The Palgrave Macmillan Dictionary of Diplomacy - G.

Berridge 2012-01-25

Indispensable for students of diplomacy and junior members of diplomatic services, this dictionary not only covers diplomacy's jargon but also includes entries on legal terms, political events, international organizations, e-Diplomacy,

and major figures who have occupied the diplomatic scene or have written about it over the last half millennium.

Diplomacy - G. R. Berridge
2015-07-07

Fully revised and updated, this comprehensive guide to diplomacy explores the art of negotiating international agreements and the channels

through which such activities occur when states are in diplomatic relations, and when they are not. This new edition includes chapters on secret intelligence and economic and commercial diplomacy.

A Dictionary of Diplomacy - Geoff Berridge 2003

Like all professions, diplomacy has spawned its own specialized terminology, and it is this lexicon which provides *A Dictionary of Diplomacy's* thematic spine. However, the dictionary also includes entries on legal terms, political events, international organizations and major figures who have occupied the diplomatic scene or have written influentially about it over the last half millennium. All students of diplomacy and related subjects and especially junior members of the many diplomatic services of the world will find this book indispensable.

The Oxford Handbook of Modern Diplomacy - Andrew F. Cooper 2013-03-28

Including chapters from some of the leading experts in the field this Handbook provides a

full overview of the nature and challenges of modern diplomacy and includes a tour d'horizon of the key ways in which the theory and practice of modern diplomacy are evolving in the 21st Century.

Global Diplomacy - Alison R. Holmes 2018-05-04

In a field dominated by the history and practices of Western states, *Global Diplomacy* expands the mainstream discourse on diplomacy to include non-Western states and states in all stages of development. By presenting a broader view of this crucial institution, this exciting text cultivates a more global understanding of the ways in which diplomacy is conducted in the world today and offers a new perspective on the ways it may continue to develop in the future. This book presents; a brief introduction to diplomatic practice, the classic diplomatic narrative, and different theories of diplomacy; an exploration of diplomacy over time and place through four types of diplomacy-political,

Downloaded from
viewfromthefridge.com on
by guest

cultural, economic, and military-discussed by guest authors who are experts in their respective fields; three new models of diplomatic interaction-Community, Transatlantic, and Relational-illustrated through the examples of the European Union, UK and US relations, and the rising powers of India and China.

What Diplomats Do - Sir Brian Barder 2014-07-22

What do diplomats actually do? That is what this text seeks to answer by describing the various stages of a typical diplomat's career. The book follows a fictional diplomat from his application to join the national diplomatic service through different postings at home and overseas, culminating with his appointment as ambassador and retirement. Each chapter contains case studies, based on the author's thirty year experience as a diplomat, Ambassador, and High Commissioner. These illustrate such key issues as the role of the diplomat during emergency

crises or working as part of a national delegation to a permanent conference as the United Nations. Rigorously academic in its coverage yet extremely lively and engaging, this unique work will serve as a primer to any students and junior diplomats wishing to grasp what the practice of diplomacy is actually like.

Diplomatic Law in a New Millennium - Paul Behrens 2017-08-04

The granting of diplomatic asylum to Julian Assange, the dangers faced by diplomats in hotspots around the world, WikiLeaks and the publication of thousands of embassy cable - situations like these place diplomatic agents and diplomatic law at the very centre of contemporary debate on current affairs. Diplomatic Law in a New Millennium brings together 20 experts to provide insight into some of the most controversial and important matters which characterise modern diplomatic law. They include diplomatic asylum, the treatment (and rights) of

domestic staff of diplomatic agents, the inviolability of correspondence, of the diplomatic bag and of the diplomatic mission, the immunity to be given to members of the diplomatic family, diplomatic duties (including the duty of non-interference), but also the rise of diplomatic actors which are not sent by States (including members of the EU diplomatic service). This book explores these matters in a critical, yet accessible manner, and is therefore an invaluable resource for practitioners, scholars and students with an interest in diplomatic relations. The authors of the book include some of the leading authorities on diplomatic law (including a delegate to the 1961 conference which codified modern diplomatic law) as well as serving and former members of the diplomatic corps.

