VCs Passchendaele 1917 -
Stephen Snelling 2012-02-29
Of all the costly campaigns fought across the Western Front during the First World War, none strikes a more chilling chord than Passchendaele. Even now, more than ninety years on, the very mention of the name is enough to conjure up apocalyptic images of desolation and misery on a quite bewildering scale - humanity drowning in a sea of mud. Passchendaele has come to serve as a symbol of the folly and futility of war, chiefly remembered for its carnage and profligate waste of human lives. It also stands as testament to the endurance and extraordinary courage displayed by men of all ranks and nationalities. During the 3 1/2 month long struggle, which claimed the lives of more than 60,000 British and Commonwealth servicemen, 61 men were adjudged to have performed deeds worthy of the Empire's highest award for valour - the Victoria Cross. Men from Australia, Canada, New

Zealand and South Africa were among their number, alongside men from England, Ireland, Scotland and Wales. They came from all walks of life, counting humble privates and, for the first time, a general among their ranks. This is a lasting memorial to a body of men who deserve to be numbered among the bravest of the brave.

The Lost Battalions - Tom Gilling 2018-08-29

They were thrown into a hopeless fight against an overwhelming enemy. Later, hundreds died as prisoners of war on the Thai-Burma Railway and in the freezing coal mines of Taiwan and Japan. Through it all, wrote Weary Dunlop, they showed 'fortitude beyond anything I could have believed possible'. Until now, the story of the 2000 diggers marooned on Java in February 1942 has been a footnote to the fall of Singapore and the bloody campaign in New Guinea. Led by an Adelaide lawyer, Brigadier Arthur Blackburn VC, and fighting with scrounged weapons, two Australian battalions - plus an assortment of cooks, laundrymen and deserters from Singapore - held up the might of the Imperial Japanese Army until ordered by their Dutch allies to surrender. Drawing on personal diaries, official records and interviews with two of the last living survivors, this book tells the extraordinary story of the 'lads

from Java', who laid down their weapons, but refused to give in.

Civil Society and Postwar

Pacific Basin Reconciliation -

Yasuko Claremont 2018-05-15

This book brings together discussions of leading aspects and repercussions of the Asia-Pacific War, which still have huge relevance today. From the development of war guilt to the vivid effect of art on bringing alive the realities of the war, it analyses a diversity of post-war issues in the Pacific Basin. Organised into five parts, the book begins by scrutinizing the conflicting attitudes towards Japanese post-war society and identifies the various legacies of the war. It also provides an examination of the aftermath of Hiroshima and Nagasaki, before studying

contemporary civil society and analysing the way memories of the war have changed with time. Each of the chapters discusses the Japanese government's inability to achieve reconciliation with its neighbours, despite the passage of over 70 years, and the denial of the atrocities committed by the Imperial Army. Arguing that this policy of continuous denial has triggered the rise of civil movements in Japan, this book will be useful to students and scholars of Japanese History and Japanese Studies in general.

The range of perspectives incorporated in this volume will appeal to scholars, practitioners and policy-makers, particularly in the fields of translating and interpreting, conflict and war studies, and military history.

Stone Cold - Andrew Faulkner

2016-02-01

'If I'd have been a Vietcong you'd be dead.' - Len Opie 'Len was a soldier above soldiers.' - Keith Payne VC Through three wars across 30 years, Len Opie carved a reputation as one of the country's greatest infantrymen. A cold-eyed killer who drank nothing stronger than weak tea, he fought with his bare hands, a sharpened shovel and piano wire. He was a larrikin who went by the book, unless the book was wrong. He set his own bar high and expected others to do the same. Stone Cold is the extraordinary story of one of Australia's most fearless fighters. It takes us into the jungles of New Guinea and Borneo and some of the fiercest battles of World War II. It goes to the cold heart of Korea, where Len emerged from the ranks to excel in the epic Battle of Kapyong and play a key role at the Battle of Maryang San. And it drops us into the centre of the American counterinsurgency war in Vietnam with Len's involvement in the CIA's

shadowy black ops program, Phoenix. Action-packed and surprising, Stone Cold gives rich life to a warrior soldier and one of Australia's greatest diggers.

