Imray - David Edwards-May 2019-01-17

Scale: 1:1 500 000 David Edwards-May First published in the 1950s under the editorship of EE Benest and later Konrad Nussbaum, the Imray map of the French inland waterway system has always been regarded as the essential reference for planning a visit to France by boat. It is now superseded by this completely recompiled and redrawn edition by David Edwards-May, the leading authority on World canals and waterways. The new cartography includes improved detail and presents essential information concerning distances and dimensions with a greater clarity than on previous editions. The map continues to cover the Low Countries and the western part of Germany and now also includes large scale insets of the Paris region and northeast France. The scale remains at 1:1 500 000

Earning the Rockies - Robert D. Kaplan 2017-11-07

An incisive portrait of the American landscape that shows how geography continues to determine America's role in the world Book Club Pick for Now Read This, from PBS NewsHour and The New York Times • "There is more insight here into the Age of Trump than in bushels of political-horse-race journalism."—The New York Times Book Review (Editors' Choice) At a time when there is little consensus about who we are and what we should be doing with our power overseas, a return to the elemental truths of the American landscape is urgently needed. In *Earning the Rockies*, New York Times bestselling author Robert D. Kaplan undertakes a cross-country journey, traversing a rich and varied landscape that still remains the primary source of American power. Traveling west, in the same direction as the pioneers, Kaplan witnesses both prosperity and decline, and reexamines the history of westward expansion in a new light: as a story not just of genocide and individualism but also of communalism and a respect for the limits of a water-starved terrain. Concluding at the edge of the Pacific Ocean with a gripping description of an anarchic world, *Earning the Rockies* shows how America's foreign policy response ought to be rooted in its own geographical situation. Praise for *Earning the Rockies* "Unflinchingly honest . . . a lens-changing vision of America's role in the world . . . a jewel of a book that lights the path ahead."—Secretary of Defense James Mattis "A sui generis writer . . . America's East Coast establishment has only one Robert Kaplan, someone as fluently knowledgeable about the Balkans, Iraq, Central Asia and West Africa as he is about Ohio and Wyoming."—Financial Times "Kaplan has pursued stories in places as remote as Yemen and Outer Mongolia. In *Earning the Rockies*, he visits a place almost as remote to many Americans: these United States. . . . The author's point is a good one: America is formed, in part, by a geographic setting that is both sanctuary and watchtower."—The Wall Street Journal "A brilliant reminder of the impact of America's geography on its strategy. . . . Kaplan's latest contribution should be required reading."—Henry A. Kissinger "A text both evocative and provocative for readers who like to think . . . In his final sections, Kaplan discusses in scholarly but accessible detail the significant role that America has played and must play in this shuddering world."—Kirkus Reviews

Inland Waterways of France Volume 3 - David Edwards-May 2021-12-31

Ionian, Greece - Lucinda Heikell 2020-05-01

Do you only have a week to spare? For those of us who are time poor but who want to seize the moment, either on our own boat or on a charter, it's reassuring to know that there are plenty of cruising hubs from where we can enjoy some of the best of the region in only a few days. Imray Pocket Pilots are a new series of affordable PDF books, companions to the Yachting Monthly series A Week Afloat. They visit some ideal destinations and suggest a one week itinerary, and include expanded sailing directions for cruising each area based on printed Imray pilot books. Familiar Imray chartlets cover marina detail and approaches, and photos add both information and colour to the downloads. This Imray

Pocket Pilot covers The Ionian, Greece.

