One night, it's a carousel that adults cannot comprehend, but whose operator must be some sort of magician, the next, it's a land filled with butter men who melt in the sunshine Awarded the Hans Christian Anderson Award in 1970, Gianni Rodari is widely considered to be Italy's most important children's author of the 20th century. In the Sea There are Crocodiles - Fabio Geda 2011-08-09

When ten-year-old Enaiatollah Akbari's small village in Afghanistan falls prey to Taliban rule in early 2000, his mother shepherds the boy across the border into Pakistan but has to leave him there all alone to fend for himself. Thus begins Enaiat's remarkable and often punishing five-year ordeal, which takes him through Iran, Turkey, and Greece before he seeks political asylum in Italy at the age of fifteen. Along the way, Enaiat endures the crippling physical and emotional agony of dangerous border crossings, trekking across bitterly cold mountain pathways for days on end or being stuffed into the false bottom of a truck. But not everyone is as resourceful, resilient, or lucky as Enaiat, and there are many heart-wrenching casualties along the way. Based on Enaiat's close collaboration with Italian novelist Fabio Geda and expertly

rendered in English by an award-winning translator, this novel reconstructs the young boy's memories, perfectly preserving the childlike perspective and rhythms of an intimate oral history. Told with humor and humanity, In the Sea There Are Crocodiles brilliantly captures Enaiat's moving and engaging voice and lends urgency to an epic story of hope and survival.

**The Constitutional Relevance of the ECHR in Domestic and European Law** - Giorgio Repetto 2013

In recent years, the European Convention on Human Rights (ECHR) gained unexpected relevance in the European constitutional culture. On the one hand, its increasing importance is closely linked to institutional reforms that strengthened the European Court of Human Rights' reputation vis-a-vis the Member States. On the other hand, and even more importantly, the ECHR's significance arises from a changing perception of its constitutional potential. Starting with the assumption that the ECHR is transforming the European constitutional landscape, this book shows that the European Convention raises unprecedented problems that involve, first of all, its own theoretical status as

constitutional instrument that ensures the protection of human rights in Europe. Changing paradigms concerning its incorporation in domestic law, as well as the growing conflicts about the protection of some rights and liberties that are deeply rooted in national legal contexts (such as teaching of religion, bio law, and rights of political minorities), are jointly examined in order to offer a unified methodology for the study of European constitutional law centered upon human rights. For a detailed analysis of these issues, the book examines the different facets of the ECHR's constitutional relevance by separating the ECHR's role as a 'factor of Europeanization' for national constitutional systems (Part I) from its role as a veritable European transnational constitution in the field of human rights (Part II). Written for legal scholars focusing on the emerging trends of European and transnational constitutional law, the book investigates the basic tenets of the role of the ECHR as a cornerstone of European constitutionalism.

*The Curious Incident of the Dog in the Night-Time* - Mark Haddon 2009-02-24

A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

**The New Frontiers of Fashion Law** - Rossella Esther Cerchia 2021-01-13

Fashion law encompasses a wide variety of issues that concern an article of clothing or a fashion accessory, starting from the moment they are designed and following them through distribution and marketing phases, all the way until they reach the end-user. Contract law, intellectual property, company law, tax law, international trade, and customs law are of fundamental importance in defining this new field of law that is gradually taking shape. This volume focuses on the new frontiers of fashion law, taking into account the various fields that have recently emerged as being of great interest for the entire fashion world: from sustainable fashion to wearable technologies, from new remedies to cultural appropriation to the regulation of model weight, from advertising law on the digital market to the impact of new technologies on product distribution. The purpose is to stimulate discussion on contemporary problems that have the potential to define new boundaries of fashion law, such as the impact of the heightened ethical sensitivity

of consumers (who increasingly require effective solutions), that a comparative law perspective renders more interesting. The volume seeks to sketch out the new legal fields in which the fashion industry is getting involved, identifying the new boundaries of fashion law that existing literature has not dealt with in a comprehensive manner.