Forgotten Valour - Peter Quinlivan 2006

The Great War, 'The war to end all wars' as someone optimistically called it, had ended on 11 November 1918. *Forgotten Valour* is the story of Arthur Sullivan VC and other Australian soldiers who enlisted in the Great War but went on to fight in the Russian Civil War. The story focuses on Corporal Arthur Percy Sullivan, a 22-year-old soldier from South Australia, who was amongst the column of men pinned down in the muddy waters of Russia while bullets whistled past them. What happened went on to change his life and earn him the Victoria Cross.

Gallipoli Sniper - John Hamilton 2008-11-01

The Anzac battlefield on Gallipoli was made for snipers. Scrub, cliffs, spurs and hills meant that both Anzac and

Turkish positions often overlooked one another. The unwary or unlucky were prey to snipers on both sides, and the sudden crack of a gunshot and instant death were an ever-present menace. The most successful and most feared sniper of the Gallipoli campaign was Billy Sing, a Light Horseman from Queensland who was almost unique among the Australian troops in having a Chinese-born father. A combination of patience, stealth and an incredible eye made him utterly deadly, with the incredible - and horrifying - figure of over 200 credited "kills". John Hamilton, author of the bestselling *Goodbye Cobber, God Bless You*, has written an extraordinary account of a hidden side of the campaign - the snipers' war. Following Sing from his recruitment onwards, Hamilton takes us on a journey into the squalor, dust, blood and heroism of Gallipoli, seen from the unique viewpoint of the sniper. *Gallipoli Sniper* is a powerful and very different

account of war and its effect on those who fight.

John Monash - Geoffrey Serle
2013-06-18

A major Australian university and a great Victorian freeway are named after Sir John Monash, but many people—especially younger generations—know little about him. Monash was one of Australia's greatest men, and probably the greatest of its soldiers. The son of Jewish immigrants from Prussia, he graduated from the University of Melbourne in three faculties—Arts, Law and Engineering. He was a man of wide-ranging intellect, and especially devoted to literature, music, theatre, languages and Jewish scholarship. He achieved fame as a soldier—a citizen-soldier—in World War I. His baptism of fire occurred at Gallipoli, and he was almost the only senior allied general to emerge from the agony of the Western Front with his reputation virtually unspotted. Before the war, Monash pioneered the Australian use of reinforced concrete, then a

revolutionary construction material. On his return, he became the first chairman of the State Electricity Commission of Victoria, putting his gift for leadership to harnessing Gippsland's huge brown coal deposits. Monash spent his energies lavishly on the public affairs of his native Australia and placed his immense prestige at the service of many great causes. Geoffrey Serle's award-winning and best-selling biography of John Monash is much more than a military study. It offers a revealing portrait of a confident leader and public figure, and of an intensely inward-dwelling and sensitive private person.

The Architect of Victory - Peter J. Dean 2011-02-07

Lieutenant General Sir Frank Berryman is one of the most important, yet relatively unknown officers in the history of the Australian Army. Despite his reputedly caustic personality and noted conflicts with some senior officers, Berryman was crucial to Australia's success during the

Second World War. But did the man known as 'Berry the Bastard' deserve his reputation? Bold, calculating and talented, Berryman was at the forefront of operations that led to the defeat of the Japanese, and his operational planning secured Australia's victories at Bardia, Tobruk and in New Guinea during the Pacific War. With access to rare private papers, Peter Dean charts Berryman's special relationships with senior US and Australian officers such as MacArthur, Chamberlin, Blamey, Lavarack and Morshead, and explains why the man poised to become the next Chief of General Staff would never fulfil his ambition.

Reflections on the Commemoration of the First World War - David Monger
2020-12-01

The First World War's centenary generated a mass of commemorative activity worldwide. Officially and unofficially; individually, collectively and commercially; locally, nationally and internationally, efforts were

made to respond to the legacies of this vast conflict. This book explores some of these responses from areas previously tied to the British Empire, including Australia, Britain, Canada, India and New Zealand. Showcasing insights from historians of commemoration and heritage professionals it provides revealing insider and outsider perspectives of the centenary. How far did commemoration become celebration, and how merited were such responses? To what extent did the centenary serve wider social and political functions? Was it a time for new knowledge and understanding of the events of a century ago, for recovery of lost or marginalised voices, or for confirming existing clichés? And what can be learned from the experience of this centenary that might inform the approach to future commemorative activities? The contributors to this book grapple with these questions, coming to different answers and demonstrating the connections and disconnections

between those involved in building public knowledge of the 'war to end all wars'.

