**Mabel Normand** - Timothy Dean Lefler 2016-03-23

American silent film star Mabel Normand (1892-1930) appeared in a string of popular movies opposite the likes of Charlie Chaplin and Fatty Arbuckle during the 1910s and 1920s, before dying of tuberculosis at age 37. Her brief but remarkable career, which included director and writer credits as well as heading her own studio and production company, was marred by scandal--police connected her to the unsolved 1922 murder of director William Desmond Taylor--that defined her legacy. This book highlights Normand's substantial yet long overlooked contributions to film history and popular culture, tracing her life from humble beginnings on Staten Island to the heights of world superstardom.

**Pregnancy in Literature and Film** - Parley Ann Boswell 2014-03-13

This exploration of the ways in which pregnancy affects narrative begins with two canonical American texts, Nathaniel Hawthorne's *The Scarlet Letter* (1848) and Harriet Jacobs's *Incidents in the Life of a Slave Girl* (1861). Relying on such diverse works as *Frankenstein*, *Peyton Place*, *Beloved*, and *I Love Lucy*, the book chronicles how pregnancy evolves from a conventional plot device into a mature narrative form. Especially in the 20th and 21st centuries, the pregnancy narrative in fiction and film acts as a lightning rod with the power to electrify all genres of fiction and film, from early melodrama (*Way Down East*) to noir (*Leave Her to Heaven*); from horror (*Rosemary's Baby*) to science fiction and dystopia (*Alien*, *The Handmaid's Tale*); and from iconic (*Lolita*) to independent (*Juno*, *Precious*). Ultimately, the pregnancy narrative in popular film and fiction provides a remarkably clear lens by which we can gauge how popular American film and fiction express our most profound—and most private—fears, values and hopes.

**The Cinema of Sergei Parajanov** - James Steffen 2013-10-31

Sergei Parajanov (1924–90) flouted the rules of both filmmaking and society in the Soviet Union and paid a heavy personal price. An ethnic Armenian in the multicultural atmosphere of Tbilisi, Georgia, he was one of the most innovative directors of postwar Soviet cinema. Parajanov succeeded in creating a small but marvelous body of work whose style embraces such diverse influences as folk art, medieval miniature painting, early cinema, Russian and European art films, surrealism, and Armenian, Georgian, and Ukrainian cultural motifs. *The Cinema of Sergei Parajanov* is the first English-language book on the director's films and the most comprehensive study of his work. James Steffen provides a detailed overview of Parajanov's artistic career: his identity as an Armenian in Georgia and its impact on his aesthetics; his early films in Ukraine; his international breakthrough in 1964 with *Shadows of Forgotten Ancestors*; his challenging 1969 masterpiece, *The Color of Pomegranates*, which was reedited against his wishes; his unrealized projects in the 1970s; and his eventual return to international prominence in the mid-to-late 1980s with *The Legend of the Surami Fortress* and *Ashik-Kerib*. Steffen also provides a rare, behind-the-scenes view of the Soviet film censorship process and tells the dramatic story of Parajanov's conflicts with the authorities, culminating in his 1973–77 arrest and imprisonment on charges related to homosexuality.

Ultimately, the figure of Parajanov offers a fascinating case study in the complicated dynamics of power, nationality, politics, ethnicity, sexuality, and culture in the republics of the former Soviet Union. Outstanding

**The Art of Sergio Leone's Once Upon a Time in the West** - John Fawell 2014-12-24

Few directors are characterized by both extraordinary film craft and the ironic reputation for lowbrow films. Despite his many achievements as a child of the Italian Cinecitta studios, however, Sergio Leone has been judged severely by writers who find his films lacking in ideas and moralists who find his films unduly cynical. Nevertheless, Leone's greatest cinematic achievement, *Once Upon a Time in the West*, served to refute these criticisms while exposing the director's unique romanticism and artistic ambition. As Leone's fourth successful American western film, *Once Upon a Time in the West* earned him acclaim for liberating the western genre, restoring it to a place of antique American simplicity. The principal goal of this book is to sharpen an appreciation for Sergio Leone and his most famous American western. The first two chapters deal with the relationship between *Once Upon a Time in the West* and the western films that preceded it, particularly those of John Ford. Subsequent chapters concentrate on the central characters of *Once Upon a Time in the West*, with special attention to Jill, Leone's first female protagonist and a surprisingly successful character, central to the plot and accorded a kind of existential strength usually reserved for men in Westerns. The sixth, seventh and eighth chapters address Leone's visual style, which represents a unique fusion of Hollywood classicism and modernism, and reveals the influences of Italian Surrealism and the French New Wave. The final chapters explore the rhythm, romanticism, and musical character of *Once Upon a Time in the West*, espousing the theory that Leone's approach to film is, above all, musical.

