Child Bride - Jennifer Smith Turner 2020-04-14
In the segregated South of the mid-1900s, fourteen-year-old Nell bears witness to a world that embraces the oppression of women. She is fascinated with the prospect of being an independent person—but when she turns sixteen, she is married off and brought to the city of Boston as a bride. Nell is a shy girl who

must quickly learn how to be a wife and mother. She quickly discovers that she must acquire new skills to navigate the unknown territory of the North, as well as her relationship with her husband, Henry, who is controlling and emotionally abusive. After giving birth to three children, her body begins to fail her and Henry, concerned for her health, pulls away from her

physically. But this void of intimacy drives Nell into the arms of another man. It's through her encounter with Charles in the church kitchen, at the point when she is most vulnerable, that Nell finds escape from her depressed life with Henry. The cost though, is another pregnancy. When Charles finds out the baby is his, at first it appears he plans to leave Nell; ultimately, however, his love for her brings him back.

Hearing Enslaved Voices - Sophie White
2020-09-01

This book focuses on alternative types of slave narratives, especially courtroom testimony, and interrogates how such narratives were produced, the societies (both those that were majority slave societies and those in which slaves were a distinct minority of the population) in which testimony was permitted, and the meanings that can be attached to such narratives. The chapters in this book provide valuable information about the everyday lives—including the inner and spiritual lives—of

enslaved African American and Native American individuals in the British and French Atlantic World, from Canada to the Caribbean. It explores slave testimony as a form of autobiographical narrative, and in ways that allow us to foreground enslaved persons' lived experience as expressed in their own words.

Playing for Change - Rob Rosenthal
2015-11-17

Although music is known to be part of the great social movements that have rocked the world, its specific contribution to political struggle has rarely been closely analyzed. Is it truly the 'lifeblood' of movements, as some have declared, or merely the entertainment between the speeches? Drawing on interviews, case studies and musical and lyrical analysis, Rosenthal and Flacks offer a brilliant analysis and a wide-ranging look at the use of music in movements, in the US and elsewhere, over the past hundred years. From their interviews, the voices of Pete Seeger, Ani DiFranco, Tom Morello, Holly Near,

and many others enliven this highly readable book.

Negotiating for Success: Essential Strategies and Skills - George J. Siedel 2014-10-04

We all negotiate on a daily basis. We negotiate with our spouses, children, parents, and friends. We negotiate when we rent an apartment, buy a car, purchase a house, and apply for a job. Your ability to negotiate might even be the most important factor in your career advancement. Negotiation is also the key to business success. No organization can survive without contracts that produce profits. At a strategic level, businesses are concerned with value creation and achieving competitive advantage. But the success of high-level business strategies depends on contracts made with suppliers, customers, and other stakeholders. Contracting capability—the ability to negotiate and perform successful contracts—is the most important function in any organization. This book is designed to help you achieve success in your personal negotiations and in your business transactions. The book is unique in two ways.

First, the book not only covers negotiation concepts, but also provides practical actions you can take in future negotiations. This includes a Negotiation Planning Checklist and a completed example of the checklist for your use in future negotiations. The book also includes (1) a tool you can use to assess your negotiation style; (2) examples of “decision trees,” which are useful in calculating your alternatives if your negotiation is unsuccessful; (3) a three-part strategy for increasing your power during negotiations; (4) a practical plan for analyzing your negotiations based on your reservation price, stretch goal, most-likely target, and zone of potential agreement; (5) clear guidelines on ethical standards that apply to negotiations; (6) factors to consider when deciding whether you should negotiate through an agent; (7) psychological tools you can use in negotiations—and traps to avoid when the other side uses them; (8) key elements of contract law that arise during negotiations; and (9) a checklist of factors to use

when you evaluate your performance as a negotiator. Second, the book is unique in its holistic approach to the negotiation process. Other books often focus narrowly either on negotiation or on contract law. Furthermore, the books on negotiation tend to focus on what happens at the bargaining table without addressing the performance of an agreement. These books make the mistaken assumption that success is determined by evaluating the negotiation rather than evaluating performance of the agreement. Similarly, the books on contract law tend to focus on the legal requirements for a contract to be valid, thus giving short shrift to the negotiation process that precedes the contract and to the performance that follows. In the real world, the contracting process is not divided into independent phases. What happens during a negotiation has a profound impact on the contract and on the performance that follows. The contract’s legal content should reflect the

