Nothing Left to Steal - Mzilikazi wa Afrika
2014-08-20

This tell-all memoir reveals the details behind Sunday Times journalist Mzilikazi wa Afrika's exposure of the R1.7 billion lease scandal between police commissioner Bheki Cele and property tycoon Roux Shabangu, for which he was infamously arrested in 2010. It is also the riveting account of how a neglected boy in an

unknown village became one of South Africa's most awarded investigative reporters and found himself at the receiving end of the corruption that had defeated those he helped put in power. Fearless in the face of corrupt authorities with sinister political motives, and fervent about justice, Wa Afrika's life was characterised by resistance to oppression and inequality from an early age. Destined to defend and uphold the principles of democracy, his story is the inspiring tale of an ordinary man, armed with a pen, who challenged the proverbial giant.

Muslims of Medieval Latin Christendom, c.1050-1614 - Brian A. Catlos 2014-03-20

Through crusades and expulsions, Muslim communities survived for over 500 years, thriving in medieval Europe. This comprehensive study explores how the presence of Islamic minorities transformed Europe in everything from architecture to cooking, literature to science, and served as a stimulus for Christian society to define itself. Combining a series of

regional studies, Catlos compares the varied experiences of Muslims across Iberia, southern Italy, the Crusader Kingdoms and Hungary to examine those ideologies that informed their experiences, their place in society and their sense of themselves as Muslims. This is a pioneering new narrative of the history of medieval and early modern Europe from the perspective of Islamic minorities; one which is not, as we might first assume, driven by ideology, isolation and decline, but instead one in which successful communities persisted because they remained actively integrated within the larger Christian and Jewish societies in which they lived.

Thinking Security - Steven M. Bellovin
2015-12-03

If you're a security or network professional, you already know the "do's and don'ts": run AV software and firewalls, lock down your systems, use encryption, watch network traffic, follow best practices, hire expensive consultants . . . but it isn't working. You're at greater risk than ever, and even the world's most security-focused organizations are being victimized by massive attacks. In *Thinking Security*, author Steven M.

Bellovin provides a new way to think about security. As one of the world's most respected security experts, Bellovin helps you gain new clarity about what you're doing and why you're doing it. He helps you understand security as a systems problem, including the role of the all-important human element, and shows you how to match your countermeasures to actual threats. You'll learn how to move beyond last year's checklists at a time when technology is changing so rapidly. You'll also understand how to design security architectures that don't just prevent attacks wherever possible, but also deal with the consequences of failures. And, within the context of your coherent architecture, you'll learn how to decide when to invest in a new security product and when not to. Bellovin, co-author of the best-selling *Firewalls and Internet Security*, caught his first hackers in 1971. Drawing on his deep experience, he shares actionable, up-to-date guidance on issues ranging from SSO and federated authentication

to BYOD, virtualization, and cloud security. Perfect security is impossible. Nevertheless, it's possible to build and operate security systems far more effectively. Thinking Security will help you do just that.

Understanding Business Statistics - Ned Freed
2013-11-27

Understanding Business Statistics is a highly student-oriented business statistics product that makes statistics understandable for students with a wide variety of statistics backgrounds. The authors provide an intuitive discussion of basic statistical principles rather than a mathematically rigorous development. They use simple examples to introduce and develop concepts and procedures. For ease of reading, chapter sections are designed to ensure easy-to-follow continuity from one section to the next. This text provides students with frequent opportunities to check their understanding of topics as they move through the chapters, with exercises included at the end of most sections.

In many cases, the exercises have been designed to extend chapter discussions rather than solely provide opportunities for drill and repetition. Understanding Business Statistics is written using a modular approach, allowing students to approach the subject step-by-step with very clear instructions.

The Indian Theogony - Sukumari Bhattacharji
2016-01-01

The present book is the result of ten years work on the subject of historical development of Indian mythology and its connection with parallel historical development of Indian mythology and its connection with parallel mythologies elsewhere, on which no satisfactory work exists in English. In the first part the Vedic-Brahmanical and epic-puranic components of Siva, Varuna, Yama, Nirrti, Agni, Kala, the mother goddess, Karttikeya, Ganapati, Kama and Pusan are treated. Part II studies the rise of Visnu. The component gods-the Vedic solar gods Savitr, Surya, Vivasvat, Mitra, Aryaman, Bhaga,

Amsa, Daksa, Martanda, Indra, and Visnu together with the epic-Puranic incarnations of Visnu (with their Vedic precursors) are analysed. With Brahman (Part III) the picture is different. In the Vedic-Brahmanical gods-Brhaspati, Brahmanaspati, Prajapati, Pitamaha and Brahman-we do not get a very tangible figure, far less that of a sectarian god. These merge into the Brahman, Prajapati or Pitamaha of the epic-Puranic literature, but fail to answer to the definition of a sectarian god, so that no cult grows around the resultant image. In Part IV the general characteristics of the Puranic pantheon are analysed. Here, on the one hand, there are innumerable regional, functional divinities, tutelary gods and goddesses, village-or disease-gods, and also gods for different occasions in life, while on the other hand there is the lofty Triad, which thanks to the predominance of philosophy, is frequently stated to be three facets of the same supreme being.