Diplomatic Security - Eugenio Cusumano 2019-04-23

The safety of diplomats has animated recent public and political debates. As diplomatic

personnel are increasingly targeted by terrorism and political violence while overseas, sending states are augmenting host nations' security measures with their own. Protective arrangements range from deploying military, police, and private security guards to relocating embassies to suburban compounds. Yet, reinforced security may also hamper effective diplomacy and international relations. Scholars and practitioners from around the world bring to light a large body of empirical information available for the first time in *Diplomatic Security*. This book explores the global contexts and consequences of keeping embassies and their personnel safe. The essays in this volume offer case studies that illustrate the different arrangements in the U.S., China, the United Kingdom, France, Germany, Italy, Turkey, Israel, and Russia. Considering the historical and legal contexts, authors examine how states protect their diplomats abroad, what drives

Downloaded from
viewfromthefridge.com on
by guest

changes in existing protective arrangements, and how such measures affect the safety of diplomats and the institution of diplomacy. Diplomatic Security not only reveals how a wide variety of states handle security needs but also illuminates the broader theoretical and policy implications for the study of diplomacy and security alike.

Sir Harold Nicolson and International Relations -

Derek Drinkwater 2005-02-17

Sir Harold Nicolson (1886-1968) is well known as a diarist, man of letters, diplomatic historian, gardener, and broadcaster. Nicolson's bestselling diaries and letters, his many biographies, including the highly acclaimed official life of King George V, and his numerous essays and broadcasts have made him, in the words of his friend and fellow MP Robert Bernays, an international figure of the 'second degree'. Yet there was more to this urbane man than his finely observed diary, stylish writing, and Sissinghurst Castle Garden in

Kent, the joint creation of Nicolson and his wife, the writer V. Sackville-West. He also produced a rich and ambitious corpus of writing on the theory and practice of international relations. Nicolson's aristocratic background and upbringing in a diplomatic household, followed by an Oxford classical education and twenty years in diplomacy, combined to forge his distinctive philosophy of international affairs. As a young attaché in Constantinople before the Great War, and in Whitehall during the conflict, at the Paris Peace Conference of 1919, and en poste in Persia and Germany throughout the 1920s, Nicolson was ideally placed to observe the maelstrom of international politics. As an anti-appeasement and wartime MP (1935-1945), he became a highly regarded authority on international relations. During and after World War II, he turned his mind to the issues of European integration, world government, and the ultimate

possibility of global peace. Nicolson has been the subject of two fine biographies. This is the first study of his contribution to international thought. He emerges from it as an important international thinker, alongside theorists as diverse as E. H. Carr and Leonard Woolf. Nicolson's international thought contains elements of realism and idealism, while retaining a distinctive character and a breadth and consistency that render it unique.

Essence of Diplomacy - Christer Jönsson 2005-08-02
Essence of Diplomacy explores the essential, timeless features of diplomacy, drawing on the historical record of over three millennia. In their effort at making international relations (IR) theory relevant to diplomacy, and diplomacy relevant to IR theory, the authors identify three essential dimensions of diplomacy: communication, representation and the reproduction of international society.

International Politics - G R Berridge 2014-01-21

A new Edition of this well-established introduction to international politics. As with the previous two editions, the book's emphasis is on states, the conflicts that divide them, the instruments they employ to pursue their interests, and the systems of precepts and practices through which conflicts are worked out.

The Psychology of Diplomacy - Harvey Langholtz 2004

World class clinicians, researchers, and activists present the psychological dimensions to diplomacy drawn from examples set in the United Nations, Camp David, the Middle East, Japan, South Africa, and elsewhere.

Diplomatic Classics - G. Berridge 2004-10-15

Diplomatic Classics provides convenient access to some of the most important figures writing on diplomacy when modern diplomacy was taking shape. The selections have been chosen to highlight the contributions for which the individual writers are best

Downloaded from
viewfromthefridge.com on
by guest

known (for example, the attack by Commynes on 'summitry'), though some have also been picked with a view to modern interests (for example, De Vera's views on women in diplomacy). All selections are fully introduced, annotated and accompanied by recommendations for further reading.

