Restaurant Man - Joe Bastianich 2013-07-30
The New York Times Bestselling Book--Great gift for Foodies "The best, funniest, most revealing inside look at the restaurant biz since Anthony Bourdain's Kitchen Confidential." —Jay

McInerney With a foreword by Mario Batali Joe Bastianich is unquestionably one of the most successful restaurateurs in America—if not the world. So how did a nice Italian boy from Queens turn his passion for food and wine into an empire? In *Restaurant Man*, Joe charts a remarkable journey that first began in his parents' neighborhood eatery. Along the way, he shares fascinating stories about his establishments and his superstar chef partners—his mother, Lidia Bastianich, and Mario Batali. Ever since Anthony Bourdain whet literary palates with *Kitchen Confidential*, restaurant memoirs have been mainstays of the bestseller lists. Serving up equal parts rock 'n' roll and hard-ass business reality, *Restaurant Man* is a compelling ragu-to-riches chronicle that foodies and aspiring restauranteurs alike will be hankering to read.

International Business - Shad Morris 2020-07-21
Leveraging their extensive background at multi-national corporations, co-authors Shad Morris

and James Oldroyd created an International Business course that is current, concise, and easy to implement. As instructors themselves, the authors focused on engaging pedagogy that prepares students for the global marketplace and created interactive resources to deepen the learning experience. This second edition of *International Business* includes extensive updates including coverage on important topics like COVID-19, Brexit and the US-China trade war. Additionally, the WileyPLUS course provides just-in-time resources like chapter introductory videos, whiteboard animations, cases/case application problems, adaptive practice, and more to help students apply their learning and think critically.

Chinese investment in Ghana's manufacturing sector - Tang, Xiaoyang 2017-03-31

This paper uses Ghana as a case study to illustrate the extent to which Chinese manufacturing firms are driving manufacturing in an African country. Through a combination of desktop and field research, the author finds that the total number of Chinese manufacturing investments in Ghana indeed increased during past decade, but quite a few projects have been abandoned or not implemented because of the unfavorable investment environment. Small and large manufacturing projects can be found in different sectors, such as plastics, steel, pharmaceuticals, and others. All of the manufacturing investments target local or regional markets, either taking advantage of local raw materials or seeing opportunities in a market with little competition. Transitioning from trading to manufacturing investment and clustering are identified as the main patterns by which Chinese investors establish themselves in

Ghana. Chinese firms source simple raw materials from local suppliers but import industrial supplies from abroad. Learning from Chinese business models, a few local businessmen have started their own manufacturing projects, mostly in the plastics recycling sector, but a lack of capital appears to keep some local players from moving up the value chain. Ghana's weak economy itself is limiting technology transfer and local linkages between Chinese firms and Ghanaians.

Pandemic Planning Handbook - Leo Syed

2021-05-01

The next pandemic virus outbreak could have severe worldwide consequences, causing illness and death for individuals and families, and slowdowns and closures for businesses and corporations. A method to manage infectious disease pandemics is to use a process known as pandemic planning. The aim is to prevent infectious disease outbreaks, reduce the potential impact and consequences, and continue business in the event of a pandemic. Pandemic Planning Handbook is a comprehensive text on the topic of pandemic planning. It is written from a business perspective and includes detailed coverage of COVID-19 and 2009 H1N1 pandemics. The primary objectives of the book are to educate readers about infectious disease pandemics and give them the skills to manage pandemic risks and develop comprehensive and effective pandemic plans. The book presents a cyclical

pandemic planning process for developing plans. The process considers the extent of an organization's knowledge and the understanding of infectious disease pandemics, how the organization manages the associated pandemic risks, development of essential plan components, and the validity and maintenance of plans, and the establishment of a pandemic training program. It is presented in detail in four easy to follow sections: Pandemic education and awareness Pandemic risk management Pandemic plan development Pandemic testing, maintenance, and training A wide range of organizations will benefit from this book including the private sector, government, non-profit organizations, educational institutions, and the healthcare community. It is intended for pandemic response planners such as business continuity, emergency management, human resource, risk management, facility management, health and safety staff, and anyone interested in preparing for an infectious disease

outbreak or pandemic.

Integration of AI and OR Techniques in Constraint Programming - Claude-Guy

Quimper 2016-05-12

This book constitutes the proceedings of the 13th International Conference on Integration of Artificial Intelligence and Operations Research Techniques in Constraint Programming for Combinatorial Optimization Problems, CPAIOR 2016, held in Banff, Canada, in May/June 2016. The 21 full papers presented together with 8 short papers were carefully reviewed and selected from 51 submissions. The conference brings together interested researchers from constraint programming, artificial intelligence, and operations research to present new techniques or applications in combinatorial

optimization and provides an opportunity for researchers in one area to learn about techniques in the others, and to show how the integration of techniques from different fields can lead to interesting results on large and complex problems.
