Learning how to study is an important life skill. By being a dedicated student, you are likely to witness results and boost your confidence in the process. So, stop dreaming and get started today!

Learning from Errors at School and at Work - Eveline Wuttke 2011-11-11
Learning by erring Is it possible to learn from your mistakes? While there is evidence to the positive, there is also evidence suggesting that whether mistakes may teach you anything depends on genetic disposition as well as supervisors handling those mistakes. Apparently, it is of utter importance to see how things cannot work, what things are not like, and what you do not know. Through this negative knowledge, learning through errors may be achieved. In this book, the authors look at errors and their potentials for the learning process, as well as the sort of environment that does make a positive difference concerning these concepts.

School Crisis Prevention and Intervention - Mary Margaret Kerr 2018-10-30

In the latest edition of *School Crisis Prevention & Intervention*, Mary Margaret Kerr, a nationally recognized expert in school crisis response and a leading urban educator, along with new coauthor, Garry King, a specialist in youth welfare, synthesizes and assembles the best current practices of law enforcement, threat assessment, psychology, and communications in a single, streamlined volume. Such a valuable guide prepares school personnel, including counselors and administrators, with

the requisite skills at all crisis stages—from preparation and prevention to intervention and recovery. Dozens of actual cases illustrate key concepts and procedures, while allowing readers to assess their preparedness. Helpful forms and checklists can be used to set priorities and ensure accountability. Interactive features inspire critical reflection and aid in developing problem-solving skills. Outstanding features include . . . • Latest federal guidelines and policies dealing with all phases of crises • Comprehensive agenda for initial crisis team training • Practical and sensitive methods to facilitate recovery and provide support • Recommendations for collaborating with community-based emergency response services • Proficient ways to communicate with staff, students, parents, community, and media

School Readiness and the Characteristics of Effective Learning - Tamsin Grimmer 2018-02-21

This guide to understanding school readiness in young children is essential reading for early years practitioners. It explores the concept of school readiness by unpicking what the term means for children and how we can define it in the context of the characteristics of effective learning. This includes ideas for promoting playing and exploring, active learning and creating and thinking critically. The book also considers how we can ensure schools are ready to receive children and suggests ways in which preschools and nurseries can work collaboratively with schools and engage parents and carers to ensure a smooth transition.

Generating Tact and Flow for Effective Teaching and Learning - Susanna M. Steeg Thornhill 2020-11-27

This book draws from and analyzes teachers' and students' stories of great classes in order to promote teachers' development of pedagogical tact and to encourage flow states for students. Taken together, these theoretical lenses—pedagogical tact and flow—provide a valuable framework for understanding and motivating classroom engagement. As the authors suggest, tactful teachers are more likely to see their students in flow than teachers who struggle with basic classroom routines and practices. Grounded in narrative research, and written for pre-service teachers, the book offers strategies for replicating these first-hand accounts of peak classroom teaching and learning.

Using Students' Assessment Mistakes and Learning Deficits to Enhance Motivation and Learning - James H. McMillan 2017-08-10

Being wrong is an integral part of the assessment process, and understanding how to learn from those mistakes, errors, and misconceptions helps educators and students get the most from their learning experience. In this practical volume, James H. McMillan shows why being wrong (sometimes) is an essential part of effective learning and how it can be used by teachers to motivate students and help develop positive achievement-related dispositions. The six concise chapters of *Using Students' Assessment Mistakes and Learning Deficits to Enhance Motivation and Learning* show how mistakes affect students' engagement, self-regulation, and knowledge, and how teachers can most effectively contextualize supposed failures to help students grow.

A Coach's Guide to Maximizing the Youth Sport Experience - Mary Fry 2019-09-23

This book guides sport coaches, parents and administrators in creating a caring and task-involving sport climate that helps athletes perform their best and have an enjoyable and meaningful sport experience. It introduces the concept of a caring and task-involving climate and provides a "how to" guide to creating this climate in sport. Firstly, this guide introduces the caring and task-involving climate and summarizes research highlighting its many benefits. Secondly, the five features of this climate are presented along with the reflective exercises for developing them within a team. Coaches will see strategies in action, sample conversations, and a variety of ways to implement the features of a caring and task-involving experience. By describing how it may be implemented and methods for overcoming possible challenges, this book finally highlights how parents and sport administrators can support the

creation and preservation of caring and task-involving climates. By helping teams develop caring climates that optimize athletes' sport experience and performance, this book is essential reading for coaches, sport administrators, parents, and sport psychology practitioners. It will also be of great interest to those who have minimal training in sport psychology, but who are involved in sport at many levels, such as youth and high school.

