Ravikanth Kothuri 2012-01-03
Now available in paperback— Pro Oracle Spatial
for Oracle Database 11g shows how to take
advantage of Oracle Databases built-in feature
set for working with location-based data. A great

deal of the information used in business today is
associated with location in some way, and
analysis of that data is becoming ever more
important in today's mobile and highly
connected world. In Pro Oracle Spatial for
Oracle Database 11g, authors Ravi Kothuri and
Albert Godfrind address: The special nature of
spatial data and its role in professional and
consumer applications Issues in spatial data

management such as modeling, storing, accessing, and analyzing spatial data The Oracle Spatial solution and the integration of spatial data into enterprise databases How spatial information is used to understand business and support decisions, to manage customer relations, and to better serve private and corporate users When you read Pro Oracle Spatial for Oracle Database 11g, you're learning from the very best. Ravi Kothuri is a key member of Oracle's Spatial development team. Albert Godfrind consults widely with Oracle clients on the implementation of Oracle Spatial, develops training courses, and presents frequently at conferences. Together they have crafted a technically sound and authoritative fountain of information on working with spatial data in the Oracle database.

The Art of Photography - Bruce Barnbaum
2010

Creative, expressive, artistic photography has been the centerpiece from the beginning, and it

remains the centerpiece in the new book. It will be a complete book in its technical information and clear explanations, but it all focuses on putting the technical aspects to use for personally expressive purposes. The illustrations include some of Bruce's best known imagery, as well as many new images never previously published or displayed. --from publisher description

Black and White Photography Field Guide -
Michael Freeman 2014-07-11

Leica M10 - Edward Marteson 2020-04-04
This camera is a full frame digital rangefinder

camera that is a part of the Leica camera line. This is a part of the AG's rangefinder M series. The camera works with the Leica M mount lenses and the camera was formally introduced in January 2017. When the camera was released, it was the successor to the Leica M9 and it is important to note that there are many similarities to the Leica M Typ 240, Typ 262 camera and the Leica Monochrom. This eBook will explore many of the features of the camera to illustrate what it can do.

Platinotype - Pradip Malde 2020-12-30

Platinotype: Making Photographs in Platinum and Palladium with the Contemporary Printing-out Process describes the mechanisms and chemistry of platinum/palladium printing in safe and practical ways. Clearly presented formulae allow the printer to work with platinum, palladium, or varying combinations of both. The printed-out image appears fully during exposure, and only requires simple and safe steps for clearing to a stable, archival state. The authors

explain what makes the image, how all necessary components are prepared and used, and the kind of paper and negative needed to make prints. More than just a technical manual, the book underscores the authors' belief that printing is a creative, scientific, and philosophic way of working. The book presents an outstanding collection of prints by over 40 artists, all made with this printing-out process. The artists' notes and comments offer insights into their methods and thinking, and a large number of full-page reproductions serve as a valuable reference for the aspiring printer. The book includes: A list of supplies and equipment A detailed chemical glossary A Quick-start section in the Preface Summary sheets and workflows for each step of the process Instructions for making traditional negatives with Pyro PMK and digital negatives Explanation of the chemistry and dynamics of paper, and how to use buffered papers Instructions for controlling hydration processes and humidity Instructions for

preparing each chemical solution needed for the process
Discussion about the aesthetics of the platinum/palladium print
Explanation of the relationships between light, image, and expression
A detailed troubleshooting list
Recommendations from conservators about processing, handling, and conservation
Contemporary artists using the printing-out platinum/palladium process.
Learning how to make platinum/palladium prints has been cloaked in a mystique of difficulty. Platinotype presents the process as a set of clearly explained and defined steps. Like other books in the series, Platinotype is a detailed and inspiring manual, accessible to both novices and experts, and illustrative of the contemporary arts.

Leica M Compendium - Jonathan Eastland 1994

The Leica M system has been with us since 1954. It rapidly became, and has remained the favorite instrument of photographers, especially photojournalists, who, like Henri Cartier-Bresson, seek to ""catch life in the act"", to record ""the decisive moment"". In this Leica M Compendium Jonathan Eastland describes the whole Leica M system from his experience as a professional photographer. He explains how to use, enjoy and get the best out of the cameras and lenses, regardless of age. The latest lenses

can be used on the earliest cameras, and vice-versa, and the Visoflex, although no longer made, is now much easier to use with the M6 and its TTL metering. Advice on planning and shooting a story with the Leica and extensive tables of technical data complete this ideal companion for the practical Leica M photographer, as well as for the Leica collector and enthusiast.

Leica Lens Compendium - Erwin Puts 2001 81/2 x 10
Since publication this title has proved to be very popular for both the serious lens user wishing to understand more about his lenses, as well as the Leica enthusiast considering which lens would be suitable to add to his outfit. Do you know your "Coma from your Aberrations"? If "Yes," then part 2 of Erwin Puts' new book will be of considerable interest to you. Either way you may find this section easier to understand than you expect; the illustrations and diagrams do help. Part 1 goes into the optical history of E. Leitz, Wetzlar and the Leica Camera of Solms in detail with all the personalities involved. This section is well illustrated with some new pictures. The commercial demands are always battling with the perfectionists at Leica who created some of the world's most famous lenses. Part 2 is an optical digression explaining the lens and glass design features, problems and terms and the continual battle to ensure that

Leica users end up with the highest possible standard of lens. Part 3 is the largest part of the book. Puts has tested Leica lenses from 1925 to date; each lens, in most cases with diagram, is detailed with its performances at the critical apertures.

Yosemite & the Eastern Sierra - Peter Beren 2004

In the tradition of California the Beautiful, Galen Rowell's best-selling celebration of the natural

beauty of the Golden State, comes Yosemite & the Eastern Sierra, featuring stunning color images by outdoor photographer Gary Crabbe. Here is a fresh look at the wonders of Yosemite National Park (visited by more than three million people each year), as well as the lesser-known vistas of the pristine wilderness that adjoins the eastern slopes of the Sierra Nevada. From the first light of sunrise cascading above an alpine creek to the last glint of sunset reflected on the joyful serenade of a waterfall ballet at Horsetail

Falls, the spirit of the land will nourish your soul. The accompanying text of this small but exquisitely printed volume speaks through the voices of our great nature writers, from Ansel Adams and Galen Rowell to Joan Didion, Wallace Stegner, and Mark Twain. This is the perfect gift for anyone who has ever marveled at the beauty of Yosemite National Park and the glorious gallery of the Eastern Sierra's natural wonders.