The RCC Pilotage Foundation Atlantic Crossing Guide - Jane Russell 2013-02-15

The Atlantic Crossing Guide is a complete reference for anyone planning an Atlantic passage in their own boat. It is described by Yachting World magazine as 'An invaluable mixture of planning manual and pilot book, and an essential investment if you're planning to cross the Pond.' From ideal timing, suitable boats, routes, methods of communication and provisioning to sources of regional weather information, hurricane tracks, currents and tides, departure and arrival ports, facilities on arrival and documentation required, the comprehensiveness of this new edition will both inspire dreamers and instill confidence in those about to depart. This is the definitive reference on the subject, relied upon by many thousands of cruisers crossing the Atlantic in both directions and packed with all the information they need. 'I cannot imagine setting sail without it' - SAIL magazine (US)

Inland Waterways of Germany - Barry Sheffield 2016-09-23

This is the only comprehensive directory to the entire navigable German waterway system available in English. After a general introduction to the area, details of German formalities and cruising notes, each river and canal is described in detail and supported by a table of distances indicating locks, bridges, mooring places and other features. The text is supported by small scale mapping and colour photographs. Barry Sheffield's first edition of this book was published in 1995 shortly after the reunification of Germany. He had spent several years exploring the navigable waterways and, with the assistance of Konrad Nussbaum, the acknowledged expert on German rivers and canals, he produced this authoritative work on the subject. Barry Sheffield died some years ago and this revised edition has been produced as a result of many contributions from users of the original book. Catherine and John Best have completely recompiled many of the original tables, brought information up to date and supplied excellent new photographs. Robert Thomas has contributed a more general update, in particular to the introductory sections.

Cruising Guide to Southeast Asia: South China Sea, Philippines, Gulf of Thailand to Singapore - Stephen Davies 1998

Covering the North Sea and Baltic coasts of Germany and Denmark, this guide is a companion to Brian Navin's North Sea Passage Pilot and Cruising Guide to the Netherlands. It is organised on the basis of carefully selected routes which pick up most of the

Rick Stein's French Odyssey - Rick Stein 2013-01-25

Rick Stein embarks on a journey of gastronomic discovery from Padstow to Bordeaux and then to Marseille. The book is divided into a diary section and recipe chapters. Featuring starters, light lunches, main courses and desserts, the recipes include authentic versions of French classics - Vichyssoise, Pissaladiere, Bouillabasse, Cassoulet and Tarte Tatin - as well as new takes on traditional ingredients: Seared Foie Gras on Sweetcorn Pancakes, Fillets of John Dory with Cucumber and Noilly Prat, Rabbit with Agen Prunes and Polenta and Prune and Almond Tart with Armagnac. Fully illustrated with beautiful food photography by James Murphy and landscape photography by Craig Easton, Rick Stein's French Odyssey is both a souvenir of an unusual and idyllic journey through rural France and an inspiring collection of classic and original recipes. The good news is that the French rural gastronomic dream is

still a reality, and the best of its food can be reproduced at home. *Southeast Asia Cruising Guide, Volume II* - Stephen Davies 2008-01-01 This is the first of the two-volume set of the Southeast Asia Cruising Guide to reach a second edition. It is the only guide that covers the entire length and breadth of a region frequently visited by round-the-world sailors, many of whom leave Australia to head west. This edition concentrates on the most frequented routes and includes the most popular stops. There are hundreds of possible anchorages, the most popular of which are usefully summarised in tables. Introductory sections cover planning and the last part of the book deals with more general topics including advice on provisioning and the problems that are often faced by cruisers. Stephen Morgan and Elaine Davies first arrived in the region over 30 years ago. They work in Hong Kong; Stephen Davies as Director of the Hong Kong Maritime Museum and Elaine Morgan as a writer and editor. While this pilot is aimed at yachtsmen and indeed was surveyed from the Davies/Morgan yacht, it is just as relevant to the commercial or military mariner. The part of the world described in this work is one of the most interesting on our planet. Culturally, scenically, climatically and commercially; it has everything. This excellent book - now in its second edition, describes it all very enticingly. Set to the usual high standard of the Imray pilots that precede it, this one is spiced up by the wit and anecdotes the authors are so good at.