Helping Government Learn - Great Britain. National Audit Office 2009
Much learning in government occurs after large projects, initiatives or crises. However, important learning should also take place routinely on a day-to-day basis, as teams and individuals carry out their work, or as a result of research and evaluations.

Teaching and Learning for Intercultural Understanding - Debra Rader 2018-04-19

Teaching and Learning for Intercultural Understanding is a comprehensive resource for educators in primary and early years classrooms. It provides teachers with a complete framework for developing intercultural understanding among pupils and includes practical and creative strategies and activities to stimulate discussion, awareness and comprehension of intercultural issues and ideas. Drawing on the most current research and work in the field of intercultural competence and existing models of intercultural understanding, this book explores topics such as: understanding culture and language the importance of personal and cultural identity engaging with difference cultivating positive attitudes and beliefs embedding awareness of local and global issues in students designing a classroom with intercultural understanding in mind. With detailed ready-to-use, enquiry-based lesson plans, which incorporate children's literature, talking points and media resources, this book encourages the practitioner to consider intercultural understanding as another lens through which to view the curriculum when creating and choosing learning materials and activities. Teaching and Learning for Intercultural Understanding sets out to help the reader engage young hearts and minds with global and local concepts in a way that is easily integrated into the life of all primary schools - from New York to New Delhi, from Birmingham to Bangkok.

Government Responses to Crisis - Stefanie Haeffele 2020-03-25

When crises occur, citizens, media and policymakers alike expect government to respond and to take a leading role in recovery. Given the scale and scope of crises, whether natural (such as hurricanes, floods, and earthquakes), manmade (such as conflict and economic downturns), or often a combination of the two, governments are often seen as being in the best position to identify the problems, understand the circumstances, and direct action. They are also likely to be the entities that have adequate resources to devote to such large-scale efforts. Yet, governments are not spared from the effects of crises. They are composed of individuals who are impacted by disasters and face many of the same challenges in identifying needs, prioritizing action, and adjusting to changing circumstances. It is by no surprise that governments are also often scrutinized during and after crises. How, then, do we understand the capability of and proper role for governments to respond to crisis and to drive recovery? This edited volume—comprised of chapters by accomplished scholars and seasoned practitioners in disaster and crises studies and management, spanning multiple disciplines including sociology, economics, and public administration—examines the roles, expectations, and capabilities of government responses to crises. It gives an overview of the literature, provides lessons learned from both research and experience on the ground during crises, and puts forth a framework for understanding crisis management and subsequent policy implications. It will be of use to any scholars, students, practitioners or policymakers interested in learning from and better preparing for crises and responding when they do occur.

Learning Work - Roger I. Simon 1991

With increasing attention being given to the idea that education should include some type of vocational or career-related training, concerns have arisen over just how such programs can be effectively implemented to best meet the needs of the teachers, students, and community groups involved. Specifically, teachers and community-based educators have questioned how work education may proceed in a way that provides students with an understanding of "the realities" of life in the job market and at work, while at the same time helping them to increase their effective participation in determining the practices that will define their own working lives. Learning Work directly addresses this concern. Through discussions of teaching methods and actual lesson suggestions, the authors demonstrate how the viewpoint of a critical pedagogy can be

used to develop a clear and principled practice of work education. Numerous examples drawn from interviews and classroom observations in a cross-section of urban, suburban, and rural schools are included to illustrate the practical implications of a theory of critical pedagogy. In their introduction, the authors provide a brief discussion of the relationship between a critical pedagogy and work education. The remainder of the book is divided into three parts and begins with chapters that explore the technical issues involved in work education. Separate chapters address the notion of working knowledge, the concepts of skills and work design, and ways in which the learning potential of worksites can be more fully developed through work education programs. The second section examines social relations and includes discussions of workplace relations, occupational health and safety, the interrelationships between work and leisure, and the question of unions. Finally, the authors look at work as an exchange relation and demonstrate how work education can be used to foster self-assessment, help students in the job search and salary negotiation processes, and prepare them for future work opportunities. Practical lesson suggestions are included in each section. An invaluable resource for both teachers and education students, this book makes a substantial contribution to current debates on the place and purpose of work education in our secondary schools, colleges, and community-based service agencies.