Diplomacy in a Globalizing World - Pauline Kerr

2017-10-16

In *Diplomacy in a Globalizing World: Theories and Practices*, Second Edition, twenty-three respected scholars contribute to the debate about the changing nature of contemporary diplomacy and its future theoretical and practical directions. Filling a gap in the diplomacy textbook market, this unique volume balances breadth with depth and theory with practice, using cutting-edge comparisons to show the complexities of twenty-first-century diplomacy.

Rebel Governance in Civil War - Ana Arjona 2015-10-22

This is the first book to examine and compare how

rebels govern civilians during civil wars in Latin America, Africa, Asia, and Europe. Drawing from a variety of disciplinary traditions, including political science, sociology, and anthropology, the book provides in-depth case studies of specific conflicts as well as comparative studies of multiple conflicts. Among other themes, the book examines why and how some rebels establish both structures and practices of rule, the role of ideology, cultural, and material factors affecting rebel governance strategies, the impact of governance on the rebel/civilian relationship, civilian responses to rebel rule, the comparison between modes of state and non-state governance to rebel attempts to establish political order, the political economy of rebel governance, and the decline and demise of rebel governance attempts.

China's Diplomacy - Jiemian Yang 2013-12-24

This book offers a comprehensive review of the Communist Party of China's

approach to diplomacy, through an extensive evaluation of the major practices and theories behind the Party's diplomacy, with its main achievements in its 90 years of diplomacy highlighted. It delves into the views held by the Communist Party of China on the changing times, the international system, national interests, and developments in China's diplomacy. Other topics covered at length include China's traditional and non-traditional diplomatic practices as well as basic characteristics of the Party's diplomacy. Few books have touched on the Communist Party of China's diplomatic history in detail. China's Diplomacy: Theory and Practice fills the gap by shedding insights on the Communist Party of China's global strategies and diplomatic planning, contributing to the building an international relations theory with Chinese characteristics. Readers will gain a deeper understanding of China's international relations from the

forward-looking analyses on the Party's core role in leading China's diplomacy, and the theoretical explanations behind the practices.

Contents: Leadership and Achievements of the CPC in China's Diplomacy (YANG Jiemian) Theory: The Concept of the Times and the Foreign Policy of China (YE Qing) The Concept of the International System and China's Foreign Policy (ZHANG Pei) The Concept of National Interests (LIU Zongyi) Scientific Outlook on Development and China's Diplomacy (ZHANG Haibing) Practice: Traditional Deployments of China's Diplomacy (ZHANG Chun) China's Diplomacy in Non-traditional Areas (YU Hongyuan) Party Diplomacy with Chinese Characteristics (NIU Haibin) CPC Advancing with the Times: Future Prospects of China's Diplomacy (YANG Jiemian) Readership: Graduates, researchers, academics and professionals interested in China's diplomacy, international relations, and political science.

Keywords: Theory; Politics; International Relations; China's Diplomacy; Communist Party of China

Key Features: Offers a comprehensive review of the Communist Party of China's diplomatic history. Sheds insights on the Party's global strategy and diplomatic planning. Examines the Party's core role in leading China's diplomacy through theoretical, forward-looking analyses.

Reviews: "This phenomenal volume provides distinctive viewpoints of the Communist Party of China on international politics and China's foreign relations. For those who are interested in how China's diplomacy has evolved from carrying out a 'revolutionary line' to pursuing the 'path of peaceful development', this is a must-read." Wang Jisi Dean of the School of International Studies Peking University "This comprehensive volume seeks to lay out the 'leadership and achievements of the Communist Party of China in China's diplomacy'. It takes a multifaceted approach, deeply

rooted in the entire history of the CPC. For a foreign reader, perhaps this book's greatest value lies in its detailed explication of a Chinese perspective on the Party's diplomatic theories and practice over the past ninety years. As such, it provides many valuable insights."

