsion such a referred **Dmt And The Soul Of Prophecy A New Science Spiritual Revelation In Hebrew Bible Rick Strassman** book that will find the money for you worth, get the unquestionably best seller from us currently from several preferred authors. If you want to hilarious books, lots of novels, tale, jokes, and more fictions collections are along with launched, from best seller to one of the most current released.

You may not be perplexed to enjoy every ebook collections Dmt And The Soul Of Prophecy A New Science Spiritual Revelation In Hebrew Bible Rick Strassman that we will definitely offer. It is not concerning the costs. Its just about what you dependence currently. This Dmt And The Soul Of Prophecy A New Science Spiritual Revelation In Hebrew Bible Rick Strassman , as one of the most full of zip sellers here will categorically be accompanied by the best options to review.

## **Hallucinogenic Plants of North America -** Jonathan Ott 1976

Yoga - Osho 2016-07-26

In *Yoga: The Science of the Soul*, one of the greatest spiritual teachers of the twentieth century presents the history and philosophy of this timeless health practice. Much of what is known as yoga today emphasizes physical postures and exercises to increase flexibility and help relaxation. But in fact, yoga has its roots in centuries of rigorous investigation and research in the East to develop an understanding of human consciousness and its potential. In *Yoga*, Osho explains the meaning of some of the most important Yoga Sutras of Patanjali, an early “scientist of the soul” who is credited with being the father of Raja Yoga, or the “royal path” of yoga that uses physical postures and breath primarily as a means to achieve higher states of consciousness. With a fresh translation of these ancient texts, and unique Osho insights into the

modern mind and its psychology, Patanjali comes to life on the pages with an approach to using yoga for greater self-understanding that is absolutely relevant to our times. An invaluable resource for beginning or experienced yoga practitioners, and for anyone who seeks to better understand the intricate and powerful relationship that exists between body and mind. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the *Sunday Times* of London as one of the “1000 Makers of the 20th Century” and by *Sunday Mid-Day* (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

**Thiaouba Prophecy** - Michel Desmarquet  
1997

WHY are we Alive? WHY are we Conscious? What is The Purpose of the Universe and our OWN role in it? WHY is it not enough to believe? What happened to advanced civilizations and continents (Mu, Atlantis..) ? Are we also to face a global catastrophe ? WHEN? What? Why? Why NOBODY REMEMBERS what was the purpose of the Great Pyramid and how to build it? What happens after death and before we are conceived? WHY? Who said that there is a conflict between Creation and Evolution? Why was invention of a WHEEL a great step backwards for humanity? What are the greatest dangers for Man and humanity on Earth? What can we do? Dream or to Act? Can we change the SYSTEM peacefully? How much truth is in the Bible? What are lessons from history? How did Man appear on Earth? And SO WHAT ???? If you are truly interested to learn the answer to at least one of the above question - you will be absolutely fascinated by this book. Key information and details it contains cannot be

found in any other book on Earth. Coherence and precision of information surprises scientists on all continents. This book clarifies practically ALL myths, doctrines and mysteries on Earth and reveals clear logic, beauty and majesty of the Universe, in which EVERYONE OF US has important role to play. There are no theories in this book. No wishful thinking or products of imagination of the author. This is an exact report of the Reality of the Universe. There will be people who will not understand this book at all, even though it is written by a simple man, using a simple language, with examples comprehensible even by kids. There will be also others, who won't even TOUCH this book. Leave them in peace. Maybe they are not yet evolved enough, maybe they don't want to learn how much they don't know. There is no point in encouraging a kindergarten kid to study psychology or physics - a kid is simply not yet ready for it. No matter how much we insist on defending our current beliefs, doctrines and

traditions, nothing can change the TRUTH and the order established in the Universe. Rivers will always flow from their sources towards the ocean, even if a religion, sect or billions of people want to believe the opposite.

### **DMT and the Soul of Prophecy** - Rick

Strassman 2014-09-18

Naturally occurring DMT may produce prophecy-like states of consciousness and thus represent a bridge between biology and religious experience • Reveals the striking similarities between the visions of the Hebrew prophets and the DMT state described by Strassman's research volunteers • Explains how prophetic and psychedelic states may share biological mechanisms • Presents a new top-down "theoneurological" model of spiritual experience After completing his groundbreaking research chronicled in DMT: The Spirit Molecule, Rick Strassman was left with one fundamental

question: What does it mean that DMT, a simple chemical naturally found in all of our bodies, instantaneously opens us to an interactive spirit world that feels more real than our own world? When his decades of clinical psychiatric research and Buddhist practice were unable to provide answers to this question, Strassman began searching for a more resonant spiritual model. He found that the visions of the Hebrew prophets--such as Ezekiel, Moses, Adam, and Daniel--were strikingly similar to those of the volunteers in his DMT studies. Carefully examining the concept of prophecy in the Hebrew Bible, he characterizes a "prophetic state of consciousness" and explains how it may share biological and metaphysical mechanisms with the DMT effect. Examining medieval commentaries on the Hebrew Bible, Strassman reveals how Jewish metaphysics provides a top-down model for both the prophetic and DMT states, a model he calls "theoneurology." Theoneurology bridges biology and spirituality

by proposing that the Divine communicates with us using the brain, and DMT--whether naturally produced or ingested--is a critical factor in such visionary experience. This model provides a counterpoint to "neurotheology," which proposes that altered brain function simply generates the impression of a Divine-human encounter. The neurotheology addresses issues critical to the full flowering of the psychedelic drug experience. Perhaps even more important, it points the way to a renewal of classical prophetic consciousness, the soul of Hebrew Bible prophecy, as well as unexpected directions for the evolution of contemporary spiritual practice.

