Women and the Criminal Justice System - Katherine Stuart Van Wormer 2022-01-28

This book presents an up-to-date analysis of women as victims of crime, as individuals under justice system supervision, and as professionals in the field. The text features an empowerment approach that is unified by underlying themes of the intersection of gender, race, and class; and evidence-based research. Personal narratives supplement research and statistics to help students connect the text material with real-life situations. This new edition is informed by consideration of major ongoing social movements such as #MeToo, Black Lives Matter, and the fight to reduce mass incarceration. The text stresses contemporary topics such as recognition of lesbian, bisexual, and transgender issues in juvenile and adult facilities; the introduction of trauma-informed care in detention centers and prisons; the criminalization of Black girls and women; the effects of an increasingly militarized police culture; and the contributions of Ruth Bader Ginsburg and other influential women. With its emphasis on critical thinking, this text is ideal for undergraduate courses concerning women in the justice system.

Forecast - 1925

International Best Practices for Evaluation in the Health Professions - William Mcgaghie 2022-01-27

This unique text presents a comprehensive narrative on why and how health professions students need to be evaluated for practice in the 21st century. It systematically addresses current evaluation best practices in the health professions to identify today's evaluation benchmarks, reveal evaluation limits, address improvement pathways, and map a research agenda to boost future evaluation practices. Advancements in information and communication technology, bioscience and behavioral research, and worldwide travel are dissolving barriers that have separated professions, countries, and cultures for centuries. This book both celebrates these achievements and carefully considers next steps. It recognizes the huge improvements made in evaluation practices within the health professions over the past 40 years but asks for more - calling for added reform and better understanding of current practice from different social, cultural, and educational perspectives. International Best Practices for Evaluation in the Health Professions values crossprofessional programs that span boundaries and acknowledge the authority of the future rather than historical baggage. Educators worldwide will be enlightened and inspired by its straightforward, compelling narrative.

Bulletin of the Atomic Scientists - 1955-04

The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic "Doomsday Clock" stimulates solutions for a safer world.

When "The" Church Rides the Beast - Franklin S. Fowler 2011-05-18
When The Church Rides the Beast Unfolding a Rome Centered Mystery!

With impassioned words Paul said, Let no man deceive you, That day [second coming] shall not come, except that man of sin be revealed (1 Thessalonians 2:3)! It is now the time to unmincingly affirm that the antichrist is personified in the head of the Roman Catholic Church. Its history alone cries out with sullen voices of arrogance: Every cleric must obey the Pope, even if he commands what is evil; for no one may judge the Pope.- Pope Innocent III (1198-1216 A.D). Its code of laws conveys supreme power to the Pope: The First See [Rome/papacy] is judged by no one. It is the right of the Roman Pontiff himself alone to judge those who hold the highest civil office in a state.-Canon 1404. There is neither appeal nor recourse against a decision or decree of the Roman Pontiff.- Canon 333-03. When Pope Benedict XVI was Cardinal Joseph Ratzinger, he immortalized Romes usurpation of Gods place within the church by publishing Dominus Iesus (August 5, 2000). He noted that all non-Catholic Christian communities were either defective or not true churches. He pointedly said that salvation was available only through the Roman Catholic Church. Stunning was this declaration, leaving behind our Lord and Savior Jesus Christ! Paul noted that the Man of sin exalteth himself, sitting in the temple of God, working with all deceivableness (II Thessalonians 2:3-10). Even the famed and much-quoted 19th century Baptist preacher Charles Spurgeon said: It is the duty of every Christian to pray against [the] Antichrist, and as to what antichrist is no sane man ought to raise a question. If it be not the Popery in the Church of Rome there is nothing in the world that can be called by that name. This book

candidly unfolds verse by verse the very center of Johns apocalyptic prophecy which describes the final work of this antichrist. In arresting detail God discloses the horrifying suppressive power this church will soon wield, the prodigious seat the little Vatican state has provided its leaders, and most disconcerting, the worlds gullible worship of its falsehood. This amazing document mines the very depths of what God has revealed. In ways never before opened to the student of last-day events, the Christian is warned of papal deceptions that are beginning to enamor a submissive nave world.
