How to Build a Pro Streetbike - Mike Seate

Whether it's a big-bore, high-end custom sportbike you're after, or a naked, bare knuckles streetfighting drag racer, this book has the goods

for getting you there. In three different scenarios, the nation's top builders give blow-by-blow instructions for completely rebuilding three popular streetbikes -- from performance modifications and exhaust systems to flawless finishes and detail work. Focusing on highly customized Hayabusa drag bikes, including a slammed and lowered Suzuki GSX1300R Hayabusa, John Dantzler of the Charlotte, North Carolina, shop Two Wheel Customs outlines the suspension and engine modifications that the serious street and quarter-mile racer can make. He takes a salvaged, late-model four-cylinder street machine and transforms it into the kind of machine that both professional stunt riders and corner-carving enthusiasts favor. Next, author Mike Seate covers the details on constructing and installing popular modifications -- everything from engine crash guards and wheelie bars to motocross-style handlebars and bikini fairings -- while stunt riders and streetfighter builders from the United States and Europe weigh in with tips and advice. Last but not least, the builders at Wisconsin's Patrick's Performance and South Carolina's Coastal Motorcycles provide a step-by-step account of the construction of two high-end custom sportbikes -- transforming a Yamaha YZF R-1 and a Suzuki GSX-R 1000 into the kind of machines that are eye-popping everywhere-on the streets or on the motorcycle show circuit.

The Art of BMW - Peter Gantriis 2013-04-15

Ever since Max Friz first mounted his innovative M2B32 opposed-twin engine in a motorcycle frame in 1923, the history of BMW motorcycles has been defined by a constant and relentless quest for perfection. In the 95 years that have followed, the company has created the most innovative and technologically advanced motorcycles produced anywhere on earth. BMW has earned a reputation for not doing things the way everyone else does, but its motorcycles aren't different simply for the sake of being different. Each distinctive feature represents a brilliant and elegant solution to a real problem, leading BMW to be the first company to introduce many of the features that were later adopted by other manufacturers. But there's more to a BMW motorcycle than innovation and technology—there's also art. And as beautiful as the bikes are in their totality, they may be even more so when broken down into their individual details. This book captures the elegance of these amazing machines, both in their details and in the sum of their parts, through the masterful photography of Henry von Wartenberg and writing of author Peter Gantriis. *The Art of BMW: Ninety Years of Motorcycling Excellence* features the Peter Nettesheim collection, one of the world's premier collections of BMW motorcycles. These wonderfully restored pieces exemplify the design and engineering prowess that have defined the BMW motorcycle tradition for almost a century. **DIV**Photographer bio: Henry von Wartenberg was born in Mar del Plata, Argentina, in 1967 and has been a professional photographer since 1990. Odes - Sharon Olds 2016-09-20

Following the Pulitzer prize-winning collection *Stag's Leap*, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

Hav - Jan Morris 2011-08-30

A New York Review Books Original Hav is like no place on earth. Rumored to be the site of Troy, captured during the crusades and recaptured by Saladin, visited by Tolstoy, Hitler, Grace Kelly, and Princess Diana, this Mediterranean city-state is home to several architectural marvels and an annual rooftop race that is a feat of athleticism and insanity. As Jan Morris guides us through the corridors

and quarters of Hav, we hear the mingling of Italian, Russian, and Arabic in its markets, delight in its famous snow raspberries, and meet the denizens of its casinos and cafés. When Morris published *Last Letters from Hav* in 1985, it was short-listed for the Booker Prize. Here it is joined by *Hav of the Myrmidons*, a sequel that brings the story up-to-date. Twenty-first-century Hav is nearly unrecognizable. Sanitized and monetized, it is ruled by a group of fanatics who have rewritten its history to reflect their own blinkered view of the past. Morris's only novel is dazzlingly sui-generis, part erudite travel memoir, part speculative fiction, part cautionary political tale. It transports the reader to an extraordinary place that never was, but could well be.

Product Design and Development - Karl T. Ulrich 2003

The integrative methods in the book facilitate problem solving and decision making among people with different disciplinary perspectives, reflecting the current industry trend to perform product design and development in cross-functional teams.

Shaq Talks Back - Shaquille O'Neal 2014-07-01

It's rare to discover a candid sports autobiography-- even rare when the author is one of the most recognizable athletes in the world. But in *Shaq Talks Back*, Shaquille O'Neal for the first time talks frankly about his childhood, his life, his rivalries, and his career, culminating in a dramatic, behind-the-scenes account of the Los Angeles Lakers' drive to the NBA Championship. At seven feet one inch tall and 330 pounds, Shaq has always faced outsized expectations, even as a child when he towered over other kids. *Shaq Talks Back* is the story of how potential became reality-- how someone expected to be a champion finally learned to become one. Beginning with his memory of crying on the court after the Lakers defeated the Indiana Pacers, Shaq takes us back to his younger days in Newark and Jersey City, New Jersey, then to Georgia and finally to Germany, where he began to harness some of his height and strength. From there, he recounts the remarkable progress of his basketball career, changing from a big but inexperienced teenager to a dominant college and professional player. Shaq talks about: * Playing at Louisiana State University for the unpredictable coach Dale Brown * Signing the biggest rookie contract ever with the Orlando Magic-- and going to the NBA Finals for the first time * What happened next: dissent, disappointment, and his decision to leave for Los Angeles * The dysfunctional Lakers who were never able to win the big games * Dealing with egos as he finds the right chemistry with Kobe Bryant, Phil Jackson, and new additions to the team * Rivalries with Alonzo Mourning, Patrick Ewing, Hakeem Olajuwon, David Robinson, and others * The trouble with free throws... * "Bling-bling" and women: the larger-than-life world of

NBA players off the court * Inside the Lakers' comeback from the brink against Portland and the drive to the NBA championship Funny, insightful, opinionated, and unexpectedly moving, Shaq Talks Back is the true voice of the NBA's best player.

Around the World on a Motorcycle - Zoltan Sulkowsky 2013-09-01

The year was 1928 when two young Hungarians decided to travel around the world on a Harley-Davidson motorcycle with sidecar. Like Robert Fulton, whose circumnavigation of the globe is chronicled in his popular 1937 book One Man Caravan, Sulkowsky thought his was the first around-the-world journey on a motorcycle. This account of his trip with friend Gyula Bartha gives a very clear-eyed view of the world in the 1930s -- a world where the colonizing influence of Europe had affected much of Africa and Asia but not all. The two experienced the riches of sultans, witnessed remote cultures and extreme poverty in far-flung villages, travelled through wilderness with the ever-present danger of wild animals, and traversed roads of all descriptions. They dealt with mud, sand, extreme heat and cold, and rivers where the motorcycle had to be taken apart to cross in a small boat. This intelligent and engaging book, now in a paperback edition, offers a unique world view between the World Wars, flavored by the great diversity of cultures and the wide variety of human life that exists on the planet.
