Mapping the Mind - Rita Carter 1999

Covers the multiple functions of the complex human brain, providing graphics and simple terminology and sidebars written by experts in the field of brain mapping.

Literacy Learning in the Early Years - Caroline Barratt-Pugh 2020-07-16

Children's early experiences of literacy have a major influence on how they continue to learn as they grow older. Children enter early childhood programs and school with a wealth of knowledge and understandings of literacy. It is critical that early childhood professionals and teachers recognise and build on this learning. *Literacy Learning in the Early Years* offers a practical introduction to literacy issues for early childhood professionals and teachers working with children aged 0-8, in childcare, preschool and school contexts. The authors take a socio-cultural approach to literacy learning, emphasising the importance of understanding the various contexts in which young children are involved in literacy practices. They explore a range of literacy issues that early childhood professionals and teachers are facing in the 21st century. These issues include the role of play in literacy learning, how to use information communication technologies with young children and ways of introducing critical literacy. Literacy is understood broadly and readers are encouraged to explore a range of print and other media with children. With chapters from both Australian and UK authors *Literacy Learning in the Early Years* is an ideal professional reference and student text. a very useful introductory text to literacy development in early childhood. It is clearly written and accessible to the wide range of professionals working with young children as well as to teachers and parents. It will be a valuable text in training at initial and in-service levels on a wide range of courses. Lesley Abbott, Professor of Early Childhood Education, Manchester Metropolitan University this well written, comprehensive book combines many practical examples of learning to do literacy and suggestions for action, and all the while engages the reader with questions and starting points for reflection.

Susan Hill, Associate professor, The Centre for Studies in Literacy, University of South Australia

The Cool Web - Margaret Meek 1978

Eyeseas - Raymond Queneau 2008

"In the United States, Raymond Queneau (1903-1976) is known mainly for his novel *Zazie dans le metro*, which was made into a film by Louis Malle, for *Exercices in Style*, and for being the founder and one of the

most important members of the literary movement known as Oulipo. In France and much of Europe Queneau is known for his prolific and wide ranging writings. During his lifetime some 18 novels, 10 volumes of poetry, 7 volumes of essays, and countless published writings, commentaries, and reviews kept him in public view (and continue to do so today as much of his writing is still in print in France). His reputation as a writer continues to grow with new biographies, critical writings, and anthologies appearing every year. An explorer of linguistics as well as a mathematician, he often combined his love of both subjects such that the essence of his writings resides not in its "content" but in the sounds and the form of the text. He often argued that the real subject of his work is language itself. Because of this many of his novels, and especially his poems, are virtually impossible to translate into English as they are based on spoken versus literary French, puns, street slang, and complex variations of word play and spelling. *Les Ziaux (Eyeseas)* presents a survey of his poems as written from his early Surrealist days of the 1920's through to 1943 and is representative of Queneau's range of poetic voices."--BOOK JACKET.

Life Choices, Life Changes - Dina Glouberman 2004-01-05

Everything we create in life begins as an image in the mind, whether it's a passionate affair or a new business venture. But the power of images goes well beyond illustrating the 'germ of an idea'; used in its full capacity, it has the potential to transform us all. In her bestselling classic *LIFE CHOICES, LIFE CHANGES*, Dr Dina Glouberman explains how each of us can use the incredibly effective practice of imagework as a self-help tool to uncover our own personal vision for changing our life for the better. Her innovative approach synthesises imagery, visualisation and counselling techniques, and provides the practical techniques for understanding where we are now in our life, and how to get to where we want to be. Infinitely applicable to all areas of life - from self-image, relationships and health to work and managing money, it is the perfect guide for anyone wanting to make the best of themselves.
