Students have responded in a positive manner and have changed the way they are going about remembering facts. I have seen an improvement in their ability to retain information on a daily basis." (Jon S, Setauket, New York) Brad Zupp is a professional speaker, entertainer and memory coach. His interest in memory improvement dates back to his childhood, trying to find better ways to remember information in school. In his 20s, Brad became fascinated with techniques that would allow an ordinary person to memorize a shuffled deck of playing cards, long numbers, or even an entire magazine. He learned the techniques and applied them to learning to speak a foreign language. Several years later, he threw himself into learning more about the mind and memory, and soon after started attending memory competitions all over the world. He has won several bronze medals in the USA Memory Championship. In 2012 Brad competed in the World Memory Championship in London, memorizing nine decks of shuffled playing cards perfectly in one hour. Brad continues to improve his memory daily, memorizing decks of playing cards, numbers, names and faces, poetry, and more, but is most passionate about helping others learn how to remember better. He speaks frequently on the subject of memory improvement for students in grades 3 through 8, as well as for senior citizens, baby boomers, salespeople and executives.

Unlocking the Heart of the Artist - Matt Tommey 2011-04-07

Unlocking the Heart of the Artist has been called "The Purpose-Driven Life for Artists" and is a clarion call to a new generation of artists who want to fulfill their unique purpose in the Kingdom of God. At the core of *Unlocking the Heart of the Artist* is an invitation to begin a journey of healing and wholeness that will yield deeper Spirit-led creativity and personal fulfillment. In addition, through learning practical ways to engage the Holy Spirit in their creative process, the reader will learn how to collaborate with God not only in their chosen artistic medium but in life. Author Matt Tommey is quoted as saying "Over the years, I've encountered many artists, musicians, craftsmen and other creative ones who have, for one reason or another, become stuck. The 'stuckness' originates from many different places - woundedness, fear, control, unbelief, religious barriers - and creates a frustration in their life that becomes unbearable. Many artists, unable to understand what's really going on either run headlong into 'creativity for creativity's sake' or turn to unhealthy alternatives in order to numb or overcome the pain they are feeling. Many more simply give up, hide the gift by stuffing it down under 'Christian work ethic' and just try to go on with life as usual. Whatever their flavor of 'stuckness', the Father wants His artists to be fully released to worship Him through their creative expression. His desire is that nothing holds them back from the creative destiny for their life. If you're an artist, it's time to walk in the destiny and fullness that God's designed for you. Your heart beating fast, your imagination vivid, your eyes wide with wonder and desire - that's His desire for you! A life fully alive, fully engaged, fully embracing the creative destiny He's given you. He's been waiting for this moment your whole life."

Unconscious Putting - Dave Stockton 2011-09-15

"The Pro Tours' Hottest Coach" (Golf Digest) reveals the secrets that helped Phil Mickelson win the 2010 Masters and can utterly transform every player's game. When a resurgent Phil Mickelson won the Tour Championship in September 2009, he was quick to credit a series of simple putting lessons from veteran golf champion and instructor Dave Stockton. As a top coach, Stockton has taught a long list of pro players-including Annika Sorenstam, Yani Tseng (winner of four LPGA tournaments), Adam Scott (Texas Open champion), Hunter Mahan (Phoenix Open champion), and Morgan Pressel (World Ladies Championship of Japan winner)-the putting strategies that finessed their

game. Stockton's breakthrough concept is that every player has their own Signature Stroke, which is unconscious. Good putting comes from the mind, Stockton says, not from a series of stiff mechanical positions. With visualization, the right frame of mind, an efficient pre-putt routine, and connection to the individual internal stroke signature, any player can make far more putts. Putting has always been taught as an offshoot to the full swing, when in reality it is far different- almost a different game. Unconscious Putting will help players get out of the rigid, mechanical, overthinking trap. In Unconscious Putting, Stockton shows how players at every handicap level-from pros to weekend golfers-can putt effortlessly and with confidence by integrating a new mental approach with a few simple physical routines that will keep them locked on target. Readers will also gain invaluable advice on reading greens and equipment. Illustrated throughout and filled with anecdotes about how Stockton's lessons have helped today's leading players, Unconscious Putting is a must-have golf book and a category classic-in-the-making.