How to Give Effective Feedback to Your Students - Susan M. Brookhart 2008

Presents advice on providing the type of positive feedback to students which can motivate them to learn more effectively, including information about counseling special students and those learning English as a second language.

U.S. General Services Administration's Capital Investment Program - United States. Congress. House. Committee on Transportation and Infrastructure. Subcommittee on Public Buildings and Economic Development 1997

The Essentials of Effective Written Communication for Young Researchers and Tertiary Students - Laura Cheng Sue Sen B.comn 2022-05-16

The scientific article must be written in a scientific format and may seem confusing for tertiary students and young researchers, especially for the beginning science writer due to its rigid structure which is so different from writing humanities. One of the reasons for using this format is that it is a means of efficiently communicating scientific findings to a broad community of scientists in a uniform manner. Writing a technical article or research paper is a challenging endeavour for students and young researchers. Publishing your first technical article or research paper requires observation of some essential guidelines. Hence the purpose of this book is to provide basic guidelines to tertiary students and young researchers using this user-friendly format to help in writing a scientific article. This book focuses on the essential steps for the publication of a technical article and research paper for tertiary students and young researchers

Handbook of Research on Strategic Communication, Leadership, and Conflict Management in Modern Organizations - Normore, Anthony 2019-03-08

As communication and leadership skills are both essential for personal and organizational success, new approaches and management styles are continuously being sought. Emerging technologies, automation opportunities, and a diverse workforce are just a few of the challenges business professionals must be prepared for in today's workplace environment. The Handbook of Research on Strategic Communication, Leadership, and Conflict Management in Modern Organizations provides emerging research exploring the theoretical and practical aspects of managing and solving conflicts, and introduces updated approaches for refining communication and leadership skills. Featuring coverage on a broad range of topics such as emotional intelligence, organizational crises, and virtual team management, this book is ideally designed for professionals, leaders, managers, and human resource specialists seeking current research on developing the skills and consciousness needed to effectively communicate, negotiate, and collaborate in diverse organizations.

Working in Teams - Brian A. Griffith 2014-01-16

An engaging, relevant text, Working in Teams explores the major concepts related to team success and prepares students to lead and work in and lead collaborative, interdependent environments. Authors Brian A. Griffith, PhD, and Ethan B. Dunham EdM, MBA, teach readers to accomplish specific goals in teams, foster the development of individual

members, and transform “high-potential” groups into “high performing” teams. Readers will develop a strong, practical foundation in topics essential to effective teamwork: team design and development, interpersonal dynamics, leadership, communication, decision making, creativity and innovation, diversity, project management, and performance evaluation.

Long-Term Memory Problems in Children and Adolescents - Milton J. Dehn 2010-08-02

“This book will be a valuable resource for psychologists and educators who work with children or adolescents who are having difficulties with memory and learning. Translating theory and research into practice is a talent that Dr. Dehn possesses and we will benefit from his professional skills.” — From the Foreword by Daniel C. Miller, PhD, ABPP, ABSNP, NCSP AN INDISPENSABLE GUIDE THAT EXAMINES THE EFFECT OF LONG-TERM MEMORY FUNCTIONS ON CHILDREN’S LEARNING Long-Term Memory Problems in Children and Adolescents: Assessment, Intervention, and Effective Instruction is the first book of its kind for psychologists, school psychologists, and special education teachers who need an overview of long-term memory as it relates to learning and education. It presents the best practices for assessing long-term memory functions, as well as selecting and using evidence-based instructional practices with memory-impaired students. This useful and timely guide bridges theory and practice to provide professional guidance with coverage of: Risk factors that can lead to long-term memory impairments How long-term memory relates to other types of memory The subcomponents and processes of long-term memory and how they relate to academic achievement What is known about the neuroanatomy of how memories are formed The developmental trajectory of memory and learning Common types of memory dysfunction Memory assessment strategies, interventions for memory problems, and instructional practices that support memory Author Milton Dehn draws on his extensive experience as a trainer and workshop presenter, school psychologist, and educator to present both the theory and research on long-term memory in children and adolescents in this book. Specific, step-by-step guidance and hands-on case studies enable professionals to identify how memory can be assessed as well as the interventions that can be linked to the results of the assessment.