Kenneth Lieberthal Senior Fellow at the Brookings Institution "The book on China's foreign policies is a unique instrument not only to know but also to understand China. It is a guide for knowing the past and informing the future." Mr Romano Prodi former President of the European Commission and Italy's former Prime Minister

The New Public Diplomacy - J. Melissen 2005-11-22

After 9/11, which triggered a global debate on public diplomacy, 'PD' has become an issue in most countries. This book joins the debate. Experts from different countries and from a variety of fields analyze the theory and practice of public diplomacy. They also evaluate how public diplomacy

can be successfully used to support foreign policy. *Diplomacy in the 21st Century* - Paul Sharp 2019-05-02

This book provides an introduction to the theory and practice of diplomacy and its vital role in an era of increasing international uncertainty. The work employs a distinctive "diplomatic perspective" on international relations and argues that the experience of conducting diplomacy gives rise to a set of priorities: first, the peaceful resolution of disputes; second, the avoidance of unwanted conflict; and, third, the minimization of the intensity of violent conflict where it has become unavoidable. It argues that changes in the international system require a shift in priorities from the diplomacy of problem-solving by building institutionalized cooperation, to the diplomacy of managing relationships between people. Divided into three sections, the first examines what is meant when we talk about diplomacy, why we need diplomats, and the

operations of the modern diplomatic system of states. The second discusses the "three bads," about which people generally worry: bad leaders, bad media, and bad followers. The idea of "bad" is considered in terms of the moral character, professional competence, and the consequences of what people do for us. The final section discusses diplomacy and bad diplomats, reviewing what people can do to help themselves and the professionals be good diplomats. This book is intended as a primary text for courses in international diplomacy and as a supplementary text for courses on contemporary issues in international relations.

Diplomatic Theory of International Relations - Paul Sharp 2009-09-03

This book seeks to identify a body or tradition of diplomatic thinking and construct a diplomatic theory of international relations from it.

Embassies in Armed Conflict - G. R. Berridge 2012-02-02

Innovation in Diplomatic Practice - Jan Melissen

2016-07-27

The way in which states are dealing with one another has changed more in the past decades than in the 350 years since the Peace of Westphalia. This accessible volume supplements the analyses of more familiar topics in the introductory literature on diplomacy. Experts from nine countries examine some of the ways in which diplomatic practice after 1945 has adapted to fundamental changes in international relations, or is still trying to come to terms with them. This book gives insights into a transforming diplomatic landscape and the changing forms and modalities of contemporary diplomacy.

Understanding International Diplomacy - Corneliu Bjola

2013-06-07

This book provides a comprehensive new introduction to the study of international diplomacy, covering both theory and practice. The text summarises

and discusses the major trends in the field of diplomacy, developing an innovative analytical toolbox for understanding diplomacy not as a collection of practices or a set of historical traditions, but as a form of institutionalised communication through which authorised representatives produce, manage and distribute public goods. The book: traces the evolution of diplomacy from its beginnings in ancient Egypt, Greece and China to our current age of global diplomacy; examines theoretical explanations about how diplomats take decisions, make relations and shape the world; discusses normative approaches to how diplomacy ought to adapt itself to the twenty-first century, help remake states and assist the peaceful evolution of international order. In sum, Understanding International Diplomacy provides an up-to-date, accessible and authoritative overview of how diplomacy works and ought to work in a globalising world.

This new textbook is essential

*Downloaded from

by guest*

reading for students of international diplomacy, and highly recommended for students of crisis negotiation, international organisations, foreign policy and international relations in general.

Diplomacy - Geoff Berridge
2002

This revised and updated edition includes comprehensive coverage of the main issues, from the value of the resident mission to international negotiation and new chapters on telecommunications and the ministry of foreign affairs. It includes the most-up-to-date information about the real world practice of international relations.

21st-Century Diplomacy -
Kishan S. Rana 2011-09-08

In the 21st century, new kinds of challenges resulting from interdependence among states and globalization have had a determining impact of the conduct of diplomacy.

