Confessions: The Private School Murders - FREE PREVIEW (The First 15 Chapters) - James Patterson 2013-09-03

In the sequel to the #1 New York Times bestseller *Confessions of a Murder Suspect*, James Patterson keeps the confessions coming breathlessly as Tandy Angel delves deeper into her own tumultuous history-and proves that she can rise above the sordid Angel legacy. Wealthy young women are being murdered on Manhattan's exclusive Upper West Side, and the police aren't looking for answers in the right places. Enter Tandy Angel. The first case she cracked was the mystery of her parents' deaths. Now, while she's working to exonerate her brother of his glamorous girlfriend's homicide, she's driven to get involved in the West Side murder spree. One of the recent victims was a student at Tandy's own elite school. She has a hunch it may be the work of a serial killer, but the NYPD isn't listening to her...and Tandy can't ignore the disturbing fact that she perfectly fits

the profile of the killer's targets. Can she untangle the mysteries in time? Or will she be the next victim?

Democratic Theory and Causal Methodology in Comparative Politics - Mark I. Lichbach
2013-08-06

Barrington Moore bequeathed comparativists a problem: how to reconcile his causal claim of "no bourgeoisie, no democracy" with his normative "dream of a free and rational society." In this book, Mark I. Lichbach harmonizes causal methodology and normative democratic theory, illustrating their interrelationship. Using a dialogue among four specific texts, Lichbach advances five constructive themes. First, comparativists should study the causal agency of individuals, groups, and democracies. Second, the three types of collective agency should be paired with an exploration of three corresponding moral dilemmas: ought-is, freedom-power, and democracy-causality. Third, at the center of inquiry, comparativists should place big-P Paradigms and big-M Methodology. Fourth, as they play with research schools, creatively combining prescriptive and descriptive approaches to democratization, they should encourage a mixed-theory and mixed-method field. Finally, comparativists should study pragmatic questions about political power and democratic performance: In building a democratic state, which democracy, under which conditions, is best, and how might it be achieved?

Concepts, Ontologies, and Knowledge Representation - Grega Jakus 2013-06-22

Recording knowledge in a common framework that would make it possible to seamlessly share global knowledge remains an important challenge for researchers. This brief examines several ideas about the representation of knowledge addressing this challenge. A widespread general agreement is followed that states uniform knowledge representation should be achievable by using ontologies populated with concepts. A separate chapter is dedicated to each of the three introduced topics, following a uniform outline: definition, organization, and use. This brief is intended for those who want to get to know the field of knowledge representation quickly, or would like to be up to date with current developments in the field. It is also useful for those dealing with implementation as examples of numerous operational systems are also given.

When God Goes to Starbucks - Paul Copan 2008-08-01

More than ever, Christians are bombarded with tough faith questions from their pluralistic friends and neighbors. Many of these emerge as "anti-truth claims" and slogans we are all familiar with: • Why not just look out for yourself? • Do what you want--just as long as you don't hurt anyone • Miracles violate the laws of nature • Aren't people born gay? Paul Copan has been answering questions like these for many years. In When God Goes to Starbucks, he offers readers solid and caring Christian responses to these and many other concerns that are being discussed in Starbucks, shopping malls, youth groups, and schools. Each chapter provides succinct answers and points for countering the cultural questions believers are faced with today.

Death - Elisabeth Kübler-Ross 2009-11-24
Ours is a death-denying society. But death is inevitable, and we must face the question of how to deal with it. Coming to terms with our own finiteness helps us discover life's true meaning. Why do we treat death as a taboo? What are the

sources of our fears? How do we express our grief, and how do we accept the death of a person close to us? How can we prepare for our own death? Drawing on our own and other cultures' views of death and dying, Elisabeth Kübler-Ross provides some illuminating answers to these and other questions. She offers a spectrum of viewpoints, including those of ministers, rabbis, doctors, nurses, and sociologists, and the personal accounts of those near death and of their survivors. Once we come to terms with death as a part of human development, the author shows, death can provide us with a key to the meaning of human existence.

The Aloha Shirt - Dale Hope 2002

Beautifully illustrated with more than 700 images, *The Aloha Shirt: Spirit of the Islands* tells the colourful stories behind the marvellous Hawaiian shirts: as cultural icons, evocative of the mystery and the allure of the Islands; as collectibles, valued by professional collectors and by the millions of tourists who still cherish the shirts hanging in their wardrobes; and as a lifestyle - casual, relaxed and fun. Drawing from hundreds of interviews, newspaper and magazine archives, and personal memorabilia, the author evokes the world of the designers, seamstresses, manufacturers and retailers of the Golden Age of the Aloha shirt (from the 1930s to the end of the 1950s), who created the industry and nurtured it from its single-sewing-machine shop beginnings to an enterprise of international scope and importance. Here are the fun-loving 1960s; interviews with collectors who preserve these shirts as fine works of art; and insights into the roles of coconut buttons, matched pockets, woven labels and exotic fabrics in the evolution of the Aloha shirt.

Roman Architecture - Diana E. E. Kleiner
2014-01-14

At its most expansive, the Roman Empire stretched from the British Isles to Egypt; Rome was the ancient world's greatest superpower. *Roman Architecture: A Visual Guide* is an illustrated introduction to the great buildings and engineering marvels of Rome and its empire. Published as a companion volume to Diana E. E. Kleiner's course on Roman Architecture given through Coursera (first offered in January 2014 but based on a class she has long taught at Yale), this enhanced e-book explores not only Rome but also buildings preserved at Pompeii, Herculaneum, Ostia, Tivoli, North Italy, Sicily, France, Spain, Germany, Greece, Turkey, Croatia, Jordan, Lebanon, and North Africa. Beginning with the birth of Rome as an Iron Age village, *Roman Architecture* traces the growth and expansion of the Roman Empire through its cities, which featured civic, religious, commercial, entertainment, and residential districts in the urban setting. A valuable resource for both the student and the traveler, *Roman Architecture* features over 250 photographs and site plans of the most intriguing and consequential buildings in the Roman Empire. These are presented from the fresh perspective of an author who has journeyed to nearly all of the sites, revealing most of them through her own digital images. In addition, this interactive e-book makes learning about these monuments easier than ever, with handy maps and geolocation links that show you just where the monuments are and, if you're traveling, how to get there. Suitable for the classroom and as a guidebook, *Roman Architecture* is a fascinating introduction to some of history's most compelling and influential architecture.
