**Flat Broke with Two Goats** - Jennifer McGaha 2018-01-23

When life gets your goat, bring in the herd Jennifer McGaha never expected to own a goat named Merle. Or to be setting Merle up on dates and naming his doeling Merlene. She didn't expect to be buying organic

yogurt for her chickens. She never thought she would be pulling camouflage carpet off her ceiling or rescuing opossums from her barn and calling it "date night." Most importantly, Jennifer never thought she would only have \$4.57 in her bank account. When Jennifer discovered that she and her husband owed back taxes—a lot of back taxes—her world changed. Now desperate to save money, they foreclosed on their beloved suburban home and moved their family to a one-hundred-year-old cabin in a North Carolina holler. Soon enough, Jennifer's life began to more closely resemble her Appalachian ancestors than her upper-middle-class upbringing. But what started as a last-ditch effort to settle debts became a journey that revealed both the joys and challenges of living close to the land. Told with bold wit, unflinching honesty, and a firm foot in the traditions of Appalachia, *Flat Broke with Two Goats* blends stories of homesteading with the journey of two people rediscovering the true meaning of home.

**Backyard Farming on an Acre (More or Less)** - Angela England 2012-12-04

As food prices continue to rise, more and more people have discovered that they can create their own food supply, right on their own property, and at a fraction of the price of conventional farm food that's been shipped to their local grocery from locations unknown. By raising and harvesting their own fruits, vegetables, chickens, bees, milk-bearing animals, and more, people are growing locally, sustainably, and at a fraction of the cost. However, poor planning for needs, proper use of available space, and a lack of preparedness for preserving or selling the harvest can quickly lead to wasted time and sweat. *Backyard Farming on an Acre (More or Less)* is written by people who have planned and run a successful small-scale backyard farm. The authors guide readers through the essentials of planning a small-scale farm from a 1/4 acre all the way up to an acre and beyond. Readers will learn how to decide how large (or small) their farm should be, what they should plant or raise based on their individual wants and needs (and available space), and how they can prevent their efforts from being wasted. Proven, sustainable techniques will be presented to readers so they can yield the maximum benefit of their harvest through proven best practices. Readers will also learn how to raise small animals such as chickens and goats for milk, eggs, and meat, and will learn the critical practices for successfully parenting bees, growing fruit trees, and much more.

**Goat Milk Soapmaking** - Amanda Aaron 2017-09

Soapmaking is a wonderful hobby that combines both science and art. No matter your reason for jumping into the craft of soapmaking, one thing is for certain...your skin will thank you! What we put ON our bodies is just as important as what we put IN our bodies. When you make your own soap, you can control what you put on your body by choosing skin loving oils and butters such as olive oil and shea butter, beneficial additives such as herbs and clays and natural essential oils such as lavender and tea tree that you can mix and combine to create powerful aromas. Many people with skin conditions, such as eczema, or other sensitivities do well when using gently formulated handmade soap. Many soap makers begin their soapmaking journey to help relieve their skin condition or a family member's skin condition. After reading this book you'll be able to make decadent goat milk soap for your family and friends. Goat Milk Soapmaking includes: Full color, step-by-step Instructions for making soap using any type of milk. Goat milk is the most popular but you can use these directions for making camel milk soap, cow milk soap or even a vegan milk soap such as almond milk soap. Helpful charts explaining oil properties/fatty acid profiles and additives. Essential oil blends to get you started with choosing how to scent your goat milk soap. 24 natural goat milk soap recipes with essential oil blends for scent and natural colorants and additives to make each unique. Helpful resources including common soapmaking terms, abbreviations and a supplier list.

**Soap Making 101** - P. Karn 2015-02-07

**The Art and Craft of Handmade Soap** As an essential resource for soap-making, the Art and Craft of Handmade Soap covers all the essential information that both connoisseur and seasoned soap-makers can take advantage of. The Art and Craft of Handmade Soap was written and produced out of love for making homemade soaps. It traces back the history of soap, from the legend of soap in Mount Sapo to the rise of today's commercially-made soap. However, the book's contents are devoted towards educating a new soap-maker and filling information for the seasoned one. The Art and Craft of Handmade soap details the use of different soap making processes - pour-and-melt, hot processes and cold processes, along with each process' strength and weaknesses.

