The Knowledge Gap - Natalie Wexler 2020-08-04

The untold story of the root cause of America's education crisis--and the seemingly endless cycle of multigenerational poverty. It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country's frustrating lack of progress when it comes to providing every child with a quality education. The problem wasn't one of the usual scapegoats: lazy teachers, shoddy facilities, lack of accountability. It was something no one was talking about: the elementary school curriculum's intense focus on decontextualized reading comprehension "skills" at the expense of actual knowledge. In the tradition of Dale Russakoff's *The Prize* and Dana Goldstein's *The Teacher Wars*, Wexler brings together history, research, and compelling characters to pull back the curtain on this fundamental flaw in our education system--one that fellow reformers, journalists, and policymakers have long overlooked, and of which the general public, including many parents, remains unaware. But *The Knowledge Gap* isn't just a story of what schools have gotten so wrong--it also follows innovative educators who are in the process of shedding their deeply ingrained habits, and describes the rewards that have come along: students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed. If we truly want to fix our education system and unlock the potential of our neediest children, we have no choice but to pay attention.

How to Master the Teacher Interview - How2Become 2016-07

A passion for teaching [electronic resource] - Christopher Day 2004

This book is a celebration and an acknowledgement of the various forms of intellectual, physical, emotional and passionate endeavours in which teachers at their best engage. Christopher Day demonstrates that teachers with a passion for teaching are those who are committed, enthusiastic and intellectually and emotionally energetic in their work with children, young people and adults alike. Having this passion for helping pupils to learn has recently been identified as one of the four leadership characteristics mentioned in the HayMcBer Report on effective teachers. Day recognises that passionate teachers are aware of the challenge of the broader social contexts in which they teach, have a clear sense of identity and believe they can make a difference to the learning and achievement of all their pupils. Offering a refreshing and positive view, A Passion for Teaching is a contribution to understanding and improving the teaching profession and brings new insights to the work and lives of teachers. It is written for all teachers, teacher

educators and student teachers who have a passion for education, who love learners, the learning life and the teaching life.

Motivational Interviewing in Schools - Keith C. Herman, PhD 2013-12-19

One of the greatest challenges for mental health and other professionals in school settings is to get students, families, and staff willing to partake of and engaged in their services. This is the first book on applying motivational interviewing (MI) is a powerful, evidence-based technique for facilitating behavior change throughout the school environment to help psychologists, counselors and other school-based professionals to improve the effectiveness of their practice. Based on encouraging

research on the value of MI in K-12 settings, this practical book explains the basic elements of MI theory and demonstrates, step-by-step, how the four-stage process of engaging, focusing, evoking, and planning can be used with the families of students who need psychological or counseling services, teachers who need consultation and support to improve classroom management, and the students themselves. The book discusses barriers to readiness to change and describes how to foster engagement and compliance with school services to increase the likelihood that positive change will occur. It also describes how MI can be used to increase the effectiveness of inter-professional teams in school settings, along with ways in which MI can be integrated into and build support for already established programs. Richly illustrated with examples of using MI as a strategy for promoting everyday conversations about change--the nucleus of MI practice--the book also includes case studies and sample handouts for mental health professionals, students, family members, and teachers. Key Features: Demonstrates how to apply motivational interviewing to the K-12 environment to help school professionals improve effectiveness Explains the four-stage process of engaging, focusing, evoking, and planning Shows how MI can be used with children, their families, and teachers to facilitate change Describes how MI can be integrated into other established programs Includes plentiful case studies and examples of MI as a strategy for promoting everyday conversations about change

Keeping Good Teachers - Marge Scherer 2003-12-19

What attracts good teachers and keeps them in the profession? What makes schools better places for students to learn and for teachers to work? These questions are at the heart of *Keeping Good Teachers*. To answer them, many of the authors in this book have surveyed fellow educators to find out which practices and policies are most beneficial and practical to implement in schools. The book is divided into five sections: *Part I explores the extent of the teacher shortage and sets the context for studying it. *Part II concentrates on induction, tackling the issue of how new teachers should be introduced to their profession. *Part III looks at the issues of compensation, performance-based pay, career paths, national certification, and other ways to reward educators and make them feel valued. *Part IV describes the role of principals and administrators in sustaining teachers. *Part V discusses the needs and desires of master teachers. Like its predecessor *A Better Beginning: Supporting and Mentoring New Teachers* (ASCD 1999), *Keeping Good Teachers* is dedicated to all those who want to make their profession the best it can be by creating the conditions where good teachers can thrive. Note: This product listing is for the Adobe Acrobat (PDF) version of the book.

Teaching Autoethnography - Melissa Tombro

"*Teaching Autoethnography: Personal Writing in the Classroom* is dedicated to the practice of immersive ethnographic and autoethnographic writing that encourages authors to participate in the communities about which they write. This book draws not only on critical qualitative inquiry methods such as interview and observation, but also on theories and sensibilities from creative writing and performance studies, which encourage self-reflection and narrative composition. Concepts from qualitative inquiry studies, which examine everyday life, are combined with approaches to the creation of character and scene to help writers develop engaging narratives that examine chosen subcultures and the author's position in relation to her research subjects. The book brings together a brief history of first-person qualitative research and writing from the past forty years, examining the evolution of nonfiction and qualitative approaches in relation to the personal essay. A selection of recent student writing in the genre as well as reflective student essays on the experience of conducting research in the classroom is presented in the context of exercises for coursework and beyond. Also explored in detail are guidelines for interviewing and identifying subjects and techniques for creating informed sketches and images that engage the reader. This book provides approaches anyone can use to explore their communities and write about them first-hand. The methods presented can be used for a single assignment in a larger course or to guide an entire semester through many levels and varieties of informed personal writing."--Open Textbook Library.

The Professor Is In - Karen Kelsky 2015-08-04

The definitive career guide for grad students, adjuncts, post-docs and

anyone else eager to get tenure or turn their Ph.D. into their ideal job. Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site *The Professor is In*, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish - Writing a foolproof grant application -Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right *The Professor Is In* addresses all of these issues, and many more.

The Leader in Me - Stephen R. Covey 2012-12-11

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? *The Leader in Me* is that programme. It's based on a hugely successful initiative carried out at the

A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught *The 7 Habits of Highly Effective People* to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

The Philosophy of Psychology - George Botterill 1999-08-19

What is the relationship between common-sense, or 'folk', psychology and contemporary scientific psychology? Are they in conflict with one another? Or do they perform quite different, though perhaps complementary, roles? George Botterill and Peter Carruthers discuss these questions, defending a robust form of realism about the commitments of folk psychology and about the prospects for integrating those commitments into natural science. Their focus throughout the book is on the ways in which cognitive science presents a challenge to our common-sense self-image - arguing that our native conception of the mind will be enriched, but not overturned, by science. *The Philosophy of Psychology* is designed as a textbook for upper-level undergraduate and beginning graduate students in philosophy and cognitive science, but as a text that not only surveys but advances the debates on the topics discussed, it will also be of interest to researchers working in these areas.