realities of what happened at the bargaining table and the performance that is to follow. This book, in contrast to others, covers the entire negotiation process in chronological order beginning with your decision to negotiate and continuing through the evaluation of your performance as a negotiator. A business executive in one of the negotiation seminars the author teaches as a University of Michigan professor summarized negotiation as follows: "Life is negotiation!" No one ever stated it better. As a mother with young children and as a company leader, the executive realized that negotiations are pervasive in our personal and business lives. With its emphasis on practical action, and with its chronological, holistic approach, this book provides a roadmap you can use when navigating through your life as a negotiator.

The Scent of Buenos Aires - HEBE UHART 2019-10-15

From one of Argentina's greatest contemporary storytellers, *The Scent of Buenos Aires* gathers twenty-five of Hebe Uhart's most remarkable and incandescent short stories in English for the first time. *The Scent of Buenos Aires* offers the first book-length English translation of Uhart's work, drawing together her best vignettes of quotidian life: moments at the zoo, the hair salon, or a cacophonous homeowners association meeting. She writes in unconventional, understated syntax, constructing a delightfully specific perspective on life in South America. These stories are marked by sharp humor and wit: discreet and subtle, yet filled with eccentric and insightful characters. Uhart's narrators pose endearing questions about their lives and environments - one asks "Bees - do you know how industrious they are?" while another inquires, "Are we perhaps going to hell in a hand basket?"

Animals - HEBE UHART 2021-06-22

From the winner of Argentina's National Endowment of the Arts Prize and the Manuel Rojas Ibero-American Narrative Prize comes this series of reflections on critters and their natural or not-so-natural habitats. Hebe Uhart's *Animals* tells of piglets that snack on crackers, parrots that rehearse their words at night, southern screamers that lurk at the front door of a decrepit aunt's house, and, of course, human animals, whose presence is treated with the same inquisitive sharpness and sweetness that marks all of Uhart's work. *Animals* is a joyous reordering of attention towards the beings with whom we share the planet. In prose that tracks the goings on of creatures who care little what we do or say, a refreshing humility emerges, and with it a newfound pleasure in the everyday.

Watching a whistling heron, Uhart writes, "that rebellious crest gives it a lunatic air." Birds in the park and dogs in the street will hold a different interest after reading Uhart's blissful foray into playful zoology.

Harriet Beecher Stowe - Joan D. Hedrick
1995-06-01

"Up to this year I have always felt that I had no particular call to meddle with this subject....But I feel now that the time is come when even a woman or a child who can speak a word for freedom and humanity is bound to speak." Thus did Harriet Beecher Stowe announce her decision to begin work on what would become one of the most influential novels ever written. The subject she had hesitated to "meddle with"

was slavery, and the novel, of course, was Uncle Tom's Cabin. Still debated today for its portrayal of African Americans and its unresolved place in the literary canon, Stowe's best-known work was first published in weekly installments from June 5, 1851 to April 1, 1852. It caused such a stir in both the North and South, and even in Great Britain, that when Stowe met President Lincoln in 1862 he is said to have greeted her with the words, "So you are the little woman who wrote the book that created this great war!" In this landmark book, the first full-scale biography of Harriet Beecher Stowe in over fifty years, Joan D. Hedrick tells the absorbing story of this gifted, complex, and contradictory woman. Hedrick takes readers into the multilayered world of nineteenth century morals and mores, exploring the influence of then-popular ideas of "true womanhood" on Stowe's upbringing as a member of the outspoken Beecher clan, and her eventful life as a writer and shaper of public opinion who was also a mother of seven. It offers

a lively record of the flourishing parlor societies that launched and sustained Stowe throughout the 44 years of her career, and the harsh physical realities that governed so many women's lives. The epidemics, high infant mortality, and often disastrous medical practices of the day are portrayed in moving detail, against the backdrop of western expansion, and the great social upheaval accompanying the abolitionist movement and the entry of women into public life. Here are Stowe's public triumphs, both before and after the Civil War, and the private tragedies that included the death of her adored eighteen month old son, the drowning of another son, and the alcohol and morphine addictions of two of her other children. The daughter, sister, and wife of prominent ministers, Stowe channeled her anguish and her ambition into a socially acceptable anger on behalf of others, transforming her private experience into powerful narratives that moved a nation.