Diplomacy has become multifaceted, pluri-directional, volatile and intensive, due to the increased complexity in terms of actors, dialogues

subjects, modes of communication, and plurality of objectives. This unique text, written by a leading scholar and Foreign Service expert, examines all such factors to provide the definitive guide to diplomacy as it is practiced today. With a multitude of examples from around the world, including the US, UK, EU, Africa, Asia, and Latin America, the book covers the spectrum of diplomacy practice, including regional diplomacy, diplomacy of small states, performance management, handling of decisions and crisis, use of information technology, and reform in foreign ministries. Also included are chapters on craft skills and practical exercises. 21st Century Diplomacy will be essential to anyone learning diplomacy, and will also support courses in international relations, foreign policy, and intercultural communication.

Arts of Power - Charles W. Freeman 1997

In this comprehensive treatment, distinguished

diplomat Chas Freeman describes the fundamental principles of the art of statecraft and the craft of diplomacy. The book draws on the author's years of experience as a practicing diplomat but also his extensive reading of the histories of ancient India, China, Greece, Rome, Byzantium, and the Islamic world as well as modern Europe, Asia, and the Americas. Among numerous other subjects, the book addresses the role of intelligence, political actions, cultural influence, economic measures, and military power, as well as diplomatic strategy and tactics, negotiation, and the tasks and skills of diplomacy.

British Diplomacy in Turkey - G. R. Berridge 2009

Since the early twentieth century the resident embassy has been supposed to be living on borrowed time. By means of an exhaustive historical account of the contribution of the British Embassy in Turkey to Britain's diplomatic relationship with that state,

this book shows this to be false. Part A analyses the evolution of the embassy as a working unit up to the First World War: the buildings, diplomats, dragomans, consular network, and communications. Part B examines how, without any radical changes except in its communications, it successfully met the heavy demands made on it in the following century, for example by playing a key role in a multitude of bilateral negotiations and providing cover to secret agents and drugs liaison officers.

Diplomacy, Third Edition - G. R. Berridge 2005-07-22

This completely revised and updated edition includes comprehensive coverage of the main issues, from the value of the resident mission to international negotiation and chapters on telecommunications and the ministry of foreign affairs. Diplomacy offers the most up-to-date information about the real-world practice of international relations.

Diplomacy - G.R. Berridge

Downloaded from
viewfromthefridge.com on
by guest

2015-07-08

Negotiators are always driven by the clock, and the art of negotiation is one of this book's main themes. The examples included, such as the Iran nuclear talks, are mostly contemporary, but historical background to the diplomatic methods themselves is always provided. This helps to show that a rejuvenation of key features of traditional diplomacy has occurred in recent years that has gone largely unnoticed, partly because new labels have been given to old procedures, a notable instance being the rebranding of propaganda as 'public diplomacy'. This revised fifth edition of *Diplomacy*, from a globally renowned researcher and teacher of the subject, has been fully updated. Lessons of the 2014 G20 summit in Brisbane are explored, as are those of the highly topical Budapest Memorandum on Ukraine. Berridge's study also includes new chapters on secret intelligence and economic and commercial diplomacy.

The Practice of Diplomacy -

Keith Hamilton 2013-05-13

In the post Cold War, the role of diplomacy has visibly expanded in much more unstable international conditions. This is partly because more complex relationships between a larger number of power centers have emerged including non-governmental organizations as well as states. These developments are adding to the machinery of diplomacy expanding the number of topics of negotiation and modifying the established character of diplomacy in significant ways. This book explores the historical development of diplomacy from the earliest times and shows how it has grown and adapted its methods to the needs of previous international environments. It follows these developments from the late twentieth century and concludes that while diplomacy techniques have adapted in response to very new needs and technological advances in communication, the activity itself remains

inevitable and has never been more important.--Publisher description.