The Emergence of Multiple-Text Manuscripts - Alessandro Bausi 2019-12-02

The universal practice of selecting and excerpting, summarizing and canonizing, arranging and organizing texts and visual signs, either in carefully dedicated types of manuscripts or not, is common to all manuscript cultures. Determined by intellectual or practical needs, this process is never neutral in itself. The resulting proximity and juxtaposition of previously distant contents, challenge previous knowledge and trigger further developments. With a vast selection of highly representative

case studies - from India, Islamic Asia and Spain to Ethiopian cultures, from Ancient Christian to Coptic, and Medieval European domains - this volume deals with manuscripts planned or growing and resulting in time to comprise 'more than one'. Whatever their contents - the natural world and related recipes, astronomical tables or personal notes, documentary, religious and even highly revered holy texts - codicological and textual features of these manuscripts reveal how similar needs received different answers in varying contexts and times.

What does writing Greek books mean at the height of the Cinquecento in Venice? The present volume provides fascinating insights into Greek-language book production at a time when printed books were already at a rather advanced stage of development with regards to requests, purchases and exchanges of books; copying and borrowing practices; relations among intellectuals and with institutions, and much more. Based on the investigation into selected institutional and private libraries - in particular the book collection of Gabriel Severos, guide of the Greek Confraternity in Venice - the authors present new pertinent evidence from Renaissance books and documents, discuss methodological questions, and propose innovative research perspectives for a sociocultural approach to book histories.

Imagining the Woman Reader in the Age of Dante - Elena Lombardi 2018-05-11

Imagining the Woman Reader in the Age of Dante brings to light a new character in medieval literature: that of the woman reader and interlocutor. It does so by establishing a dialogue between literary studies, gender studies, the history of literacy, and the material

culture of the book in medieval times. From Guittone d'Arezzo's piercing critic, the 'villainous woman', to the mysterious Lady who bids Guido Cavalcanti to write his grand philosophical song, to Dante's female co-editors in the Vita Nova and his great characters of female readers, such as Francesca and Beatrice in the Comedy, all the way to Boccaccio's overtly female audience, this particular interlocutor appears to be central to the construct of textuality and the construction of literary authority. This volume explores the figure of the woman reader by contextualizing her within the history of female literacy, the material culture of the book, and the ways in which writers and poets of earlier traditions imagined her. It argues that these figures are not mere veneers between a male author and a 'real' male readership, but that, although fictional, they bring several advantages to their vernacular authors, such as orality, the mother tongue, the recollection of the delights of early education, literality, freedom in interpretation, absence of teleology, the beauties of ornamentation and amplification, a reduced preoccupation with the fixity of the text, the pleasure of making mistakes, dialogue with the other, the extension of desire, original simplicity, and new and more flexible forms of authority.

**The Book of Giants** - 2015-08-11

Take a journey with the artist and writer Petar Meseldzija, who tells how he was allowed unparalleled access through the Invisible Curtain and into the land of giants. A year in the making, this book's sixteen paintings and nearly ninety drawings bring to life Petar's experiences on this journey and secrets uncovered, going back to ancient times. He shares stories of new discoveries that free giants from the murky abyss of myth and a forgotten past. Told in three stages, The Book of Giants includes the illustrated stories The Giants Are Coming, recounting a dynamic clash that lasted one hundred years; The Little Kingdom, where a giant befriends a nation of humans and becomes their adamant protector against ferocious invaders; The Northern Giants, who embrace the warrior spirit through countless battles; Giant Velles, the story of ignorance and how the strength of goodness perseveres; and The Great Forest, wherein the author discovers little creatures called the keppetz and relates his

experiences spent with ogres while on his quest to meet the Golden One and to determine the purpose of his journey. Through the strength of his own power, he discovers his blessings, his limitations and finally his personal myth. Furthermore, you will discover why giants made a push into the underground, followed by their

exodus and deliverance to a new land. You'll also learn why the myth of giants is still alive, why their time spent with humans remains elusive and why giants prefer to remain hidden in their world. Join Petar Meseldzija on his journey of discovery.