**Film Art** - David Bordwell 2009-11-15

**Communication and Technology** - Lorenzo Cantoni 2015-08-31

The primary goal of the Communication and Technology volume (5th within the series "Handbooks of Communication Science") is to provide the reader with a comprehensive compilation of key scholarly literature,

identifying theoretical issues, emerging concepts, current research, specialized methods, and directions for future investigations. The internet and web have become the backbone of many new communication technologies, often transforming older communication media, through digitization, to make them compatible with the net. Accordingly, this volume focuses on internet/web technologies. The essays cover various infrastructure technologies, ranging from different kinds of hard-wired elements to a range of wireless technologies such as WiFi, mobile telephony, and satellite technologies. Audio/visual communication is discussed with reference to large-format motion pictures, medium-sized television and video formats, and the small-screen mobile smartphone. There is also coverage of audio-only media, such as radio, music, and voice telephony; text media, in such venues as online newspapers, blogs, discussion forums and mobile texting; and multi-media technologies, such as games and virtual reality.

**Totally, Tenderly, Tragically** - Phillip Lopate 1998-10-20

Phillip Lopate has been obsessed with movies from the start. As an undergraduate at Columbia, he organized the school's first film society. Later, he even tried his own hand at filmmaking. But it was not until his ascent as a major essayist that Lopate found his truest and most lasting contribution to the medium. And, over the past twenty-five years, tackling subjects ranging from Visconti to Jerry Lewis, from the first New York Film Festival to the thirty-second, Phillip Lopate has made film his most cherished subject. Here, in one place, are the very best of these essays, a joy for anyone who loves movies.

**Expanded Cinema** - Gene Youngblood 2020-03-03

Fiftieth anniversary reissue of the founding media studies book that helped establish media art as a cultural category. First published in 1970, Gene Youngblood's influential *Expanded Cinema* was the first serious treatment of video, computers, and holography as cinematic technologies. Long considered the bible for media artists, Youngblood's insider account of 1960s counterculture and the birth of cybernetics remains a mainstay reference in today's hypermediated digital world. This fiftieth anniversary edition includes a new Introduction by the author that offers conceptual tools for understanding the sociocultural and sociopolitical realities of our present world. A unique eyewitness account of burgeoning experimental film and the birth of video art in the late 1960s, this far-ranging study traces the evolution of cinematic language to the end of fiction, drama, and realism. Vast in scope, its prescient formulations include "the paleocybernetic age," "intermedia," the "artist as design scientist," the "artist as ecologist," "synaesthetics and kinesthetics," and "the technosphere: man/machine symbiosis." Outstanding works are analyzed in detail. Methods of production are meticulously described, including interviews with artists and technologists of the period, such as Nam June Paik, Jordan Belson, Andy Warhol, Stan Brakhage, Carolee Schneemann, Stan VanDerBeek, Les Levine, and Frank Gillette. An inspiring Introduction by the celebrated polymath and designer R. Buckminster Fuller—a perfectly cut gem of countercultural thinking in itself—places Youngblood's radical observations in comprehensive perspective. Providing an unparalleled historical documentation, *Expanded Cinema* clarifies a chapter of countercultural history that is still not fully represented in the arthistorical record half a century later. The book will also inspire the current generation of artists working in ever-newer expansions of the cinematic environment and will prove invaluable to all who are concerned with the technologies that are reshaping the nature of human communication.

