**Speaking Frankly** - Frank Connors 2013-12-03  
If you've ever been to Maine, you'll love this book. If you've never been to Maine, you'll start scheduling your first visit to Maine before you finish the book. The "Frank" in the title

Speaking Frankly, is Frank Connors, a true born Mainer who's lived his life, other than serving time in Viet Nam, in Mid-Coast Maine as a reporter, photographer, travel guide, lobster bake chef, town sexton. At this point Frank would say, "Know what a town sexton is? Well, ya better look it up because if I tell you, you'll forget it. Frank's stories are stories of that life. His words carry a scent of salt sprayed air, a fragrance of fresh cut

pine timber, and the taste sweet taste of fresh brewed amber maple syrup. His words reflect the expanse of Maine, from its densely pine-forested mountains to the crashing waves of the Atlantic on its granite storm walls. His view reflect the hard working, honest people of Maine who for generations have fought the elements to scratch out a living, helping each other whenever necessary: People whose word is as solid as any written contract. Most of all, his words give us a remembrance of times past in our own lives...times we know are gone forever...times we miss...times when kids could go out the back door and be gone all day playing without their parents worrying about their safety...times when you remembered at 3AM that you left the car unlocked, and just rolled over and went back to sleep...times when people stopped to help a stranger in trouble beside the road...times when every town held Memorial Day and Veterans Day parades to honor their

veterans...times that still live in Maine. As if the stories are not enough, Frank writes the way he speaks. Four of five pages into Speaking Frankly you'll feel you're not reading, you're part of a fire side chat with an old friend remembering old times. And, if you look over the top quickly enough, you just might see Frank's rosy red check, his mop of gray hair swept back to the right, his penetrating bright blue eyes looking back at you, saying "How ya doin'?" So buy your copy, start reading, then call your travel agent to book your next Maine trip to have Frank sign your copy. He's waiting for you now. ENJOY Oh, one last thing. All the proceeds from Speaking Frankly go to the People Plus of Brunswick, which is a non-profit organization dedicated to helping and serving senior citizens and teen youth in the greater Brunswick, ME area. People Plus...The Center That Builds Community. As the editor of the People Plus News, the monthly newspaper published by Frank Connors

and other staff, Connors has written over 130 columns called "Speaking Frankly." 101 of these have been compiled into a wonderful book of local stories and anecdotes. The artwork for this book has been generously crafted and donated by Jack Gable. There are two new original acrylic paintings as well as several original black and white pen and ink sketches scattered throughout the book. These images are available for purchase through People Plus. Former Maine Governor (and current Maine Senator), Angus King wrote the foreword, adding his own particular style of charm and setting the stage for a lovely ride. A Maine native and a life-long resident of the Bowdoinham-Brunswick area, Frank Connors likes to describe himself as a "pointman" for the baby-boomer generation. A former newspaper reporter-photographer, town manager, home designer and truck driver; Connors still busies himself as a cemetery sexton, local historian, gardener and

canoe paddler when he is not managing the membership registration and logistics at People Plus. He loves to talk and tell stories, and continues to work on his listening skills.

Child Protective Services: A Guide for Caseworkers, examines the roles and responsibilities of child protective services (CPS) workers, who are at the forefront of every community's child protection efforts. The manual describes the basic stages of the CPS process and the steps necessary to accomplish each stage: intake, initial assessment or investigation, family assessment, case planning, service provision, evaluation of family progress, and case closure. Best practices and critical issues in casework practice are underscored throughout. The primary audience for this manual includes CPS caseworkers, supervisors, and administrators. State and local CPS agency trainers may use the manual for preservice or inservice training of CPS caseworkers, while schools of social work may add it to class reading lists to orient students to the field of child protection. In addition, other professionals and concerned community

members may consult the manual for a greater understanding of the child protection process. This manual builds on the information presented in A Coordinated Response to Child Abuse and Neglect: The Foundation for Practice. Readers are encouraged to begin with that manual as it addresses important information on which CPS practice is based-including definitions of child maltreatment, risk factors, consequences, and the Federal and State basis for intervention. Some manuals in the series also may be of interest in understanding the roles of other professional groups in responding to child abuse and neglect, including: Substance abuse treatment providers; Domestic violence victim advocates; Educators; Law enforcement personnel. Other manuals address special issues, such as building partnerships and working with the courts on CPS cases.

*Gravel Roads* - Ken Skorseth  
2000

The purpose of this manual is to provide clear and helpful information for maintaining gravel roads. Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been "more of an art than a science" and very few formal standards exist. This manual contains guidelines to help answer the questions that arise concerning gravel road maintenance such as: What is enough surface crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.

## **Maine Man** - Tony Book

2005-09-08

"Tony Book's footballing career is something of a modern-day fairy tale, and *Maine Man* is the definitive account of his intriguing journey. Born the son of an Army officer in 1934, he spent his childhood in India playing barefoot football in the streets with the local kids. From there he returned as a young man to Bath, where he played for a local miners side before following his father into the Army. After a short period in service, Book became a bricklayer and played for

various local sides before joining Bath City. It was there that he first met manager Malcolm Allison a figure who was to play an influential part in Book's career. In 1964, Book was transferred to Plymouth Argyle, where he played for two years before former boss Allison, by then co-manager at Manchester City, convinced his partner Joe Mercer to take a chance on the now veteran full-back. Book went on to captain the team throughout their most successful period, during which they won every domestic trophy, as well as the European Cup-Winners Cup. Book was the recipient of the first-ever Manchester City Supporters Club Player of the Year award in 1967 and was voted joint Football Writers Association Footballer

**Nickel and Dimed** - Barbara Ehrenreich 2010-04-01  
The New York Times bestselling work of undercover reportage from our sharpest and most original social critic, with a new foreword by Matthew Desmond, author of *Evicted* Millions of Americans work full time, year round, for poverty-level wages. In 1998,

Barbara Ehrenreich decided to join them. She was inspired in part by the rhetoric surrounding welfare reform, which promised that a job—any job—can be the ticket to a better life. But how does anyone survive, let alone prosper, on \$6 an hour? To find out, Ehrenreich left her home, took the cheapest lodgings she could find, and accepted whatever jobs she was offered. Moving from Florida to Maine to Minnesota, she worked as a waitress, a hotel maid, a cleaning woman, a nursing-home aide, and a Wal-Mart sales clerk. She lived in trailer parks and crumbling residential motels. Very quickly, she discovered that no job is truly "unskilled," that even the lowliest occupations require exhausting mental and muscular effort. She also learned that one job is not enough; you need at least two if you int to live indoors. *Nickel and Dimed* reveals low-rent America in all its tenacity, anxiety, and surprising generosity—a land of Big Boxes, fast food, and a

thousand desperate stratagems for survival. Read it for the smoldering clarity of Ehrenreich's perspective and for a rare view of how "prosperity" looks from the bottom. And now, in a new foreword, Matthew Desmond, author of *Evicted: Poverty and Profit in the American City*, explains why, twenty years on in America, *Nickel and Dimed* is more relevant than ever.