Mobile Phone Panel Surveys in Developing Countries - Andrew Dabalén 2016-07-12

Household survey data are very useful for monitoring living conditions of citizens of any country. In developing countries, a lot of this data are collected through "traditional" face-to-face household surveys. Due to the remote and dispersed nature of many populations in developing countries, but also because of the complex nature of many survey questionnaires, collection of timely welfare data has often proved expensive and logistically challenging. Yet, there is a need for faster, cheaper to collect, lighter, more nimble data collection methods to address data gaps between big household surveys. The recent proliferation of mobile phone networks has opened new possibilities. By combining baseline data from a traditional household survey with subsequent interviews of selected respondents using mobile phones, this facilitates welfare monitoring and opinion polling almost real time. The purpose of this handbook is to contribute to the development of the new field of mobile phone data collection in developing countries. The handbook documents how this innovative approach to data collection works, its advantages and challenges. The handbook draws primarily from the authors' first-hand experiences with mobile phone surveys in Africa and also benefits from experiences elsewhere. It is intended to serve a diverse audience including those involved in collecting (representative) data using mobile phones, and those using data collected through this approach. For those who will be implementing a

mobile phone panel survey, the different chapters guide them through every stage of the implementation process. For potential users of the data collected via mobile phone technology, the handbook presents a new approach to data collection which they can use for monitoring programs and facilitate almost real time decision-making. A further purpose of this book is to contribute to the debate regarding the advantages of the method as well as the challenges associated with it. Thirteen Keys to Unlock Your Power - Tanu Vatsa Aggarwal 2020-09-08 This book is inspired by the author's own experiences 10 years ago which completely transformed her as a person. This journey gave her deep insights into the inner workings of her own mind, and she has been excited to spread this message ever since. This passion nudged her down the path of becoming a certified life coach. Using simple, sometimes plainly obvious, yet profoundly powerful ideas, she has been able to help many of her clients. The book gives thirteen powerful keys to unleash your power within. The thirteen chapters on the book are dedicated to thirteen different traits which make us human. They describe ideas that appear natural and familiar to all of us, but when applied in your life through the thought-provoking exercises attached to each chapter, will unleash your inner power to cause whatever shifts are needed in your lives. The book usually has the effect to make the readers more confident in their life pursuits, connect with her true self - open and connected to others, and not trapped in the drama of negative thinking, shame, and blame by learning to keep healthy boundaries and practicing self-care. The book is filled with the much needed "grab you by the shoulder and look you in the eye" moments. It is full of real-life personal examples from the author's life and those of her clients', which makes the book very gripping and thought provoking. The book is simple, yet so powerful, making the readers introspect the thirteen traits in their own lives, and compel them to come to terms with their true-self and claim their power within to live the life they deserve.

Unlocking the 7 Secret Powers of the Heart - Shai Tubali 2018-09-18

An invitation to discover and develop your heart powers and tap into heart energy • Features accessible yet profound wisdom about the power of the heart and approaches for tapping into heart energy • Reveals that the heart, often perceived as our most vulnerable and fragile place, is in fact the source of our greatest potential • Supports individual heart-work by offering simple and practical exercises, meditations, and visualizations proven effective through many years of practice The heart is more often associated with vulnerability than hidden powers. We generally feel the need to protect our heart, building high walls after experiences of emotional pain and hurt. This response is unconscious, and since the modern world teaches us to rely on the brain to guide our life and actions, many of us find it hard to connect to the power and skills within our own hearts. Addressing the fears and feelings of insecurity that can arise and prevent us from opening up to the treasures we hold within, Shai Tubali reveals that the heart, often perceived as our most vulnerable and fragile place, is in fact the source of our greatest potential. Providing practical advice, exercises, meditations, and visualizations proven through his own heart-work practice, he shows how to tap into the heart's energy field and easily activate its seven secret powers: wisdom, vulnerability, forgiveness, ability to love, infinite energy, transformation, and self-acceptance. He explains how our modern education system develops our mind perception only, focusing on the goal of being successful and urging us constantly to be faster and better. Not only does this not bring happiness and fulfilment, but it may

even cause stress and illness. Showing how to transition from mind to heart perception, Tubali helps us understand more about our heart's skills and how to implement its powers by healing inner energetic and emotional blockages. Calling for a change from one-sided mind perception and behavior, Tubali urges us to get in touch with our core and surrender completely to our heart energy, leaving all misconceptions behind and tearing down protective walls to discover our full potential. Unlocking the seven heart powers will lead to a deep sense of peace, balance, and fulfillment and enable you to approach life from a place of trust and love.
