Mail Her name was Henrietta
Lacks, but scientists know her
as HeLa. She was a poor
Southern tobacco farmer who
worked the same land as her
slave ancestors, yet her
cells—taken without her
knowledge—became one of the
most important tools in
medicine: The first “immortal”
human cells grown in culture,
which are still alive today,
though she has been dead for
more than sixty years. HeLa
cells were vital for developing
the polio vaccine; uncovered
secrets of cancer, viruses, and
the atom bomb’s effects;
helped lead to important
advances like in vitro
fertilization, cloning, and gene
mapping; and have been

bought and sold by the billions.
Yet Henrietta Lacks remains
virtually unknown, buried in an
unmarked grave. Henrietta’s
family did not learn of her
“immortality” until more than
twenty years after her death,
when scientists investigating
HeLa began using her husband
and children in research
without informed consent. And
though the cells had launched
a multimillion-dollar industry
that sells human biological
materials, her family never saw
any of the profits. As Rebecca
Skloot so brilliantly shows, the
story of the Lacks family—past
and present—is inextricably
connected to the dark history
of experimentation on African
Americans, the birth of
bioethics, and the legal battles
over whether we control the
stuff we are made of. Over the
decade it took to uncover this
story, Rebecca became
enmeshed in the lives of the
Lacks family—especially
Henrietta’s daughter Deborah.
Deborah was consumed with
questions: Had scientists
cloned her mother? Had they
killed her to harvest her cells?

And if her mother was so important to medicine, why couldn't her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

The Woods - Rob Hodgson
2019-04-02

Here are the woods. The woods are home to three foxes on a hunt for rabbits. Three foxes that don't realize someone might be following them...

From the author of *The Cave*, this is a fantastically funny cat-and-mouse (or fox-and-rabbit) story with a not-so-fluffy twist.

The foxes follow some helpful signs over the tallest trees, under the carrot fields, and through the pumpkin patch, but there's no sign of any rabbits. What on earth has happened to them? And why are there strange eyes following them from the trees? Children will love outwitting the foxes—who continually say, "No rabbits here"—by spotting

the rabbits in each colorful illustration.

The Boy Who Drew Monsters -

Keith Donohue 2014-10-07

From the New York Times bestselling author of *The Stolen Child* comes a hypnotic literary horror novel about a young boy trapped inside his own world, whose drawings blur the lines between fantasy and reality. Ever since he nearly drowned in the ocean three years earlier, ten-year-old Jack Peter Keenan has been deathly afraid to venture outdoors. Refusing to leave his home in a small coastal town in Maine, Jack Peter spends his time drawing monsters. When those drawings take on a life of

their own, no one is safe from the terror they inspire. His mother, Holly, begins to hear strange sounds in the night coming from the ocean, and she seeks answers from the local Catholic priest and his Japanese housekeeper, who fill her head with stories of shipwrecks and ghosts. His father, Tim, wanders the beach, frantically searching for a strange apparition running wild in the dunes. And the boy's only friend, Nick, becomes helplessly entangled in the eerie power of the drawings. While those around Jack Peter are haunted by what they think they see, only he knows the truth behind the frightful occurrences as the outside world encroaches upon them all. In the tradition of *The Turn of the Screw*, Keith Donohue's *The Boy Who Drew Monsters* is a mesmerizing tale of psychological terror and imagination run wild, a perfectly creepy read for a dark night.

Carsick - John Waters
2014-06-03

Carsick is the New York Times bestselling chronicle of a cross-country hitchhiking journey with America's most beloved weirdo John Waters is putting his life on the line. Armed with wit, a pencil-thin mustache, and a cardboard sign that reads "I'm Not Psycho," he hitchhikes across America from Baltimore to San Francisco, braving lonely roads and treacherous drivers. But who should we be more worried about, the delicate film director with genteel manners or the unsuspecting travelers transporting the Pope of Trash? Before he leaves for this bizarre adventure, Waters fantasizes about the best and worst possible scenarios: a friendly drug dealer hands over piles of cash to finance films with no questions asked, a demolition-derby driver makes a filthy sexual request in the middle of a race, a gun-toting drunk terrorizes and holds him hostage, and a Kansas vice squad entraps and throws him in jail. So what really happens when this cult legend sticks out his thumb and faces the open

road? His real-life rides include a gentle eighty-one-year-old farmer who is convinced Waters is a hobo, an indie band on tour, and the perverse filmmaker's unexpected hero: a young, sandy-haired Republican in a Corvette.

Laced with subversive humor and warm intelligence, Carsick is an unforgettable vacation with a wickedly funny companion—and a celebration of America's weird, astonishing, and generous citizenry.

