Manager's Guide to Excellence in Public Relations and Communication Management - David M. Dozier 2013-10-18

This book reports findings of a three-nation study of public relations and communication management sponsored by the International Association of Business Communicators (IABC)

Research Foundation. The Excellence Study provides communication managers and public relations practitioners with information critical to their own professional growth, and supplies organizations with tools that help them communicate more effectively and build beneficial relations with key publics.

Communication excellence is a powerful idea of sweeping scope that applies to all organizations - large or small -- that need to communicate effectively with publics on whom the organization's survival and growth depend. The essential elements of excellent communication are the same for corporations, not-for-profit organizations, government agencies, and professional/trade associations. And they are applicable on a global basis. The study identifies three spheres of communication excellence. These spheres consider the overall function and role of communication in organizations, and define the organization of this book. They are: * the core or inner sphere of communication excellence -- the knowledge base of the communication department, * the shared expectations of top communicators and senior managers about the function and role of communication, and * the organization's culture -- the larger context that either nurtures or impedes communication excellence. This text also examines communication excellence as demonstrated in specific programs developed for specific publics.

Fall in Love, Have Children, Stay Put, Save the Planet, Be Happy - Frank Schaeffer
2021-11-02

A post-coronavirus evolution-based how-to for putting living ahead of work. Bestselling author Frank Schaeffer offers a passionate political, social, and lifestyle "blueprint" for changes millions of us know are needed to rebalance our work lives with thriving relationships: *Fall in Love, Have Children, Stay Put, Save the Planet, Be Happy*. Even before everything was disrupted by COVID-19 (not to mention by Trump), millions of Americans were already questioning

capitalism's "values." We were already challenging the idea that your job defines you. We already knew something was wrong. Loneliness, frustration, and alienation were already on the rise. Even the most successful of us felt too busy, too preoccupied, and too distracted to enjoy what we intuitively know are life's greatest rewards: vibrant relationships, family life, connection to others, involvement in our community, and the thrilling experience of love. *Fall in Love . . .* builds a well-researched and entertaining bridge to living happier lives and to a better future. It shows us that based on a better understanding of our evolutionary selves, we can thrive in family life and in our work life, too. But to do both joyfully—and at the same time—depends on rediscovering the priority of relationships, connections, community, and love.

Good Strategy/Bad Strategy - Richard Rumelt 2011-06-09

When Richard Rumelt's Good Strategy/Bad Strategy was published in 2011, it immediately struck a chord, calling out as bad strategy the mish-mash of pop culture, motivational slogans and business buzz speak so often and misleadingly masquerading as the real thing. Since then, his original and pragmatic ideas have won fans around the world and continue to help readers to recognise and avoid the elements of bad strategy and adopt good, action-oriented strategies that honestly acknowledge the challenges being faced and offer straightforward approaches to overcoming them. Strategy should not be equated with ambition, leadership, vision or planning; rather, it is coherent action backed by an argument. For Rumelt, the heart of good strategy is insight into the hidden power in any situation, and into an appropriate response - whether launching a new product, fighting a war or putting a man on the moon. Drawing on examples of the good and the bad from across all sectors and all ages, he shows how this insight can be cultivated with a wide variety of tools that lead to better thinking and better strategy, strategy that cuts through the hype and gets results.

The Discipline of Market Leaders - Michael Treacy 2007-03-20

Why is it that Casio can sell a calculator more cheaply than Kellogg's can sell a box of corn flakes? Why can FedEx "absolutely, positively" deliver your package overnight but airlines have trouble keeping track of your bags? What does your company do better than anyone else? What unique value do you provide to your customers? How will you increase that value next year? As customers' demands for the highest quality

products, best services, and lowest prices increase daily, the rules for market leadership are changing. Once powerful companies that haven't gotten the message are faltering, while others, new and old, are thriving. In disarmingly simple and provocative terms, Treacy and Wiersema show what it takes to become a leader in your market, and stay there, in an ever more sophisticated and demanding world.