Curriculum & Learning in Theory and Implementation - Irfan Dahnil The curriculum is an important educational tool, because education and curriculum are interrelated. In comparison, the curriculum is like the human heart. If the heart can still function normally, the body will still live and function normally. The same applies to curriculum and education. If the subject runs well and is supported by components that function well, the learning process will run well and good students will be produced. The curriculum will continue to change, because the curriculum is dynamic and not static, so after continuously changing the curriculum, you must also be prepared to make changes to all parties related to education. Hopefully this book can make academic life everywhere still shine like the sun that never sets.

Principles of Risk Management and Patient Safety - Barbara Youngberg 2010-10-15

Health Sciences & Professions

Teaching Business, Economics and Enterprise 14-19 - Helena Knapton 2019-10-02

This book provides core knowledge and guidance for successful teaching in Business, Economics and Enterprise Education, and is based on the most up-to-date requirements. Written by experts with expertise in delivering business education in teacher training, further education, and secondary schools, it explores the nature of each subject in relation to the curriculum and offers subject-specific pedagogy to help develop teaching skills and confidence within the classroom. Including case studies and reflective questions in every chapter, the book covers the key topics across the subjects such as: Financial literacy Planning for the delivery of academic and vocational subjects The value of different qualifications and business and industry links Strategies for successful differentiation Assessment and pupil progression Teaching Business, Economics and Enterprise 14-19 is a vital resource for training or newly qualified teachers looking to deliver excellent teaching that will inspire their students and lead to successful learning.

Effective Learning after Acquired Brain Injury - Graham Lowings 2016-01-25

Effective Learning After Acquired Brain Injury provides clear guidance on delivering productive educational programmes for adolescents and adults with acquired brain injury (ABI). Written for the non-specialist, the book provides an accessible overview of the neuropsychological deficits

resulting from ABI and the ways in which these can affect an individual’s ability to learn and to benefit from educational programmes. This is the first book of its kind to focus on the adaptation of educational programmes for adults rather than children. The authors explain how to take the results of a neuropsychological assessment as a guide in order to construct a cognitive profile and to create individually tailored educational plans and rehabilitation programmes. They also describe specific strategies that can be taught or utilised, and ways in which they can be set out in a simple plan. The book includes an extensive collection of resources which can be reproduced for the reader’s own use. Effective Learning After Acquired Brain Injury will be an invaluable resource for general facilitators, clinicians and practitioners who provide educational opportunities in rehabilitation centres for individuals with a variety of neurological conditions, and also for those delivering education in forensic settings. It will maximise the quality of teaching, and the person’s potential to learn, and improve the success rate of rehabilitation programmes and those aimed at reducing offending.

CliffsNotes TExES Math 4-8 (115) and Math 7-12 (235) - Sandra Luna McCune 2020-09-15

CliffsNotes TExES Math 4-8 (115) and Math 7-12 (235) is the perfect way to study for Texas’ middle school and high school math teacher certification tests. Becoming a certified middle school math teacher and high school math teacher in Texas means first passing the TExES Math 4-8 (115) teacher certification test for middle school teachers or the TExES Math 7-12 (235) teacher certification test for high school teachers. This professional teacher certification test is required for all teachers who want to teach math in a Texas middle or high school. Covering each test’s six domains and individual competencies with in-depth subject reviews, this test-prep book also includes two model practice tests with answers and explanations for the Math 4-8 and two model practice tests with answers and explanations for the Math 7-12. Answer explanations detail why correct answers are correct, as well as what makes incorrect answer choices incorrect.

Behavior Analysis for Effective Teaching - Julie S. Vargas 2013

Modern classrooms face an increasing population of special needs students and ‘regular’ students who have behavioural problems. The mission of this book is to show teachers and other human service professionals working in school settings how to employ non-aversive, behaviour analysis principles in classrooms and other school settings.