**Sacred Knowledge** - William A. Richards

2015-12-08

Sacred Knowledge is the first well-documented, sophisticated account of the effect of psychedelics on biological processes, human consciousness, and revelatory religious experiences. Based on nearly three decades of

legal research with volunteers, William A. Richards argues that, if used responsibly and legally, psychedelics have the potential to assuage suffering and constructively affect the quality of human life. Richards's analysis contributes to social and political debates over the responsible integration of psychedelic substances into modern society. His book serves as an invaluable resource for readers who, whether spontaneously or with the facilitation of psychedelics, have encountered meaningful, inspiring, or even disturbing states of consciousness and seek clarity about their experiences. Testing the limits of language and conceptual frameworks, Richards makes the most of experiential phenomena that stretch our understanding of reality, advancing new frontiers in the study of belief, spiritual awakening, psychiatric treatment, and social well-being. His findings enrich humanities and scientific scholarship, expanding work in philosophy, anthropology, theology, and

religious studies and bringing depth to research in mental health, psychotherapy, and psychopharmacology.

Memories of the Afterlife - Michael Newton  
2010-09-08

Dr. Michael Newton, best-selling author of *Journey of Souls* and *Destiny of Souls*, returns with a series of case studies that highlight the profound impact of spiritual regression on people's everyday lives. Edited by Dr. Newton, these fascinating true accounts from around the world are handpicked and presented by Life Between Lives hypnotherapists certified by the Newton Institute. After recalling memories of their afterlife, the people in these studies embarked on life-changing spiritual journeys—reuniting with soul mates and spirit guides, and discovering the ramifications of life and body choices, love relationships, and dreams by communing with their immortal souls. As gems of self-knowledge are revealed, dramatic epiphanies result, enabling these ordinary

people to understand adversity in their lives, find emotional healing, realize their true purpose, and forever enrich their lives with new meaning.

*Polishing the Mirror* - Ram Dass 2013-08-01  
Sometimes illumination occurs spontaneously or, as Ram Dass experienced, in a heart-wrenching moment of opening. More commonly, it happens when we polish the mirror of the heart with daily practice—and see beyond the illusion of our transient thoughts and emotions to the vast and luminous landscape of our true nature. For five decades, Ram Dass has explored the depths of consciousness and love and brought them to life as service to others. With *Polishing the Mirror*, he gathers together his essential teachings for living in the eternal present, here and now. Readers will find within these pages a rich combination of perennial wisdom, humor, teaching stories, and detailed guidance on Ram Dass' own spiritual practices, including: Bhakti Yoga—opening our hearts to unconditional love

Practices for living, aging, dying, and embracing the natural flow of life Karma Yoga—how selfless service can profoundly transform us Working with fear and suffering as a path to grace and freedom Step-by-step guidance in devotional chant, meditation and mantra practice, and much more For those new to Ram Dass' teachings, and for those to whom they are old friends, here is this vanguard spiritual explorer's complete guide to discovering who we are and why we are here, and how to become beacons of unconditional love.

**The Cosmic Serpent** - Jeremy Narby  
1999-04-05

This adventure in science and imagination, which the Medical Tribune said might herald "a Copernican revolution for the life sciences," leads the reader through unexplored jungles and uncharted aspects of mind to the heart of knowledge. In a first-person narrative of scientific discovery that opens new perspectives on biology, anthropology, and the limits of

rationalism, The Cosmic Serpent reveals how startlingly different the world around us appears when we open our minds to it.

**Hallucinogenic Plants** - Richard Evans  
Schultes 2021-04-25

What are hallucinogenic plants? How do they affect mind and body? Who uses them - and why? This unique Golden Guide surveys the role of psychoactive plants in primitive and civilized societies from early times to the present. The first nontechnical guide to both the cultural significance and physiological effects of hallucinogens, HALLUCINOGENIC PLANTS will fascinate general readers and students of anthropology and history as well as botanists and other specialists. All of the wild and cultivated species considered are illustrated in brilliant full color. A Brilliant accompaniment to R G Wasson's Soma Divine Mushroom of Immortality and R G Wasson's Wondrous Mushroom.

**Dmt** - Colin Willis 2015-08-05

You're about to discover the crucial information regarding Dimethyltryptamine. It can be overwhelming if you are trying to find honest, factual information because of all the random opinions out there on the internet. You also have to be careful about the misinformation that is coming from online sources, especially those with financial incentives. This book serves to be an unbiased guide so that you can understand all of the important information before you invest money or time into trying "DMT." This book goes into the origins and history of DMT, how Dimethyltryptamine works, the similarities and differences when compared to other similar "drugs," the positive and negative effects of consuming DMT, as well as the legality and dangers involved. By investing in this book, you can get a grasp of the topic so that you can make a solid decision about what you put into your body, or even help other people in your life.

**Life Between Lives** - Michael Newton

2014-01-08

Dr. Michael Newton is world-famous for his spiritual regression techniques that take hypnotic subjects back to their time in the spirit world. His two best-selling books of client case studies, *Journey of Souls* and *Destiny of Souls*, have left thousands of readers eager to discover their own afterlife adventures, their soul companions and guides, and their purpose in this lifetime. Now, for the first time in print, Dr. Newton reveals his step-by-step methods. His experiential approach to the spiritual realms sheds light on the age-old questions of who we are, where we came from, and why we are here. This groundbreaking guidebook, designed for both hypnosis professionals and the general public, completes the afterlife trilogy by Dr. Newton.