Firth of Clyde - Clyde Cruising Club 2020-04-24

Part of the Clyde Cruising Club's Sailing Directions and Anchorages series, Firth of Clyde extends beyond its titled area to the coast of Northern Ireland (Rathlin Island to Belfast Lough) and on the Scottish side southwards from Stranraer to Portpatrick and beyond to the Solway Firth and Cumbria. Firth of Clyde covers everything from the busy waters of the Firth of Clyde and River Clyde to the more remote areas of the wider estuary and connected lochs, including the protected and beautiful Kyles of Bute and Loch Riddon, Loch Fyne and the Crinan Canal. Coverage then extends west and south to encompass North Channel and Solway Firth. This new edition, updated by Geoff Crowley, continues the long-respected legacy of CCC publications for cruising sailors. The North Channel section has been extended to include details for Belfast itself. New photographs throughout illustrate the text and help orientate the navigator. Details on plans have been updated with reference to the new Imray 2900 Firth of Clyde chart pack for the area. References to Bob Bradfield's useful Antares large scale charts are also included. Whether you are a local sailor or a first-time cruising visitor, Firth of Clyde is an essential companion in these waters. Updates and corrections are available via the Clyde Cruising Club website.

Italian Waters Pilot - Rod Heikell 2019-09-16

Italian Waters Pilot is the only guide for yachtsmen in English that covers the coasts of the Tyrrhenian Sea, Sardinia, Sicily, the Ionian 'heel' and Malta in one volume. This new tenth edition builds on first-hand research by the authors through the Tuscan islands, along the Tyrrhenian and Ionian coasts, to Sardinia and Sicily, Malta and Gozo. Numerous revisions have been made throughout, with the text, plans and photographs undergoing a complete overhaul. Care has been taken to research the details of marina developments. Where it has been available information is given on proposed changes and extensions to yacht harbours. Marine reserves are now an important feature of the coasts and off-lying islands, particularly in Sardinia and Sicily, and this edition provides updated details of the latest regulations. Climate change and extreme weather events are becoming a major issue and this edition includes a section on the how climate change might affect sailing in the Mediterranean. Italian Waters Pilot is the last word on the area for yachts cruising there and on their way between western and eastern

parts of the Mediterranean.

The Cruising Almanac 2023 - Cruising Association 2022-09-07

The Cruising Almanac remains the perfect onboard companion for cruising sailors. This 2023 edition is introduced by Mike Golding, OBE, who reminds us that "The Cruising Almanac provides that 'hard copy' information which today's electronic navigators so frequently lack." Compiled annually by a team of Cruising Association editors and Imray, the Almanac encompasses Northwest Europe from the Shetlands to Gibraltar and from the Baltic to the west coast of Ireland. This 2023 edition includes some changes to the presentation of essential information to make it more readily accessible. The Netherlands section has been revised so that the format conforms to the other regions. A new chapter for Northwest Spain has been created to allow more extensive overall coverage of the Spanish and Portuguese Atlantic coasts. Updating of the Almanac continues throughout the year, with corrections published monthly on the Cruising Association website Almanac corrections page. <https://www.theca.org.uk/almanac/corrections>

Ionian - Rod Heikell 2007

Like its companions West Aegean and East Aegean, Ionian contains detailed information on many of the smaller harbours and anchorages that cannot be adequately covered in Rod Heikell's major guides Greek Waters Pilot and Turkish Waters and Cyprus Pilot. These handy-sized cruising companions are ideal for charterers and flotilla sailors who are in the area for a short time but to make the best of it need all the essential background information on places to visit, history, food and traveling in Greece at their fingertips. Ionian covers the coasts and islands south from Corfu and has been extended for this sixth edition southwards to Finakounda and eastwards to Mesolongion. It has been fully revised with new and updated plans and photographs and major changes have been made to the layout to improve its use as a practical guide. Continuously updated over nearly 20 years from his own unrivalled research Rod Heikell's Ionian is the original and trusted on-board reference.