Furthermore, the book also provides insider information on how to infuse handmade soaps with oils and essences, choosing ingredients for a rich, creamy lather, as well as expert tips on cutting, curing and storing of handmade soaps. Providing straightforward step-by-step instructions, required tools and equipment and safety tips in making personal soaps, this book provides a comprehensive introduction for the uninitiated soap-makers. Making your own soap in today's world does not just make frugal and economic sense. Beyond anything, it is practice too often overshadowed by large soap industries, diminishing its impact and significance that were once highly regarded. The Art and Craft of Handmade soap takes readers to the centuries when soap was regarded a luxury and people placed great emphasis on its composition. Making your own soap affords you to choose your own ingredients, resulting to the kind of fragrance, lather and feel with your own personal magic. Personal and handmade soap-making is like being able to concoct your own bar of magical essence and fragrances - a true and one-of-a-kind luxury you do not get to experience from store-bought soaps. This book will help jumpstart your endeavor in weaving that kind of magic.

**MILK SOAPMAKING** - Anne L. Watson 2016-12-27

SPECIAL NOTE! -- ANNE WILL PERSONALLY ANSWER ANY QUESTION OF YOURS AFTER READING THIS BOOK. ASK ON HER WEB SITE, AND YOU'LL NORMALLY HEAR BACK WITHIN HOURS! Do you love the feel of milk soaps but shy away from the cost? Are you looking for a special kind of gift you can make yourself? Or do you already make soap and want to try something new? Anne L. Watson's "Smart Soapmaking" was the first book based on modern techniques that eliminate the drudgery and guesswork from home soapmaking. Now, by popular demand, she continues her soapmaking revolution with the first practical, comprehensive book on making milk soap from scratch. Experience the rich, soothing, luxurious feel of milk soap you've made yourself. Your skin will thank you for it. // Anne L. Watson is the first author to have introduced modern techniques of home soapmaking and lotionmaking to book readers. She has made soap under the company name Soap Tree, and before her retirement from professional life, she was a historic preservation architecture consultant. Anne and her husband, Aaron Shepard, live in Friday Harbor, Washington. // "Beautiful in its simplicity. . . . A definitive book for experienced as well as beginning milk soapers." -- Rebekah Bailey, *The Original Soap Dish*, South Whitley, Indiana "An

easy to read and understand book that will take the mystery out of milk-based soapmaking and debunk some of the myths surrounding it. It contains some great basic formulas to get you started making milk soaps of any kind, and fuel to let your imagination run wild when you are ready to formulate your own creations. A good source of information for new soapmakers, and also suitable for more experienced soapmakers who want to start making milk soaps but thought it would be too difficult." -- Amanda Guilfoyle, *Bodelicious Bath & Body Products*, Ipswich, Queensland, Australia "As always, Anne is up to her usual excellence. This book demystifies milk soapmaking so everyone can have the luxury of a truly decadent bar of soap \*easily\*. LOVE this book!!!" -- Susan Kennedy, *Oregon Trail Soaps*, Rogue River, Oregon "If you have an interest in milk soaps, this is the book for you. . . . Debunks much of the popular wisdom that may have discouraged some soapmakers." -- Kevin M. Dunn, Author, "Scientific Soapmaking" and "Caveman Chemistry" "As uber-soapmaker Anne L. Watson demonstrates, milk soaps made properly are [rightfully] well-known for a quality of luxurious buttery softness that is undeniable. . . . Anne once again acquits herself ably as a scholar of the suds and a natural communicator." -- Wishing Willow (blog) "Full of information that milk soapers, whether novice or experienced, could use to make better milk soaps. Anne writes in a conversational style that made me feel as though I were sitting down with her in her kitchen. . . . Anne details what seems to be everything there is to know about the subject. Rather than simply offering her opinions and favorite practices, Anne did extensive testing and experimenting, learning how to make the best milk soap bars that could be made. Soapmakers will be impressed with the amount and quality of Anne's research and observations. . . . That leaves the question: Can a neophyte make good cold-process milk soap? I now say yes, with the caveat they have 'Milk Soapmaking' in hand." -- Beth Byrne, "The Saponifier," Sept.-Oct. 2010