The Transformation of Foreign Policy - Gunther Hellmann 2016

The study of foreign policy is usually concerned with the interaction of states, and thus with governance structures which emerged either with the so-called 'Westphalian system' or in the course of the 18th century: diplomacy and international law. As a result, examining foreign policy in earlier periods involves conceptual and terminological difficulties, which echo current debates on 'post-national' foreign policy actors like the European Union or global cities. This volume argues that a novel understanding of what constitutes foreign policy may offer a way out of this problem. It considers foreign policy as the outcome of processes that make some boundaries different from others, and set those that separate communities in an internal space apart from those that mark foreignness. The creation

of such boundaries, which can be observed at all times, designates specific actors - which can be, but do not have to be, 'states' - as capable of engaging in foreign policy. As such boundaries are likely to be contested, they are unlikely to provide either a single or a simple distinction between 'insides' and 'outsides'. In this view, multiple layers of foreign-policy actors with different characteristics appear less as a modern development and more as a perennial aspect of foreign policy. In a broad perspective stretching from early Greek polities to present-day global cities, the volume offers a theoretical and empirical presentation of this concept by political scientists, jurists, and historians.

Diplomacy - G. R. Berridge
2015-07-07

Fully revised and updated, this comprehensive guide to diplomacy explores the art of negotiating international agreements and the channels through which such activities occur when states are in diplomatic relations, and when

they are not. This new edition includes chapters on secret intelligence and economic and commercial diplomacy.

Diplomacy - Henry Kissinger
2012-10-01

'Kissinger's absorbing book tackles head-on some of the toughest questions of our time . . . Its pages sparkle with insight' Simon Schama in the NEW YORKER Spanning more than three centuries, from Cardinal Richelieu to the fragility of the 'New World Order', DIPLOMACY is the now-classic history of international relations by the former Secretary of State and winner of the Nobel Peace Prize. Kissinger's intimate portraits of world leaders, many from personal experience, provide the reader with a unique insight into what really goes on -- and why -- behind the closed doors of the corridors of power. 'Budding diplomats and politicians should read it as avidly as their predecessors read Machiavelli' Douglas Hurd in the DAILY TELEGRAPH 'If you want to pay someone a compliment,

give them Henry Kissinger's DIPLOMACY ... It is certainly one of the best, and most enjoyable [books] on international relations past and present ... DIPLOMACY should be read for the sheer historical sweep, the characterisations, the story-telling, the ability to look at large parts of the world as a whole' Malcolm Rutherford in the FINANCIAL TIMES

Diplomacy, Second Edition - G. R. Berridge 2002-05-03

The series was launched in 1994. Its chief purpose is to encourage original scholarship on the theory and practice of international diplomacy, including its legal regulation. The interests of the series thus embrace such diplomatic functions as signalling, negotiation and consular work, and methods such as summitry and the multilateral conference. Whilst it has a sharp focus on diplomacy at the expense of foreign policy, therefore, the series has no prejudice as to historical period or approach. It also aims to include manuals on

protocol and other aspects of diplomatic practice which will be of immediate, day-to-day relevance to professional diplomats. A final ambition is to reprint inaccessible classic works on diplomacy. This book deals comprehensively with diplomacy narrowly conceived, that is, as the conduct of relations between sovereign states through the medium of officials based at home or abroad. It is not, like some, a book on 'diplomacy;' nor is it, like others, a book on the British Diplomatic Service disguised as a book on diplomacy in general. It is a book on the processes and procedures of the diplomatic art that focuses chiefly on the recent past but is rooted in history, and it draws on evidence and examples from across the world. It is the only general textbook on diplomacy that has a major emphasis on negotiation (the most important function of diplomats), as well as a major chapter on unconventional diplomatic methods.

The Diplomacy of Ancient

Greece - G. R. Berridge

2022-09-23

Employed against a warlike background, the diplomatic methods of the ancient Greeks are thought by some to have been useless but by others to have been the most advanced seen prior to modern times. This book works to its own view by looking at the conditions that produced this diplomacy, the personnel it employed, forms it took, and - in a concluding essay - its fitness for its various purposes. In passing, it draws attention to the usually overlooked private side of the diplomacy of the ancient Greeks, and the greater importance of the proxenos revealed by recent research. The book draws heavily on translations of some of the most important primary sources, notably Herodotus, Thucydides, and Xenophon, but is essentially a work of synthesis of existing scholarship. It is designed for the student of diplomacy and general reader with no prior knowledge of the subject, and gives guidance for further

reading.

