The World's Religions, Revised and Updated - Huston Smith
2009-03-17

The World's Religions, by beloved author and pioneering professor Huston Smith (Tales of Wonder), is the definitive classic for introducing the essential elements and teachings of the world's predominant faiths, including Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, Islam, as well as regional native

traditions. This revised and updated edition provides sympathetic descriptions of the various traditions, explaining how they work "from the inside," which is a big reason why this cherished classic has sold more than two million copies since it first appeared in 1958.

Altruism in World Religions

- Jacob Neusner 2005-11-08
In 1830 philosopher Auguste Comte coined the term altruism to provide a general

definition for the act of selflessly caring for others. But does this modern conception of sacrificing one's own interests for the well-being of others apply to the charitable behaviors encouraged by all world religions? In *Altruism in World Religions* prominent scholars from an array of religious perspectives probe the definition of altruism to determine whether it is a category that serves to advance the study of religion. Exploring a range of philosophical and religious thought from Greco-Roman philia to Judaism, Christianity, and Islam, from Hinduism in India to Buddhism and the religions of China and Japan, the authors find that altruism becomes problematic when applied to religious studies because it is, in fact, a concept absent from religion. Chapters on Judaism, Christianity, and Islam reveal that followers of these religions cannot genuinely perform self-sacrificing acts because God has promised to reward every good deed. Moreover, the

separation between the self and the other that self-sacrifice necessarily implies, runs counter to Buddhist thought, which makes no such distinction. By challenging our assumptions about the act of self-sacrifice as it relates to religious teachings, the authors have shown altruism to be more of a secular than religious notion. At the same time, their findings highlight how charitable acts operate with the values and structures of the religions studied.

Sainthood - Richard Kieckhefer 1990-08-09

Every major religion exalts certain individuals who occupy a dual role. On the one hand they serve as exemplars of virtue to be imitated, and on the other hand they stand removed from other mortals, privileged and unique.

Christianity knows them as saints, and in the study of religion the term has been taken over and applied to similar figures in other traditions. The essays in this volume analyze the role of the saint in Judaism, Christianity, Islam, Hinduism, Buddhism, and Confucianism, providing both a comparative and an interpretive view of sainthood. The notion of sainthood is problematic in two ways. First, can the category be usefully applied to individuals in religious traditions other than Christianity? How has it manifested itself, and what differences are there in the various manifestations of sainthood? Second, where

individuals are considered to have risen above the norms in these different traditions, how is it possible to resolve the tension between the saint's imitability and his or her otherness, between imitating and venerating the saint? The authors consider these questions in relation to a wide range of individuals in all the major traditions.

Buddhism and Interfaith
Dialogue - Masao Abe

1995-08-01

The first of a two-part sequel to the award-winning *Zen and Western Thought*, this book attempts to clarify a Buddhist view of interfaith dialogue from various points of view. The writings in this volume are divided into three parts. Part One focuses on how Buddhism approaches and contributes to interfaith dialogue, that is, how Buddhism represents a methodological model that serves as a basis for the possibility of dialogical exchange. Part Two contains four essays on the relationship between Buddhism and Paul Tillich, the leading modern systematic theologian who drew on mystical sources and was also receptive to Eastern thought in developing his understanding of non-being or negation. Part Three continues a discussion of earlier themes and opens up several new issues, particularly those involving the role of meditation in the East and West and the ethical implications of the

Buddhist doctrine of karma in comparison with Christian moral activity. Topics explored include the Buddhist notion of emptiness, liberation, justice, faith, and ethics.

Buddhism - Mark Thomas
2017

Today, Buddhism is the world's fourth-largest religion, with over 576 million followers worldwide. Buddhists follow traditions and spiritual beliefs that were taught by Guatama Buddha, a revered wise man. Guatama Buddha lived in the eastern part of the Indian subcontinent more than 2,400 years ago. Although born into a royal family, he became concerned with the problem of suffering in the world and spent years studying a variety of religions and philosophies. Eventually, he was "enlightened," and spent the rest of his life teaching people the path to true happiness. Buddhism soon spread throughout Asia, and today most Buddhists live in countries like China, Thailand, Japan, and Burma. This book describes the origins and

history of Buddhism, and sheds light on some of this religion's most important beliefs, practices, and rituals.