Magisterial in its breadth and rich in detail, this definitive portrait explores the full measure of Harriet Beecher Stowe's life, and her contribution to American literature. Perceptive and engaging, it illuminates the career of a major writer during the transition of literature from an amateur pastime to a profession, and offers a fascinating look at the pains, pleasures, and accomplishments of women's lives in the last century.

Before Familiar Woods - Ian Pisarcik 2020-03-10

For fans of David Joy and Christopher J. Yates, comes Ian Pisarcik's haunting debut novel exploring the fraught nature of families and the inescapable secrets that are out to cripple them. On the outskirts of a town too tired for its own happenings, the boys were found dead inside a tent. Three years later, their fathers have disappeared, too. Ruth Fenn's son was the boy

they blamed. For three years, Ruth has accepted her lot as pariah, focusing on her ailing mother and the children left in her care by the struggling single parents of North Falls, Vermont. But now the additional loss of her husband is too much to bear, and she has no choice but to overcome the darkness or be consumed by it. But as she edges closer to the truth, she begins to uncover some secrets that are better left buried. That's when she meets Milk Raymond, a war vet who comes home to find his nine-year-old son abandoned by his mother. Unable to find work, with no idea how to be a father, Milk turns to Ruth for help. But as the mystery of Ruth's missing husband deepens, the fragile stability Milk has created for Daniel is shattered by the ill-fated return of Daniel's mother, who will stop at nothing to get her boy back. As these unsettled and interconnected lives hurtle towards a devastating conclusion, both Ruth and Milk are about to learn that their dying Vermont town has more secrets than they

ever thought possible--and there are those who will do anything to protect them.

The Extraordinary Life of Sam Hell - Robert Dugoni 2018-04-24

From #1 Wall Street Journal and New York Times bestselling author Robert Dugoni. Sam Hill always saw the world through different eyes. Born with red pupils, he was called "Devil Boy" by his classmates; "God's will" is what his mother called his ocular albinism. Her words were of little comfort, but Sam persevered, buoyed by his mother's devout faith, his father's practical wisdom, and his two other misfit friends. Sam believed it was God who sent Ernie Cantwell, the only African American kid in his class, to be the friend he so desperately needed. And that it was God's idea for Mickie Kennedy to storm into Our Lady of Mercy like a tornado, uprooting every rule Sam had been taught about boys and girls. Forty years later, Sam, a small-town eye doctor, is no longer certain anything was by design--especially not the tragedy that

caused him to turn his back on his friends, his hometown, and the life he'd always known. Running from the pain, eyes closed, served little purpose. Now, as he looks back on his life, Sam embarks on a journey that will take him halfway around the world. This time, his eyes are wide open--bringing into clear view what changed him, defined him, and made him so afraid, until he can finally see what truly matters.

The Business of Race: How to Create and Sustain an Antiracist Workplace—And Why it's Actually Good for Business - Margaret H. Greenberg 2021-08-31

This book is not written specifically for White readers, Black readers, readers who are Latino, Asian, or other specific racial or ethnic groups. If

you are a business leader, individual contributor, Human Resources or DEI (Diversity, Equity and Inclusion) professional, educator, coach, or consultant, then *The Business of Race* is for you. In the business world, incident-driven, company position statements on Black Lives Matter or Stop Asian Hate are not proxies for the heavy lifting that will penetrate and sustain a shift in the status quo. Advancing racial equity to disrupt institutional racism requires more than a company-wide memo or a tab on a corporate website. Businesses often water down, negate or skirt this reality by touting successes from its cousin—diversity. However, you cannot advance a strategy you do not name. The general term “diversity” enables that dynamic. It’s impossible to create an antiracist workplace when we avoid speaking the words “race” and “racism.” Co-authored by two business women, one Black and one White, *The Business of Race* can help us all prepare for this transformative work. Rather than diving headfirst with well-meaning but

ineffectual efforts, we must first ready our organizations. The authors outline both the inner work (raising our own individual awareness and creating new ways of thinking and being), and the outer work organizations must undertake. This includes honest and often uncomfortable discussions. And carrying out as core to operational business strategy and performance, policies and practices to reimagine a racially equitable workplace. Whether you’re a rising entrepreneur, a supervisor or manager, a leader of a large multinational company, or a frontline employee, you’ll find concrete actions in this essential guide: *Why Racial Diversity, Why Now - A Competitive Advantage Commitment, Specificity, and the Science of Small Wins Uncomfortable Truths and Fearless Leaders Look for Talent Where Others Are Not No Secrets in Pay and Promotions - Close the Wage Gap Discover Your “E” and Measure its Impact Woven throughout The Business of Race* are interviews with dozens of business professionals

