The GMO Deception - Sheldon Krimsky 2014-06-03
Seventy-five percent of processed foods on supermarket shelves—from soda to soup, crackers to condiments—contain genetically engineered ingredients. The long-term

effects of these foods on human health and ecology are still unknown, and public concern has been steadily intensifying. This new book from the Council for Responsible Genetics gathers the best, most thought-provoking essays by the leading scientists, science

writers, and public health advocates. Collectively, they address such questions as: Are GM foods safe and healthy for us? Will GM food really solve world hunger? Who really controls the power structure of food production? Are GM foods ecologically safe and sustainable? Why is it so difficult to get GM foods labeled in the US? What kinds of regulations and policies should be instituted? How is seed biodiversity, of lack thereof, affecting developing countries? Should animals be genetically modified for food? How are other countries handling GM crops? Ultimately, this definitive book encourages us to think about the social, environmental, and moral ramifications of where this particular branch of biotechnology is taking us, and what we should do about it.

The Hitchhiker's Guide to Python - Kenneth Reitz

2016-08-30

With popularity comes diversity—and possibly dilution. This guide, collaboratively written by over a hundred members of the Python community, describes best practices currently used by package and application developers. Unlike other books for this audience, The Hitchhiker's Guide is light on reusable code and heavier on design philosophy, directing the reader to excellent sources that already exist.

A history of the Korean War with soldier's-eye views from both sides, by the Pulitzer Prize-winning author of The Rising Sun and Infamy. who fought to vivid life and honoring the memory of those lost. In Mortal Combat is comprehensive in its discussion of events deemed controversial, such as American brutality against Korean civilians and allegations of American use of biological warfare. keep her from entering their homes uninvited. Now, in present day, Ruthie lives in Sara's farmhouse with her mother, Alice, and her younger sister, Fawn. But one morning Ruthie wakes up to find that Alice has disappeared without a trace. When she searches the house for clues, she is startled to find a secret compartment beneath the floorboards that contains two objects. One, a gun. And two, a copy of Sara Harrison Shea's diary. The story the diary tells is one of a mother skating on the edge of sanity, willing to do whatever she can to bring her daughter back even if it means dabbling in dark and dangerous territory. As Ruthie gets sucked deeper into the mystery of Sara's death, she discovers that she's not the only one looking for someone that they've lost. Slave Stealers - Timothy

Ballard 2018-09-04

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war,

she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.
