*Speeches of Note* - Shaun Usher 2018-12-04

From the author of the New York Times bestseller *Letters of Note* comes a collection of 75 of history's most interesting, profound, and sometimes unknown speeches from a range of scintillating personalities such as Frederick

Douglass, Justin Trudeau, Albert Einstein, Meghan Markle, Barbara Jordan, and Ursula K. Le Guin. This thoughtfully curated and richly illustrated collection celebrates oratory old and new, highlighting speeches we know and admire, while also shining a light on profound drafts that were never delivered or have until now been forgotten. From George Bernard Shaw's warm and rousing toast to Albert Einstein in 1930 and the commencement

address affectionately given to graduates at Long Island University by Kermit the Frog, to the chilling public announcement (that was thankfully never made) by President Richard Nixon should Neil Armstrong and Buzz Aldrin become stranded on the moon, *Speeches of Note* honors the words and ideas of some of history's most provocative and inspiring personages.  
*Hardware Hacker* - Don Lancaster 1994-11-01