across myriad industries, fields and organizational levels. Their stories bring voice to the challenges and opportunities businesses face every day, and provide readers with the courage and tools to openly, honestly, and effectively address the deeply complex, emotional and intimidating dynamic of race and racism in the workplace.

Miró Rivera Architects - Juan Miró 2020-09-09

Over the course of twenty years, acclaimed studio Miró Rivera Architects has produced an innovative, refined, and imaginative body of work—both modern and respectful of time-honored building traditions—that embodies the particularities of place and blurs the line

between art and architecture. The firm's diverse practice weaves together a commitment to craftsmanship with a honed sense of materiality and space to create structures at once elegant, controlled, and pleasant to inhabit. In all, Miró Rivera Architects has won more than one hundred design awards and represented American architecture at exhibitions worldwide. The first from the firm, this volume provides critical insight into the studio's creative process through texts, 95 drawings, and 231 photographs, exploring two decades of work that has helped bring Texas architecture onto the international stage. Featuring essays by Michael Sorkin, Nina Rappaport, Juan Luis de las Rivas Sanz, and Carlos Jiménez—prominent thinkers in urban design and architecture—and new images by renowned photographers Iwan Baan and Sebastian Schutyser, this book examines Miró Rivera's approach to Austin as a "landscape city" and situates the firm's work in a global context related to concepts of nature, urbanism,

sustainability, and history.

The Whalers - Patrick Pickens 2021-10-01

More than twenty years after departing Hartford, Connecticut, for Raleigh, North Carolina, the NHL's Whalers continue to inspire passion among fans. As HartfordBusiness.com reported in 2015, "Whalers merchandise...still has a cult following not only among fans in Connecticut but around the country." But Whalers devotees aren't just clamoring for jerseys, hats and t-shirts. They're nostalgic for a team that had New England roots for nearly 25 years--in Boston, Springfield, and Hartford--and featured some of the greatest players in NHL history, including Gordie Howe (with his sons Mark and Marty), Bobby Hull, and Ron Francis. Pat Pickens's book details the Whalers' origin in Boston in 1972, the team's WHA championship in 1973, the roof collapse of their home arena that indirectly led to their entrance to the NHL in 1979, their stunning NHL playoff-series win against the top-seeded Quebec Nordiques in

1986, the 1986-87 season when they claimed their first division championship, and their relocation south in 1997 as the Carolina Hurricanes. Pickens imagines a Stanley Cup delivered to hockey-crazed Hartford in 2006, when the Hurricanes instead brought it home to North Carolina. The book also explores the likelihood of an NHL team returning to the Nutmeg State.

Frog Hollow - Susan Campbell 2019-01-15
Portraits of a gritty New England neighborhood and its people, with accompanying photos, reflecting waves of immigrants and tides of American history. Frog Hollow: Stories from an American Neighborhood is a collection of colorful historical vignettes of an ethnically diverse neighborhood just west of the Connecticut State Capitol in Hartford. Its 1850s row houses have been home to a wide variety of immigrants. During the Revolutionary War, Frog Hollow was a progressive hub, and later, in the mid-late nineteenth century, it was a hotbed of

industry. Reporter Susan Campbell tells the true stories of Frog Hollow with a primary focus on the nineteenth and early twentieth centuries: the inventors, entrepreneurs and workers, as well as the impact of African American migration to Hartford, the impact of the Civil Rights movement and the continuing fight for housing. Frog Hollow was also one of the first neighborhoods in the country to experiment with successful urban planning models, including public parks and free education. From European colonists to Irish and Haitian immigrants to Puerto Ricans, these stories of Frog Hollow show the multiple realities that make up a dynamic urban neighborhood. At the same time, they reflect the changing faces of American cities. "Goes into great detail about the misfortunes, the corporate decisions and the governmental missteps that contributed to bringing Frog Hollow low. But despite a sometimes sorrowful tone, the book ends on a hopeful note."