**Ecotrifty** - Deborah Niemann 2012-10-01

A guide to saving a fortune while saving the Earth, from the author of *Homegrown & Handmade*. Use it up, wear it out, make it do, or do without. Our grandmothers knew the importance of responsible, thrifty choices. But somewhere along the way we lost our way and succumbed to the belief that we can get everything for next to nothing, have it shipped halfway around the world and then—more often than not—just throw it away. This consumer binge is taking its toll. Diet and lifestyle-related illnesses are epidemic, our environment is awash in a sea of plastic, our climate is changing, and the cost of everything is skyrocketing with the price of oil. Are we doomed? No. We can make greener, healthier choices, and we can do it while saving money. Where to start? *Ecotrifty* is packed with simple, practical ideas and recipes to help you: • Make homemade products for cleaning and skin care • Grow your own food and cook more from scratch • Raise your family without lowering your standards A must-read for anyone who has ever wanted to live a greener life but thought that it would be too expensive, time-consuming, or difficult, this handy, complete guide will show you how small changes can have a huge environmental impact and save you thousands of dollars, all while improving your quality of life. "I support and endorse this wonderful book, 100%!" —Ed Begley, Jr., actor and environmentalist "Her advice does not come across as self-righteous or preachy, but more like insider tips from an experienced do-it-yourselfer." —Publishers Weekly

*The Best Natural Homemade Soaps* - Mar Gomez 2014-09-11

Luxurious, soothing, moisturizing olive oil-based soaps made at home easily and economically. There are only three essential ingredients required to create these soaps: water, olive oil, and caustic soda. Olive oil is the primary ingredient enjoying the highest rating as its properties are well known throughout the world. Olive oil is the most beneficial oil to your health, and in cosmetics it has been used since ancient times for its virtues for glowing hair and skin. Rich in vitamins, minerals and proteins it has the added benefit of being available virtually everywhere. Once these three key ingredients are in place, there are a number of wonderful extra ingredients that will customize and create a personal soap. These ingredients include beeswax, cocoa butter, clay, kaolin, seaweed, goats milk and egg yolks, and others. Some ingredients will give the soap hardness (beeswax) or softness (honey) or more foam (cocoa butter) for greater cleansing ability. Since using soap is such a sensory experience, there is a comprehensive section on essential oils which create that air of perpetual breeze of a good soap. A

comprehensive section on these essential oils, their history and therapeutic uses provide all the information needed to create the perfect scent. The recipes feature essential oils of the highest purity which are added to the soap right before it is placed in molds. Easy step-by-step preparation techniques produce luxurious soaps such as: Sandalwood Soap, Kiwi Soap, Chocolate Soap, Wheat Germ Soap, Green Tea Soap, Cedar Soap, Echinacea Soap, Lavender Soap, Marshmallow Soap, Lemon Soap, Rose Hip Soap, Marigold Soap, Coconut Soap, Vanilla Soap, Seaweed Soap, Oat Soap, Clay Soap, Mung Bean Soap, After Eight Soap, Beach Sand Soap. This fascinating history of soap and its ingredients with therapeutic recommendations is informative and fun to read. The comprehensive recipes with preparation, utensil and ingredient tips guide the reader to create better-than-store-bought quality soaps made at home.

**Soap Making From Scratch** - April Weatherly 2014-01-23

Natural soap is a great way to keep yourself clean without exposing your skin to harsh chemicals, dyes, and scents. Making that natural soap at home is a great way to ensure that you are getting exactly what you want in your soap. However, not everyone wants to make their own soap. Lye, a caustic chemical used in making soap can be extremely dangerous and frightening for inexperienced soap makers. Luckily there is a way to make natural soap at home without using lye. If you want to learn the secrets of the art then Soap Making from Scratch by April Weatherly is the best book for you to use to get started. Commercial soap is full of chemicals that are hard to pronounce. Chemicals are added in to create lather, add shine, give the soap color and scent, and preserve the bar for longer times. On the other side, natural soaps are made from thing you can both pronounce and understand like goat's milk, olive oil, and your favorite essential oils. April learned that lye that is commonly used in soaps is dangerous. It is poisonous is accidentally swallowed by young

children or pets. It can also cause serious chemical burns if spilled. This is why many people are looking for ways to make natural soaps without lye. Unfortunately, there is no true soap without lye, yet you can skip the lye process by using melt and pour soaps. There are several melt and pour glycerin soap kits that you can use to make your own natural soaps. Learn the trade secrets of making safe soap in Soap Making from Scratch.