[The Psychedelic Explorer's Guide](#) - James Fadiman 2011-05-18

Psychedelics for spiritual, therapeutic, and problem-solving use • Presents practices for safe and successful psychedelic voyages, including

the benefits of having a guide and how to be a guide • Reviews the value of psychedelics for healing and self-discovery as well as how LSD has facilitated scientific and technical problem-solving • Reveals how microdosing (ultr-low doses) improve cognitive functioning, emotional balance, and physical stamina • This year 600,000 people in the U.S. alone will try LSD for the the first time, joining the 23 million who have already experimented with this substance Called “America’s wisest and most respected authority on psychedelics and their use,” James Fadiman has been involved with psychedelic research since the 1960s. In this guide to the immediate and long-term effects of psychedelic use for spiritual (high dose), therapeutic (moderate dose), and problem-solving (low dose and microdose) purposes, Fadiman outlines best practices for safe, sacred entheogenic voyages learned through his more than 40 years of experience--from the benefits of having a sensitive guide during a session (and how to be

one) to the importance of the setting and pre-session intention. Fadiman reviews the newest as well as the neglected research into the psychotherapeutic value of visionary drug use for increased personal awareness and a host of serious medical conditions, including his recent study of the reasons for and results of psychedelic use among hundreds of students and professionals. He reveals new uses for LSD and other psychedelics, including microdosing, extremely low doses, for improved cognitive functioning and emotional balance. Cautioning that psychedelics are not for everyone, he dispels the myths and misperceptions about psychedelics circulating in textbooks and clinics as well as on the internet. Exploring the life-changing experiences of Ram Dass, Timothy Leary, Aldous Huxley, and Huston Smith as well as Francis Crick and Steve Jobs, Fadiman shows how psychedelics, used wisely, can lead not only to healing but also to scientific breakthroughs and spiritual epiphanies.

*The Doors of Perception and Heaven and Hell* - Aldous Huxley 2017-03-22

Two great classics come to life in one of the most loved books in American History.

Remastered to include Illustrated exercises, a biography of Aldous Huxley, and including the full essay of Heaven and Hell, and The Doors to Perception, this book is a great gift to those who are unfamiliar with his work, or may have forgotten about Huxley's famous contemplations of life and death. - ZKBS(c) All Rights Reserved.

The Newton Papers - Sarah Dry 2014-04-11

When Isaac Newton died in 1727 without a will, he left behind a wealth of papers that, when examined, gave his followers and his family a deep sense of unease. Some of what they contained was wildly heretical and alchemically obsessed, hinting at a Newton altogether stranger and less palatable than the one enshrined in Westminster Abbey as the paragon of English rationality. These manuscripts had the potential to undermine not merely Newton's

reputation, but that of the scientific method he embodied. They were immediately suppressed as "unfit to be printed," and, aside from brief, troubling glimpses spread across centuries, the papers would remain hidden from sight for more than seven generations. In *The Newton Papers*, Sarah Dry illuminates the tangled history of these private writings over the course of nearly three hundred years, from the long span of Newton's own life into the present day. The writings, on subjects ranging from secret alchemical formulas to impassioned rejections of the Holy Trinity, would eventually come to light as they moved through the hands of relatives, collectors, and scholars. The story of their disappearance, dispersal, and rediscovery is populated by a diverse cast of characters who pursued and possessed the papers, from economist John Maynard Keynes to controversial Jewish Biblical scholar Abraham Yahuda. Dry's captivating narrative moves between these varied personalities, depicting how, as they

chased the image of Newton through the thickets of his various obsessions, these men became obsessed themselves with the allure of defining the "true" Newton. Dry skillfully accounts for the ways with which Newton's pursuers have approached his papers over centuries. Ultimately, *The Newton Papers* shows how Newton has been made and re-made throughout history by those seeking to reconcile the cosmic contradictions of an extraordinarily complex man.

*The Psychedelic Handbook* - Rick Strassman  
2022-08-09

Learn everything you need to know about psychedelics with this ultimate guide packed with information on popular psychedelic drugs like psilocybin, ketamine, MDMA, DMT and LSD—plus practical tips for microdosing and how to safely "trip"—from bestselling author Dr. Rick Strassman. Entering the world of psychedelic drugs can be challenging, and many aren't sure where to start. As research continues

to expand and legalization looms on the horizon for psychedelics like psilocybin, you may need a guide to navigate what psychedelics are, how they work, and their potential benefits and risks. *The Psychedelic Handbook* is a complete manual that is accessible to anyone with an interest in these "mind-manifesting" substances. Packed with information on psilocybin, LSD, DMT/ayahuasca, mescaline/peyote, ketamine, MDMA, ibogaine, 5-methoxy-DMT ("the toad"), and *Salvia divinorum*/salvinorin A, this book is your ultimate reference for understanding the science and history of psychedelics; discovering their potential to treat depression, PTSD, substance abuse, and other disorders, as well as to increase wellness, creativity, and meditation; learning how to safely trip and explaining what we know about microdosing; and recognizing and caring for negative reactions to psychedelics. Clinical research psychiatrist, founding figure of the American psychedelic research renaissance, and best-selling author of

DMT: The Spirit Molecule, Dr. Rick Strassman shares his experience and perspectives as neither advocate nor foe of psychedelics in order to help readers understand the effects of these remarkable drugs.

Entangled - Graham Hancock 2010-11

" ... Two brave young women living at opposite ends of history are brought together by supernatural forces to do battle with a demon who travels through time. The fate of humanity rests in their hands ..."--Page 4 of cover.