South Biscay - RCC Pilotage Foundation 2012-01-01

This seventh edition of the RCC's South Biscay pilot covers the coasts of

France and Spain from the Gironde to La Coruna in Galicia. This edition has been completely revised and updated. In line with other recent RCC editions, waypoints have been introduced to assist navigation. With new photographs by the author and up-to-date aerials by Patrick Roach, South Biscay is the complete reference for yachts visiting the flay sandy coasts of southwest France and the long Biscay coast of Spain.

Cruising Guide to the Netherlands - Brian Navin 2010-01-01

This is the fifth edition of 'Cruising Guide to the Netherlands' which was first published in 1988. It is regarded as the authoritative companion for anyone cruising the Netherlands using fixed mast routes. Brian Navin's guide is based on popular selected routes which offer an opportunity to visit most of the regions of the Netherlands from the estuary of the Schelde up to the IJsselmeer and Waddensee. This new edition follows the same pattern, and includes corrections and updates that have accumulated since the fourth edition was published. This includes amended harbour plans and new photographs taken by the author. 'Cruising Guide to the Netherlands' is one of a well established series of guides from Brian Navin.

Brazil Cruising Guide - Michel Balette 2019-01-01

Originally published in France, this cruising guide to Brazil has been produced to the same high standards as Imray's major pilot books. Over 250 harbours and anchorages are described and illustrated in full colour with charts and photographs. 2010 edition.

Through the French Canals - David Jefferson 2021-04-15

Through the French Canals has probably tempted more people to explore the beautiful waterways of France than any other book. First published in 1970, it's been the key authoritative title on cruising the French canals ever since. The revised new edition is the essential comprehensive planning guide for anyone wanting to cruise through the French waterways or take their boat from the English Channel through to the Mediterranean via the inland route. It includes: over 50 routes fully described and illustrated, with positions of locks, towns and villages through routes from the English Channel and Atlantic to the Mediterranean, plus distances, and assessment of suitable boats for the canals. It also provides dimensions of locks and operating times, details of bridge heights, canal depths, fuelling points, waterway signals, a guide to the cost of living, shopping and stores, sources of weather information, haltes for overnight stops, and ports de plaisance. As well as new photography, the new edition is updated throughout with new information on local facilities, new haltes and ports de plaisance, new VNF License fees, revisions to cruise hire companies, updated references to holding tanks, the availability of diesel and costs of cruising and much more.

Bibliography of Nautical Books - Alan Obin 2000-02

Mediterranean Cruising Handbook - Rod Heikell 2004-07-01

Imray's established 2-year almanac provides data for all the coasts and islands of the Mediterranean. Complete coverage for all the Mediterranean countries from Gibraltar clockwise to Morocco and the Atlantic islands. 424 pages in full color. Over 500 plans of key harbours. Full lists of radio weather and safety services. Complete list of major lights. Gibraltar tide tables.

Inland Waterways of Belgium - Jacqueline Jones 2005-01-01

There has not been a guide in English to the Inland Waterways of Belgium since E E Benest's handbook went out of print in the early 1960's. Jacqueline Jones' new guide provides detailed coverage for

anyone interested in this under-rated waterway network. It is a fascinating cruising area in its own right, with contrasting canals and navigable rivers that thread their way across both the lowlands of Flanders and the massif of the Ardennes. The Belgian waterways link Northern France with the Netherlands and Germany and this work will be essential for boats crossing borders. Jacqueline Jones's new waterway-by-waterway guide provides all the essential information for navigation, as well as details about things to do and places to see in Belgium's historic cities. Fully illustrated with clear maps and the author's photography, this book is a must for anyone cruising Belgium or en-route to the French or Dutch canals. This book comes with a folded map of the Belgian Waterways System.

From Sea to Sea - L. T. C. Rolt 1994-11-30

Pearson's Canal Companion - Michael Pearson 2013-07-26

This is an essential guide for boaters, walkers, cyclists and armchair travellers to the Oxford, Grand Union and Upper Thames canals.