Llamanoes - 2018-03-21

Girl, Interrupted - Susanna Kaysen 2013-06-19

NATIONAL BESTSELLER • In 1967, after a session with a psychiatrist she'd never seen before, eighteen-year-old Susanna Kaysen was put in a taxi and sent to McLean Hospital. Her memoir of the next two years is a "poignant, honest ... triumphantly funny ... and heartbreaking story" (The New York Times Book Review). The ward for teenage girls in the McLean psychiatric hospital was as renowned for its famous clientele—Sylvia Plath, Robert Lowell, James Taylor, and Ray Charles—as for its progressive methods of treating those who could afford its sanctuary. Kaysen's memoir encompasses horror and razor-edged perception while providing vivid portraits of her

fellow patients and their keepers. It is a brilliant evocation of a "parallel universe" set within the kaleidoscopically shifting landscape of the late sixties. *Girl, Interrupted* is a clear-sighted, unflinching document that gives lasting and specific dimension to our definitions of sane and insane, mental illness and recovery.

Night in the Lonesome October - Roger Zelazny
2017-09

Three Free Sins - Steve Brown
2012-02-07

From a popular pastor and radio host—*Three Free Sins* teaches that the only people who make any progress toward being better are those who know that God will still love them, regardless of how good they are. This book is about the misguided obsession with the management of sin that cripples too many Christians. It's about the view that religion is all about sin...about how to hide side sin or how to stop sinning all together. In the Introduction, the author toys

good-naturedly with an agitated caller on his radio program, teasing him in a segment where he offers three free sins. The offer is real. Not that Steve has the power to forgive sins, but he wants to make the point that Jesus has made the offer to cover all of our sins - not just three.

Chapter one, titled "Teaching Frogs to Fly," is even better. The gist of this chapter is that you can't teach frogs to fly, just like you can't teach people not to sin. Steve tells a story about a guy who has a frog, and he's convinced he can teach the frog how to fly. The man keeps throwing the frog up in the air or up against walls - all to the poor frog's demise. The message is that even though people can be better, they can never not sin—just like a frog can never learn to fly, no matter how much pressure is put on it. Steve continues through the book to show readers that while they can never manage sin, they can relax in knowing that they are completely forgiven—not just of three, but of all.

The Montauk Monster -

Hunter Shea 2014-06-01

A terrifying new species of predator is loose in a New England resort town in this “wholly enthralling hulk of a summer beach read”

(Publishers Weekly). On a hot summer night in Montauk, the bodies of two local bar patrons are discovered in the dunes, torn to shreds, their identities unrecognizable. In another part of town, a woman's backyard is invaded by four creatures that defy description. What's clear is that they're hostile—and they're ravenous. With every sunset the terror rises again, infecting residents with a virus no one can cure. The CDC can't help them; FEMA can't save them. But each savage attack brings Suffolk County Police Officer Gray Dalton one step closer to the shocking source of these unholy creations. Hidden on nearby Plum Island, a U.S. research facility has been running top-secret experiments. What they created was never meant to see the light of day. Now, a

vacation paradise is going straight to hell. “Shea combines ancient evil, old school horror, and modern style.” —Jonathan Maberry, New York Times–bestselling author

The Cave - Rob Hodgson 2019

There is a cave. A cave that is home to a creature. A creature that never leaves its cave; because of a wolf. The wolf tries everything to get the creature to leave the cave, to no avail. But what will happen when he's finally successful? This is a laugh-out-loud story with a big surprise!

Albion's Seed - David Hackett Fischer 1991-03-14

This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own

time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

At the Mountains of Madness - HP Lovecraft 2021-05-28

At the Mountains of Madness, Lovecraft's incontrovertible masterpiece, written in February-March 1931, is a story details the events of a disastrous expedition to the barren, windswept Antarctic continent, where the secret history of our planet is preserved, amidst the ruins of its first civilization, in September 1930, and what was found there by a group of explorers led by the narrator, Dr. William Dyer of Miskatonic University. Throughout the story, Dyer details a series of previously untold events in the hope of deterring another group of explorers who wish to

return to the continent. It uncovers strange fossils and mind-blasting terror. Since it was originally serialized in the February, March, and April 1936 issues of Astounding Stories during the classic pulp era, 'At the Mountains of Madness' has influenced both horror and science fiction worldwide. Lovecraft scholar S.T. Joshi describes the novella as representing the decisive "demythology" of the Cthulhu Mythos by reinterpreting Lovecraft's earlier supernatural stories in a science fiction paradigm.
