**The Journeyer** - Gary Jennings 2010-03-02  
Marco Polo was nicknamed "Marco of the millions" because his Venetian countrymen took the grandiose stories of his travels to be exaggerated, if not outright lies. As he lay dying, his priest, family, and friends offered him a last

chance to confess his mendacity, and Marco, it is said, replied "I have not told the half of what I saw and did." Now, in his new novel *The Journeyer*, Gary Jennings has imagined the half that Marco left unsaid as even more elaborate and adventurous than the tall tales thought to be lies. From the palazzi and back streets of medieval Venice to the sumptuous court of Kublai Khan, from the perfumed sexuality of the Levant to the dangers and rigors of travel along the Silk Road, Marco meets all manner of people, survives all manner of danger, and, insatiably curious, becomes an almost compulsive collector of customs, languages and women. In more than two decades of travel, Marco was variously a merchant, a warrior, a lover, a spy, even a tax collector - but always a journeyer, unflagging in his appetite for new experiences, regretting only what he missed. Here - recreated and reimagined with all the splendor, the love of adventure, the zest for the rare and curious that are Jennings's hallmarks -

is the epic account, at once magnificent and delightful, of the greatest real-life adventurer in human history. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**WW2 Soldier's Guide to Sicily Book - Issued to Troops Before Invasion** - Dwight D.

Eisenhower 2021-05-13

British, American and Commonwealth troops were issued with a copy of the 'Soldier's Guide to Sicily'. With a foreword written by the US Army's General Dwight D. Eisenhower, the booklet was produced to help the Allies prepare for Operation Husky: the invasion of Sicily. Eisenhower was the Commander in Chief for the operation. He wrote: "The successful conclusion of these operations will NOT only strike closer to the heart of the Axis, but also will remove the last threat to the free sea lanes of the Mediterranean." The guide warns troops about the hot, dry weather of the sirocco they were likely to encounter - and rightly so: the fierce heat combined with swampy conditions on parts of the island meant some combatants contract malaria. The book also contains advice with descriptions of the island, pictures of some towns and makes remarks about its people.

London is one of the world's greatest cities. It's iconic and dynamic; a vibrant city where the past and present meet in an explosion of art and

culture. It's also a city that is constantly on the move. From its earliest explorers, London has never been afraid to venture to new worlds and discover new and wonderful things. This hasn't changed through the centuries. London continues to create and innovate with cutting edge ideas, especially in its food scene where you can literally taste the world from its diverse offerings, or even be transported to another world completely! Likewise with London's libations. Pubs are the beating heart of London and there's practically one on every corner (kind of like churches in Rome). But the beverages on offer would make any heart beat faster. And once you're full of good food and wine, it's time to hit the shops and enter another stratosphere altogether. *Oliver Twist's* immortal question has never been more resonant, because you'll definitely want to have more of London! This book features the best eating, drinking and shopping across 18 London precincts, including Covent Garden, King's Cross, Soho and

Piccadilly. Precinct maps make this a handy and useful guidebook, while the hardback cover creates a beautiful keepsake. London Precincts is the 6th book in Hardie Grant Travel's Precinct series, which has been shortlisted for the 1010 Printing Best Designed Series (Including Classics) award in the 2016 Australian Book Design Awards. The winners will be announced on Friday 13 May in Melbourne.