Working Smart in the AI Era: How to Be Efficient, Agile & Sustainable - Get Ready for Disruptive Change and Fast-Scaling Growth - Efwag Hagstrøm 2020-01-20

How to get your leaders, teams, and organization ready for disruptive change & fast-scaling growth? “Finally, a book that focuses on the place of humans and organizations in a world driven by digitalization.” - Sverre Gotaas, CEO Herøya Industripark AS “Let Efwag inspire you to meet tomorrow’s working life and challenges.” - Toril Roberg, MSc, Production Director, REEtec “This book provides a platform for kicking off a conversation with your team to improve your game. A must-read for all of us who appreciate inspiration on how to structure our business - and how to engage people, so we master the great opportunities ahead.” - Jon Erik Høgberg, COO Itera Group “I highly recommend this book. This book is an important and relevant contribution to leadership in a digital time with high speed of change. I especially appreciate the author’s ability to focus on people and collaboration.” - Hilde Kristin Herud, CEO, Norgips Norge AS

The Data Coach’s Guide to Improving Learning for All Students - Nancy Love 2008-02-27

The authors illustrate how to use data as a catalyst for significant, systematic, and continuous improvement in instruction and learning. Includes a CD-ROM with slides and reproducibles.

Working with Challenging Youth - Brent Richardson 2015-09-25

Working with Challenging Youth, Second Edition is a practical, reader-friendly guide through the pitfalls and problems that arise when working with at-risk youth. As in the first edition, the new Working with Challenging Youth builds on a solid theoretical base in reality therapy, cognitive-behavioral therapy, solution-focused therapy, systems theory, and humanistic philosophy to answer the question “What distinguishes the really effective professionals from the rest?” This second edition includes new sections on specialized, evidence-based approaches such as dialectical behavior therapy, mindfulness, collaborative problem-solving, motivational interviewing, and multisystemic therapy. This book also offers 7 guiding principles and 50 specific lessons to help bridge the gap between helping professionals and youth.

Human Resource Practice - Fiona Whiting 2020-10-03

Human Resource Practice is a practical and accessible guide for students and anyone looking to gain a thorough understanding of HR, and is the definitive text for the CIPD's Level 3 Foundation Certificate in HR Practice. It covers all the core areas of HR including recruitment and selection, performance management, reward and learning and development (L&D) as well as providing students with the broader coverage of the business environment that they need to succeed including topics such as change management, organisational context and the legal background to employment. This fully updated 8th edition of Human Resource Practice now includes new discussion of job design, people analytics and employee mental and is fully aligned to the new CIPD foundation syllabus. Reflective practice questions, case studies and explore further boxes throughout encourage students to think critically about the content and understand how it applies in practice in the workplace. Most importantly, this book contains a dedicated chapter on personal effectiveness to ensure that students develop all the skills they need for a successful career in HR such as presentation and communication skills, empathy, resilience and guidance on how to handle difficult conversations. Online resources include an instructor's manual, lecture slides and annotated web links.

Effective Crisis Communication - Robert R. Ulmer 2017-12-11

In this fully updated Fourth Edition of Effective Crisis Communication, three of today's most respected crisis/risk communication scholars provide the latest theories and innovative approaches for handling crisis. Unlike other crisis communication texts, this acclaimed book answers the question, "what now?" and explains how organizations can create the potential for opportunity, renewal, and growth through effective crisis communication. Authors Robert R. Ulmer, Timothy L. Sellnow, and Matthew W. Seeger provide guidelines for taking the many challenges that crises present and turning those challenges into opportunities. Practical lessons and in-depth case studies highlight successes and failures in dealing with core issues of crisis leadership, including managing uncertainty, communicating effectively, understanding risk, promoting communication ethics, enabling organizational learning, and producing renewing responses to crisis. New to the Fourth Edition: New and updated examples and case studies include diverse cases from recent headlines such as SeaWorld's reaction to Blackfish, the United Airlines debacle, and the Flint Water Crisis. Updated theories and references throughout provide readers with the latest information for effective crisis communication.