Bad Twin - Gary Troup 2006-05-02

Sometimes evil has a familiar face . . . Paul Artisan, P.I. is a new version of an old breed -- a righter of wrongs, someone driven to get to the bottom of things. Too bad his usual cases are of the boring malpractice and fraud variety. Until now. His new gig turns on the disappearance of one of a pair of twins, adult scions of a rich but tragedy-prone family. The missing twin -- a charismatic poster-boy for irresponsibility -- has spent his life daring people to hate him, punishing himself endlessly for his screw-ups and misdeeds. The other twin -- Artisan's client -- is dutiful and resentful in equal measure,

bewildered that his "other half" could have turned out so badly, and wracked by guilt at his inability to reform him. He has a more practical reason, as well, for wanting his brother found: their crazy father, in failing health and with guilty secrets of his own, will not divide the family fortune until both siblings are accounted for. But it isn't just a fortune that's at stake here. Truth itself is up for grabs, as the detective's discoveries seem to challenge everything we think we know about identity, and human nature, and family. As Artisan journeys across the globe to track down the bad twin, he seems to have moved into a mirror-world where friends and enemies have a way of looking very much alike. The P.I. may have his long-awaited chance to put his courage and ideals to the test, but if he doesn't get to the bottom of this case soon, it could very well cost him his life. Troup's long-awaited *Bad Twin* is a suspenseful novel that touches on many powerful themes, including the consequence of vengeance, the power of

redemption, and where to turn when all seems lost. *Bad Twin* is a work of fiction and all names, characters and incidents are used fictitiously; the author himself is a fictional character. *Sales to Fellow Workers, 6th War Loan* - United States. War Finance Division. Treasury Department 1944

Greece in the Twentieth Century - Fotini Bellou 2013-01-11

This collective study examines the transformation (metamorphosis) that Greece has experienced over the course of the 20th century by exploring its gradual evolution into a consolidated democracy, an advanced economy in the Eurozone and a balanced partner in the EU and NATO promoting a stabilizing role in southeastern Europe. The book examines the variables contributing to the profiling of contemporary Greece, emphasizing the conceptual inertia bedeviling the studies of Greece in recent years by focusing on the elements that indicated the slow pace in the country's modernization. In conclusion, there is a need for Greece's constant commitment to functional adjustments regarding the country's economic, political and strategic priorities in order to promote effectively the role of regional stabilizer acting in concert with NATO and EU partners.

The History of al-Tabari Vol. 28 - Abu Jafar Muhammad B. Jarir al-Tabari 1995-01-01

The initial years (126-145) of al-Mansur's reign presented several significant challenges to nascent Abbasid hegemony, and the resulting confrontations constitute the central focus of this section of Tabari's Tarikh. After Abu Jafar

succeeded his brother Abu al-Abbas as caliph, the second of the Abbasid dynasty, he moved against his recalcitrant uncle, Abdallah b. Ali, and against the potential threat that he perceived in the person of the commander in Khurasan, Abu Muslim. Eliminating the latter and containing the former freed the caliph to address a series of other onslaughts and insurrections. Starting with the year 144, however, Tabari turned to this volume's principal preoccupation, to which half of the book is devoted. Judging by the attention given to it, he clearly perceived the Hasanid rebellions of Muhammad b. Abdallah (the Pure Soul) and of his brother Ibrahim to be the most substantial

attack on Abbasid authority to arise in the first years of that dynasty. Tabari's description of the prolonged search for Muhammad and Ibrahim and of the caliphal vengeance visited upon their father and family provides an extended prelude to the vivid battle and death scenes in Medina and Bakhamra. Yet, elaboration of these events does not eclipse mention of all other Abbasid activity. To bridge the account of Muhammad's defeat and that of Ibrahim's uprising, Tabari inserted a narrative interlude depicting the site selection and preliminary construction of al-Mansur's most celebrated achievement, the City of Peace, Baghdad.
