Sex Integration in Sport and Physical Culture - Alex Channon 2018-10-11

Scholars working in the academic field of sport studies have long debated the relationship between sport and gender. Modern sport forms, along with many related activities, have been shown to have historically supported ideals of male superiority, by largely excluding women and/or celebrating only men's athletic achievements. While the growth of women's sport throughout the 20th and 21st centuries has extinguished

the notion of female frailty, revealing that women can embody athletic qualities previously thought exclusive to men, the continuation of sex segregation in many settings has left something of a discursive 'back door' through which ideals of male athletic superiority can escape unscathed, retaining their influence over wider cultural belief systems. However, sex-integrated sport potentially offers a radical departure from such beliefs, as it challenges us to reject assumptions of male superiority, entertaining very different visions of sex difference and gender relations to those typically constructed through traditional models of physical culture. This comprehensive collection offers a diverse range of international case studies that reaffirm the contemporary relevance of sex integration debates, and also articulate the possibility of sport acting as a legitimate space for political struggle, resistance and change. This book was originally published as a special issue of *Sport in Society*.

The Connector Manager - Jaime Roca 2019-09-17

There are four distinct types of managers. One performs much worse than the rest, and one performs far better. Which type are you? Based on a first-of-its-kind, wide-ranging global study of over 9,000 people, analysts at the global research and advisory firm Gartner were able to classify all managers into one of four types: Teacher managers, who develop employees' skills based on their own expertise and direct their development along a similar track to their own. Cheerleader managers, who give positive feedback while taking a general hands-off approach to employee development. Always-on managers, who provide constant, frequent feedback and coaching on all aspects of the employee's performance. Connector managers, who provide feedback in their area of expertise while connecting employees to others in the team or organization who are better suited to address specific needs. Although the four types of managers are more or less evenly distributed, the Connector manager consistently outperforms the others by a significant margin. Meanwhile, Always-on managers tend to see their employees struggle to grow within the organization. Why is that? Drawing on their groundbreaking data-driven research, as well as in-depth case studies and extensive interviews with managers and employees at companies like IBM, Accenture, and eBay, the authors show what behaviors define a Connector manager, and why they are able to build powerhouse teams. They also show why other types of managers fail to be equally effective, and how they can incorporate behaviors of Connector managers in order to be more effective at building teams.

Sport, Theory and Social Problems - Eric Anderson 2010-06-25

What impact does sport have on the lives of ordinary people? How does sport help to perpetuate inequalities in society? What can social theory tell us about the role of sport in society?? At their origin competitive sports were institutionalized in Western cultures for the privilege of white, heterosexual men. Over time sport has become more open to categories of people traditionally marginalized in society: women; those from lower social classes; gay men; people of colour; and those differently abled. However, focusing solely on increased social inclusion in sport masks significant problems with both the culture and structure of sport. This critical textbook examines social exclusion in sport and analyzes the socio-negative attributes associated with competitive, institutionalized sport, for all who play. Focusing on sport at non-elite levels, this book explores the lives of everyday citizens who play and examines how inequality and social deviance are structured into the social and sporting system. Each chapter uses a key social theory to address a particular social problem in sport, such as learned obedience to authority; the acceptance of pain and injury; the adoption of hyper-masculine, homophobic and sexist attitudes; the teaching of in-group/out-group; and the use of sport as a false mechanism for social mobility. By concentrating on real sport, and through the use of startling vignettes illustrating the experiences of real people, this textbook develops the critical senses, social conscience and theoretical understanding of all students of sport and anybody for whom sport is part of their everyday life.

Confessions of a Wannabe Cheerleader - Zoe Evans 2011-07-12

Sunday, September 5: Afternoon, my crib Spirit Level: Cheered Out OK, so this was supposed to be the first day of my new, totally fantastic life as a Port Angeles School Titan Cheerleader. BUT instead, it's the day that I, Madison Jane Hays, got rejected from the Titans and forced to join the dreaded, B-Squad Grizzly Bears. That's right. My name was sandwiched in between Jared "Jazzhands" Handler and "Toxic" Tabitha Sue Stevens. Oh, and the girl who can't even speak English, Katarina Tarasov. Yup, we're one big hairy family. I went from being a god-like Titan to a lowly Grizzly in like, five seconds. My life. Is Seriously. O-V-E-R. I mean, who cheers at chess matches??!! I'm never going to make it to Nationals with a team like this. All I've ever wanted to do in life is cheer for the Titans. My mom (the most gorgeous, youngest ex-Titan cheerleader of ALL TIME, BTW) must be so disappointed! How she ended up with such a spastic daughter, I'll never know. What I DO know? If I don't whip this team into shape fast, I'll literally DIE from embarrassment. Thank goodness I have my BFFs Lanie and Evan to keep me sane—otherwise, I might SERIOUSLY lose it. When Maddy's triple flip becomes a major FLOP during tryouts, the whole gym echoes with the snickers from the Titan cheerleading triumvirate: Katie Parker, Clementine Prescott, and Hilary Cho. Forced to join the challenged B-Squad Grizzlies instead, Maddy realizes that to become a Titan she'll need to whip the Grizzlies into shape first. Will Maddy ever land on top of the pyramid with a squad like this? Maybe not, but when her awesome designs for new Grizzly uniforms get revealed at a big game, even the Titans are overheard whispering her name. Does this mean what she thinks it means?

