The Night of the Iguana - Tennessee Williams
2009-10-30

Now published for the first time as a trade paperback with a new introduction and the short story on which it was based. Williams wrote: "This is a play about love in its purest terms." It is also Williams's robust and persuasive plea for endurance and resistance in the face of human suffering. The earthy widow Maxine Faulk is proprietress of a rundown hotel at the edge of a Mexican cliff overlooking the Pacific Ocean where the defrocked Rev. Shannon, his tour group of ladies from a West Texas women's college, the self-described New England spinster Hannah Jelkes and her ninety-seven-year-old grandfather, Jonathan Coffin ("the world's oldest living and practicing poet"), a family of grotesque Nazi vacationers, and an iguana tied by its throat to the veranda, all find themselves assembled for a rainy and turbulent night. This is the first trade paperback edition of *The Night of the Iguana* and comes with an Introduction by award-winning playwright Doug Wright, the author's original Foreword, the short story "The Night of the Iguana" which was the germ for the play, plus an essay by noted Tennessee Williams scholar, Kenneth Holditch. "I'm tired of conducting services in praise and worship of a senile delinquent—yeah, that's what I said, I shouted! All your Western theologies, the whole mythology of them, are based on the concept of God as a senile delinquent and, by God, I will not and cannot continue to conduct services in praise and worship of this...this...this angry, petulant old man." —The Rev. T. Lawrence

The Mark of Athena (The Heroes of Olympus, Book Three) - Rick Riordan 2012-10-02

In *The Son of Neptune*, Percy, Hazel, and Frank met in Camp Jupiter, the Roman equivalent of Camp Halfblood, and traveled to the land beyond the gods to complete a dangerous quest. The third book in the *Heroes of Olympus* series will unite them with Jason, Piper, and Leo. But they number only six—who will complete the Prophecy of Seven? The Greek and Roman demigods will have to cooperate in order to defeat the giants released by the Earth Mother, Gaea. Then they will have to sail together to the ancient land to find the Doors of Death. What exactly are the Doors of Death? Much of the prophecy remains a mystery. . . . With old friends and new friends joining forces, a marvelous ship, fearsome foes, and an exotic setting, *The Mark of Athena* promises to be another unforgettable adventure by master storyteller Rick Riordan.

The God of Small Things - Arundhati Roy
2011-07-27

The beloved debut novel about an affluent Indian family forever changed by one fateful day in 1969, from the author of *The Ministry of Utmost Happiness* **NEW YORK TIMES BESTSELLER • MAN BOOKER PRIZE WINNER** Compared favorably to the works of Faulkner and Dickens, Arundhati Roy's modern classic is equal parts powerful family saga, forbidden love story, and piercing political drama. The seven-year-old twins Estha and Rahel see their world shaken irrevocably by the arrival of their beautiful young cousin, Sophie. It is an event that will lead

to an illicit liaison and tragedies accidental and intentional, exposing “big things [that] lurk unsaid” in a country drifting dangerously toward unrest. Lush, lyrical, and unnerving, *The God of Small Things* is an award-winning landmark that started for its author an esteemed career of fiction and political commentary that continues unabated.

Search parties head out and promptly get lost themselves. And then Tuna's dad shows up with a gun . . . It's anyone's guess who will actually survive Expedition Survival. . . "Only in Florida—and in the fiction of its native son Carl Hiaasen—does a dead iguana fall from a palm tree and kill somebody." —New York Post

Mirrors - Eduardo Galeano 2009-05-26
Throughout his career, Eduardo Galeano has turned our understanding of history and reality on its head. Isabelle Allende said his works "invade the reader's mind, to persuade him or her to surrender to the charm of his writing and power of his idealism." *Mirrors*, Galeano's most ambitious project since *Memory of Fire*, is an unofficial history of the world seen through history's unseen, unheard, and forgotten. As Galeano notes: "Official history has it that Vasco Núñez de Balboa was the first man to see, from a summit in Panama, the two oceans at once. Were the people who lived there blind?"
Recalling the lives of artists, writers, gods, and visionaries, from the Garden of Eden to twenty-first-century New York, of the black slaves who built the White House and the women erased by men's fears, and told in hundreds of

kaleidoscopic vignettes, *Mirrors* is a magic mosaic of our humanity.

CUCKOO'S EGG - Clifford Stoll 2012-05-23

Before the Internet became widely known as a global tool for terrorists, one perceptive U.S. citizen recognized its ominous potential. Armed with clear evidence of computer espionage, he began a highly personal quest to expose a hidden network of spies that threatened national security. But would the authorities back him up? Cliff Stoll's dramatic firsthand account is "a computer-age detective story, instantly

fascinating [and] astonishingly gripping" (Smithsonian). Cliff Stoll was an astronomer turned systems manager at Lawrence Berkeley Lab when a 75-cent accounting error alerted him to the presence of an unauthorized user on his system. The hacker's code name was "Hunter"—a mysterious invader who managed to break into U.S. computer systems and steal sensitive military and security information. Stoll began a one-man hunt of his own: spying on the spy. It was a dangerous game of deception, broken codes, satellites, and missile bases—a one-man sting operation that finally gained the attention of the CIA . . . and ultimately trapped an international spy ring fueled by cash, cocaine, and the KGB.

Feral Cities - Tristan Donovan 2015-04-01

"[An] entertaining jaunt through city wildlife."
—Kirkus Reviews We tend to think of cities as a realm apart, somehow separate from nature, but nothing could be further from the truth. In *Feral Cities*, Tristan Donovan digs below the urban gloss to uncover the wild creatures that we share our streets and homes with, and profiles the brave and fascinating people who try to manage them. Along the way readers will meet the wall-eating snails that are invading Miami, the boars that roam Berlin, and the monkey gangs of Cape Town. From feral chickens and carpet-roaming bugs to coyotes hanging out in sandwich shops and birds crashing into skyscrapers, *Feral Cities* takes readers on a journey through streets and neighborhoods that are far more alive than we often realize, shows how animals are adjusting to urban living, and asks what messages the wildlife in our metropolises have for us. Tristan Donovan is the author of two widely praised books, *Replay: The History of Video Games* and *Fizz: How Soda Shook Up the World*. Things Seen from Above - Shelley Pearsall
2021-02-09

A shift in perspective can change everything. This brilliant novel from the author of *The Seventh Most Important Thing* celebrates kids who see the world a little differently. April is looking for an escape from the sixth-grade lunch hour, which has become a social-scene nightmare, so she signs up to be a "buddy bench monitor" for the fourth graders' recess. Joey Byrd is a boy on the fringes, who wanders the playground alone, dragging his foot through the dirt. But over time, April realizes that Joey isn't just making random circles. When you look at his designs from above, a story emerges... Joey's "bird's eye" drawings reveal what he observes and thinks about every day. Told in alternating viewpoints--April's in text and Joey's mostly in art--the story gives the "whole picture" of what happens as these two outsiders find their rightful places.