*The Teachings of Don Juan* - Carlos Castaneda 2008

**Making Dmt Simplified** - Gideon Jackson

2020-10-06

MAKING DMT SIMPLIFIEDThe Complete step by step Guide to making DMT spirit Molecule even as a beginnerDMT is known as 'The Spirit Molecule' - and for good reason. DMT is one of the most powerful psychedelics on the planet, naturally occurring in many species of plants,

and is thought to be released in tiny amounts in mammal brains. Although the issue is controversial, it's also possible that the release of natural DMT is a factor in out-of-body experiences or spiritual states.DMT is a molecule that mimics the neurotransmitter serotonin, much like the other classic psychedelics LSD and psilocybin. DMT's psychological effects are mostly due to its binding to the 5-HT2A receptor, which is found mostly in areas of the brain associated with high-level cognition: self-awareness, emotions and introspection.When smoked or injected intravenously, DMT causes a very rapid, very intense psychedelic experience which lasts a few minutes. Users report the feeling of being ripped from their bodies, and thrown through space at incredible speeds. DMT produces intense visual and auditory hallucinations of otherworldly landscapes, hidden dimensions and god-like beings. It often produces deep introspection in its users, allowing the revisitation of past

memories and providing a fresh perspective on life. In this book I will be teaching you the best methods and techniques for extracting DMT and the various functions of DMT. All questions concerning DMT will be answered in this guide. GRAB YOUR COPY NOW!!! By clicking by Now and learn how to extract DMT without stress.

*Biblical Literalism: A Gentile Heresy* - John Shelby Spong 2016-02-16

A global and pioneering leader of progressive Christianity and the bestselling author of *Why Christianity Must Change or Die* and *Eternal Life* explains why a literal reading of the Gospels is actually heretical, and how this mistaken notion only entered the church once Gentiles had pushed out all the Jewish followers of Jesus. A man who has consciously and deliberately walked the path of Christ, John Shelby Spong has lived his entire life inside the Christian Church. In this profound and considered work, he offers a radical new way to look at the

gospels today as he shows just how deeply Jewish the Christian Gospels are and how much they reflect the Jewish scriptures, history, and patterns of worship. Pulling back the layers of a long-standing Gentile ignorance, he reveals how the church's literal reading of the Bible is so far removed from these original Jewish authors' intent that it is an act of heresy. Using the Gospel of Matthew as a guide, Spong explores the Bible's literary and liturgical roots—its grounding in Jewish culture, symbols, icons, and storytelling tradition—to explain how the events of Jesus' life, including the virgin birth, the miracles, the details of the passion story, and the resurrection and ascension, would have been understood by both the Jewish authors of the various gospels and by the Jewish audiences for which they were originally written. Spong makes clear that it was only after the church became fully Gentile that readers of the Gospels took these stories to be factual, distorting their original meaning. In *Biblical Literalism: A*

Gentile Heresy, *Spong* illuminates the gospels as never before and provides a better blueprint for the future than where the church's leaden and heretical reading of the story of Jesus has led us—one that allows the faithful to live inside the Christian story in the modern world.

*The Immortality Key* - Brian C. Muraresku

2020-09-29

THE NEW YORK TIMES BESTSELLER As seen on The Joe Rogan Experience! A groundbreaking dive into the role psychedelics have played in the origins of Western civilization, and the real-life quest for the Holy Grail that could shake the Church to its foundations. The most influential religious historian of the 20th century, Huston Smith, once referred to it as the "best-kept secret" in history. Did the Ancient Greeks use drugs to find God? And did the earliest Christians inherit the same, secret tradition? A profound knowledge of visionary plants, herbs and fungi passed from one generation to the next, ever since the Stone Age? There is zero

archaeological evidence for the original Eucharist – the sacred wine said to guarantee life after death for those who drink the blood of Jesus. The Holy Grail and its miraculous contents have never been found. In the absence of any hard data, whatever happened at the Last Supper remains an article of faith for today's 2.5 billion Christians. In an unprecedented search for answers, *The Immortality Key* examines the archaic roots of the ritual that is performed every Sunday for nearly one third of the planet. Religion and science converge to paint a radical picture of Christianity's founding event. And after centuries of debate, to solve history's greatest puzzle. Before the birth of Jesus, the Ancient Greeks found salvation in their own sacraments. Sacred beverages were routinely consumed as part of the so-called Ancient Mysteries – elaborate rites that led initiates to the brink of death. The best and brightest from Athens and Rome flocked to the spiritual capital of Eleusis, where a holy beer unleashed heavenly

visions for two thousand years. Others drank the holy wine of Dionysus to become one with the god. In the 1970s, renegade scholars claimed this beer and wine - the original sacraments of Western civilization - were spiked with mind-altering drugs. In recent years, vindication for the disgraced theory has been quietly mounting in the laboratory. The constantly advancing fields of archaeobotany and archaeochemistry have hinted at the enduring use of hallucinogenic drinks in antiquity. And with a single dose of psilocybin, the psychopharmacologists at Johns Hopkins and NYU are now turning self-proclaimed atheists into instant believers. But the smoking gun remains elusive. If these sacraments survived for thousands of years in our remote prehistory, from the Stone Age to the Ancient Greeks, did they also survive into the age of Jesus? Was the Eucharist of the earliest Christians, in fact, a psychedelic Eucharist? With an unquenchable thirst for evidence, Muraresku takes the reader

on his twelve-year global hunt for proof. He tours the ruins of Greece with its government archaeologists. He gains access to the hidden collections of the Louvre to show the continuity from pagan to Christian wine. He unravels the Ancient Greek of the New Testament with the world's most controversial priest. He spelunks into the catacombs under the streets of Rome to decipher the lost symbols of Christianity's oldest monuments. He breaches the secret archives of the Vatican to unearth manuscripts never before translated into English. And with leads from the archaeological chemists at UPenn and MIT, he unveils the first scientific data for the ritual use of psychedelic drugs in classical antiquity. The Immortality Key reconstructs the suppressed history of women consecrating a forbidden, drugged Eucharist that was later banned by the Church Fathers. Women who were then targeted as witches during the Inquisition, when Europe's sacred pharmacology largely disappeared. If the scientists of today have resurrected this

technology, then Christianity is in crisis. Unless it returns to its roots. Featuring a Foreword by Graham Hancock, the NYT bestselling author of *America Before*.