300 Days of Sun - Deborah Lawrenson
2016-04-12

Combining the atmosphere of Jess Walters' *Beautiful Ruins* with the intriguing historical backstory of Christina Baker Kline's *The Orphan Train*, Deborah Lawrenson's mesmerizing novel transports readers to a sunny Portuguese town with a shadowy past—where two women, decades apart, are drawn into a dark game of truth and lies that still haunts the shifting sea marshes. Traveling to Faro, Portugal, journalist Joanna Millard hopes to escape an unsatisfying

relationship and a stalled career. Faro is an enchanting town, and the seaside views are enhanced by the company of Nathan Emberlin, a charismatic younger man. But behind the crumbling facades of Moorish buildings, Joanna soon realizes, Faro has a seedy underbelly, its economy compromised by corruption and wartime spoils. And Nathan has an ulterior motive for seeking her company: he is determined to discover the truth involving a child's kidnapping that may have taken place on this dramatic coastline over two decades ago. Joanna's subsequent search leads her to Ian Rylands, an English expat who cryptically insists she will find answers in *The Alliance*, a novel written by American Esta Hartford. The book recounts an American couple's experience in Portugal during World War II, and their entanglements both personal and professional with their German enemies. Only Rylands insists the book isn't fiction, and as Joanna reads deeper into *The Alliance*, she begins to suspect

that Esta Hartford's story and Nathan Emberlin's may indeed converge in Faro—where the past not only casts a long shadow but still exerts a very present danger.

Language in the 21st Century - Humphrey Tonkin 2003-01-01

What is the future of languages in an increasingly globalized world? Are we moving toward the use of a single language for global communication, or are there ways of managing language diversity at the international level? Can we, or should we, maintain a balance between the global need to communicate and the maintenance of local and regional identities and cultures? What is the role of education, of language rights, of language equality in this volatile global linguistic mix? A group of leading scholars in sociolinguistics and language policy examines trends in language use across the world to find answers to these questions and to make predictions about likely outcomes. Highlighted in the discussion are, among other

issues, the rapidly changing role of English, the equally rapid decline and death of small languages, the future of the major European languages, the international use of constructed languages like Esperanto, and, not least, the question of what role applied scholarship can and should play in mapping and influencing the future.

Montessori - Angeline Stoll Lillard 2016-10-03

One hundred and ten years ago, Maria Montessori, the first female physician in Italy, devised a very different method of educating children, based on her observations of how they naturally learn. In *Montessori*, Angeline Stoll Lillard shows that science has finally caught up with Maria Montessori. Lillard presents the research behind nine insights that are foundations of Montessori education, describing how each of these insights is applied in the Montessori classroom. In reading this book, parents and teachers alike will develop a clear understanding of what happens in a Montessori classroom and, more importantly, why it happens and why it works. Lillard explains the scientific basis for Montessori's system and the distinctions between practices in traditional, "Montessomething," and authentic Montessori education. Furthermore, in this new edition, she presents recent studies showing evidence that this alternative to traditional schooling does indeed make a difference. Montessori is

indispensable reading for anyone interested in teaching, training, or considering Montessori schooling, in developmental psychology, or in understanding about human learning and education overall.

Multimedia Learning - Richard E. Mayer
2009-01-19

Although verbal learning offers a powerful tool, Mayer explores ways of going beyond the purely verbal. Recent advances in graphics technology and information technology have prompted new efforts to understand the potential of multimedia learning as a means of promoting human understanding. In this second edition, Mayer includes double the number of experimental comparisons, 6 new principles - signalling, segmenting, pertaining, personalization, voice and image principles. The 12 principles of multimedia instructional design have been reorganized into three sections - reducing

extraneous processing, managing essential processing and fostering generative processing. Finally an indication of the maturity of the field is that the second edition highlights boundary conditions for each principle research-based constraints on when a principle is likely or not likely to apply. The boundary conditions are interpreted in terms of the cognitive theory of multimedia learning, and help to enrich theories of multimedia learning.

Black, Like Paul - Alex Christopher Williams

He focuses on male archetypes using folklore, legends, and icons as references to draw similarities between the past and present. As a white passing mixed race man, Williams' photographic practice centers on the liminal space between race/ethnicity and identity using a more

documentary style while also attempting to actively subvert common tropes and traditions of the practice." -- Provided by publisher