Victoria Crosses on the Western Front: Third Ypres 1917 - Paul Oldfield 2017-07-30

In the past, while visiting the First World War battlefields, the author often wondered where the various Victoria Cross actions took place. He resolved to find out. In 1988, in the midst of his army career, research for this book commenced and over the years numerous sources have been consulted. *Victoria Crosses on the Western Front Third Ypres 1917* is designed for the battlefield visitor as much as the armchair reader. A thorough account of each VC action is set within the wider strategic and tactical context. Detailed sketch maps show the area today, together with the battle-lines and movements of the combatants. It will allow visitors to stand upon the spot, or very close to, where each VC was won. Photographs of the battle sites richly illustrate the accounts. There is also a comprehensive biography for

each recipient, covering every aspect of their lives warts and all parents and siblings, education, civilian employment, military career, wife and children, death and burial/commemoration. A host of other information, much of it published for the first time, reveals some fascinating characters, with numerous links to many famous people and events.

Australia's War with France

- Richard James 2017-09-05
1941: Great Britain is fighting for its very existence. France has surrendered and installed Marshal Pétain, an ageing reactionary, as head of a hostile new government at Vichy. The Allied outpost in Egypt, and the Suez Canal—its strategic jewel—are threatened on both sides. To the west, Rommel is rampaging through North Africa. To the east, the Germans are arming rebels and fostering an uprising in British Iraq. Churchill's cabinet is reeling after disastrous campaign in Greece. There are fears of a German takeover in Vichy-controlled Syria and

Lebanon, where a languishing French colonial army may fall in line with the Nazis. Churchill orders a disgruntled General Wavell to take the offensive, assuming that the French will not put up a fight against an Allied show of force. The only troops available are a division of Australians, the 7th: untested recruits, digging ditches in the Egyptian desert. This is the story of how the 7th Division came to fight against the Army of the Levant—Australia against France—in the rocky hills of Lebanon and the barren wastes of Syria. Contrary to Churchill's expectations, the French resisted viciously. The Australians won the war, but at the price of more than 400 young men, sons of Anzacs who had fought to defend France in the trenches of the western Front. The British were embarrassed, the campaign was forgotten, and the Australians who fought were dubbed 'the silent men.' No contemporary Australian historian has studied the conflict. British and French

accounts exist, but fail to do justice to the Australian contribution. Through interviews with the veterans, archival records, and on-the-ground research, this book seeks to understand a neglected campaign and give it a proper place in Australian history.

The Premonition: A

Pandemic Story - Michael Lewis 2021-05-04

New York Times Bestseller For those who could read between the lines, the censored news out of China was terrifying. But the president insisted there was nothing to worry about. Fortunately, we are still a nation of skeptics. Fortunately, there are those among us who study pandemics and are willing to look unflinchingly at worst-case scenarios. Michael Lewis's taut and brilliant nonfiction thriller pits a band of medical visionaries against the wall of ignorance that was the official response of the Trump administration to the outbreak of COVID-19. The characters you will meet in these pages are as fascinating

as they are unexpected. A thirteen-year-old girl's science project on transmission of an airborne pathogen develops into a very grown-up model of disease control. A local public-health officer uses her worm's-eye view to see what the CDC misses, and reveals great truths about American society. A secret team of dissenting doctors, nicknamed the Wolverines, has everything necessary to fight the pandemic: brilliant backgrounds, world-class labs, prior experience with the pandemic scares of bird flu and swine flu...everything, that is, except official permission to implement their work. Michael Lewis is not shy about calling these people heroes for their refusal to follow directives that they know to be based on misinformation and bad science. Even the internet, as crucial as it is to their exchange of ideas, poses a risk to them. They never know for sure who else might be listening in.