[Fingerprints of the Gods](#) - Graham Hancock

2012-09-19

Could the story of mankind be far older than we have previously believed? Using tools as varied as archaeo-astronomy, geology, and computer analysis of ancient myths, Graham Hancock presents a compelling case to suggest that it is. "A fancy piece of historical sleuthing . . . intriguing and entertaining and sturdy enough to give a long pause for thought."—Kirkus Reviews In *Fingerprints of the Gods*, Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind's hidden past. In ancient monuments as far apart as Egypt's Great Sphinx, the strange Andean ruins of Tihuanaco, and Mexico's awe-inspiring Temples of the Sun and Moon, he reveals not only the clear fingerprints of an as-

yet-unidentified civilization of remote antiquity, but also startling evidence of its vast sophistication, technological advancement, and evolved scientific knowledge. A record-breaking number one bestseller in Britain, *Fingerprints of the Gods* contains the makings of an intellectual revolution, a dramatic and irreversible change in the way that we understand our past—and so our future. And *Fingerprints of God* tells us something more. As we recover the truth about prehistory, and discover the real meaning of ancient myths and monuments, it becomes apparent that a warning has been handed down to us, a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time—a cataclysm that may be about to recur. "Readers will hugely enjoy their quest in these pages of inspired storytelling."—The Times (UK)

*The New Sirian Revelations* - Patricia Cori

2017-12-05

In July 1996, during an extraordinary out-of-body

journey through the Milky Way and other galaxies, Patricia Cori was reconnected and attuned to a group of interdimensional light beings that she and her many readers came to know, through the first Sirian Revelations transmissions, as The Sirian High Council. During her remarkable mission as their Scribe, she has shared the insights of six-dimensional Sirian Light Emissaries through the books and teachings that have transformed readers over the past decades. Now, twenty years from the date of the first transmission, Cori shares new revelations that affirm the veracity of past prophecies and transmit new visions for the human race as we ascend through the outer reaches of the fourth dimension into new levels of conscious awareness and parallel realities as we prepare for our imminent emergence. Called a "real-life Indiana Jones" by fans and readers around the world, Cori is one of the most well-known and established authorities on multidimensional realities that challenge the

status quo. Her messages from distant realms empower readers to look at the dark side, to understand it, but to focus on the light for all humankind and the earth. In this new book, the Sirians once again hold us to our responsibility as guardians of this planet, with sound direction and advice for how to get through these shifting sands of our transition. Their discussions delve into many of the most crucial issues of our time, including the merging of human mind and artificial intelligence, exoplanetary migration from the earth and what that means to planets that will receive us, coming clean about cloning, the care and feeding of the human being, and the slipping of time as we know it. As the struggle between darkness and light is being fought at every level, Cori reminds us to take comfort in the fact that the Sirian High Council foresaw and told us how this time of immense upheaval would be the last phase of our passage out of the darkness and into the light of far more illuminated states of being.

*Magic in Western Culture* - Brian P. Copenhaver  
2015-09-09

The story of the beliefs and practices called 'magic' starts in ancient Iran, Greece, and Rome, before entering its crucial Christian phase in the Middle Ages. Centering on the Renaissance and Marsilio Ficino - whose work on magic was the most influential account written in premodern times - this groundbreaking book treats magic as a classical tradition with foundations that were distinctly philosophical. Besides Ficino, the premodern story of magic also features Plotinus, Iamblichus, Proclus, Aquinas, Agrippa, Pomponazzi, Porta, Bruno, Campanella, Descartes, Boyle, Leibniz, and Newton, to name only a few of the prominent thinkers discussed in this book. Because pictures play a key role in the story of magic, this book is richly illustrated.

*Authors of the Impossible* - Jeffrey J. Kripal  
2011-09-16

Most scholars dismiss research into the paranormal as pseudoscience, a frivolous pursuit

for the paranoid or gullible. Even historians of religion, whose work naturally attends to events beyond the realm of empirical science, have shown scant interest in the subject. But the history of psychical phenomena, Jeffrey J. Kripal contends, is an untapped source of insight into the sacred and by tracing that history through the last two centuries of Western thought we can see its potential centrality to the critical study of religion. Kripal grounds his study in the work of four major figures in the history of paranormal research: psychical researcher Frederic Myers; writer and humorist Charles Fort; astronomer, computer scientist, and ufologist Jacques Vallee; and philosopher and sociologist Bertrand Méheust. Through incisive analyses of these thinkers, Kripal ushers the reader into a beguiling world somewhere between fact, fiction, and fraud. The cultural history of telepathy, teleportation, and UFOs; a ghostly love story; the occult dimensions of science fiction; cold war psychic espionage; galactic

colonialism; and the intimate relationship between consciousness and culture all come together in *Authors of the Impossible*, a dazzling and profound look at how the paranormal bridges the sacred and the scientific.

**The Magic of Hebrew Chant** - Shefa Gold  
2013

Rabbi Shefa Gold, beloved teacher of chant, Jewish mysticism, prayer and spirituality, introduces you to this transformative spiritual practice as a way to unlock the power of sacred texts and take prayer and meditation into the delight of your life.