Discrete-Trials Teaching With Children With Autism - Daniela Fazzio, PhD, BCBA-D 2011-11-01

Discrete-trials teaching, or DTT, is a very important teaching technique developed by behavior analysts. The DTT Manual has taught numerous groups of individuals to conduct DTT with children with autism in as quickly as 6 hours. The manual is the product of the joint work of Dr. Daniela Fazzio, PhD, BCBA-D and Dr. Garry L. Martin, PhD, Distinguished Professor of Psychology. The manual addresses an area of much need in the field of autism treatment; effective and efficient training for parents and professionals. It was written with them in mind and it has been empirically tested several times, with several university students, paraprofessionals, and parents. It will be easy to navigate for individuals with a high school diploma, regardless of any prior experience in psychology or special education.

The Education of Children with Severe Learning Difficulties - Judith Coupe 2018-10-03

First published in 1986. Aimed at teachers, students and related professions this book serves to bridge the gap between the theory and practice of educating pupils with severe learning difficulties. In the light of the 1981 Education Act it is crucial to identify, and subsequently meet, the needs of these pupils. This can only be done by an in-depth understanding of curriculum design, child development and the learning process. This book incorporates these aspects together with an appreciation of teaching techniques and school and classroom organisation. It explains how the parents, school staff and linked agencies complement this procedure.

Activities for Building Character and Social-Emotional Learning - Katia S. Petersen 2012

"Hundreds of user-friendly lesson plans help teachers build attitudes of respect and caring, reduce problem behaviors, empower students to solve problems, and educate the whole child socially, emotionally, and academically. The lessons' literature-based connections allow teachers to "build in" rather than "add on" social-emotional learning (SEL) as part of the daily curriculum. Each resource guide offers: - Monthly themes focused on emotions, empathy, relationships, conflict resolution, bullying

prevention, problem solving, decision making, teamwork, and self-esteem - Literature-based lessons with curriculum integrations for using the lessons as part of language arts, social studies, science, math, art, and music - Easy-to-implement lesson formats for all activities: Read, Discuss, Do, Relate - Built-in assessments - Reproducible activity handouts in the book and on CD-ROM Field-tested in classrooms across the United States, these activities when fully implemented have resulted in improved school climate, greater parent engagement, increased academic achievement, and reduction in discipline referrals. The Activities for Building Character and Social-Emotional Learning resource guides are essential teaching tools for all preK-8 teachers"--

Tomorrow's Change Makers - Marilyn Price-Mitchell 2015-09-28

For democracy to thrive, we must inspire and empower young citizens. Through research and stories of civically-engaged American youth, Tomorrow's Change Makers reveals the relationships, experiences, and challenges that propel today's young people to play important roles in their communities and across the globe.

Learning to Teach in the Secondary School - Susan Capel 2022-07-29

The market leading text for beginning teachers on all undergraduate, postgraduate and school-based routes to QTS, this is an essential introduction to the key skills and knowledge needed to become a successful teacher. Offering advice on all aspects of teaching and learning, this ninth edition has been thoroughly updated to reflect changes in the field and covers key new topics, including the science of learning, online pedagogies and working with your mentor. There are also expanded units on diversity and inclusion and teacher wellbeing. The text includes a wealth of examples and tasks to support you in successfully applying theory to practice, and in critically reflecting on and analysing your practice to maximise pupil learning. The wide range of pedagogical features supports both school- and university-based work up to Masters level. Written by experts in the field, the 41 concise units are underpinned by evidence-informed practice and focus on what you need to know to thrive in the classroom, including: lesson planning; curriculum; managing behaviour; online lessons and digital resources; effective communication with pupils; how pupils learn; assessment, marking and feedback; diversity and inclusion; special educational needs and disabilities (SEND); managing stress, workload and time; applying for jobs, developing as a professional and networking. The book is extended and enhanced through a companion website that includes: Animated explainer videos, to introduce and summarise key topics; A selection of downloadable and editable tables and figures from the book, so that the most practical elements can be taken out of study and into practice; Additional material and interactive features to support selected units, such as focus questions for lesson observations, and flashcards to help analyse student behaviour; Bonus content, including 'Starting to Teach' chapters and a mapping document, supporting you to make links between the ninth edition chapters and key teaching standards. Supported by the subject-specific titles in the Learning to Teach Subjects in the Secondary School and A Practical Guide to Teaching Subjects in the Secondary School Series, it is an essential purchase for every aspiring secondary school teacher.