I Hate Writing - J. M. Bohannon 2005

I Hate Writing may be the only "page-turner" textbook out there. J.M. Bohannon gives her readers invaluable writing advice, using an uplifting, modern voice tinged with humor. She takes her readers through the stages of writing a paper, giving detailed advice on how to find topics, turn ideas into words, and organize those words into coherent paragraphs with seamless transitions. She shows her readers how to revise their own work and through her "Critical Q's" teaches them to become critical readers. She also explains how to find outside sources and how to include those sources in a paper. "Too many students approach writing at the university level as a scientist approaches a volatile experiment: with protective suit, goggles, gloves, and forceps. They struggle to write without contaminating that writing with anything resembling personality. Don't let that student be you. Your unique voice should blast through your writing, letting everyone know there's a person behind your words."

Campus Life in the Movies - John E. Conklin 2014-01-10

Hollywood films have presented audiences with stories of campus life for nearly a century, shaping popular perceptions of our colleges and universities and the students who attend them. These depictions of campus life have even altered the attitudes of the students themselves, serving as both a mirror of and a model for behavior. One can only imagine how many high school seniors enter college today with the hopes of living the proverbial Animal House or PCU Greek experience, or how many have worried over the SAT and college admissions after watching more recent movies like 2004's The Perfect Score. This book explores themes of college life in 681 live-action, theatrically released, feature-length films set in the United States and released from 1915 through 2006, evaluating how these movies both reflected and distorted the reality of undergraduate life. Topics include college admissions, the freshman experience, academic work, professor-student relations, student romance, fraternity and sorority life, sports, political activism, and other extracurricular activities. The book also includes a complete filmography and 66 illustrations.

The school's vending machine money-which had previously been collected by the band-is now sponsoring the new cheer squad. The war is ON. And Gabe is leading the charge. No one will be safe from the Geekers' odd brand of wrath: not the principal, the band teacher, the local newspaper, and certainly not the cheerleaders and their jock boyfriends. Get ready: Life at Minnekota Lake Area High School is about to change. Gabe Johnson is taking over. "A funny, uplifting, and rousing book that'll make readers think. In other words, it's a real gem." —K. M. Walton, author of Cracked and Empty

Sports-Related Concussions in Youth - National Research Council 2014-02-04

In the past decade, few subjects at the intersection of medicine and sports have generated as much public interest as sports-related concussions - especially among youth. Despite growing awareness of sports-

related concussions and campaigns to educate athletes, coaches, physicians, and parents of young athletes about concussion recognition and management, confusion and controversy persist in many areas. Currently, diagnosis is based primarily on the symptoms reported by the individual rather than on objective diagnostic markers, and there is little empirical evidence for the optimal degree and duration of physical rest needed to promote recovery or the best timing and approach for returning to full physical activity. Sports-Related Concussions in Youth: Improving the Science, Changing the Culture reviews the science of sports-related concussions in youth from elementary school through young adulthood, as well as in military personnel and their dependents. This report recommends actions that can be taken by a range of audiences - including research funding agencies, legislatures, state and school superintendents and athletic directors, military organizations, and equipment manufacturers, as well as youth who participate in sports and their parents - to improve what is known about concussions and to reduce their occurrence. Sports-Related Concussions in Youth finds that while some studies provide useful information, much remains unknown about the extent of concussions in youth; how to diagnose, manage, and prevent concussions; and the short- and long-term consequences of concussions as well as repetitive head impacts that do not result in concussion symptoms. The culture of sports negatively influences athletes' self-reporting of concussion symptoms and their adherence to return-to-play guidance. Athletes, their teammates, and, in some cases, coaches and parents may not fully appreciate the health threats posed by concussions. Similarly, military recruits are immersed in a culture that includes devotion to duty and service before self, and the critical nature of concussions may often go unheeded. According to Sports-Related Concussions in Youth, if the youth sports community can adopt the belief that concussions are serious injuries and emphasize care for players with concussions until they are fully recovered, then the culture in which these athletes perform and compete will become much safer. Improving understanding of the extent, causes, effects, and prevention of sports-related concussions is vitally important for the health and well-being of youth athletes. The findings and recommendations in this report set a direction for research to reach this goal.