*Inner Paths to Outer Space* - Rick Strassman  
2008-03-27

An investigation into experiences of other realms of existence and contact with otherworldly beings • Examines how contact with alien life-forms can be obtained through the “inner space” dimensions of our minds • Presents evidence that other worlds experienced through consciousness-altering technologies are often as

real as those perceived with our five senses • Correlates science fiction’s imaginal realms with psychedelic research For thousands of years, voyagers of inner space--spiritual seekers, shamans, and psychoactive drug users--have returned from their inner imaginal travels reporting encounters with alien intelligences. *Inner Paths to Outer Space* presents an innovative examination of how we can reach these other dimensions of existence and contact otherworldly beings. Based on their more than 60 combined years of research into the function of the brain, the authors reveal how psychoactive substances such as DMT allow the brain to bypass our five basic senses to unlock a multidimensional realm of existence where otherworldly communication occurs. They contend that our centuries-old search for alien life-forms has been misdirected and that the alien worlds reflected in visionary science fiction actually mirror the inner space world of our minds. The authors show that these “alien”

worlds encountered through altered states of human awareness, either through the use of psychedelics or other methods, possess a sense of reality as great as, or greater than, those of the ordinary awareness perceived by our five senses.

### **LSD, Spirituality, and the Creative Process -**

Marlene Dobkin de Rios 2003-04-28

An exploration of how LSD influences imagination and the creative process. • Based on the results of one of the longest clinical studies of LSD that took place between 1954 and 1962, before LSD was illegal. • Includes personal reports, artwork, and poetry from the original sessions as testimony of the impact of LSD on the creative process. In 1954 a Los Angeles psychiatrist began experimenting with a then new chemical discovery known as LSD-25. Over an eight-year period Dr. Oscar Janiger gave LSD-25 to more than 950 men and women, ranging in age from 18 to 81 and coming from all walks of life. The data collected by the author

during those trials and from follow-up studies done 40 years later is now available here for the first time, along with the authors' examination of LSD's ramifications on creativity, imagination, and spirituality. In this book Marlene Dobkin de Rios, a medical anthropologist who studied the use of hallucinogens in tribal and third world societies, considers the spiritual implications of these findings in comparison with indigenous groups that employ psychoactive substances in their religious ceremonies. The book also examines the nature of the creative process as influenced by psychedelics and provides artwork and poetry from the original experiment sessions, allowing the reader to personally witness LSD's impact on creativity. The studies recounted in LSD, Spirituality, and the Creative Process depict an important moment in the history of consciousness and reveal the psychic unity of humanity.

**Window to Eternity** - Bruce Henderson 2010  
What happens to us when we die? Is there really

a heaven and hell? Are there angels watching over us? These questions follow us from early childhood to old age, particularly in moments when we're confronted with the loss of a loved one. In *Window to Eternity*, Bruce Henderson draws from the teachings of visionary Emanuel Swedenborg to paint a vivid picture of heaven and hell, where the souls of the departed become angels and demons and indescribable wonders await. But far from being a distant destination, Henderson shows that heaven is a choice that each of us makes every day—ours to have or to turn away from, regardless of our background or religious upbringing.

**The Secret Teachings of All Ages** - Manly P. Hall 2019-09-12

The Secret Teachings of All Ages is perhaps the most comprehensive and complete esoteric encyclopedia ever written. The sheer scope and ambition of this book are stunning. In this book Manly P. Hall has successfully distilled the essence of more arcane subjects than one would

think possible. This book explores the themes underlying ancient mythology, philosophy, and religion. Unrivaled in its beauty and completeness, it distills ancient and modern teachings of nearly 600 experts.

*DMT Dialogues* - David Luke 2018-08-14

Cutting-edge explorations and discussions of DMT experiences and plant sentience from leading luminaries in the field of psychedelic research • Includes contributions from Rupert Sheldrake, Rick Strassman, Dennis McKenna, Graham Hancock, Jeremy Narby, Erik Davis, Peter Meyer, David Luke, and many others • Explores DMT beings, plant sentience, interspecies communication, discarnate consciousness, dialoguing with the divine, the pineal gland, the Amazonian shamanic perspective on Invisible Entities, and the science behind hallucinations Encounters with apparently sentient beings are reported by half of all first time users of the naturally occurring psychedelic DMT, yet the question of DMT

beings and plant sentience, interspecies communication, discarnate consciousness, and perhaps even dialoguing with the divine has never been systematically explored. In September 2015, ten of the world's leading luminaries noted for exploring the mysterious compound DMT (dimethyltryptamine) gathered with other researchers at Tyringham Hall in England to discuss the subject. Over three days, they pooled their expertise from a wide range of subjects--archaeology, anthropology, religious studies, psychology, neuroscience, chemistry, and psychopharmacology, to name a few--to explore the notion of "entheogenic plant sentience" and the role of DMT as a conduit between Spirit and Matter. Offering cutting-edge insights into this visionary domain, this book distills the potent exchange of ideas that occurred at Tyringham Hall, including presentations and discussions on DMT entities, the pineal gland, the possibility of DMT as a chemical messenger from an extraterrestrial

civilization, the Amazonian shamanic perspective on Invisible Entities, morphic resonance, and the science behind hallucinations. Contributors to the talks and discussions include many leading thinkers in this field, including Rupert Sheldrake, Rick Strassman, Dennis McKenna, Graham Hancock, Jeremy Narby, Erik Davis, Ede Frecska, Luis Eduardo Luna, Bernard Carr, Robin Carhart-Harris, Graham St. John, David Luke, Andrew Gallimore, Peter Meyer, Jill Purce, William Rowlandson, Anton Bilton, Vimal Darpan, Santha Faiia, and Cosmo Feilding Mellen.

**The Jerusalem Stone of Consciousness** - Joel David Bakst 2013-06-13

There is information coming forth from the cutting edge of the brain and mind sciences about a mysterious little organ in the middle of brain known as the pineal gland and an enigmatic substance produced within every human body called DMT. The light these two phenomena shed upon Judaism's most ancient

kabbalistic secret - the Foundation Stone in Jerusalem - is truly revelatory and profoundly timely. This book is an extraordinary journey into the experiential roots of consciousness, both personal and global.