Grading for Equity - Joe Feldman 2018-09-25

"Joe Feldman shows us how we can use grading to help students become the leaders of their own learning and lift the veil on how to succeed. . . . This must-have book will help teachers learn to implement improved, equity-focused grading for impact." --Zaretta Hammond, Author of Culturally Responsive Teaching & The Brain Crack open the grading conversation Here at last—and none too soon—is a resource that delivers the research base, tools, and courage to tackle one of the most challenging and emotionally charged conversations in today's schools: our inconsistent grading practices and the ways they can inadvertently perpetuate the achievement and opportunity gaps among our students. With Grading for Equity, Joe Feldman cuts to the core of the conversation, revealing how grading practices that are accurate, bias-resistant, and motivational will improve learning, minimize grade inflation, reduce failure rates, and become a lever for creating stronger teacher-student relationships and more caring classrooms. Essential reading for schoolwide and individual book study or for student advocates, Grading for Equity provides A critical historical backdrop, describing how our inherited system of grading was originally set up as a sorting mechanism to provide or deny opportunity, control students, and endorse a "fixed mindset" about students' academic potential—practices that are still in place a century later A summary of the research on motivation and equitable teaching and learning, establishing a rock-solid foundation and a "true north" orientation toward equitable grading

practices Specific grading practices that are more equitable, along with teacher examples, strategies to solve common hiccups and concerns, and evidence of effectiveness Reflection tools for facilitating individual or group engagement and understanding As Joe writes, "Grading practices are a mirror not just for students, but for us as their teachers." Each one of us should start by asking, "What do my grading practices say about who I am and what I believe?" Then, let's make the choice to do things differently . . . with Grading for Equity as a dog-eared reference.

Readings for Learning to Teach in the Secondary School - Susan Anne Capel 2010

This collection brings together key articles to develop and support student teachers' understanding of the theory, research and evidence base that underpins effective practice. Each reading is contextualised and includes questions to encourage reflection and help engage with material critically.

Critical Thinking - Gerald J. Watson Jr. 2020-07-20

Mistakes occur for many reasons. This book takes a hands-on approach to the reasons mistakes happen, analyzes the actual mistakes, and develops a strategy to reduce them. This book proposes error reduction strategies in human decision making and educates the reader to further reduce the likelihood of making a mistake. It provides error reduction strategies, describes various cost-effective methods for eliminating costly errors, and discusses Anthropometry, Crew Resource Management, Human Factors, Industrial Engineering, Scientific Management, and Usability and the role these topics play in the avoidance of mistakes. This book will be of interest to professionals and students in the areas of industrial engineering, human factors, logistics, quality control, manufacturing, human resources, and safety.

[Mistakes, Errors and Failures across Cultures](#) - Elisabeth Vanderheiden 2020-03-14

This volume provides comprehensible, strength-based perspectives on contemporary research and practice related to navigating mistakes, errors and failures across cultures. It addresses these concepts across cultural contexts and explores any or all of these three concepts from a positive psychology or positive organisational perspective, highlighting their potential as resources. The volume further discusses the consequences of errors and failures at individual, organisational and societal levels, ranging from severe personal problems to organisational and collective crises, perspectives how those can be turned into opportunities for contingent and sustainable improvement processes. The book shows that there are significant cultural differences in the understanding, interpretation and handling of errors and failures. This volume provides practical guidance for transcultural understanding of mistakes, errors and failure through new models, ideas for self-reflection, therapeutic and counselling interventions and organisational change management processes. This book is a must for researchers and practitioners working on mistakes, errors and failures across cultures and disciplines!

Reflective practice - Sicora, Alessandro 2017-03-08

What is a mistake in social work and how can we turn it into a positive learning experience? Simply going over the events of the day is often not enough and can become overwhelming. Learning from professional errors is, however, vital for successful reflective practice. This important book presents a theoretical framework that underpins this learning, along with a series of strategies for social workers to use either by themselves or as part of a group. These include creating questions and narratives to enhance learning, assertive techniques for receiving and offering criticism and organisational learning from mistakes. With plenty of practice examples and questions for reflection, this is essential reading for both social work students, and practitioners and managers at all stages of their career.