Australia's Biodiversity and Climate Change - Will Steffen

2009

"Australia's unique biodiversity is under threat from a rapidly changing climate. The effects of climate change are already discernible at all levels of biodiversity - genes, species, communities and ecosystems. Many of Australia's most valued and iconic natural areas - the Great Barrier Reef, south-western Australia, the Kakadu wetlands and the Australian Alps - are among the most vulnerable. But much more is at stake than saving iconic species or ecosystems. Australia's biodiversity is fundamental to the country's national identity, economy and quality of life. In the face of uncertainty about specific climate scenarios, ecological and management principles provide a sound basis for maximising opportunities for species to adapt, communities to reorganise and ecosystems to transform while maintaining basic functions critical to human society. This innovative approach to biodiversity conservation under a changing climate leads to new

challenges for management, policy development and institutional design. This book explores these challenges, building on a detailed analysis of the interactions between a changing climate and Australia's rich but threatened biodiversity. Australia's Biodiversity and Climate Change is an important reference for policy makers, researchers, educators, students, journalists, environmental and conservation NGOs, NRM managers, and private landholders with an interest in biodiversity conservation in a rapidly changing world."-- Publisher.

Shadows of ANZAC - David W. Cameron 2013-03-01

On 25 April 1915, with the landing of the Australian and New Zealand Army Corps (ANZAC) below the slopes of Sari Bair on the Gallipoli peninsula, the ANZAC legend was born. Nine months later, having suffered thousands of casualties from disease, hand-to-hand fighting, bombing, sniping and forlorn charges

across no man's land, the politicians and senior military commanders in London called it quits. While the Turks also suffered terribly, they at least emerged victorious. The fighting at Anzac was not restricted to the ANZACs and Turks alone. British troops also fought at Anzac from the earliest days of the invasion and large numbers of British and Indian troops were committed to the Anzac sector during the failed August offensive designed to break the stalemate. The invasion was also supported by large numbers of men — often non-combatants — who performed vital roles. Naval beach officers kept logistics operating in some form of 'orderly' fashion; Indian mule handlers moved supplies of food, water and ammunition to the front lines; and medical staff and army chaplains worked on the beach, caring for the wounded and the dead. All these men were frequently under fire from the Turkish battery known as 'Beachy Bill'. Others surveyed the narrow beachhead and

bored deep holes for drinking water; signallers tried desperately to establish and maintain communications; and the gunners hunted the battlefield for suitable places to site their guns. Off the peninsula, but just as vital, were the nursing and medical staff on the hospital ships, at Lemnos, Alexandria, Cairo and Malta, and the airmen who flew above the battlefield spotting for the navy and artillery. *Shadows of Anzac: An intimate history of Gallipoli* tells the story of the 'ordinary' men and women who participated in the Gallipoli campaign from April to December 1915 and gave the Anzac legend meaning. Drawing on letters, diaries and other primary and secondary sources, David Cameron provides an intimate and personal perspective of Anzac, a richly varied portrayal that describes the absurdity, monotony and often humour that sat alongside the horrors of the bitter fight to claim the peninsula.

Pens and Bayonets -
2018-10-23

Pens and Bayonets gives voice to the young Australia soldiers who volunteered to fight for our freedom in the Great War. They answered the call willingly, with many thinking it may be all over before they got there. How wrong they were. South Australia, and Yorke Peninsula in particular, were proud to provide soldiers for their country. The letters were

written during quiet periods and give us an insight and sometimes graphic account of the day-to-day encounters during the Gallipoli campaign and various offensives on the Western Front and Palestine. Communication options abound in the modern age, but imagine the challenges of 100 years ago, with your son, brother, uncle or nephew on the other side of the world, fighting in what we now know to be horrendous conditions, writing a letter home. It would take months for the letter to arrive.

With the letter came a connection with family that gave a belief that their loved ones were safe and, importantly, the needed hope that the end of the Great War would bring them home. The letters the soldiers received, many weeks after being written, gave comfort and solace to these men, and provided their only contact with loved ones. Don Longo has gathered many of these moving letters, and set them in their historical context, to bring these soldiers back to life.