*Breaking Open the Head* - Daniel Pinchbeck  
2003-08-12

A dazzling work of personal travelogue and cultural criticism that ranges from the primitive to the postmodern in a quest for the promise and meaning of the psychedelic experience. While psychedelics of all sorts are demonized in America today, the visionary compounds found in plants are the spiritual sacraments of tribal cultures around the world. From the iboga of the Bwiti in Gabon, to the Mazatecs of Mexico, these plants are sacred because they awaken the mind to other levels of awareness--to a holographic vision of the universe. *Breaking Open the Head* is a passionate, multilayered, and sometimes rashly personal inquiry into this deep division. On one level, Daniel Pinchbeck tells the story of

the encounters between the modern consciousness of the West and these sacramental substances, including such thinkers as Allen Ginsberg, Antonin Artaud, Walter Benjamin, and Terence McKenna, and a new underground of present-day ethnobotanists, chemists, psychonauts, and philosophers. It is also a scrupulous recording of the author's wide-ranging investigation with these outlaw compounds, including a thirty-hour tribal initiation in West Africa; an all-night encounter with the master shamans of the South American rain forest; and a report from a psychedelic utopia in the Black Rock Desert that is the Burning Man Festival. *Breaking Open the Head* is brave participatory journalism at its best, a vivid account of psychic and intellectual experiences that opened doors in the wall of Western rationalism and completed Daniel Pinchbeck's personal transformation from a jaded Manhattan journalist to shamanic initiate and grateful citizen of the cosmos.

Mystery School in Hyperspace - Graham St John  
2015-11-24

Since the mid-1950s, the psychoactive compound DMT has attracted the attention of experimentalists and prohibitionists, scientists and artists, alchemists and hyperspace emissaries. While most known as a crucial component of the "jungle alchemy" that is ayahuasca, DMT is a unique story unto itself. Until now, this story has remained untold. *Mystery School in Hyperspace* is the first book to delve into the history of this substance, the discovery of its properties, and the impact it has had on poets, artists, and musicians. DMT has appeared at crucial junctures in countercultural history. William Burroughs was jacking the spice in Tangier at the turn of the 1960s. It was present at the meeting between Ken Kesey's Merry Pranksters and Tim Leary's associates. It guided the inception of the Grateful Dead in 1965. It showed up in Berkeley in the same year, falling into the hands of Terence McKenna, who

would eventually become its champion in the post-rave neo-psychedelic movement of the 1990s. Its indole vapor drifted through Portugal's Boom Festival and has been evident at Nevada's Burning Man, where DMT has been adopted as spiritual technology supplying shape, color, and depth to a visionary art movement. The growing prevalence of use is evident in a vast networked independent research culture, and in its impact on fiction, film, music and metaphysics. As this book traces the effect of DMT's release into the cultural bloodstream, the results should be of great interest to contemporary readers. The book permits a broad reading audience to join ongoing debates in studies in consciousness and theology where the brain is held to be either a generator or a receiver of consciousness. The implications of the "spirit molecule" or "the brain's own psychedelic" among other theories illustrate that DMT may lift the lid on the Pandora's Box of consciousness. Features a foreword by Dennis

McKenna, cover art by Beau Deeley, and thirty color illustrations by various artists, including Alex Grey, Android Jones, Martina Hoffmann, Luke Brown, Carey Thompson, Adam Scott Miller, Randal Roberts, along with Jay Bryan, Cyb, Orryelle Defenestrade-Bascule, Art Van D'lay, Stuart Griggs, Jay Lincoln, Gwyllm Llwydd, Shiptu Shaboo, Marianna Stelmach, and Mister Strange. Regarded as the “nightmare hallucinogen” or celebrated as the “spirit molecule,” labelled “psychotogenic” or “entheogenic,” considered a dangerous drug or the suspected X-factor in the evolution of consciousness, DMT is a powerful enigma. Documenting the scientists and artists drawn into its sphere of influence, navigating the liminal aesthetics of the “breakthrough” experience, tracing the novum of “hyperspace” in esoteric and science fiction currents, Mystery School in Hyperspace excavates the significance of this enigmatic phenomenon in the modern world. Exposing a great many myths, this

cultural history reveals how DMT has had a beneficial influence on the lives of those belonging to a vast underground network whose reports and initiatives expose drug war propaganda and shine a light in the shadows. This conversation is highly relevant at a time when significant advances are being made to lift the moratorium on human research with psychedelics.

**I (Still) Believe** - Zondervan, 2015-09-01

I (Still) Believe explores the all-important question of whether serious academic study of the Bible is threatening to one’s faith. Far from it—faith enhances study of the Bible and, reciprocally, such study enriches a person’s faith. With this in mind, this book asks prominent Bible teachers and scholars to tell their story reflecting on their own experiences at the intersection of faith and serious academic study of the Bible. While the essays of this book will provide some apology for academic study of the Bible as an important discipline, the essays

engage with this question in ways that are uncontrived. They present real stories, with all the complexities and struggles they may hold. To this end, the contributors do two things: (a) reflect on their lives as someone who teaches and researches the Bible, providing something of a story outlining their journey of life and faith, and their self-understanding as a biblical theologian; and (b) provide focused reflections on how faith has made a difference, how it has changed, and what challenges have arisen, remained, and are unresolved, all with a view toward the future and engaging the book's main question. engaging the book's main question.  
*The Divine Plan* - Geoffrey Barborika 1972