**Everything Is Cinema** - Richard Brody 2008-05-13

A landmark biography explores the crucial resonances among the life, work, and times of one of the most influential filmmakers of our age. When Jean-Luc Godard wed the ideals of filmmaking to the realities of autobiography and current events, he changed the nature of cinema. Unlike any earlier films, Godard's work shifts fluidly from fiction to documentary, from criticism to art. The man himself also projects shifting images—cultural hero, fierce loner, shrewd businessman. Hailed by filmmakers as a—if not the—key influence on cinema, Godard has entered the modern canon, a figure as mysterious as he is indispensable. In *Everything Is Cinema*, critic Richard Brody has amassed hundreds of interviews to demystify the elusive director and his work. Paying as much attention to Godard's technical inventions as to the political forces of the postwar world, Brody traces an arc from the director's early critical writing, through his popular success with *Breathless*, to the grand vision of his later years. He vividly depicts Godard's wealthy conservative family, his fluid politics, and his tumultuous dealings with women and fellow New Wave filmmakers. *Everything Is Cinema* confirms Godard's greatness and shows decisively that his films have left their mark on screens everywhere.

Ingrid Bergman - Charles River Charles River Editors 2017-12-20

\*Includes pictures of Bergman and important people, places, and scenes.

\*Includes Bergman's own quotes about her upbringing, films and relationships.

\*Includes a Bibliography for further reading. "Be yourself.

The world worships the original." - Ingrid Bergman Since the early 20th

century, film has been embraced as arguably the preeminent

international art form. Not only is Hollywood cinema immensely popular

around the world, but other nationalities (Bollywood being the greatest

current example) have their own thriving industries. Major actors and

actresses are not only icons in their parent countries but reach

tremendous international fame. However, most actors who become

internationally famous do so via the success of the films they make in

their native land, without actually leaving their country. One of the most

famous early examples is Charlie Chaplin, who reached incredible fame

in Asia and Western Europe during the silent cinema era despite having

never left the confines of Hollywood. Chaplin's example illustrates how

the vast majority of film stars who reach international fame do so

through the global success of the films they make within a given

industry. This dynamic highlights the uniqueness of Ingrid Bergman's

career and her significance as an international film star. Not only were

films like *Casablanca* (1942) famous around the world, but she made

films in five different languages and film industries. In this regard, she

was the rare star who was willing to literally act in films produced in

different countries. Bergman's fame cannot be doubted, but the

international quality of her career has prevented most people from

gaining a complete understanding of her filmography. Moreover, the

immense success of her most famous films obscured her other

achievements; one of Bergman's persistent lamentations late in her

career was that even though she appeared in other films she deemed

more significant, the only film of hers that people wanted to discuss was

*Casablanca*. As a result, her early films in Sweden, the Italian Neorealist

films she made with famous director and future husband Roberto

Rossellini, and her French film with Jean Renoir have all been relegated

to the margins. Bergman is thus recognized as a Hollywood star rather

than an actress who should be identified with an array of different film

industries, reducing the enormous scope of her career to a relatively

small proportion of her filmography. At the same time, Bergman's

personal life reflects the dynamics of the film industry and the

relationship between celebrities and American culture more generally. At

times during her career, Bergman was the darling of Hollywood, but at

other times she was literally a pariah. It is all too common to remember

Bergman for her performance in *Casablanca*, forgetting the fact that she

was effectively exiled from Hollywood for several years during her

romance with Roberto Rossellini. Her life and career amply

demonstrated the expectations American culture held for their film stars

during the mid-20th century. *Ingrid Bergman: The First International*

*Movie Star* profiles the life and career of one of the world's most famous

actresses and entertainment icons. Along with pictures of important

people, places, and events, you will learn about Ingrid Bergman like you

never have before, in no time at all.

Many Selves: The Horror and Fantasy Films of Paul Wegener -

Henry Nicolella and John T. Soister

One of the first film actors to be identified with horror roles was Paul

Wegener. A distinguished stage actor, Wegener was fascinated by film and its potential to portray the uncanny and the macabre. Sometimes acting as director and writer, as well as performer, Wegener played in a series of fantastic films in the 1910s, the most famous of which are *The Student of Prague* and *The Golem*. His directing career faltered in the 1920s, but he continued to play mad scientists, monsters, and various grotesque characters. The book has detailed essays on seventeen of his most significant genre films and includes first-hand descriptions of such rarities as *The Lost Shadow*, *Svengali*, *Hans Trutz*, and *Ramper the Beast Man*. In addition to a biography of Wegener, there is also a detailed filmography of all his movies, including the obscure films he directed in the 1930s.