A New Theory and Practice of Diplomacy - 2021-03-25

Effective diplomacy remains fundamental to the conduct of international relations in the twenty-first century, as we seek to define and manage a challenging new world order peacefully. *New Perspectives on Diplomacy* examines the implications of the shifting international landscape upon how states interact with one another. Reflecting on the significant changes to the system of states over the past 50 years, including the end of the Cold War, the rise of transnational networks, challenges to borders, growth in national populism and the increasing difficulties presented to diplomats by radical transparency, the first volume presents the global context against which contemporary diplomacy is conducted.

Diplomacy's Value - Brian C. Rathbun 2014-10-31

What is the value of diplomacy? How does it affect the course of foreign affairs independent

of the distribution of power and foreign policy interests?

Theories of international relations too often implicitly reduce the dynamics and outcomes of diplomacy to structural factors rather than the subtle qualities of negotiation. If diplomacy is an independent effect on the conduct of world politics, it has to add value, and we have to be able to show what that value is. In *Diplomacy's Value*, Brian C. Rathbun sets forth a comprehensive theory of diplomacy, based on his understanding that political leaders have distinct diplomatic styles: coercive bargaining, reasoned dialogue, and pragmatic statecraft. Drawing on work in the psychology of negotiation, Rathbun explains how diplomatic styles are a function of the psychological attributes of leaders and the party coalitions they represent. The combination of these styles creates a certain spirit of negotiation that facilitates or obstructs agreement. Rathbun applies the argument to

*Downloaded from
viewfromthefridge.com on
by guest*

relations among France, Germany, and Great Britain during the 1920s as well as Palestinian-Israeli negotiations since the 1990s. His analysis, based on an intensive analysis of primary documents, shows how different diplomatic styles can successfully resolve apparently intractable dilemmas and equally, how they can thwart agreements that were seemingly within reach.

The Counter-Revolution in Diplomacy and Other Essays

- G.R. Berridge 2011-03-15

This book brings together for the first time a large collection of essays (including three new ones) of a leading writer on diplomacy. They challenge the fashionable view that the novel features of contemporary diplomacy are its most important, and use new historical research to explore questions not previously treated in the same systematic manner.

An Introduction to International Relations -

Richard Devetak 2011-10-17

Invaluable to students and

those approaching the subject for the first time, An Introduction to International Relations, Second Edition provides a comprehensive and stimulating introduction to international relations, its traditions and its changing nature in an era of globalisation. Thoroughly revised and updated, it features chapters written by a range of experts from around the world. It presents a global perspective on the theories, history, developments and debates that shape this dynamic discipline and contemporary world politics. Now in full-colour and accompanied by a password-protected companion website featuring additional chapters and case studies, this is the indispensable guide to the study of international relations.

Diplomatic Theory from Machiavelli to Kissinger - G.

Berridge 2001-03-23

This book offers an introductory guide for students to four centuries of diplomatic thought. Since diplomacy as we know it was created during the

Downloaded from
viewfromthefridge.com on

Renaissance in Italy, a number of major figures have reflected on the place of diplomacy in foreign affairs and the problems associated with its pursuit. These include statesmen, international lawyers and historians, most of whom had experience as diplomats of the first or second rank. This book examines the thought of some of the most important of them, from Niccolò Machiavelli in the early sixteenth century to Henry Kissinger in the late twentieth century.

The SAGE Handbook of Diplomacy - Costas M.

Constantinou 2016-06-20
The SAGE Handbook of Diplomacy provides a major thematic overview of Diplomacy and its study that is theoretically and historically informed and in sync with the current and future needs of diplomatic practice . Original contributions from a brilliant team of global experts are organised into four thematic sections: Section One: Diplomatic Concepts & Theories Section Two: Diplomatic Institutions Section Three: Diplomatic Relations Section Four: Types of Diplomatic Engagement