*The Celestine Prophecy* - James Redfield  
1995-09-01

THE #1 BESTSELLING INTERNATIONAL PHENOMENON - NOW WITH A NEW PREFACE  
You have never read a book like this before--a book that comes along once in a lifetime to

change lives forever. In the rain forests of Peru, an ancient manuscript has been discovered. Within its pages are 9 key insights into life itself -- insights each human being is predicted to grasp sequentially; one insight, then another, as we move toward a completely spiritual culture on Earth. Drawing on ancient wisdom, it tells you how to make connections among the events happening in your life right now and lets you see what is going to happen to you in the years to come. The story it tells is a gripping one of adventure and discovery, but it is also a guidebook that has the power to crystallize your perceptions of why you are where you are in life and to direct your steps with a new energy and optimism as you head into tomorrow. Praise for *The Celestine Prophecy* "A gripping adventure story filled with intrigue, suspense, and spiritual revelations." - Commonwealth Journal "A spiritual classic...a book to read and reread, to cherish, and to give to friends." - Joan Borysenko, PhD, author of *Fire in the Soul* "In

his inimitable style of great storytelling, Redfield opens us up to a world of insight, inspiration, synchronicity, and power." - Deepak Chopra

**DMT: The Spirit Molecule** - Rick Strassman  
2000-12-01

A clinical psychiatrist explores the effects of DMT, one of the most powerful psychedelics known. • A behind-the-scenes look at the cutting edge of psychedelic research. • Provides a unique scientific explanation for the phenomenon of alien abduction experiences. From 1990 to 1995 Dr. Rick Strassman conducted U.S. Government-approved and funded clinical research at the University of New Mexico in which he injected sixty volunteers with DMT, one of the most powerful psychedelics known. His detailed account of those sessions is an extraordinarily riveting inquiry into the nature of the human mind and the therapeutic potential of psychedelics. DMT, a plant-derived chemical found in the psychedelic Amazon brew, ayahuasca, is also

manufactured by the human brain. In Strassman's volunteers, it consistently produced near-death and mystical experiences. Many reported convincing encounters with intelligent nonhuman presences, aliens, angels, and spirits. Nearly all felt that the sessions were among the most profound experiences of their lives. Strassman's research connects DMT with the pineal gland, considered by Hindus to be the site of the seventh chakra and by Rene Descartes to be the seat of the soul. DMT: The Spirit Molecule makes the bold case that DMT, naturally released by the pineal gland, facilitates the soul's movement in and out of the body and is an integral part of the birth and death experiences, as well as the highest states of meditation and even sexual transcendence. Strassman also believes that "alien abduction experiences" are brought on by accidental releases of DMT. If used wisely, DMT could trigger a period of remarkable progress in the scientific exploration of the most mystical

regions of the human mind and soul.

## **Quantum Science of Psychedelics** - Carl

Johan Calleman 2020-03-10

A groundbreaking exploration of how psychedelics and quantum science are vital to understanding the evolution of consciousness and reality • Explains why altered states of consciousness exist, how they work, and why psychedelics have the effects that they do • Describes how quantum waves, rather than the DNA molecule, have been the driving force behind biological and historical evolution • Explains how psychedelics interact with the human mind to create altered states that may further the continued evolution of consciousness

In this groundbreaking book, Carl Johan Calleman reveals the quantum science of the Maya, a science lost to the modern world that explains the phenomenology of psychedelics and altered states of consciousness. The ancient Maya had a sophisticated understanding of the multidimensional nature of reality and the forces

that drive the evolution of consciousness.

Calleman explains how quantum waves, illustrated by the Mayan Calendar, emanate from the center of the universe and activate new phases in the evolution of consciousness through holographic resonance, which alters the dualities of the human mind. For example, the 5th Wave, which dominated in Paleolithic times and evolved human consciousness above that of animals, brought a chaotic floating state reminiscent of the psychedelic or shamanic state, and the recent 8th Wave brought the digital revolution. The 9th Wave, which began in 2011, offers the potential for individual development of higher consciousness and healing if we can synchronize ourselves with its positive holograms. This multidimensional perspective explains why altered states of consciousness exist and how they work. Calleman describes the role of the pineal gland for the human mind, how it controls our state of consciousness and how it can connect us to the

cosmic Tree of Life. He shows that the mind is a “reducing valve” that normally limits our experience of cosmic consciousness but that this can be reversed through altered states. As Calleman concludes, psychedelics like ayahuasca and DMT not only give rise to extraordinary mystical and cosmic experiences and enable access to healing states, but they also are important for harmoniously synchronizing humanity with the 9th Wave to further the evolution of consciousness.

**Tryptamine Palace** - James Oroc 2009-05-21

A journey from Burning Man to the Akashic Field that suggest how 5-MeO-DMT triggers the human capacity for higher knowledge through direct contact with the zero-point field •

Examines Bufo alvarius toad venom, which contains the potent natural psychedelic 5-MeO-DMT, and explores its entheogenic use •

Proposes a new connection between the findings of modern physics and the knowledge held by shamans and religious sages for millennia The

venom from Bufo alvarius, an unusual toad found in the Sonoran desert, contains 5-MeO-DMT, a potent natural chemical similar in effect to the more common entheogen DMT. The venom can be dried into a powder, which some researchers speculate was used ceremonially by Amerindian shamans. When smoked it prompts an instantaneous break with the physical world that causes out-of-body experiences completely removed from the conventional dimensions of reality. In Tryptamine Palace, James Oroc shares his personal experiences with 5-MeODMT, which led to a complete transformation of his understanding of himself and of the very fabric of reality. Driven to comprehend the transformational properties of this substance, Oroc combined extensive studies of physics and philosophy with the epiphanies he gained from his time at Burning Man. He discovered that ingesting tryptamines unlocked a fundamental human capacity for higher knowledge through direct contact with the zero-point field of

modern physics, known to the ancients as the Akashic Field. In the quantum world of nonlocal interactions, the line between the physical and the mental dissolves. 5-MeO-DMT, Oroc argues,

can act as a means to awaken the remarkable capacities of the human soul as well as restore experiential mystical spirituality to Western civilization.