Norie's Nautical Tables - John William Norie 2007-01-01

This famous set of mathematical tables was first published in 1803. It has been a bestseller ever since, and despite developments in electronic navigation it remains an essential requirement for anyone learning and practising astro-navigation. Last updated in 1994, the editor, George Blance, has worked for some time on the modernisation of all the tables for this major new edition. New tables have been included and obsolete ones deleted to conform with the changing techniques of navigation, with the aim of improving the accuracy of the calculated position and reducing the tedium of the calculation. All the tables required for coastal and deep sea navigation are included. A simple uniform method of interpolation for all the trigonometrical tables is used. Certain tables and data are also included which are not readily available on board ship or are only used in the examination room. The section 'Seaports of the World' has also been extensively updated and restructured with several hundred additional ports. The ports are listed geographically in the following order from Arctic Russia, Scandinavia, the Baltic Sea, the Atlantic coast of Europe, the Mediterranean Sea, West Africa, East Africa, Arabia, the Persian Gulf, the Indian sub-continent, the Far East, Australasia, the west coast of North and South America and finally the east coast of North and South America. At the back of the section is an index of the seaports.

Cruising Guide to the Netherlands - Brian Navin

This is the fifth edition of 'Cruising Guide to the Netherlands' which was first published in 1988. It is regarded as the authoritative companion for anyone cruising the Netherlands using fixed mast routes. Brian Navin's guide is based on popular selected routes which offer an opportunity to visit most of the regions of the Netherlands from the estuary of the Schelde up to the IJsselmeer and Waddensee. This new edition follows the same pattern, and includes corrections and updates that have accumulated since the fourth edition was published. Inland Waterways of the Netherlands - Louise Busby 2016-05-20

With 6,000km of navigable waterways, the Netherlands offers one of the most extensive yet compact cruising grounds in Europe. This book is a user's guide to the whole network, covering all the mast-up routes and excluding only those waterways which offer less than 3.5m bridge height. Navigational details are provided for each waterway, comprising dimensions and obstacles to be expected, including service arrangements for bridges and locks. This is followed by details of over 300 stopping places across all 12 provinces; some which are large or popular harbours, and others which are well off the beaten track. Comments on the significant features are expanded for nearly 100 'principal venues' where more details on things to do and see are provided, as well as information on practical facilities ashore and the authors' selective and subjective restaurant tips! The book is designed to be of interest to all crew members, not just the skipper or navigator, whether its to establish how to approach a place, or to discover what to do or see of interest on arrival. Easy to browse, the book's illustrations have been selected to give a flavour of this water-loving country as well as to prepare the visiting yachtsman, whether under power or sail. This second edition has been updated with amendments to the text and maps. There are also many new photos by the authors. Louise Busby's interest in boating has led to commissions for Motor Boats Monthly as well as the Cruising Association's magazine. She is a former CA regional Almanac editor for the Netherlands and Belgium. David Broad is a detailed journal writer

and log keeper, many of David's notes and sketches have been used in the compilation of this book. He is a Council member of the Cruising Association and the Chairman of the Broom Owners Club. A website, which is a useful annexe to the book, is kept up to date with details of changes to the waterways along with useful links to further information. For further information see www.inlandwaterwaysofthenetherlands.com
Cuba - Nigel Calder 1999
'Cuba: A Cruising Guide' is an indispensable guide for anyone planning a cruise in this area. In researching this guide Nigel Calder left no stone

unturned. His meticulous attention to detail, which has made his other books international bestsellers, shows on every page. This new edition contains a large number of revisions, an updated introductory section and the inclusion of colour plates. There are almost 200 sketch plans with details of waypoints on every one. Nigel Calder is well known as an expert on Cuba, he has authored various textbooks on boat maintenance and contributes frequently to the yachting press.
