[National Standards & Grade-Level Outcomes for K-12 Physical Education](#) - SHAPE America - Society of Health and Physical Educators 2014-03-13

Focused on physical literacy and measurable outcomes, empowering physical educators to help students meet the Common Core standards, and coming from a recently renamed but longstanding organization intent on shaping a standard of excellence in physical education, National Standards & Grade-Level Outcomes for K-12 Physical Education is all that and much more. Created by SHAPE America — Society of Health and Physical Educators (formerly AAHPERD) — this text unveils the new National Standards for K-12 Physical Education. The standards and text have been retooled to support students' holistic development. This is the third iteration of the National Standards for K-12 Physical Education, and this latest version features two prominent changes: •The term physical literacy underpins the standards. It encompasses the three domains of physical education (psychomotor, cognitive, and affective) and considers not only physical competence and knowledge but also attitudes, motivation, and the social and psychological skills needed for participation. • Grade-level outcomes support the national physical education standards. These measurable outcomes are organized by level (elementary, middle, and high school) and by standard. They provide a bridge between the new standards and K-12 physical education curriculum development and make it easy for teachers to assess and track student progress across grades, resulting in physically literate students. In developing the grade-level outcomes, the authors focus on motor skill competency, student engagement and intrinsic motivation, instructional climate, gender differences, lifetime activity approach, and physical activity. All outcomes are written to align with the standards and with the intent of fostering lifelong physical activity. National Standards & Grade-Level Outcomes for K-12 Physical Education presents the standards and outcomes in ways that will help preservice teachers and current practitioners plan curricula, units, lessons, and tasks. The text also • empowers physical educators to help students meet the Common Core standards; • allows teachers to see the new standards and the scope and sequence for outcomes for all grade levels at a glance in a colorful, easy-to-read format; and • provides administrators, parents, and policy makers with a framework for understanding what students should know and be able to do as a result of their physical education instruction. The result is a text that teachers can confidently use in creating and enhancing high-quality programs that prepare students to be physically literate and active their whole lives.

Coaching Masters Athletes - Bettina Callary 2021-04-11

This book is a foundational resource for all coaches and student coaches who are, or who plan to be, working with Masters athletes. This athletic cohort typically includes adults over the age of 35 years who are registered for sport programs/events, and who invest in training to improve themselves for competitions that range from recreational to championship caliber. As the boom in Masters sport continues worldwide, coaches are increasingly tasked with the development and support of adults' quality sport experiences, and the implementation of strategies to foster skill acquisition and to facilitate their pursuit of competitive goals. This book presents what is different about coaching Masters athletes and prompts coaches to expand their scope of practice beyond traditional knowledge associated with youth or younger adult cohorts. It is essential for coaches to understand the psychological and social considerations that are unique to coaching adult sports-persons and Masters athletes, and that can be adapted to adults whose training and preparation for competition is quite varied. *Coaching Masters Athletes: Advancing Research and Practice in Adult Sport* explores the research and practice specific to planning to coach Masters athletes and divulges what is known about distinctive considerations for delivering coaching interventions to this cohort, expanding on coaches' abilities to influence adults' personal development, as well as their own coach education through Masters Sport. Readers and students of *Coaching, Physical Activity, Health Psychology, Sport Leadership and Exercises Science* will gain valuable applied perspectives grounded in best practice research on how to coach one of the fastest-growing sporting cohorts, to promote quality adult sport, and to keep adult sports-persons engaged and active as they age.

Only four return. Jane Harper, the New York Times bestselling author of *The Dry*, asks: How well do you really know the people you work with? When five colleagues are forced to go on a corporate retreat in the wilderness, they reluctantly pick up their backpacks and start walking down the muddy path. But one of the women doesn't come out of the woods. And each of her companions tells a slightly different story about what happened. Federal Police Agent Aaron Falk has a keen interest in the whereabouts of the missing hiker. In an investigation that takes him deep into isolated forest, Falk discovers secrets lurking in the mountains, and a tangled web of personal and professional friendship, suspicion, and betrayal among the hikers. But did that lead to murder? "Force of Nature bristles with wit; it crackles with suspense; it radiates atmosphere. An astonishing book from an astonishing writer." —A.J. Finn, author of *The Woman in the Window* Select praise for *The Dry*: "One of the most stunning debuts I've ever read. Every word is near perfect. Read it!"
